Mrs. Emma Grigsby Meharg,
Secretary of State,
Austin, Texas.

Dear Mrs. Meharg:-

I herewith hand you House Bill 310 passed by the recent called session of the Legislature, and you are notified that I have vetoed and disapproved the same.

My reason for said action is that the limits of the school district created by this bill have been extended so far that it will be impracticable and wholly inconvenient for the students living in the remote parts of the district to attend school or receive any benefits from the creation of said district.

Therefore said bill is in all things vetoed and disapproved.
