CALHOUN COUNTY ISD PLAINTIFFS' NOTICE OF FILING OF AFFIDAVIT IN SUPPORT OF ATTORNEY'S FEES

The Calhoun County ISD Plaintiffs file this Notice of Filing of Affidavit in Support of Attorney's Fees and respectfully show the following;

1. The Calhoun County ISD Plaintiffs brought suit under Chapter 37 of the TEXAS CIVIL PRACTICES & REMEDIES CODE. Pursuant to Section 37.009, the Court may award the Calhoun County ISD Plaintiffs their costs and reasonable and necessary attorney's fees.

2. The parties have agreed to try the issue of attorney's fees to the bench by submission.

3. In support of their claim for attorney's fees, the Calhoun County ISD Plaintiffs submit the Affidavits of George W. Bramblett and John W. Turner, as Attachments 1 and 2 respectively to this notice.

ACCORDINGLY, the Calhoun County ISD Plaintiffs respectfully request that they be awarded all costs and their reasonable and necessary attorney's fees as established by the Affidavits of George W. Bramblett and John W. Turner. The Calhoun County ISD Plaintiffs further request all other relief to which they may be entitled.

Respectfully submitted,

Haynes and Boone, LLP

AFFIDAVIT OF GEORGE W. BRAMBLETT

STATE OF TEXAS §
§
COUNTY OF DALLAS §

BEFORE ME, the undersigned Notary Public, on this day personally appeared George W. Bramblett, known to me to be the person whose name is subscribed below, who being duly sworn, deposed and states as follows:

1. My name is George W. Bramblett. I am over twenty-one years of age, have never been convicted of a felony or other crime involving moral turpitude, and suffer from no mental or physical disability that would render me incompetent to make this Affidavit. I am able to

swear, and I hereby do swear, that all of the facts stated in this Affidavit are true and correct and are (unless otherwise stated below) within my personal knowledge or are known to me through my duties and responsibilities as a partner at Haynes and Boone, LLP, which provides legal representation to the Calhoun County ISD Plaintiffs in the above-styled case.

2. I am an attorney licensed to practice law in the State of Texas and have been a practicing trial lawyer in Texas in good standing with the bar since 1966. I am a partner with the law firm of Haynes and Boone, LLP and a Fellow with the American College of Trial Lawyers, American Board of Trial Advocates, International Academy of Trial Lawyers, and International Academy of Barristers. For a more detailed description of my experiences and expertise, my biography is attached hereto as Exhibit "A."

3. My firm rendered legal services to the plaintiffs referred to as the Calhoun County ISD Plaintiffs in connection with the above-styled lawsuit. I have agreed to offer expert testimony regarding the reasonableness and necessity of the attorney's fees incurred by the Calhoun County ISD Plaintiffs. As is set forth in my biography, I have tried cases all over Texas involving many different issues, including the very issues tried here. I was trial counsel in a prior round of school finance litigation, *Neeley v. West Orange-Cove Consolidated Independent School District*, 176 S.W.3d 746 (Tex. 2005). While I maintain my office in Dallas, Texas, I have practiced all over the State of Texas. I am familiar with the reasonable and customary rates, charges, and costs for legal services in Travis County, Texas and in other large Texas cities for cases similar to this one.

4. In forming my opinions, I have reviewed the pertinent pleadings as well as the redacted attorney time records for counsel for the Calhoun County ISD Plaintiffs. I have also spoken with counsel for the Calhoun County ISD Plaintiffs throughout the course of the

Unofficial Copy Travis Co. District Clerk Velva L. Price

litigation and in connection with the opinions set forth in my Affidavit. I have also reviewed the Affidavit of John W. Turner and its attachments. I am familiar with the work that was necessary to prepare and try the case. I am also familiar with the work that will be necessary to handle the appeal of this matter.

5. I also considered the relevant factors set forth in *Arthur Andersen & Co. v. Perry Equip. Corp.*, 945 S.W.2d 812, 818 (Tex. 1997) in arriving at my opinions, including (1) the fees and expenses customarily charged in this area for the same or similar services for attorneys with similar experience, reputation, and abilities; (2) the time and labor required; (3) the novelty and difficulty of the questions involved; (4) the skills requisite to perform the legal services properly; (5) the type of controversy and the amounts involved; and (6) the results obtained.

6. Since the time records do reflect a small amount of paralegal time, I also considered the factors set forth in *Gill Sav. Ass'n v. Int'l Supply Co., Inc.*, 759 S.W.2d 697, 702 (Tex. App.—Dallas 1988, writ denied). These factors include: (1) the qualifications of the legal assistant to perform substantive legal work; (2) that the legal assistant performed substantive legal work under the direction and supervision of an attorney; (3) the nature of the legal work performed; (5) the number of hours expended by the legal assistant; and (6) that the work was done to reduce or minimize the amount of attorney's fees incurred.

7. Factors such as the time and labor required, the novelty and difficulty of questions involved, and the skills required to perform the legal services support the legal fees incurred by the Calhoun County ISD Plaintiffs in this case. As counsel for the Calhoun County ISD Plaintiffs, Haynes and Boone, LLP represented six school districts as named plaintiffs. An additional 82 school districts supported Haynes and Boone, LLP's efforts. The Calhoun County ISD Plaintiffs filed their Original Petition in December 2011 seeking declaratory relief on two

Unofficial Copy Travis Co. District Clerk Velva L. Price

constitutional grounds. In less than a year from filing, the trial began. As Judge Dietz put it during his remarks on February 4, 2013: "I don't believe that there's ever been a more expeditious trial of a school finance case anywhere in the United States than what has occurred here."

8. The preparation of this case for trial involved, among other things, the review, analysis, and production of thousands of pages of client documents, the review and analysis of an extremely large volume of documents produced by the State defendants, numerous consultations with school district officials and expert witnesses, the review and analysis of close to 50 expert reports, and the depositions of more than 90 witnesses. Given the speed at which this case progressed to trial, deadlines overlapped and depositions were multi-tracked. Multiple lawyers needed to be available to handle the tasks required.

9. I understand that the parties spent 45 days in trial – over 240 hours in the courtroom. Approximately 80 witnesses testified live during that time. More than 5,700 exhibits were offered at trial; over 5,000 were admitted.

10. From my review of the billing records and from my conversations with counsel, I understand Haynes and Boone, LLP has taken the lead on the initial drafts of the Findings and Fact and Conclusions of Law requested by the Court. The draft Findings and Conclusions have required hundreds of hours of work by appellate partner Mark Trachtenberg and associate Michelle Jacobs, among others. Mr. Trachtenberg's role in this process is vital as he is the only attorney for any of the school district groups with a specialty in appellate practice. The final review and revision of the Findings and Conclusions requested by the Court are underway and will be submitted to the Court in March. I understand that Haynes and Boone attorneys also took the lead in various other areas of the litigation as discussed in the affidavit of Mr. Turner.

Unofficial copy Travis Co. District Clerk Velva L. Price

11. Questions regarding the constitutionality of the complex system of school finance in the State of Texas and potentially billions of dollars in school district funding were at issue in this case. The important matters involved, the potential dollars at stake, and the ultimate declarations by the Court more than justify the time spent and the fees incurred by the Calhoun County ISD Plaintiffs in this case.

12. A spreadsheet detailing the time records for the Calhoun County ISD Plaintiffs is attached to this Affidavit as Exhibit "B" (the "Fee Spreadsheet"). The Fee Spreadsheet details the hours billed to and the fees incurred by the client and narratives describing the work that was done (redacted where necessary for privilege).

13. Fees for this matter were billed on a per hour basis. The hourly rates charged by the attorneys and paralegals in this matter are set forth in the attached Fee Spreadsheet. I am familiar with the experience levels of the attorneys and paralegals who spent time on this matter, and the rates charged for their services here are comparable to or even less than the usual and customary fees charged by other attorneys and paralegals of similar experience and ability in Austin, Texas and in other large Texas cities. Moreover, all of the attorneys for Haynes and Boone, LLP who worked on this matter did so at a discount from their normal hourly rates. Throughout the representation, Mark Trachtenberg and John Turner reviewed billing statements for any redundancy or excess and reduced any time billed to the client accordingly.

14. As reflected in the Fee Spreadsheet, the total amount of attorney's fees incurred by the Calhoun County ISD Plaintiffs through February 27, 2013 was $2,738,591. This amount includes all fees incurred by the Calhoun County ISD Plaintiffs during discovery and trial. The Calhoun County ISD Plaintiffs acknowledge that a portion of the legal fees incurred may not be recoverable. To that end, the Fee Spreadsheet provides for an apportionment of recoverable fees.

Unofficial copy Travis Co. District Clerk Velva L. Price

By separate affidavit, John Turner, counsel for the Calhoun County ISD Plaintiffs, explains the efforts undertaken to segregate or apportion the fees where required.

15. Of the $2,738,591 in fees incurred through February 27, 2013, the Calhoun County ISD Plaintiffs are seeking to recover $2,066,244.37. This includes a reduction for the segregated time per Mr. Turner's affidavit. Haynes and Boone has estimated that an additional $25,000 in recoverable fees will be incurred through mid-March 2013 in connection with the proposed Findings of Fact and Conclusions of Law. Taking into consideration the pleadings, the detail contained in the Fee Spreadsheet, my discussions with counsel, my review of Mr. Turner's Affidavit, my 47 years of experience as a trial lawyer in the State of Texas, and all of the factors discussed above, the services rendered by counsel and the fees incurred as a result were both reasonable and necessary for a case like this.

16. Based in part of my review of the billing records from the *West Orange-Cove* case, it is further my opinion that in the event this case is appealed directly to the Texas Supreme Court, a fee of $500,000 would be reasonable and necessary for the representation of the Calhoun County ISD Plaintiffs. If this case is first appealed to the Court of Appeals, it is my opinion that an additional fee of $400,000 would be reasonable and necessary for the work required for such an appeal. An additional $325,000 would then be required as a reasonable and necessary fee should the case be appealed thereafter to the Texas Supreme Court.

AFFIDAVIT OF JOHN W. TURNER

STATE OF TEXAS §
§
COUNTY OF DALLAS §

BEFORE ME, the undersigned Notary Public, on this day personally appeared John W. Turner, known to me to be the person whose name is subscribed below, who being duly sworn, deposed and states as follows:

1. My name is John W. Turner. I am over twenty-one years of age, have never been convicted of a felony or other crime involving moral turpitude, and suffer from no mental or physical disability that would render me incompetent to make this Affidavit. I am able to swear,

and I hereby do swear, that all of the facts stated in this Affidavit are true and correct and are within my personal knowledge or are known to me through my duties and responsibilities as a partner at Haynes and Boone, LLP, which provides legal representation to the Calhoun County ISD Plaintiffs in the above-styled case.

2. I am an attorney licensed to practice law in the State of Texas and have been a practicing trial lawyer in Texas in good standing with the bar since 2000. I am a partner with the law firm of Haynes and Boone, LLP and acted as trial counsel for the Calhoun County ISD Plaintiffs in the above-styled case. A copy of my current biography is attached hereto as Exhibit "A."

3. A spreadsheet detailing the time records for the Calhoun County ISD Plaintiffs is attached as Exhibit "B" to the Affidavit of George Bramblett (the "Fee Spreadsheet").

4. In the "Hours Billed" and "Amount Billed" columns, the Fee Spreadsheet details the hours billed to and the fees incurred by the client. The "Narrative" column describes the work that was done and is redacted where necessary for privilege.

5. As referenced in Mr. Bramblett's Affidavit, the Fee Spreadsheet also provides apportionment detail. The "Segregated Hours Billed" and "Segregated Amount Billed" columns detail the portion of all hours billed and all amounts billed that are actually being sought by the Calhoun County ISD Plaintiffs in their claim for legal fees. Haynes and Boone attorneys Lacy Lawrence, Mark Trachtenberg, and I reduced the amount of fees incurred where appropriate to arrive at the amounts now sought. Those reductions and apportionments fall into two categories: (1) fees incurred for paralegal or staff time that we determined are non-recoverable or may not be

Unofficial copy Travis Co. District Clerk Velva L. Price

recoverable and (2) fees incurred for attorney time that we determined are non-recoverable or may not be recoverable.

6. Timekeepers David Bader, Jeff Bennett, Michael Brockwell, Cindy Castro, Ric Dexter, DiAnna Gaeta, Wanda Johnson, Riva Laughlin, Michelle Meuhlen, Rupa Rao, Sandra Smith, Kenny Truong, Andrea Vogtman, and Thomas Wisinski all work at Haynes and Boone, LLP in staff positions. Though their contributions to the case were valuable, the Calhoun County ISD Plaintiffs are not seeking to recover any fees for time worked by these individuals. Several of these worked only very small amounts of time in the case.

7. Timekeepers Michele Anthony, Will Bobo, Amy Easley, Leila Johnson, Kristi Kirby, and Katherine Rogers are or were paralegals employed by Haynes and Boone, LLP. Katherine Rogers and Michele Anthony were the primary paralegals for the case, and the bulk of the paralegal time was billed by these two individuals. Kristi Kirby was a third paralegal who assisted primarily with the Findings of Fact and Conclusions of Law. The Calhoun County ISD Plaintiffs are not seeking to recover the vast majority of the fees associated with paralegal time. Where the Calhoun County ISD Plaintiffs are seeking fees for paralegal time, the paralegal performed substantive legal work under the direction and supervision of counsel and was qualified to perform such work. Ms. Rogers has been a paralegal for 34 years, Ms. Anthony has been a paralegal for 26 years, and Ms. Kirby has been a paralegal for 24 years. All three are experienced in assisting with document productions, witness preparations, and other aspects of litigation. The amount of time expended by the paralegal on the task was reasonable and was done to reduce the amount of time spent by attorneys on such tasks. While the narratives in the Fee Spreadsheet will provide more detail, the paralegal time for which fees are sought primarily involved assistance with review and redaction of documents for production, assistance with

Unofficial copy Travis CO. District Clerk Velva L. Price

witness preparation, and/or assistance with the Findings of Fact and Conclusions of Law requested by the Court.

8. The remaining timekeepers reflected in the Fee Spreadsheet are or were Haynes and Boone attorneys. The biographies for the attorneys, other than myself, who worked on this matter are attached hereto as Exhibit "B." Fees incurred in the prosecution and/or defense of our claims are recoverable. While most of the attorney's fees incurred are recoverable, the Calhoun County ISD Plaintiffs acknowledge that not all attorney time will be recoverable. The relevant standard for proper segregation of recoverable from non-recoverable time is set out in *Tony Gullo Motors I, LP v. Chapa*, 212 S.W.3d 299, 313-14 (Tex. 2006): "[I]f any attorney's fees relate solely to a claim for which such fees are unrecoverable, a claimant must segregate recoverable from unrecoverable fees...it is only when discrete legal services advance both a recoverable and unrecoverable claim that they are so intertwined that they need not be segregated."

9. In apportioning the fees, we identified fees incurred in connection with the equity claims asserted by other plaintiffs to the litigation (the "Equity Fees"). As reflected in the Fee Spreadsheet, the Calhoun County ISD Plaintiffs are not seeking their Equity Fees. For example, Micah Skidmore, a partner at Haynes and Boone, focused his efforts in this case on equity issues. The Calhoun County ISD Plaintiffs are seeking to recover only a small fraction of the fees associated with Mr. Skidmore's work and only for work directly relating to the prosecution or defense of our affirmative (i.e. non-equity) claims. Additionally, Dr. James "Kal" Kallison testified as an expert on both college readiness and equity issues. While attorney time associated with the college readiness portion of his testimony is recoverable, we have segregated any time that could be associated with his equity testimony.

Unofficial copy Travis Co. District Clerk Velva L. Price

10. In addition to the segregation of the Equity Fees, the Calhoun County ISD Plaintiffs have applied a 5% reduction to the remaining total fees incurred to cover additional attorney fees that may not be recoverable. The majority of the legal services performed in connection with the Intervenors' or the Charter Schools Group's case were necessary for the prosecution and/or defense of the claims brought by the Calhoun County ISD Plaintiffs. The State Defendants routinely elicited testimony from witnesses for these parties during depositions and trial that pertained to the claims brought by the Calhoun County ISD Plaintiffs. It was necessary for counsel for the Calhoun County Plaintiffs to attend and participate in the depositions and/or in trial in order to address issues that arose or that could have arisen. Further, counsel for the Calhoun County ISD Plaintiffs needed to be available at trial each day and prepared to participate in conferences and discussions with the Court about issues in the case, regardless of whose witness was on the stand. While most – if not all – of the time was recoverable, I believe that any time related to the Intervenor or Charter Schools Group claims that may not be recoverable would be covered by the 5% reduction.

11. The recoverable fees requested include considerable attorney time expended on tasks on which Haynes and Boone attorneys took the lead on behalf of all (or selected other) ISD coalitions. For example, Haynes and Boone has taken the lead on the initial drafts of the Findings of Fact and Conclusions of Law requested by the Court. The draft Findings and Conclusions have required hundreds of hours of work by appellate partner Mark Trachtenberg and associate Michelle Jacobs, among others. Mr. Trachtenberg's role in this process is vital as he is the only attorney for any of the school district groups with a specialty in appellate practice. Other examples include coordination with the court in the updating and tracking of exhibits, the noticing and taking of organizational representative depositions of the TEA on a series of topics

Unofficial copy Travis Co. District Clerk Velva L. Price

related to student assessment and accountability, and serving as the primary point of contact for Dr. Allen Odden, who was one of the principal expert witnesses related to the cost of adequacy.

12. The total amount of recoverable fees incurred through February 27, 2013, as reflected in the Fee Spreadsheet, is $2,066,244.37. We have estimated that an additional $25,000 in recoverable fees will be incurred through mid-March 2013 in connection with the proposed Findings of Fact and Conclusions Law. This amount takes into account the segregation of non-recoverable paralegal, staff, and attorney time and includes only time that we have determined should be recoverable.

FURTHER AFFIANT SAYETH NOT.

John W. Turner

John Turner

john.turner@haynesboone.com

John Turner represents plaintiffs and defendants in civil litigation across Texas and the United States. His experience encompasses a broad spectrum of the law, ranging from contract disputes to intellectual property cases to antitrust matters to representation of governmental entities.

John's approach to litigation is guided by a few key practices that are crucial to a successful outcome in any lawsuit: regular and effective communication between attorney and client, thorough investigation of the relevant facts at the beginning of the case, and courtroom presentations that focus on clear explanation of the facts and the law.

In John's most recent high-profile trial, he represented a coalition of 89 Texas school districts in major litigation related to the adequacy of the school finance system in Texas. After a trial that began in October 2012 and lasted until early February 2013, District Judge John Dietz ruled in favor of the school districts. Judge Dietz held that the system has evolved into an unconstitutional state property tax and that it fails to provide school districts access to funding sufficient to provide a constitutionally adequate education. The State of Texas is expected to appeal the ruling. To read press accounts of the case and the decision, click here, here, and here. To read the text of Mr. Turner's closing argument in the case, click here. For the exhibits used in the closing, click here.

Earlier in 2012, John represented the Halliburton Company in a trade secrets dispute involving a former employee and the competing oilfield tools company he founded. In a trial lasting almost two weeks in state district court in Dallas, John convinced the twelve-person jury to return a unanimous verdict in favor of Halliburton on all counts. The jury also voted to award damages to Halliburton in the amount requested. The case is currently awaiting entry of a final judgment by the court.

Some of John's other recent engagements include representation (together with other law firms) of a large semiconductor manufacturing company in a multi-hundred-million dollar trade secrets dispute; prosecution of claims on behalf of dozens of investors victimized by a major ponzi scheme; representation of a mid-size biotechnology company in contract litigation with a large pharmaceutical company; and defense of a hotel resort development company sued by a prospective co-developer.

Public interest and governmental entity representation have also played a large role in John's practice. In addition to the recent Texas school funding litigation, John was part of a team that represented a coalition of more than thirty Texas cities, including Dallas and Houston, challenging the proposed construction of a number of new coal-fired power plants across Texas in 2004. John also represented the Deep East Texas Council of Governments in relation to relief funding for Texas cities and towns victimized by Hurricane Ike.

John graduated from Harvard College in 1997 and obtained his law degree from Yale Law School in 2000. While in law school, he won the Thurman Arnold Prize as the best oral advocate in the school's moot court competition. Before joining Haynes and Boone in October 2008, Turner was a partner in the firm of Susman Godfrey LLP, where he practiced since 2001. In 2000-2001, he served as a law clerk for the Honorable Lee H. Rosenthal of the United States District Court for the Southern District of Texas.

John is admitted to practice in the Texas bar, before the United States District Courts for the Northern and Southern Districts of Texas, and before the Fifth and Tenth Circuit Courts of Appeal. He has been recognized by *Texas Monthly* as a "Rising Star" in the Texas legal profession from 2006-2011, and was named one of "Houston's Best Lawyers Under 40" by *H Texas magazine*.

John lives in Dallas and is married to Jenia Iontcheva Turner, who is a professor of international law and criminal procedure at the SMU Dedman School of Law. John and Jenia have two sons, William and Philip.

Mark Trachtenberg

mark.trachtenberg@haynesboone.com

Mark Trachtenberg's ability to craft a "big picture" legal strategy from the inception of litigation through the final appeal has led to his involvement in some of the most complex and high-stakes litigation in the state, including a current challenge to the Texas school finance system and an appeal of a $3.6 billion bankruptcy plan of reorganization in the Fifth Circuit. Because of his role as the architect of the successful 2005 challenge to the state's school finance system, he was profiled in the cover article of the *2010 Texas Super Lawyers* magazine - Rising Stars Edition.

Mr. Trachtenberg, a Yale Law School graduate, excels at collaborating with trial counsel to win during the trial phase through dispositive motions, challenges to the opposing party's expert testimony, jury charges, trial briefs, and post-trial motions. In the appellate courts, Mr. Trachtenberg identifies, develops, and presents his clients' most persuasive arguments.

Mr. Trachtenberg, who is board certified in civil appellate law by the Texas Board of Legal Specialization, has helped his clients achieve a successful resolution of their disputes in a wide range of matters, including the following representative examples:

- Persuaded the Texas Supreme Court to strike down the Texas public school finance system on constitutional grounds. This decision was the culmination of a four and one-half year effort, including a previous successful appeal to the Supreme Court and a successful five-week bench trial upon remand. *Neeley v. West Orange-Cove C.I.S.D.,* 176 S.W.3d 746 (Tex. 2005).
- Obtained reversal from the Texas Supreme Court of a $14 million products liability judgment arising out of a fire because the plaintiffs' expert's causation testimony was scientifically unreliable. *Whirlpool v. Camacho,* 298 S.W.3d 361 (Tex. 2009).
- Persuaded the Fifth Circuit Court of Appeals to dismiss, on equitable mootness grounds, the appeal of a $3.6 billion bankruptcy plan of reorganization. *In the Matter of Asarco L.L.C.,* Cause No. 09-41259 (5th Cir. 2010).
- Persuaded the San Antonio Court of Appeals (1) to affirm an approximately $50 million judgment in favor of our client, and (2) in a cross-appeal, to reinstate the jury's $7.5 million punitive damages award that the trial court had declined to incorporate into the judgment. *HMC Hotel Properties II, LP v. Keystone-Texas Property Holding Corp.,* 2011 WL 5869608, -- S.W.3d -- (Tex. App.-San Antonio Nov. 23, 2011).
- Persuaded a federal district court to vacate a more than $9 million arbitration award entered against our client, a video game developer, under the Federal Arbitration Act because the award violated the essence of the publishing agreement that was the subject of the parties' dispute.
- Persuaded Texas Supreme Court to reverse class certification in a suit

of Texas

Judicial Clerkships

- Law Clerk, the Honorable Lee H. Rosenthal, United States District Judge for the Southern District of Texas (1998-99)

where appellees were authorized to represent a class of hundreds of thousands of Texas-based music club members who sought recovery of the late fees they had paid on their compact disc purchases.

- In a real estate partnership dispute, assisted plaintiff's trial counsel with post-trial briefing and formation of judgment issues in connection with the entry of $54.6 million judgment in favor of our client.
- Persuaded a federal district court to vacate an arbitrator's award of punitive damages against our client.
- Persuaded the trial court, through a motion for judgment notwithstanding the verdict (JNOV), to set aside the jury's multi-million dollar verdict and enter a take nothing judgment in a real estate dispute involving claims for breach of contract, fraud and breach of partnership duties.

Mr. Trachtenberg has written and spoken on a wide variety of topics, with a recent focus on arbitration issues.

Mr. Trachtenberg heads the Houston office of the firm as its Administrative Partner.
