biennium beginning on September 1, 2013 fee revenues collected and deposited to the credit of the Watermaster Administration Account No. 158 from additional fees generated pursuant to Water Code, § 11.329 due to the implementation of increased fee rates at the watermaster offices and in excess of the Comptroller's Biennial Revenue Estimate for 2014-15 (estimated to be $0). These funds shall be used for operating costs of the watermaster offices.

This appropriation is contingent upon the TCEQ and the watermaster offices assessing fees sufficient to generate, during the 2014-15 biennium, revenue to cover the appropriations out of the Watermaster Administration Account No. 158. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Comptroller of Public Accounts shall reduce the appropriation authority provided above to be within the amount of revenue expected to be available. The TCEQ and the watermaster offices, upon completion of necessary actions to assess or increase additional fees, shall furnish copies of minutes and other information supporting the estimated revenues to be generated for the 2014-15 biennium under the revised fee structure to the Comptroller of Public Accounts. If the Comptroller finds the information sufficient to support the projection of increased revenues in excess of those estimated in the Biennial Revenue Estimate for 2014-15, a finding of fact to that effect shall be issued and the contingent appropriation shall be made available for the intended purpose.

23. **Aggregate Operations along the San Jacinto River.** Out of amounts appropriated above in Strategy C.1.1, Field Inspections and Complaint Response, the Commission on Environmental Quality shall conduct aerial observations at least twice per fiscal year to ensure enforcement of existing statutes and rules relating to aggregate operations along the San Jacinto River.

25. **Low-Income Vehicle Repair Assistance, Retrofit, and Accelerated Vehicle Retirement Program (LIRAP).** Included in the amounts appropriated above out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, is $7,039,640 in each fiscal year of the 2014-15 biennium in estimated fee revenues from vehicle inspection and maintenance fees generated pursuant to Health and Safety Code, §§382.202 and 382.302, to fund the Low-income Vehicle Repair Assistance, Retrofit, and Accelerated Vehicle Retirement Program (LIRAP). Of the amounts, not more than $400,375 in each fiscal year shall be used by the Texas Commission on Environmental Quality (TCEQ) for costs associated with administering the LIRAP as authorized in Health and Safety Code, §382.202, and all remaining funds shall be used as LIRAP grants to local governments.

Also included in the amounts appropriated above in Strategy A.1.1, Air Quality Assessment and Planning, is $625,000 in each fiscal year of the 2014-15 biennium out of the Clean Air Account No. 151 to be used only for purposes authorized in Chapter 382 of the Health and Safety Code for county-implemented local initiatives projects to reduce air emissions, including but not limited to the following: the expansion of AirCheck Texas Repair and Replacement Assistance Program; development and implementation of remote emissions-sensing systems, the Texas Commission on Environmental Quality's (TCEQ) Smoking Vehicle program, and the enhancement of transportation system improvements; and coordination with local law enforcement to reduce counterfeit inspection stickers.

Of the amounts appropriated above for LIRAP grants and local initiative projects is an estimated $1,196,172 each fiscal year in estimated fee revenue generated from Travis County and $483,736 each fiscal year in estimated LIRAP fee revenue generated from Williamson County. The TCEQ shall allocate, at a minimum, the estimated revenue amounts collected in each of the counties during the 2014-15 biennium to provide LIRAP grants and local initiatives projects in those counties.

In addition to the amounts appropriated above, there is hereby appropriated to the TCEQ for the biennium beginning on September 1, 2013 any additional revenues from vehicle inspection and maintenance fees generated from additional counties participating in the LIRAP beginning on or after September 1, 2013. 26. **Petroleum Storage Tank Responsible Party Remediation.** It is the intent of the Legislature that the Commission on Environmental Quality prioritize the use of funds appropriated above out of the Petroleum Storage Tank Remediation Account No. 655 to address the continued remediation and monitoring of sites transferred from the responsible party remediation program to the state lead program pursuant to Water Code, §26.3573, Subsection (r-1). Notwithstanding this provision, in prioritizing sites the TCEQ shall consider the risks associated with all sites requiring remediation and monitoring, as well as the availability of funds. In selecting contractors to perform remediation services at these transferred sites, the Executive Director of the TCEQ may make direct awards to existing contractors who are otherwise eligible for award to ensure that the continued remediation of these sites progresses in the most efficient and cost-effective manner which presents the least risk of disrupting ongoing remediation and monitoring activities.

27. **Barnett Shale Permit By Rule Study.** The Texas Commission on Environmental Quality (TCEQ) is not authorized to expend any funds appropriated in this Act to implement a rule that would extend 30 Texas Administrative Code, §106.352, Oil and Gas Handling Production Facilities, Rule Project No. 2010-018-106-PR ("Barnett Shale permit by rule") to oil and gas sources located outside the 23-county area of the Barnett Shale identified in subsection (a)(1) of the Barnett Shale permit by rule region ("Barnett Shale Region") until after August 31, 2015 and until after the agency conducts a study and files a report with the Legislature on the economic impact of extending the provisions of the Barnett Shale permit by rule to other areas of the state. Such a study may be funded through (1) grants, awards, or other gifts made to the TCEQ for that purpose; (2) funds directed to this study through supplemental environmental projects; or (3) by the use of the Texas Emissions Reduction Plan funds, as available. The study shall:

    (a) Be based on data collected during the 18-month period following initial implementation of the Barnett Shale permit by rule in the Barnett Shale Region;
    (b) Assess the technical feasibility and economic reasonableness of the implementation of the Barnett Shale permit by rule in geographic areas outside of the Barnett Shale Region, including an assessment of the economic impacts on the oil and gas industry and the Texas economy; and
    (c) Assess any other factors the TCEQ deems relevant.

    Nothing herein shall be construed to limit the TCEQ's authority to develop a permit by rule or other authorization for planned maintenance, startup, and shutdown emissions from oil and gas sources located outside the Barnett Shale Region.

28. **Litigation Expenses for the Rio Grande Compact Commission.** Included in amounts appropriated above in Strategy C.1.4, Rio Grande River Compact, is $5,000,000 in fiscal year 2014 to be used to cover expenses incurred by the Rio Grande Compact Commission relating to investigations and legal expenses resulting from litigation between the State of Texas and the State of New Mexico over the equitable distribution of water according to the Rio Grande Compact.

If the Comptroller finds the information sufficient to support the projection of increased revenues in excess of those estimated in the BRE for 2014-15, a finding of fact to that effect shall be issued and the contingent appropriation shall be made available for the intended purpose.

In addition to amounts appropriated above, there is hereby appropriated for the biennium beginning on September 1, 2013, any revenues received from surface mining fee increases deposited to the credit of Revenue Object Code No. 3329 in excess of the Comptroller's Biennial Revenue Estimate for 2014-15.

"Other direct and indirect costs" are estimated to be $817,198 in fiscal year 2014 and $849,148 in fiscal year 2015. 2. **Payment of Debt Service: State Participation Bonds.** All monies received by the Texas Water Development Board and deposited to the State Participation Program Bond Payment Account No. 8432 are hereby appropriated for the payment of principal and interest on bonds issued to provide financial assistance for State Participation projects that mature or become due during the biennium beginning with the effective date of this Act, pursuant to §§49-c, 49-d-7, 49-d-8, and 49-d-9 of Article III of the Texas Constitution and Water Code, Chapter 17, Subchapters C and L, including amounts issued prior to the effective date of this Act. The amounts identified above in the Method of Financing table as Water Infrastructure Fund No. 302 are estimated amounts to be received from repayments of loan principal and interest on such bonds that mature or become due during the biennium.

   The actual amount of funds to be paid from the General Revenue Fund shall be the total amount of debt service obligations due in each fiscal year less amounts deposited to the Water Infrastructure Fund (WIF) No. 302 for loan repayments and interest earnings. The provisions contained herein shall not be construed, however, to abrogate the obligation of the State under §§49-c, 49-d-8 and 49-d-9, of Article III of the Texas Constitution to provide for the payment in full of the principal and interest on such bonds that mature or become due during the biennium.

2. **Renegotiation of Lump Sum Contract.** Appropriations made above in Strategy A.1.1, Conduct Hearings, include $1,000,000 in fiscal year 2014 and $1,000,000 in fiscal year 2015 in Interagency Contracts to fund the Natural Resources Division for the purpose of conducting hearings for the Texas Commission on Environmental Quality (TCEQ). The State Office of Administrative Hearings (SOAH) and TCEQ may not enter into a contract for an amount less than the specified amounts herein above. If SOAH determines, at the end of each fiscal year, that the amount paid under the contract exceeds the funding necessary for the Natural Resources Division, it shall refund the difference. If SOAH determines that these amounts are insufficient to fund the Natural Resources Division it may enter into negotiations with the TCEQ in order to renegotiate an interagency contract in a manner which will provide it with additional funds, provided that SOAH

shall not be appropriated any state funds from such renegotiated interagency contract until it gives prior written notice to the Legislative Budget Board and the Governor, accompanied by written permission of the TCEQ.

3. **Benefit Collection.** Agencies that enter into contracts with the State Office of Administrative Hearings (SOAH), for the purpose of performing the hearings function, and make payments to SOAH from funding sources other than General Revenue, must reimburse SOAH for employee benefit costs for salaries and wages. These reimbursements to SOAH will then be paid to the General Revenue Fund in proportion to the source of funds from which the respective salary or wage is paid.

4. **Contingency Appropriation for Expanded Jurisdiction.** Contingent on the enactment of legislation by the Eighty-third Legislature transferring the hearings functions of other state agencies to the State Office of Administrative Hearings (SOAH), or otherwise expanding the jurisdiction of the office, SOAH may expend funds transferred to the office from those agencies or funds appropriated for the purpose of handling the expanded jurisdiction, pursuant to provisions elsewhere in this Act. Appropriations authorized pursuant to this provision may be expended only to implement the transferred functions or expanded jurisdiction. All funds collected by SOAH as payment for, or reimbursement of, the office's costs of providing services to other state agencies or governmental entities, or others as directed by the Legislature, are appropriated to SOAH for its use during the biennium.

5. **Hearings Activity Report.** By May 1st and November 1st of each fiscal year, the State Office of Administrative Hearings (SOAH) shall submit to the Legislative Budget Board and the Governor a report detailing hearings activity conducted during the prior two fiscal year quarters. The report shall indicate in a format prescribed by the Legislative Budget Board, for each agency served by method of finance, the projected and actual person hours allocated to the agency's cases and the cost, both direct and indirect, of conducting the hearings. The report shall also indicate in a format prescribed by the Legislative Budget Board, for each agency served, the projected and actual number of cases received, the number of transcripts requested by Administrative Law Judges, number of cases disposed of, the number of administrative fine cases disposed of and the median number of days between the date a case is received by SOAH and the date the case is finally disposed of, and any other information requested by the Legislative Budget Board during the reporting period.

6. **Contingency for Additional Self-directed Semi-independent Agencies.** Contingent upon additional agencies becoming a self-directed semi-independent (SDSI) agencies during the 2014-15 biennium, any agency becoming an SDSI agency that is listed in Rider 7 shall be removed from the exemption granted in Rider 7 below.

7. **Billing Rate for Workload.**

   a. Unless otherwise provided, amounts appropriated above and elsewhere in this Act for funding for the payment of costs associated with administrative hearings conducted by the State Office of Administrative Hearings (SOAH) are based on an hourly rate of $100 per hour for each hour of work performed during each fiscal year as reflected by the SOAH's Legislative Appropriation Request and Hearings Activity Report to the Eighty-third Legislature.

   b. Notwithstanding other provisions in this Act, amounts for the payment of costs associated with administrative hearings conducted by SOAH for the Comptroller of Public Accounts shall be established through an interagency contract between the two agencies. The contract shall provide funding for hearings on tax issues conducted by Master Administrative Law Judge IIs in a separate tax division within SOAH that have expertise in state tax and shall specify the salaries of the judges within the division.

   c. Amounts appropriated above in Strategy A.1.1, Conduct Hearings, to SOAH from the General Revenue Fund include funding in each year of the biennium for billable casework hours performed by SOAH for conducting administrative hearings at the rate determined by SOAH and approved by the Legislature for those agencies that do not have appropriations for paying SOAH costs for administrative hearings and are not subject to subsection (a) of this Section:

Sec. 3.05. Evening, Night, Weekend Shift Pay: Registered Nurses and Licensed Vocational Nurses. A state agency may pay an additional evening shift or night shift differential not to exceed 15 percent of the monthly pay rate to registered nurses or licensed vocational nurses who work the 3:00 p.m. to 11:00 p.m. shift, or its equivalent, or who work the 11:00 p.m. to 7:00 a.m. shift, or its equivalent. An additional weekend shift salary differential not to exceed five percent of the monthly pay rate may be paid to registered nurses and licensed vocational nurses. The weekend shift salary differential may be paid to an eligible individual in addition to the evening shift or night shift salary differential.

Sec. 3.06. Recruitment and Retention Bonuses. A state agency may pay a bonus to an individual as provided by §659.262, Government Code.

Sec. 3.07. Equity Adjustments.

(a) A state agency is authorized to adjust the salary rate of an employee whose position is classified under the position classification plan to any rate within the employee's salary group range as necessary to maintain desirable salary relationships:

(1) between and among employees of the agency; or

(2) between employees of the agency and employees who hold similar positions in the relevant labor market.

Unofficial Copy Travis Co. District Clerk Velva L. Price

(b) In determining desirable salary relationships under Subsection (a), a state agency shall consider the education, skills, related work experience, length of service, and job performance of agency employees and similar employees in the relevant labor market.

(c) A state agency may award an equity adjustment to an employee under this section only if:

(1) the employee has worked in the employee's current position for not less than six months while maintaining at least a satisfactory level of job performance; and

(2) the adjustment does not take effect during the same fiscal year as another equity adjustment made to the employee's salary under this section.

(d) A state agency shall adopt internal written rules relating to making equity adjustments under this section. The rules shall include procedures under which the agency will review and analyze the salary relationships between agency employees who receive salaries under the same job classification and perform the same type and level of work to determine if inequities exist.

Sec. 3.08. Classification Study on Scheduled Exempt Positions. The State Auditor's Office is directed to conduct a study (which is similar to the biennial study performed by the Auditor's office on the state's classification plan under Chapter 654, Government Code) that reviews the compensation of exempt positions and executive compensation as provided in Articles I through VIII of the General Appropriations Act. The study should compare exempt positions from different agencies and take into account the size of an agency's annual appropriations, the number of full-time equivalent employees (FTEs) of the agency, market average compensation for similar executive positions, the exempt position salary as compared to classified positions within the agency, and other objective criteria the Auditor's Office deems appropriate. The study shall be submitted to all members of the Legislature and the director of the Legislative Budget Board no later than September 1, 2014.

Sec. 3.09. Method of Salary Payments. All annual salaries appropriated by this Act are for full-time employment unless specifically designated as part-time. This section may not be construed to prevent the chief administrator of an agency from paying less than the maximum salary rate specified in this Act for a position, or the employment of a part-time employee to fill a regular position provided for in this Act, so long as the salary rate for such part-time employee is proportional to the regular rate for full-time employment.

Sec. 3.10. Exception - Contracts Less Than 12 Months. Facilities of the Texas Juvenile Justice Department in Article V or institutions of higher education or the schools for the blind or deaf in Article III of this Act that make contracts for less than a twelve-month period may pay salaries in equal monthly payments for the period of the contract.

Sec. 3.11. Matching Retirement and Certain Insurance. In each instance in which an operating fund or account is created and named by statute, the responsible officials of the state may transfer into the operating fund or account sufficient monies from treasury funds, local, institutional, or federal funds to pay proportionally the costs of matching state employees' retirement contributions and the state's share of Old Age and Survivors Insurance.

PART 4. GRANT-MAKING PROVISIONS

Sec. 4.01. Grant Restriction. Funds appropriated by this Act may not be expended for a grant to a law enforcement agency regulated by Chapter 1701, Occupations Code, unless:

(1) the law enforcement agency requesting the grant is in compliance with all rules developed by the Commission on Law Enforcement Officer Standards and Education; or

(2) the Commission on Law Enforcement Officer Standards and Education certifies that the requesting agency is in the process of achieving compliance with such rules.

Sec. 4.02. Grants.

(a) Funds appropriated by this Act for grants of money to be made by state agencies, including the agencies in the legislative branch, are appropriated for the statutory purposes as the grantor

agency may specify. A state agency shall distribute grants on a reimbursement or as needed basis unless otherwise provided by statute or otherwise determined by the grantor agency to be necessary for the purposes of the grant.

(b) Funds appropriated by this Act for grants to be made by a state agency for a particular fiscal year may be distributed in subsequent fiscal years so long as the grant has been awarded and treated as a binding encumbrance by the grantor agency prior to the end of the appropriation year of the funds appropriated for grant purposes. Distribution of the grant funds is subject to §403.071, Government Code.

Sec. 4.03. Grants for Political Polling Prohibited. None of the funds appropriated by the Act may be granted to or expended by any entity which performs political polling. This prohibition regarding political polling does not apply to a poll conducted by an academic institution as a part of the institution's academic mission that is not conducted for the benefit of a particular candidate or party.

Sec. 4.04. Limitation on Grants to Units of Local Government.

(a) The funds appropriated by this Act may not be expended in the form of a grant to, or a contract with, a unit of local government unless the terms of the grant or contract require that the funds received under the grant or contract will be expended subject to limitations and reporting requirements similar to those provided by:

(1) Parts 2 and 3 of this Article (except there is no requirement for increased salaries for local government employees);

(2) §§556.004, 556.005, and 556.006, Government Code;

(3) §§2113.012 and 2113.101, Government Code;

(4) §6.13 of this Article (Performance Rewards and Penalties);

(5) §7.01 of this Article (Budgeting and Reporting);

(6) §7.02 of this Article (Annual Reports and Inventories); and

(7) §2102.0091, Government Code.

(b) In this section, "unit of local government" means:

(1) a council of governments, a regional planning commission, or a similar regional planning agency created under Chapter 391, Local Government Code;

(2) a local workforce development board; or

(3) a community center as defined by Health and Safety Code, Sec. 534.001(b).

PART 5. TRAVEL REGULATIONS

Sec. 5.01. Travel Definitions. The definitions established by §660.002, Government Code, apply to Part 5 of this Article, unless another meaning is clearly provided. In Part 5 of this Article:

(1) "Council of governments" includes:

(A) a council of governments created under Chapter 391, Local Government Code;

(B) a regional planning commission created under Chapter 391, Local Government Code; or

(C) a regional planning agency created under Chapter 391, Local Government Code.

(2) "State agency" includes the entities within the definition of §660.002(19), Government Code, and also includes a council of governments, a local workforce development board, or a

community center as defined by Health and Safety Code, Sec. 534.001(b), that uses funds appropriated by this Act to pay for the transportation, meals, lodging, or other travel expenses of its employees.

Sec. 5.02. General Travel Provisions. The funds appropriated by this Act to a state agency for the payment of transportation, meals, lodging, or incidental expenses is the maximum amount that may be expended by the agency. The funds appropriated by this Act may not be expended for those expenses unless the travel and the resulting requests for payment or reimbursement comply with the conditions and limitations in this Act, Chapter 660, Government Code, and the Comptroller's Rules.

Sec. 5.03. Transportation Expenses. For a state employee's use of a personally owned or leased motor vehicle, the mileage reimbursement rate for travel equals the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations as announced by the Comptroller.

Sec. 5.04. Transportation in Personally Owned or Leased Aircraft. The rate of reimbursement to be paid to a state employee, key official, member of a board, commission, or a member of the Legislature for travel in the person's personally owned or leased aircraft, either within or without the boundaries of this state, is the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations or alternatively as determined by the Comptroller the rates adopted by the United States Administrator of General Services as announced by the Comptroller.

Sec. 5.05. Travel Meals and Lodging Expenses.

(a) A state employee who travels within the continental United States shall be reimbursed for the actual cost of lodging and meals. However, the reimbursements may not exceed the maximum meals and lodging rates based on the federal travel regulations issued by the United States General Services Administration. The maximum lodging rate allowance for Texas cities and counties that do not have a specific federal per diem rate set for that city or county shall not be more than $85 per night unless the chief administrator of a state agency or designee of the chief administrator of a state agency determines that local conditions necessitate a change in the lodging rate for a particular location.

(b) At the discretion of each chief administrator of a state agency, a state employee whose duties require the employee to travel outside the employee's designated headquarters without an overnight stay away from the employee's headquarters may be reimbursed for the actual cost of the employee's meals not to exceed $36.

(c) A state employee may receive reimbursements for the employee's actual expenses for meals and lodging when traveling outside the continental United States.

(d) A state agency or institution may reimburse a state employee for a meal expense the employee incurs while traveling outside the employee's designated headquarters for less than six consecutive hours if the reimbursement:

(1) receives the written approval by the chief administrator of the state agency or institution;

(2) meets the rules adopted by the Comptroller regarding reimbursement for traveling outside the employee's designated headquarters for less than six consecutive hours; and

(3) complies with §660.206, Government Code.

Sec. 5.06. Special Provisions Regarding Travel Expenses. Reimbursement for meals and lodging as authorized by Subchapter H, Chapter 660, Government Code, on an "actual expenses" or "actual amount of" basis may not exceed twice the maximum rates specified in §5.05 of this Article.

Sec. 5.07. Travel and Per Diem of Board or Commission Members.

(a) As authorized by §659.032, Government Code, the per diem of state board and commission members consists of:

Unofficial Copy Travis Co. District Clerk Velva L. Price

(1) compensatory per diem, if specifically authorized by law, at $30 per day; and

(2) at the rates provided by this Act for state employees, expense per diem, which includes:

(A) reimbursement of actual expenses for meals, at the rates provided by this Act for state employees;

(B) lodging at the rates provided by this Act for state employees;

(C) transportation at the rates provided by this Act for state employees; and

(D) incidental expenses.

(b) If a law enacted after former Article 6813f, VTCS, (September 1, 1983), authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem is the amount provided by Subsection (a).

(c) A full-time employee paid from funds appropriated by this Act may not be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.

Sec. 5.08. Travel of Advisory Committee Members.

(a) For the purpose of this section, the term "advisory committee" has the meaning assigned by §2110.001, Government Code.

(b) In addition to the limits placed on reimbursement of advisory committee member expenses by this section and to the extent not otherwise limited by this Act or other law, a member of a state agency advisory committee may be reimbursed, at the rates specified in this Act for a state employee, for actual expenses for meals, lodging, transportation, and incidental expenses.

(c) The funds appropriated by this Act may not be expended to reimburse a member of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless the expenditures for an advisory committee are within the limits provided by this section and other law and are:

(1) specifically authorized by this Act; or

(2) approved by the Governor and the Legislative Budget Board subsequent to the effective date of this Act.

(d) The limitations provided by this section do not apply to an advisory committee established by the governing board of a retirement system trust fund.

(e) The limitations provided by this section apply only to an advisory committee that is subject to Chapter 2110, Government Code.

PART 6. GENERAL LIMITATIONS ON EXPENDITURES

Sec. 6.01. Definitions. In this Act "unexpended balance" or the abbreviation "UB" means the unobligated balance remaining in an appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to "unexpended balance" or "UB" is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 2014, unless another meaning is clearly indicated.

Sec. 6.02. Interpretation of Estimates. In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act may not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the

language of this Act appropriates all receipts or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

Sec. 6.03. Excess Obligations Prohibited.

(a) An agency specified in this Act may not incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named.

(b) As a specific exception to Subsection (a) the Comptroller of Public Accounts may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request.

(c) A determination made by the Comptroller of Public Accounts under Subsection (b) may be made for obligations incurred for the purchase or lease of automated information system equipment only if the agency has on file with the Legislative Budget Board a Biennial Operating Plan, including any amendments to the Biennial Operating Plan, and the plan has been approved by the Legislative Budget Board.

(d) If this section is violated, the State Auditor shall certify the fact of the violation and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount equivalent to the over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation.

(e) This provision is specified pursuant to §10, Article XVI, Texas Constitution.

Sec. 6.04. Interpretation of Legislative Intent. Funds appropriated by this Act shall be expended, as nearly as practicable, for the purposes for which appropriated. In the event an agency cannot determine legislative purpose from the pattern of appropriations, the agency shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for this state.

Sec. 6.05. Comptroller's Duty to Pay. The Comptroller may not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 6.06. Last Quarter Expenditures.

(a) A state agency or other governmental unit using funds appropriated by this Act may not expend during the last quarter of a fiscal year more than one-third of the funds appropriated for that fiscal year.

(b) Specifically exempted from Subsection (a) are:

(1) expenditures contracted for in previous quarters;

(2) funds required by statute, rule or regulation to be expended on a different time frame;

(3) seasonal employment of personnel;

(4) construction contracts;

(5) contracts dealing with purchases of food, medicines, or drugs;

(6) expenditures related to the Children with Special Health Care Needs program operated by the Department of State Health Services; and

(7) expenditures occasioned by disaster or other Act of God.

(c) The funds exempted, under Subsection (b) may not be considered in the computation of the total funds appropriated in a fiscal year for the purpose of applying Subsection (a).

Sec. 6.07. Employee Benefit and Debt Service Items.

(a) Funds appropriated in the various Articles of this Act for "Employees Retirement System," "Social Security State Match," "Benefit Replacement Pay," "Texas Public Finance Authority-G.O. Bond Debt Service Payments," and "Lease-Payments to the Texas Public Finance Authority" may be transferred between Articles to a like appropriation item without limitation as to the amount of such transfer.

(b) An agency to which an appropriation listed under Subsection (a) is made may pool such appropriations, made in the various Articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

Sec. 6.08. Benefits Paid Proportional by Fund.

(a) Unless otherwise provided, in order to maximize balances in the General Revenue Fund, payment for benefits paid from appropriated funds, including "local funds" and "education and general funds" as defined in §51.009 (a) and (c), Education Code, shall be proportional to the source of funds except for public and community junior colleges.

(b) Unless otherwise specifically authorized by this Act, the funds appropriated by this Act out of the General Revenue Fund may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries or wages are paid from a source other than the General Revenue Fund except for public community or junior colleges. For purposes of this Act, a public community or junior college may expend funds appropriated for employee benefit costs for any employee if the employee is: (1) otherwise eligible to participate in the group benefits program; and (2) an instructional or administrative employee whose salary may be fully paid from funds appropriated under the General Appropriations Act, regardless of whether the salary is actually paid from appropriated funds. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Comptroller determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund.

(c) The Comptroller, after consulting with the Legislative Budget Board and the State Auditor's Office, shall develop and maintain rules to provide for the administration of this section.

(d) Each agency or institution of higher education (excluding a community or junior college) having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller and the State Auditor a report demonstrating proportionality. The report shall be filed before November 20th following the close of the fiscal year for the salaries, wages, and benefits of the preceding year ended August 31. The report shall be in a format prescribed by the Comptroller in collaboration with the Legislative Budget Board and the State Auditor's Office. The State Auditor shall at least biennially review agency and institution (excluding a community or junior college) compliance with the requirements of this section if the agency or institution (excluding a community or junior college) receives funds appropriated under Articles II, III, or VI of this Act. The Comptroller, on receipt of notification from the State Auditor of amounts disproportionally paid from General Revenue Fund appropriations, shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from sources other than the General Revenue Fund.

(e) Should legislation limiting General Revenue related funds for benefit contributions to 50 percent of the state contributions for Public Community/Junior Colleges not be adopted by the Eighty-third Legislature, Regular Session, this section shall apply to Public Community/Junior Colleges.

Sec. 6.09. Appropriations from Special Funds. Notwithstanding other provisions of this Act, appropriation amounts from special funds or special accounts in the General Revenue Fund are specifically limited to amounts not to exceed the actual balances and revenues available to each such fund or account.

Sec. 6.10. Limitation on State Employment Levels.

(a) (1) A state agency or institution of higher education may not use funds appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the figure indicated by this Act for that state agency or institution without first reporting that use of funds to the Governor and the Legislative Budget Board at a time not later than the last day of the first month following each quarter of the fiscal year.

(2) In addition to the reporting requirement of Subsection (a)(1) of this section, without the written approval of the Governor and the Legislative Budget Board a state agency or institution of higher education may not use funds appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the lesser of either:

(A) one hundred and ten percent (110%) of the FTE figure indicated by this Act for that state agency or institution; or
(B) one hundred percent (100%) of the figure indicated by this Act for that state agency or institution plus fifty (50) FTEs.

(b) (1) A report by a state agency or institution of higher education of exceeding the FTE limitations established by this section must be submitted by the governing board of the state agency or institution of higher education (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board or the governing board has not met) and must include at a minimum:

(A) the date on which the board (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board or the governing board has not met) approved the report;
(B) a statement justifying the need to exceed or reduce the limitation;
(C) the source of funds to be used to pay any additional salaries; and
(D) an explanation as to why the functions of any proposed additional FTEs cannot be performed within current staffing levels.

(2) A request by a state agency or institution of higher education to exceed the FTE limitations established by this section must be submitted by the governing board of the state agency or institution of higher education (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board) and must include at a minimum:

(A) the date on which the board (if the agency has a governing board) or the chief administrative officer (if the agency does not have a governing board) approved the request;
(B) a statement justifying the need to exceed the limitation;
(C) the source of funds to be used to pay any additional salaries: and
(D) an explanation as to why the functions of any proposed additional FTEs cannot be performed within current staffing levels.

(c) An agency or institution may make a preliminary report to the Governor and the Legislative Budget Board without meeting the requirements of Subsection (b)(1)(A) if the governing board of the agency or institution has not met within the reporting time.

(d) For the purpose of Subsections (a) and (b), the number of FTEs employed by a state agency (not including an institution of higher education or an affiliated entity, the State Preservation Board, Parks and Wildlife Department, Texas School for the Blind and Visually Impaired, Texas School for the Deaf, and Texas Commission on Environmental Quality) for a fiscal quarter:

(1) shall be determined in accordance with the report filed pursuant to § 2052.103, Government Code;

(2) shall include only employees paid with funds appropriated through this Act;

Unofficial Copy Travis Co. District Clerk Velva L. Price

(3) shall not include overtime hours; and

(4) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.

(e) For the purpose of Subsections (a) and (b), the number of FTEs employed by the State Preservation Board, Texas Commission on Environmental Quality, the Parks and Wildlife Department, the Texas School for the Blind and Visually Impaired, the Texas School for the Deaf, or an institution of higher education or an affiliated entity, for a fiscal year:

(1) shall be determined in accordance with the reports filed pursuant to §2052.103, Government Code;

(2) shall be an average of the four reports filed for that fiscal year;

(3) shall include only employees paid with funds appropriated through this Act;

(4) shall not include overtime hours; and

(5) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.

(f) This section shall not apply to appropriations made by this Act to the:

(1) Office of the Governor; or

(2) Comptroller.

(g) The limitations on FTEs under this section do not apply to a state agency or institution in instances of employment, including employment of temporary or contract workers, directly associated with events declared disasters by the Governor. Each state agency or institution shall annually notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this section.

(h) (1) The limitations on FTEs under this section do not apply to a state agency or institution in an instance of employment for a project, including employment of a temporary or contract worker, if the FTEs associated with that project are not included in the number of FTEs allowed in the agency's bill pattern and the employees are associated with:

(A) implementation of a new, unanticipated project that is 100 percent federally funded; or

(B) the unanticipated expansion of an existing project that is 100 percent federally funded.

(2) With regard to the exemption from the FTE limitations provided by this Subsection (h), a state agency or institution is exempt from the FTE limitations only for the duration of the federal funding for the employment related to the project and all salaries, benefits, and other expenses incurred related to employment must be paid from federal funds.

(3) This Subsection (h)does not exempt any employees associated with existing projects that are 100 percent federally funded and included in the number of FTEs allowed in the agency's bill pattern.

(4) Each state agency or institution shall notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this Subsection (h).

(i) If a program is transferred from a state agency or institution of higher education, then at any time during the biennium, the Legislative Budget Board and the Governor may agree to reduce the

Unofficial copy Travis Co. District Clerk Velva L. Price

number of FTEs paid from funds appropriated by this Act by the state agency or institution of higher education for one or more fiscal quarters to a figure below that indicated by this Act for that agency or institution.

(j) The limitations on FTEs under this section do not apply to a state agency or institution of higher education in an instance of employment, including employment of a temporary or contract worker, if the employee is paid from appropriations of gifts and grants under Section 8.01 of this Article.

(k) The requirements of requesting and reporting under this section do not apply to a state agency or an institution of higher education with fewer than 50 FTEs allowed in the agency's or institution's bill pattern.

Sec. 6.11. Purchases of Postage.

(a) If the expenditures for postage by an agency, other than the Legislature or an institution of higher education, exceed $4,000 for a fiscal year, the agency shall purchase postage only in accordance with §2113.103(c), Government Code.

(b) The amount received by an agency as a refund of postage used by the agency shall be deposited in the fund to the credit of the appropriation from which postage for the agency is paid and is appropriated to the agency for postage use.

Sec. 6.12. Expenditures for State-Federal Relations.

(a) Funds appropriated by this Act may not be spent by a state agency to carry on functions for which funds have been appropriated to the Office of State-Federal Relations to perform except when an interagency contract has been executed between the Office of State-Federal Relations and the state agency.

(b) Prior to travel to the Washington, D.C. area, including any trip with a destination to the Reagan-National, Dulles, or Baltimore Washington International airports, state agency personnel shall inform the Office of State-Federal Relations regarding:

(1) the timing of the trip;

(2) the purpose of the trip; and

(3) the name of a contact person for additional information.

(c) Under Subsection (b) the term "travel" is limited to only activities:

(1) involving obtaining or spending federal funds; or

Upon receipt of more specific information such as personnel-time allocation information for payrolls, or allocation of office supplies or other goods and services, agencies may reimburse the original paying appropriations by transfer from the appropriation to which the expenditure should have been charged. Such transfers must be accomplished within twelve months in a manner which records appropriate expenditures to the borrowing appropriation and negative expenditures to the lending appropriation. These transfers may be in summary amounts in a manner approved by the Comptroller. Each agency must maintain adequate detailed records to support summary transfer amounts.

(h) The Legislative Budget Board may issue guidelines for software development, quality assurance, and the review of major information resources projects.

(i) Unless waived by the Legislative Budget Board the QAT shall require each affected agency to:

(C) are specifically identified in a Capital Budget in this Act; and

(2) the Governor and Legislative Budget Board have approved the expenditure.

(b) The Texas Facilities Commission shall report all expenditures of funds appropriated by this Act exceeding an aggregate amount of $25,000 for the biennium for purchasing, remodeling, or repairing any one particular personal residence or living quarters to the Legislative Budget Board.

Sec. 11.02. Statewide Capital Planning.

(a) An agency or institution of higher education appropriated funds by this Act shall supply to the Bond Review Board capital planning information relating to projects subject to this section and financing options for the 2016-17 fiscal biennium in a format and according to guidelines developed by the Bond Review Board. Such information shall include:

(1) a description of the project or acquisition;

(2) the cost of the project;

(3) the anticipated useful life of the project;

(4) the timing of the capital need;

(5) a proposed source of funds (method of financing);

(6) a proposed type of financing; and

(7) any additional related information requested by the Bond Review Board.

(b) The Bond Review Board shall compile a statewide capital expenditure plan for the 2016-17 fiscal biennium from the information submitted by agencies and institutions in accordance with the capital planning guidelines. Copies of the guidelines shall be filed with the Governor and the Legislative Budget Board no later than December 31, 2013. Sec. 11.03. Efficient Use of State Owned and Leased Space.

(a) In the event that an agency moves from leased space to state owned space subsequent to the passage of this Act, the Comptroller shall reduce funds appropriated to each affected agency, by an amount equal to the lease costs that would have been incurred for the remainder of the biennium had the agency remained in leased space, less the costs the agency incurs for moving and the agency's tenant finish-out expenses as defined by the Texas Facilities Commission. Required moving and tenant finish-out costs incurred by an agency moving from leased space

The Comptroller shall transfer to the Texas Facilities Commission from the special funds or accounts, including dedicated General Revenue Fund accounts, of those agencies that move into a state facility funded from Texas Public Finance Authority revenue bond proceeds, each agency's proportional share of the lease payments made for the facility as determined by the Texas Facilities Commission. If obtaining a reduced lease rate requires the agency to move its location, the Comptroller shall reduce the agency's appropriations less costs the agency incurs for moving the agency's tenant finish-out expenses as defined by the Texas Facilities Commission. Required moving and tenant finish-out costs incurred by an agency moving from leased space in fiscal year 2014 may be paid from fiscal year 2015 appropriations as necessary to facilitate the move.

(c) If an agency fails to notify the Texas Facilities Commission in writing at least one year prior to a lease expiration, and is subsequently forced to initiate an emergency lease agreement, the agency shall have its appropriation in each fiscal year in which it is in an emergency lease agreement reduced by the dollar amount charged to the agency in addition to its base level rent.

(d) If an agency notifies the Texas Facilities Commission in writing one year prior to a lease expiration in accordance with Chapter 2167, Government Code, and the Texas Facilities Commission fails to renew/initiate a lease agreement for the agency by the lease expiration date, and an agency is forced to initiate an emergency lease agreement, the Texas Facilities Commission shall have its appropriation reduced in each fiscal year in which the affected agency is in an emergency lease agreement by the dollar amount charged to the agency in addition to the agency's base level rent.

(e) The Comptroller will make all necessary reductions established in this provision each month of an emergency lease agreement. Funds lapsed by agencies for violation of this provision shall be deposited into the fund in the State Treasury from which they were originally appropriated.

(f) Additionally, the Texas Facilities Commission shall provide quarterly reports to the Legislative Budget Board and the Governor detailing the number of state agencies holding emergency leases, and providing the status on the progress of terminating the emergency lease agreement.

Sec. 11.06. Prepayment of Annual Lease Costs.

(a) The Texas Facilities Commission may enter into an agreement, on behalf of a state agency, with a landlord for prepayment of the annual lease costs in exchange for an early payment discount.

(b) A report regarding the amount of savings realized as a result of an early payment discount shall be provided to the Legislative Budget Board by the Texas Facilities Commission no later than 30 days subsequent to the date of the duly executed agreement with the landlord. After approval by the Legislative Budget Board, the Comptroller shall reduce the appropriations of the affected agency for each year of the biennium in an amount identified by the Texas Facilities Commission and submitted to the Comptroller.

Sec. 11.07. Use of Water Conservation Techniques in State Construction. Out of funds appropriated elsewhere in this Act, the Facilities Commission or any other state agency, including institutions of higher education, shall consider the use of water conservation techniques, including but not limited to waterless urinals and low-flow appliances, in the construction and remodeling of state facilities. A state entity covered by this provision that elects not to make use of water conservation technologies in the activities specified above shall report to the Facilities Commission the fiscal justification for such a decision. The Facilities Commission shall summarize received reports and provide the results to the Legislative Budget Board and the Office of the Governor not later than February 1, 2015.

PART 12. PROVISIONS RELATED TO PROPERTY

Sec. 12.01. Aircraft.

(a) Notwithstanding any other provision of this Act, the purchase of aircraft may not be made from appropriated funds except as authorized in this section.

Unofficial copy Travis Co. District Clerk Velva L. Price

(1) the aircraft to be replaced has been destroyed or has deteriorated to an extent that continued operation presents a serious hazard or that the aircraft to be replaced can no longer meet the mission requirements of the principal user state agency; and

(2) other state-owned aircraft cannot be effectively utilized in lieu of a replacement aircraft.

(e) Expenditures necessary to purchase liability insurance pursuant to §2205.045(a), Government Code, shall be made on a pro rata basis, as determined by the Texas Department of Transportation, from appropriations authorized to each agency operating a state-owned aircraft. The Comptroller shall transfer such necessary amounts from agencies operating aircraft to the Texas Department of Transportation for the purchase of liability insurance and expenditure of such funds by the Department is authorized.

(f) Any reimbursements received by a state agency for authorized aircraft services rendered to another state agency are appropriated to the agency receiving the reimbursements, and shall be credited to the agency's appropriation item from which the cost of aircraft operation is paid.

Sec. 12.02. Publication or Sale of Printed, Recorded, or Electronically Produced Matter or Records.

(a) Funds appropriated by this Act may not be used for the publication, recording, production, or distribution of any item or matter, including lists, notices, pamphlets, video recordings, audio recordings, microfiche, films or other electronically produced information or records unless such publication, recording, or production is:

(1) essential to accomplish or achieve a strategy or outcome target established by this Act; or

(2) required by law.

(b) Any funds received and collected from any charges specifically authorized by statute for the productions, publications, or records are appropriated to the agency issuing the productions, publications, or records for use during the year in which the receipts are collected. Sec. 12.03. Limitation on Expenditures for Purchases and Conversions of Alternative Fuel Vehicles. A state agency, including an institution of higher education, that is required to meet the percentage requirements for vehicles capable of using alternative fuels under Chapter 2158, Government Code, may expend funds appropriated by this Act for the purpose of meeting the percentage requirements only if the agency purchases or converts a vehicle that uses the most cost-effective, fuel efficient and mechanically efficient alternative fuel source.

Sec. 12.04. Transfer of Master Lease Purchase Program Payments.

(a) The Texas Public Finance Authority is authorized to transfer each agency's share of administrative fees and lease payments pursuant to the Master Lease Purchase Program from each agency's appropriations made elsewhere in this Act to the Texas Public Finance Authority Master Lease Purchase Program cost of issuance funds and the State Lease Fund Account, respectively. Transfers for administrative fees and lease payments may not be made earlier than 15 days prior to the date that debt service payment is required. The Texas Public Finance Authority may transfer funds necessary for Master Lease Purchase Program debt service payments from the State Lease Fund Account to the Texas Public Finance Authority Master Lease Purchase Program interest and sinking funds.

(b) The Comptroller shall assist the Texas Public Finance Authority in the transfer of lease payments. State agencies participating in the Master Lease Purchase Program shall cooperate in the timely transfer of lease payments to the Texas Public Finance Authority. The absence of specific Master Lease payment appropriations, identified in an agency's capital budget, does not release an agency from lease payment obligations.

PART 13. OTHER PROVISIONS

Sec. 13.01. Employee Meal Authorization. State agencies providing institution-based services, including the Texas Department of Criminal Justice, the Department of Aging and Disability Services, the Department of State Health Services, the Texas Juvenile Justice Department, the Texas School for the Blind and Visually Impaired, and the Texas School for the Deaf, may provide meals to employees working in institutional settings and may charge an amount established by the agencies to reimburse the direct and indirect costs of preparation.

Sec. 13.02. Bank Fees and Charges. From interest income appropriated by this Act, amounts may be used for the purpose of paying bank fees and charges as necessary.

Sec. 13.03. Appropriations from State Tax Revenue. The appropriations from state tax revenue not dedicated by the Constitution for the 2014-15 biennium shall not exceed the Texas Constitution's Article VIII, §22 limit of $77,898,176,324 established by the Legislative Budget Board pursuant to §316.002, Government Code. The limit on appropriations that can be made for the 2014-15 biennium is subject to adjustments resulting from revenue forecast revisions or subsequent appropriations certified by the Comptroller to the 2012-13 biennial appropriations from state tax revenue not dedicated by the Constitution. The Comptroller may adjust the composition of fund and account balances without any net change in balances or change in appropriations so as to ensure compliance with the limit set forth in Article VIII, §22 of the Texas Constitution.

Sec. 13.04. Informational Items. Object of expense (OOE) listings contained in this Act, and other informational listings are not appropriations, and are merely informational listings that are intended to qualify or direct the use of funds appropriated in agency strategies, or are incidental to the appropriation made in the agency strategies.

Sec. 13.05. Appropriation of Specialty License Plate Receipts.

(a) For the fiscal biennium beginning September 1, 2013, the amounts appropriated to an agency under Articles I-VIII of this Act include, regardless of whether or not the amounts may be shown under or limited by the bill pattern of the agency or the special provisions applicable to the Article of this Act under which the agency's appropriation might be located, all revenue collected by an agency on or after September 1, 2013, that is associated with the sale of a Texas specialty license plate, as authorized by Subchapter G, Chapter 504, Transportation Code, or other applicable statute, including any new license plates that may be authorized or issued after September 1, 2013.

(c) Contingent upon the enactment of House Bill 7, or similar legislation relating to the amounts, availability, and use of certain statutorily dedicated revenue and accounts, by the Eighty-third Legislature, Regular Session, 2013, if House Bill 7 provides for the elimination of dedicated accounts established for specialty license plates under Subchapter G, Chapter 504, Transportation Code, and for the deposit of fees payable under that subchapter instead to the credit of an account in a trust fund outside the General Revenue Fund, for the fiscal biennium beginning September 1, 2013, the amounts appropriated to an agency under Articles I-VIII of this Act and under Subsection (a) from a dedicated account established for specialty license plates under Subchapter G, Chapter 504, Transportation Code, are reduced to $0 and an amount equal to the reduction is appropriated to those agencies instead from the trust account established by the bill.

PART 14. AGENCY DISCRETIONARY TRANSFER PROVISIONS

Sec. 14.01. Appropriation Transfers.

(a) Subject to any specific restriction in another provision of this Act, an appropriation contained in this Act may be transferred from one appropriation item to another appropriation item in an amount not to exceed 20 percent of the appropriation item from which the transfer is made for the fiscal year, at the discretion of the chief administrative officer of the state agency.

(b) After obtaining the written approval of the Governor and the Legislative Budget Board, a state agency may exceed the 20 percent discretionary transfer authority provided to the chief administrative officer of the state agency under Subsection (a) of this Section.

(c) A request for approval to exceed the 20 percent discretionary transfer authority provided to the chief administrative officer of the state agency under Subsection (a) of this Section must be submitted by the agency's governing board (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board) and must include at a minimum:

(2) Funds appropriated by this Act in items of appropriation that are part of a Goal for "Indirect Administration" or "Indirect Administrative and Support Costs" may not be increased by transfer from an appropriation item from another Goal without the prior written approval of the Governor and the Legislative Budget Board.

(f) Appropriations made by this Act to each state agency are not subject to transfer:

(1) between fiscal years ; nor

(2) between agencies except under the provisions of interagency contract, budget execution statutes, or specific rider or statutory authorization.

Sec. 14.02. Transfers for Contract Services. Funds appropriated in the various Articles of this Act for "Employees Retirement System," "Social Security State Match," and "Benefit Replacement Pay" may be transferred between Articles for similar appropriation items for the purpose of paying employee benefits costs incurred by higher education institutions when those institutions have contracted to provide services to state agencies.

Sec. 14.03. Limitation on Expenditures - Capital Budget.

(a) Contained in appropriations made to certain agencies by this Act are amounts identified as the "Capital Budget." Except as provided under this Section, none of the funds appropriated by this Act, in excess of amounts restricted to capital budget purposes, may be expended for capital budget purposes without the prior approval of the Governor and Legislative Budget Board.

(b) A request for approval to exceed the transfer limitation on capital budget expenditures under Subsection (h) must be submitted by the agency's governing board (if the agency has a governing board) or by the chief administrative officer of the agency (if the agency has no governing board) and must include at a minimum:

(1) the date on which the governing board (if applicable) approved the request;

(2) expenditures for Capital Budget purposes made by:

(A) institutions of higher education; or

(B) public community/junior colleges.

(d) "Capital Budget" includes expenditures, for assets with a biennial project cost or unit cost in excess of 100,000, within the following categories:

(2) Construction of Buildings and Facilities;

(3) Repairs or Rehabilitation of Buildings and Facilities;

(4) Construction of Roads (except for such expenditures made by the Texas Department of Transportation);

(5) Acquisition of Information Resource Technologies;

(A) In order to provide for unanticipated shortages in appropriations made by this Act for fiscal year 2014 for the payment of data center consolidation costs, amounts identified elsewhere in this Act for fiscal year 2015 for "Data Center Consolidation" may be transferred to fiscal year 2014 to pay data center consolidation costs. Agencies transferring appropriations related to data center consolidation costs must notify the Governor and Legislative Budget Board 30 days prior to the transfer of funds.

(B) "Data Center Consolidation" for the purposes of this section is defined as state consolidated data center services in accordance with Government Code, Chapter 2054, Subchapter I.

(C) Funds restricted to "Acquisition of Information Resource Technologies" may also be used to purchase or contract for computer time, facility resources, maintenance, and training.

(6) Transportation Items;

(8) Other Lease Payments to the Master Lease Purchase Program (for items acquired prior to September 1, 2013, only).

(e) Any expenditure directly related to acquisition of an asset, or to placing an asset in service, may be paid from the appropriation made to the "Capital Budget."

(f) In implementing this section, the Comptroller should refer to the detailed instructions for preparing and submitting requests for legislative appropriations for the biennium beginning September 1, 2013, and the definitions therein, and to the official request for legislative appropriations submitted by the affected agency.

(g) Appropriations restricted to capital budget purposes and not identified in a "Capital Budget" as being for lease payments to the master lease purchase program (MLPP) or for other lease-purchase payments may be utilized to make lease payments under MLPP or for other lease or installment payments only if the agency to which the appropriation is made provides a report to the Comptroller specifying the sum of the lease payments to be made during the biennium for the Capital Budget item being acquired. The Comptroller shall reduce the appropriation made by this Act for the Capital Budget item in an amount equal to the difference between the

Unofficial copy Travis Co District Clerk Velva L Price

appropriated amount and the sum of the lease payments for the biennium and deposit that amount into the unappropriated balance of the original funding source. In the event that the Comptroller cannot determine the amount appropriated for a specific Capital Budget item, the amount shall be determined by the Legislative Budget Board.

(h) (1) An agency may transfer appropriations:

(A) from a non-capital budget item to a capital budget item;

(B) from a capital budget item to another capital budget item; or

(C) from a capital budget item to an additional capital budget item not presented in the agency's bill pattern.

(2) Without the approval of the Governor and the Legislative Budget Board:

(A) the amounts transferred during a fiscal year as provided by Subdivision (1) of this Subsection (h) may not exceed 25 percent of either:

(i) the amount of the capital budget item, as presented in the agency's bill pattern from which funds are being transferred; or

(ii) the amount of the capital budget item, if presented in the agency's bill pattern, to which funds are being transferred;

(B) appropriations may not be transferred directly from a non-capital budget item to an additional capital budget item not presented in the agency's bill pattern;

(D) an agency that does not have a capital budget provision following its items of appropriation in this Act may not use funds appropriated by this Act for capital budget purposes.

(3) An agency may not transfer appropriations from a capital budget item to a non-capital budget item without the prior written approval of the Governor and the Legislative Budget Board.

(i) Unexpended balances remaining in appropriations made by this Act for capital budget purposes for fiscal year 2014 are appropriated for fiscal year 2015 for the same purpose.

(j) (1) Notwithstanding limitations on capital expenditures provided elsewhere, appropriations made by this Act that may be used for the payment of utility bills are authorized to be used to pay for energy and water conservation-related projects, including lease payments under the state's Master Lease Purchase Program, entered into in accordance with energy and water conservation statutes.

(2) Capital expenditures for items that could be financed through the utility savings made possible by a comprehensive energy and water conservation contract authorized by §2166.406, Government Code, are prohibited unless part of a comprehensive energy and/or water conservation contract authorized under §2166.406, Government Code.

(3) Before authorizing expenditures for capital items that consume energy or water or that are related to the energy and/or water consumption of an agency's facilities, the Comptroller must verify that the items could not be part of a cost-effective contract for energy and water conservation measures authorized by §2166.406, Government Code.

(k) Legislative Budget Board may direct the Comptroller of Public Accounts to reduce funds appropriated by this Act to a state agency for capital budget purposes.

This section is intended to serve as a means for quickly, effectively, and efficiently transferring appropriations in the event of a disaster. This Section 14.04 provides an exception to any other provision of this Act which might otherwise limit transfers of appropriations such as by imposing a limit on the amount of a transfer or which might otherwise limit transfers of appropriations by causing a delay in making a transfer because of the need to take actions such as preparing reports or obtaining approvals prior to transferring appropriations necessary for responding to a disaster. No part of this Section 14.04 shall be read to limit, modify, or abridge the authority of the Governor to proclaim martial law or exercise any other powers vested in the Governor under the constitution or laws of this state.

(b) Health and Human Services Agencies: For a health and human services agency listed in Chapter 531, Government Code, that directly responds to the disaster, the Commissioner of Health and Human Services is authorized to transfer funds from another health and human services agency listed in Chapter 531, Government Code, to the responding agency, and may transfer funds between the strategies of each agency for the purpose of funding the disaster response subject to the prior notification of the Legislative Budget Board and Governor as provided by Subsection (g).

(c) Other Agencies: An agency other than a health and human services agency listed in Chapter 531, Government Code that directly responds to a disaster may transfer appropriations within the agency, without regard to any limits on transfer of appropriations between strategies, subject to the prior notification of the Legislative Budget Board and Governor as provided by Subsection (g).

(d) Transfers Between Agencies: In the event that a transfer involving at least one agency not listed in Chapter 531, Government Code is necessary in order to respond to a disaster, the agencies involved in the transfer shall request approval from the Legislative Budget Board and the Governor for the emergency transfer of funds, pursuant to Article XVI, Section 69, Texas Constitution. Any request under this Subsection (d) should include the same information required in the recommended plan of transfer below, and a copy shall be provided to the Comptroller.

(e) Appropriation Transfers between Fiscal Years: Agencies responding to a disaster are authorized to transfer funds appropriated in fiscal year 2015 to fiscal year 2014, subject to the prior notification of the Legislative Budget Board and Governor as provided by Subsection (g).

(f) Unexpended Balances: Any unobligated balances from transfers made under Subsection (e) as of August 31, 2014, are appropriated to the agency for the same purpose for the fiscal year beginning September 1, 2014.

(g) Notification of Recommended Plan of Transfer.

(1) Recommended Plan of Transfer: A recommended plan of transfer submitted by an agency to the Governor and Legislative Budget Board under this Section 14.04 must include the following information:

(A) a copy of the appropriate disaster proclamation made under Chapter 418, Government Code;

(B) the amounts to be transferred (listed by method of finance);

(C) the agency or agencies affected;

(D) the programs affected by the transfer; and

(E) any other information requested by the Legislative Budget Board.

Unofficial copy Travis Co. District Clerk Velva L. Price

(2) Notification: An agency must notify the Legislative Budget Board, the Comptroller, the Governor, and any other agency involved in the transfer prior to the date of recommended transfers. The Comptroller shall transfer the funds as recommended.

Sec. 14.05. Unexpended Balance Authority Between Fiscal Years within the Same Biennium. An agency may transfer any unexpended and unobligated balances remaining as of August 31, 2014 for the same purposes for the fiscal year beginning September 1, 2014, if the agency has been granted, either:

(1) specific authority in another provision of this Act; or

(2) prior written approval of the Legislative Budget Board.

PART 15. AGENCY NON-DISCRETIONARY TRANSFER PROVISIONS

Sec. 15.01. Reimbursements for Unemployment Benefits.

(a) For the purposes of this section, "agency" includes a state agency as defined under §2151.002, Government Code, which includes an institution of higher education (except a public junior college) as defined under §61.003, Education Code.

(b) At the close of each calendar quarter, the Texas Workforce Commission shall prepare a statement reflecting the amount of unemployment benefits paid to all former state employees based on wages earned from state employment and present it to the Comptroller. The Comptroller shall pay by warrant or transfer out of funds appropriated from the Unemployment Compensation Special Administration Account No. 165 such amount to the Unemployment Compensation Benefit Account No. 937 to reimburse it for such payments.

(c) The Unemployment Compensation Special Administration Account No. 165 shall be reimbursed, as Interagency Transfers to the Unemployment Compensation Special Administration Account No. 165, for one-half of the unemployment benefits paid, from appropriations made in this Act to the agency that previously employed each respective former state employee whose payroll warrants were originally issued in whole or part from the General Revenue Fund or dedicated General Revenue Fund accounts, Federal Funds, or Other Funds, such as Fund No. 006.

(d) From information related to unemployment benefits paid on behalf of previously employed former state employees provided by the Texas Workforce Commission, the Comptroller shall determine the proportionate amount of the reimbursement or payment due from the General Revenue Fund, any General Revenue-Dedicated accounts, Federal Funds or Other Fund appropriations made elsewhere in this Act to agencies. The Comptroller shall transfer such amounts to the Unemployment Compensation Special Administration Account No. 165. The amounts reimbursed pursuant to this subsection are appropriated to the Unemployment Compensation Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937, as Interagency Transfers to the Unemployment Compensation Special Administration Account No. 165. The reimbursement requirements established by this subsection may be waived, either in whole or in part, by the Legislative Budget Board.

(e) In addition to other reimbursement provided by this section, the Unemployment Compensation Special Administration Account No. 165 shall be reimbursed, for one-half of the unemployment benefits paid, from amounts appropriated to the Reimbursements to the Unemployment Compensation Benefit Account item in this Act out of dedicated General Revenue Fund accounts or Other Funds and shall be fully reimbursed from funds held in local bank accounts, for all former state employees whose payroll warrants were originally issued in whole or part from dedicated General Revenue Fund accounts, Other Funds or local bank accounts, respectively. From information provided by the Texas Workforce Commission, the Comptroller shall determine the proportionate amount of the reimbursement or payment due from funds other than General Revenue and transfer such funds to the Unemployment Compensation Special Administration Account No. 165. The amounts reimbursed from local funds pursuant to this subsection are appropriated to the Unemployment Compensation

Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937. Such transfers and payments as are authorized under law shall be made not later than the 30th day after the date of receipt of the statement of payments due.

(f) The Comptroller may prescribe accounting procedures and regulations to implement this section.

(g) The Comptroller, upon certification of amounts due from the Texas Workforce Commission, including the sources of such amounts due, may transfer funds from such agencies or other units of state government as the Texas Workforce Commission certifies remain due more than 30 days from receipt of the statement of payments due. The Texas Workforce Commission shall also determine the amounts due from funds held outside the state treasury and notify the State Auditor and Comptroller of such amounts.

Sec. 15.02. Payments to the State Office of Risk Management (SORM).

(a) In this section:

(1) "Agency" includes a state agency as defined under §2151.002, Government Code, which includes an institution of higher education (except a public junior college) as defined under §61.003, Education Code, and may also include any other unit of state government as defined by the rules of SORM, which participates in cost allocation plan provided under this section;

(2) "Assessment" means the amount of the workers' compensation assessment placed on an agency by SORM and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in A.1.1, Risk Management Program and A.2.1, Pay Workers' Compensation, as provided by this section and other relevant law; and

(3) "SORM" means the State Office of Risk Management.

(b) At the beginning of each fiscal year, SORM shall prepare a statement reflecting the assessments due from all agencies and present it to the Comptroller.

(c) (1) Notwithstanding other provisions in this Act, agencies shall transfer to SORM seventy-five percent (75%) of their assessed allocation which includes amounts for workers' compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds or local bank accounts and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in A.1.1, Risk Management Program and A.2.1, Pay Workers' Compensation.

(2) Not later than May 1 of each fiscal year, SORM shall determine, based on actual costs since the beginning of the fiscal year and other estimated costs, the remaining assessment due from each agency. SORM shall prepare a statement reflecting the remaining assessments due from each agency and present the statement to the Comptroller. Each agency shall transfer to SORM the remaining assessed allocation which includes amounts for workers' compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds or local bank accounts and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in A.1.1, Risk Management Program and A.2.1, Pay Workers' Compensation.

(d) Transfers and payments as are authorized under law shall be made not more than 30 days from receipt of the statement of payments due.

(e) The Comptroller may prescribe accounting procedures and regulations to implement this section.

Unofficial Copy Travis Co. District Clerk Velva L. Price

(f) Upon certification by SORM of amounts due, the Comptroller may transfer funds from an agency if the assessment amount due remains unpaid after more than 30 days from receipt of the statement of payments due.

(g) All funds recovered by SORM from third parties by way of subrogation are appropriated to SORM to be used for the payment of workers' compensation benefits to state employees and shall be retained in Strategy B.1.1, Workers' Compensation Payments, in whole for that purpose.

(h) Amounts not to exceed 2 percent in total of workers' compensation annual expenditures may be awarded to agencies by SORM for the purposes of risk management and loss prevention. In the event that collections in Strategy B.1.1, Workers' Compensation Payments, funded by the annual assessments to agencies, exceeds 110 percent of the expected annual payments, the portion of the excess over 110 percent funded from all funding sources shall be returned to agencies. The excess returned to the agencies by SORM is appropriated to the agencies for expenditures consistent with the original funding source. Any funding less than 110 percent of collections in Strategy B.1.1, Workers' Compensation Payments not used for workers' compensation payments shall be used by SORM to lower the cumulative assessments to agencies the following fiscal year.

(i) In the event the total assessments in any year prove insufficient to fund expenditures, SORM may, with the approval of the Legislative Budget Board, temporarily utilize additional general revenue in an amount not to exceed 20 percent of the cumulative assessments for that fiscal year. Any additional general revenue funds will be utilized only for the purpose of temporary cash flow and must be repaid upon receipt of the following year's assessments in accordance with procedures established by the Comptroller. All transfers from and repayments to the General Revenue Fund shall be reported by SORM to the Legislative Budget Board within 30 days of the transfer.

(j) The reimbursement requirements established by this section may be waived or delayed, either in whole or in part, by the Legislative Budget Board.

(k) SORM shall require agencies to provide to SORM and agencies shall submit to SORM information regarding the specific funding sources from which agencies pay their assessed allocation amounts for workers' compensation coverage for their employees.

Sec. 15.03. Contingency Appropriation Reduction.

(a) After considering all other contingency riders in this Act and all legislation passed by the Eighty-third Legislature that affects revenue, if the appropriations made by Articles I through X of this Act exceed the estimated available revenue, all appropriations made under this Act out of the General Revenue Fund and General Revenue-Dedicated accounts are automatically reduced on a pro-rata basis by the amount necessary, if any, to ensure that the total amount appropriated does not exceed the estimated revenue, pursuant to Article 3, Section 49a, Texas Constitution; provided, however, that appropriations described under Subsection (c) of this section shall not be reduced.

(b) The Comptroller shall report the amount of the automatic reductions, if any, to the Governor and Legislative Budget Board.

Sec. 16.01. Court Representation and Outside Legal Counsel.

(a) (1) Except as otherwise provided by the Constitution or general or special statutes, the Attorney General shall have the primary duty of representing the State in the trial of civil cases. The provisions of this section apply to the representation of a state governmental entity by outside legal counsel in all legal matters.

(2) Funds appropriated by this Act may not be used by a state governmental entity for retaining outside legal counsel before the state governmental entity requests the Attorney General to perform such services.

(3) If the Attorney General determines that outside legal counsel is in the best interest of the State, the Attorney General shall so certify to the Comptroller and to the requesting a state governmental entity which may then utilize appropriated funds to retain outside legal counsel.

(4) Funds appropriated by this Act may not be used to contract with an outside legal counsel who represents clients before the state governmental entity or who has, during a six month period preceding the initiative of the contract and a six month period following the termination of the contract, represented clients before the state governmental entity.

(5) A state governmental entity may not initiate the process of selecting outside legal counsel prior to receiving the approval of the Attorney General to retain outside legal counsel.

(b) Funds appropriated by this Act may not be expended by a state governmental entity to initiate a civil suit or defend itself against a legal action without the consent of the Attorney General. Absent this consent, the state governmental entity shall be represented in that particular action by the Attorney General.

(c) On receipt of a request by a state governmental entity to retain outside legal counsel, the Attorney General shall make a determination on the request as expeditiously as possible, but in no event later than 10 working days after receiving such request.

(d) Funds appropriated by this Act may not be used to pay compensation to outside legal counsel for representing a state governmental entity in the trial of a civil suit if the Attorney General, district attorney, criminal district attorney, county attorney, or other lawyer is required by constitutional or statutory provision to represent a state governmental entity except in those

cases where the Attorney General consents to such representation or the district attorney, criminal district attorney, county attorney, or other lawyer has requested that the attorneys employed by the particular state governmental entity assist with the trial of the particular civil suit.

(e) (1) This section does not restrict a state governmental entity in the investigation and assembling of evidence in connection with a pending or prospective civil suit.

(2) This section does not prohibit a state governmental entity or its employees from investigating, filing, or presenting to any person a claim, owing to the State.

(f) This section does not restrict the Attorney General from employing special assistants to assist in the trial of civil suits to be paid from the appropriations therefore made to the Attorney General.

(g) If a state governmental entity requests the Attorney General to take legal action in court against another state governmental entity, the Attorney General shall give special consideration to permitting one of the state governmental entities to employ, from the permitted state governmental entity's funds, outside legal counsel to represent that state governmental entity in that action, in order to avoid a conflict of interest by the Attorney General in the representation of both state governmental entities.

(h) If the Attorney General initiates legal action against another state governmental entity on behalf of the Attorney General rather than another state governmental entity, the Legislature determines that a conflict of interest exists and the state governmental entity against which the Attorney General takes action may expend appropriated funds for outside legal counsel to represent that state governmental entity without the prior approval or consent of the Attorney General.

(i) Subsections (a) - (h) do not apply to funds appropriated to:

(1) Office of the Governor;

(2) Comptroller;

(3) Department of Agriculture;

(4) General Land Office and Veteran's Land Board; or

(B) under which recoveries from more than one entity are contemplated and the expected amount of each recovery and the actual amount of each recovery do not exceed $100,000.

(l) Any litigation that results in settlement, court order or other arrangement providing revenues or financial benefits to the State of Texas shall be structured to require the entire amount due to be paid to the treasury.

(m) (1) None of the money paid to a state governmental entity (as a result of a settlement of litigation, or other arrangement providing revenues or financial benefits as a result of litigation) may be expended by any state government entity unless the Legislative Budget Board is notified in writing by the Attorney General regarding the terms of the settlement or other arrangement and by the state governmental entity receiving the money regarding the plans for the use of the money. (1) pursuant to this section; or

(2) where it is specifically provided in an item of appropriation that the funds thereby appropriated or expenditures therein authorized may be used for the payment of such judgments or settlements.

(b) State agencies appropriated funds by this Act may expend funds appropriated elsewhere in this Act for the purposes of paying settlements and judgments against the state for causes brought in a federal court or a court in this state under specific statutory authority. Payments made pursuant to this subsection are subject to the following processes and limitations:

(d) Payment of all judgments and settlements prosecuted by or defended by the Attorney General is subject to approval of the Attorney General as to form, content, and amount, and certification by the Attorney General that payment of the judgment or settlement is a legally enforceable obligation of the State. This subsection applies equally to funds appropriated for expenditure through the state treasury, as well as funds appropriated for expenditure from funds held in local banks.

(e) The Attorney General shall report to the Legislative Budget Board and the Governor not less than monthly, a listing of all settlements and judgments of more than $5,000 submitted to the Comptroller for payment. On verification that an agency has not obtained the Attorney General's approval prior to payment of a judgment or settlement, the State Auditor may certify such fact to the Comptroller. The Comptroller may withhold all appropriations for administrative expenses for the involved agency until the Legislative Audit Committee notifies the Comptroller that the agency's non-compliance has been reviewed and necessary recommendations or changes have been made.

Estimated Supplemental Funding for Prekindergarten

Word version

Date: Thursday, July 25, 2013

TO THE ADMINISTRATOR ADDRESSED:

Subject: Estimated Supplemental Funding for Prekindergarten

The 83rd Texas Legislature provided an appropriation for supplemental prekindergarten funding for the 2013-2014 and 2014-2015 school years. The rider language specifies that "the Commissioner of Education shall allocate $15,000,000 in General Revenue in each fiscal year of the 2014-15 biennium for the purpose of providing supplemental funds for prekindergarten consistent with the provisions of Texas Education Code Chapter 29, Subchapter E. The Commissioner shall allocate funds on the basis of eligible prekindergarten students in average daily attendance."

To implement the rider, the Texas Education Agency (TEA) will use the 2012-2013 average daily attendance (ADA) count of prekindergarten students used for state funding purposes to distribute funding for the 2013-2014 school year, and the 2013-2014 count to distribute funding for the 2014-2015 school year.

The attached spreadsheet provides estimated allotments for the 2013-2014 school year. The estimated allotments are based on our estimates of districts' prekindergarten ADA for 2012-2013. The ADA estimates are based on the 2012-2013 prekindergarten enrollment reported to the Public Education Information Management System (PEIMS) in the first submission of 2012-2013 data. We calculated a ratio by dividing the number of prekindergarten students in ADA for the 2011-2012 school year by the number of prekindergarten students in enrollment for the same year. That ratio was applied to the 2012-2013 prekindergarten enrollment to estimate the prekindergarten ADA for 2012-2013. The spreadsheet reflects estimated allotments for planning purposes only. Final allotments will be determined later this year after the final ADA data for 2012-2013 are released in late September. The current estimated allotment per prekindergarten student ADA is $146.01.

If you have questions, please contact the State Funding Division at (512) 463-9238.

Sincerely,

Amanda Brownson
Director of State Funding

The total funding level for the FSP provides for an increase in the Basic Allotment from $4,765 in both fiscal years to $4,931 in fiscal year 2014 and $5,022 in fiscal year 2015 and assumes that the Regular Program Adjustment Factor at 1.00, effectively eliminating this mechanism for reducing entitlement.

Funding allows for structural repair of the 13 earthen flood control dams currently designated as high hazard dams.

TRANSPORTATION

- $17.4 billion in All Funds is provided for transportation planning and design, right-of-way acquisition, construction, and maintenance and preservation. The All Funds amount includes $8.2 billion for maintenance and preservation of the existing transportation system, an increase of $1.5 billion from the 2012–13 biennial level of funding; $6.7 billion for construction and highway improvements (an increase of $1.2 billion); $1.6 billion for transportation system planning, design, and management; and $0.9 billion for right-of-way acquisition (a decrease of $1.1 billion). $2.4 billion in All Funds (an increase of $756 million) is provided for debt service payments and other financing costs for the Texas Department of Transportation's borrowing programs, including $1.9 billion in Other Funds from the State Highway Fund and the Texas Mobility Fund, $368.4 million in General Revenue Funds, and $125.7 million in Federal Funds from Build America Bond interest payment subsidies.

Department of Public Safety, reducing that agency's reliance on State Highway Funds for its operations. A similar swap of $134.7 million is in House Bill 1025, which would bring the total additional State Highway Funds to the Texas Department of Transportation to $400 million for the 2014–15 biennium.

STATE EMPLOYEE SALARY INCREASES

- $246.6 million in All Funds, including $167.1 million in General Revenue and General Revenue–Dedicated Funds, is provided for an across-the-board pay raise for state employees of 1 percent with a $50 per month minimum in fiscal year 2014, and an additional 2 percent with a $50 per month minimum in fiscal year 2015. Exempt employees, those who received a targeted pay increase, and higher education employees (except employees working for a Texas A&M service agency) are excluded.
- $102.8 million in All Funds, including $17.2 million in General Revenue and General Revenue–Dedicated Funds, is provided for salary increases for Schedule C law enforcement officers at the Department of Public Safety, Texas Department of Criminal Justice, Texas Alcoholic Beverage Commission, and game wardens at Texas Parks and Wildlife Department. The salary increase is equivalent to one-half of an equity adjustment plus a 5 percent raise in fiscal year 2014, and a similar increase in fiscal year 2015 resulting in a full equity adjustment plus a 10 percent raise compared to 2013 salary levels.
- $34.8 million in General Revenue Funds is provided for a 12 percent judicial pay raise for judges and those statutorily linked to state district judge pay, and $1.2 million is provided for similar increases for visiting judges.
- $126.6 million in General Revenue Funds is provided for a salary increase of 5 percent, starting in fiscal year 2014, for correctional officers at the Texas Department of Criminal Justice and juvenile correctional officers at the Texas Juvenile Justice Department.
- $68.2 million in All Funds and $47.1 million in General Revenue and General Revenue–Dedicated Funds is provided for salary increases for certain employees at the following Health and Human Services agencies: (1) $32.7 million in All Funds and $13.8 million in General Revenue Funds for direct care staff at State Supported Living Centers at the Department of Aging and Disability Services; (2) $14.8 million in General Revenue Funds for psychiatric nursing assistants at State Hospitals at the Department of State Health Services; and (3) $20.7 million in All Funds and $18.5 million in General Revenue Funds for a career ladder for workers and supervisor reclassification at the Department of Family and Protective Services.

STATE EMPLOYEE RETIREMENT AND HEALTH BENEFITS

- $818.6 million in All Funds is provided for state contributions to the Employees Retirement System (ERS) retirement program for general state employees. The funding for state contributions to the ERS retirement program reflects an increase of $107.2 million in All Funds ($73.4 million in General Revenue Funds and General Revenue–Dedicated Funds) for state employee retirement benefits. Factors used to develop these appropriations include a 6.5 percent state contribution rate in fiscal year 2014; a 7.5 percent state contribution rate in fiscal year 2015; and full-time equivalent and career ladder pay increases at specific state agencies. Further, due to the passage of Senate Bill 1459, up to $57.2 million in retirement and group insurance unexpended balances from fiscal year 2013 can be used to increase the state retirement contribution to 7.5 percent for fiscal year 2014.
- $3,134.2 million in All Funds and $2,032.2 million in General Revenue Funds and General Revenue–Dedicated Funds is provided for state contributions for group insurance benefits for general state employees, retirees, and their dependents. The funding reflects increases of $533.2 million in All Funds, which includes an increase of $364.3 million in General Revenue Funds and General Revenue–Dedicated Funds.

Unofficial copy Travis Co. District Clerk Velva L. Price

The funding reflects a 7 percent premium growth rate increase for both fiscal years. In addition, state agencies also contribute 1 percent of payroll to cover a total 8 percent projected annual growth in healthcare claims. The funding also reflects 1.5 percent annual growth in overall program population due to a 5 percent annual growth in retirees.

TEACHER RETIREMENT AND HEALTH BENEFITS

- $3,239.7 million in All Funds and $3,011.6 million in General Revenue Funds is provided for the state contribution for retirement benefits through the Teacher Retirement System (TRS). Funding is sufficient for a state retirement contribution rate of 6.4 percent of payroll in fiscal year 2014 and 6.8 percent of payroll in fiscal year 2015. Based on historical data payroll trends, funding assumes no annual payroll growth for public education and 2.0 percent annual payroll growth for higher education. Funding limits the General Revenue Funds and General Revenue–Dedicated Funds appropriated for retirement contributions to 50 percent of the state contribution of 6.4 percent of total covered payroll for community colleges in fiscal year 2014 and 6.8 percent of total covered payroll for community colleges in fiscal year 2015. In addition, rider language provides for a contribution rate of up to 6.8 percent in fiscal year 2014 contingent on enactment of Senate Bill 1458 and the availability of funds through excess appropriations for state contributions for TRS retirement and insurance in fiscal year 2013 recovered through the statutory settle-up process.
- For retiree health insurance, funding is $123.8 million, or 33.3 percent above the 2012–13 biennium and provides for a statutorily-required state contribution to TRS-Care of 1.0 percent of public education payroll.

GENERAL REVENUE–DEDICATED FUNDS

- $6.8 billion in General Revenue–Dedicated Funds are provided for the 2014–15 biennium in Senate Bill 1. Increases in appropriations from certain General Revenue–Dedicated Funds total $413.4 from the 2012–13 biennial level. Note, these amounts do not include $500 million in System Benefit Fund balance appropriations made in House Bill 7. Specific increases include: $300.0 million for eligible expenses in Medicaid; $41.7 million for 9-1-1 system equipment and technology at the Commission on State Emergency Communications; $94.8 million in General Obligation bond debt service; $8.1 million for the Rural Volunteer Firefighter Assistance program; $28.2 million for the Physician's Education Loan Repayment program; $16.7 million for the Indigent Defense program at the Office of Court Administration; $24.9 million for additional Texas Emissions Reduction Plan grants; $32.5 million for fish and wildlife programs at the Texas Parks and Wildlife; $19.5 million for additional regulatory functions at the Texas Railroad Commission; $78.2 million for the Low-Income Discount program at the Public Utility Commission; $22.6 million for state employee salary increases; and $35.4 million for a statewide electronic filing system for court documents.

These increases are partially offset by decreases in General Revenue–Dedicated funding that largely reflect the expenditure of remaining fund balances in the 2012–13 biennium, some of which are replaced with General Revenue Funds. The largest decreases include: a $114.9 million decrease for Trusteed Programs within the Office of the Governor as Texas Enterprise Fund and Emerging Technology Fund balances are expected to be awarded by the end of fiscal year 2013; a $49.3 million decrease for Fiscal Programs – Comptroller of Public Accounts as balances are exhausted for new LoanSTAR energy efficiency loans in fiscal year 2013; and a $139.0 million decrease in Operator's and Chauffeur's License Account funds at the Department of Public Safety (DPS). The Operator's and Chauffeur's License Account funds will be used in support of the Law Enforcement and Custodial Officer Supplemental Retirement Fund beginning in fiscal year 2014. The DPS is provided an equal amount of General Revenue Funds in lieu of the expired General Revenue–Dedicated Funds.

ADDITIONAL APPROPRIATIONS

In addition to the appropriations made in the Senate Bill 1 Conference Committee Report, supplemental appropriations for fiscal year 2013, as well as appropriations for fiscal years 2014 and 2015, were made in other appropriation bills.

- House Bill 1025 appropriated $386.9 million in General Revenue and $2,695.7 million in All Funds for the 2014–15 biennium. The General Revenue Fund amount includes $201.7 million for the Foundation School Program at the Texas Education Agency and $175.0 million in a contingency appropriation for debt service on Tuition Revenue Bonds at the Higher Education Coordinating Board. The All Funds amount includes $2.0 billion to finance state water projects in a contingency appropriation subject to voter approval of Senate Joint Resolution 1 in November 2013. The All Funds amount also includes $325.6 million in revenue bonds at the Texas Facilities Commission.
- House Bill 7 appropriated $500 million from the System Benefit Fund (SBF) to increase support for the Low Income Discount Program at the Public Utility Commission. That legislation also eliminated the fee that supported that fund; these appropriations are from the existing balance in the SBF.
- House Bill 3188 appropriates $7.5 million to pay miscellaneous claims and judgements against the state.

The elements of cost for debt service and employee benefits/employer costs are described below. These costs are distributed to the various functions of government (e.g., Education, Public Safety and Criminal Justice, etc.) to reflect the total cost of each function.

DEBT SERVICE

Funding for debt service totals $4,012.0 million in All Funds for the 2014–15 biennium and consists of $2,160.8 million in fiscal year 2014 and $1,851.2 million in fiscal year 2015. Figure 11 shows estimated/budgeted and recommended General Obligation and revenue bond debt service costs by agency and methods of finance for the 2012–13 and 2014–15 biennia. Funding includes a biennial increase of $228.7 million in General Revenue Funds, or 15.6 percent, mainly due to an increase in appropriations of General Revenue Funds for debt service related to Highway Construction Bonds and General Obligation Bonds at the Texas Public Finance Authority (TPFA). Funding includes a biennial increase of $88.5 million in General Revenue–Dedicated Funds, or 118.5 percent, primarily related to debt service for cancer prevention and research bonds. This amount includes $8.5 million in General Revenue–Dedicated Funds for debt service for Cancer Prevention and Research bonds, contingent on the passage of Senate Bill 149, or similar legislation, related to the administration of the Cancer Prevention and

Research Institute of Texas. In addition, the funding includes a biennial increase of $538.5 million in Other Funds, or 36.4 percent, for debt service from the 2012–13 biennial level. This increase is primarily due to increases in debt service requirements out of the State Highway Fund and the Texas Mobility Fund, including $400.0 million in State Highway Funds for the repayment of short-term obligations expected to be borrowed in fiscal year 2013 by the Texas Department of Transportation (TxDOT).

House Bill 1025 amounts are not included in Figure 11. House Bill 1025 provides $5.2 million in General Revenue Funds for debt service costs related to the issuance of $325.6 million in Revenue Bonds for the Facilities Commission to construct two office buildings and a parking garage. House Bill 1025 includes $175.0 million in General Revenue Funds for the reimbursement of debt service related to tuition revenue bond (TRB) proceeds, contingent on the enactment of Senate Bill 16 or similar legislation relating to additional TRB authority for institutions of higher education. Legislation related to additional TRB authority did not pass. Additionally, House Bill 1025 includes debt service savings of $135.1 million in General Revenue Funds for the 2012-13 biennium primarily due to lower interest rates and delays in issuance at TPFA, TxDOT, and the Water Development Board.

RETIREMENT BENEFITS

The Employees Retirement System (ERS) administers the retirement program for general state employees, which is funded by a combination of state contributions, member contributions, and investment earnings of the retirement fund. Figure 12 shows a comparison between the estimated/budgeted benefits costs for the 2012–13 biennium and the appropriations for the 2014–15 biennium by method-of-finance. Funding for state contributions reflects increased funding of

$107.2 million in All Funds ($73.4 million in General Revenue Funds and General Revenue–Dedicated Funds) for employee retirement benefits. Factors used to develop these appropriation amounts include: a 6.5 percent state contribution rate in fiscal year 2014; a 7.5 percent state contribution rate in fiscal year 2015; and full-time equivalent and career ladder pay increases at specific state agencies.

The 2014–15 appropriations reflect a combined contribution rate of 13.0 percent (6.5 percent state contribution and 6.5 percent member contribution) in fiscal year 2014 and 14.0 percent (6.5 percent state contribution and 7.5 percent member contribution) percent in fiscal year 2015. Further, due to the passage of Senate Bill 1459, up to $57.2 million in retirement and group insurance unexpended balances from fiscal year 2013 can be used to increase the state retirement contribution to 7.5 percent for fiscal year 2014.

ERS also administers the Law Enforcement and Custodial Officer Supplemental (LECOS) Retirement Fund, which provides an increased retirement benefit for certain employees who are certified peace officers and custodial officers. The 2014–15 appropriations include an increase in funding of $8.1 million in All Funds to the LECOS Retirement Fund, which maintains the fiscal year 2013 contribution rate of 0.5 percent and takes into account career ladder pay increases at specific state agencies. The state contribution was suspended in fiscal year 2012.

The third pre-funded retirement program administered by ERS is the Judicial Retirement System Plan Two (JRS-II), which is the retirement program for judges who became judiciary members on or after September 1, 1985. Funding includes an increase in funding of $13.7 million in All Funds, which reflects an increase in the state contribution rate to 15.663 percent and takes into account judicial salary increases. This meets the actuarially sound contribution rate of 21.52 percent when combined with the fiscal year 2015 member contribution rate of 6.9 percent due to the passage of Senate Bill 1459.

RETIREMENT BENEFITS: TRS – ORP

The Teacher Retirement System of Texas (TRS) provides retirement benefits for employees of public school districts and institutions of higher education. The Optional Retirement Program (ORP) is a defined contribution plan that was created as an alternative to the defined benefit plan provided by TRS. Eligible higher education employees make a one-time choice between participating in ORP or TRS within their first 90 days of employment. State retirement contributions for the TRS are 6.4 percent of payroll in fiscal year 2014 and 6.8 percent of payroll in fiscal year 2015. TRS contributions of $3,239.7 million reflect an All Funds increase of $150 million over the 2012–13 biennium. In addition, rider language provides for a contribution rate of up to 6.8 percent in fiscal year 2014 contingent on enactment of Senate Bill 1458 and the availability of funds through excess appropriations for state contributions for TRS retirement and insurance in fiscal year 2013 recovered through the statutory settle-up process.

Appropriations assume no annual payroll growth for public education and 2.0 percent annual payroll growth for higher education. Funding limits the General Revenue Funds and General Revenue–Dedicated Funds appropriated for retirement contributions for community colleges to 50 percent of the state contribution of 6.4 percent of total covered payroll for community colleges in fiscal year 2014 and 6.8 percent of total covered payroll for community colleges in fiscal year 2015. For the Optional Retirement Program, funding is $2.5 million above the 2012–13 biennial level, representing a state contribution rate of 6.6 percent for each year of the 2014–15 biennium and assumes a 2.0 percent annual payroll growth. Funding limits the General Revenue Funds and General Revenue–Dedicated Funds appropriated for retirement contributions for community colleges to 50 percent of the state contribution of 6.6 percent of total covered payroll for community colleges for each year of the 2014–15 biennium.

GROUP INSURANCE

The Employees Retirement System (ERS) administers the Group Benefits Program, which provides group health insurance to active and retired state employees, and their dependents. Funding totaling $3,134.2 million for state contributions for group insurance benefits reflects increased funding of $533.2 million in All Funds and an increase of $364.2 million in General Revenue Funds and General Revenue–Dedicated Funds. The increase funds a projected increase of 7.0 percent growth in premiums for both fiscal years (the 2014–15 appropriation amounts assume the spending down of between $157.6 million and $177.6 million of the ERS-projected insurance fund balance as of August 31, 2013).

In addition, the appropriations reflect 1.5 percent annual growth in overall program population due to a 5.0 percent annual growth in retirees is assumed.

HIGHER EDUCATION GROUP INSURANCE

Higher Education Employees Group Insurance (HEGI) provides health benefits coverage to higher education employees belonging to one of three systems: The University of Texas System (UT), the Texas A&M University System (TAMU), and the Employee Retirement System (ERS). The ERS Group Benefits Program (GBP) serves all higher education institutions that are not a part of either UT or TAMU. Funding totaling $1,192.8 million for state contributions to HEGI results in an All Funds increase of $223.8 million due to a projected increase of 7.0 percent in premiums for both fiscal years (the 2014–15 appropriations fund premium contribution rates at a percentage of ERS general state employee premium rates for all institutions). For institutions of higher education covered under the UT or TAMU systems, the state pays 87.0 percent of full ERS premiums and for institutions of higher education covered under the ERS GBP, the state pays 89.4 percent of full ERS premiums. For community colleges, the state pays 50 percent of full ERS premiums.

TRS-CARE GROUP INSURANCE

The Teacher Retirement System of Texas (TRS) administers the Texas Public School Retired Employee Group Insurance Program, which is referred to as TRS-Care. This program provides health insurance coverage for public education TRS retirees who are not eligible to participate in the Texas Employees Retirement System, University of Texas, or Texas A&M system health benefit coverage. In addition to state contributions, the benefits of TRS-Care are financed through other funding sources including retiree premiums, a percentage of payroll contributions from active employees and local school districts, retiree drug subsidy payments, and investment income. According to the August 31, 2012 actuarial valuation of the TRS-Care retiree insurance trust fund, the asset balance of the trust fund is $741.0 million. Funding assumes a statutorily-required state contribution rate of 1.0 percent of active public education employee payroll in each year for the 2014–15 biennium. State contributions for TRS-Care retiree insurance for the 2014–15 biennium totals $495.1 million in All Funds and reflects a $123.8 million increase above the 2012–13 biennium and assume no annual payroll growth.

SOCIAL SECURITY AND BENEFIT REPLACEMENT PAY

The Comptroller of Public Accounts is responsible for the payment of state and employee Social Security taxes to the federal government. It is also responsible for providing Benefit Replacement Pay (BRP) to general state employees continuously employed since August 31, 1995. Prior to fiscal year 1996, state employees received a state-paid Federal Insurance Contributions Act (FICA) supplemental payment of 5.85 percent on their first $16,500 of FICA-covered wages, up to a maximum of $965.25. The Seventy-fourth Legislature, Regular Session, 1995, repealed this state-paid contribution for the Social Security obligation and replaced it with a benefit supplement to ensure that take-home pay was not reduced.

Funding totaling $1,471.5 million for state contributions for Social Security reflects increased funding of $43.2 million in All Funds ($45.5 million in General Revenue and General Revenue–Dedicated Funds).

Unofficial copy Travis Co. District Clerk Velva L. Price

Appropriations for Social Security reflect 2.0 percent annual payroll growth for higher education employees and full-time equivalent and career ladder pay increases at certain state agencies. Funding totaling $54.9 million for BRP decreased by $7.9 million in All Funds ($4.3 million in General Revenue Funds and General Revenue–Dedicated Funds) due to a projected 6.5 percent annual turnover rate in employees hired before September 1, 1995.

Full-time-equivalent Positions

The Senate Bill 1 Conference Committee Report appropriations provide for 218,318 full-time-equivalent positions (FTEs) in fiscal year 2014, and 218,331 in fiscal year 2015. As shown in Figure 14, the fiscal year 2015 amount represents a decrease of 14,464 FTEs from fiscal year 2013 budgeted levels. The decrease is associated with the removal of patient income as a method-of-finance in the appropriations bill. Health-related higher education institutions will continue to receive this funding outside of the appropriations process.

Performance Measures and Targets

There are four types of performance measures used in the appropriations process: outcome, output, efficiency, and explanatory. Each type of measure serves a different purpose.

- Outcome measures are used to assess an agency's effectiveness in serving its key customers and in achieving its mission, goals, and objectives. They also are used to direct resources to strategies with the greatest effect on the most-valued outcomes.
- Output measures are used to assess workload and the agency's efforts to address those demands.
- Efficiency measures are used to assess the cost-efficiency, productivity, and timeliness of agency operations.
- Explanatory measures are used to define the agency's operating environment and to explain factors that are relevant to the interpretation of other agency measures.

Performance measures contained in the General Appropriations Act are designated as key measures. For key outcome, output, efficiency and explanatory performance measures, a target is established for each year of the biennium for which funds are appropriated.

As shown in Figure 15, the appropriations for the 2014–15 biennium contain 1,961 key performance measures, which is the same as the 2012–13 biennial level and a less than 10 percent decrease from the 2004–05 biennial level.

Performance measures that have been developed for state agency use but that are not contained in the General Appropriations Act are designated as non-key measures. Although targets are not established, agencies annually submit performance information related to these measures to the Legislative Budget Board.

Factors Affecting the State Budget

All Funds appropriations for Medicaid and the Children's Health Insurance Program (CHIP) for the 2014–15 biennium total $60.2 billion, representing 30.6 percent of the proposed state budget. Healthcare-related costs continue to be the state's single largest budget driver.

Other significant factors affecting the cost of state government include public and higher education enrollment, prison incarceration, and certain other health and human services programs.

As shown in Figure 16, the following are the major growth indicators from 2002 to 2012:

- Average daily attendance in public schools has increased by 20.2 percent.
- Higher education enrollment in general academic institutions has increased by 26.5 percent.
- Community college enrollment has grown by 63.9 percent.
- Average monthly caseload for the Children's Health Insurance Program has increased by 21.9 percent.
- Average monthly caseload for Medicaid waiver clients has increased by 24.1 percent.
- Average monthly caseload for Medicaid clients (Acute Care and STAR+PLUS) has increased by 75.4 percent.
- Average monthly caseload for nursing home clients has decreased by 1.7 percent.
- Average inmate population in the Department of Criminal Justice has increased by 7.1 percent.
- Average residential population at the Texas Juvenile Justice Department (formerly the Texas Youth Commission) has decreased by 360.4 percent.

These factors do not totally explain the growth in the budget. Other cost-related factors, such as medical inflation, can have an equal or greater effect on growth.

Revenue Outlook for the 2014–15 Biennium

CONSTITUTIONAL SPENDING LIMITS

Texas has four constitutional limits on spending: the "pay-as-you-go," or balanced budget limit; the limit on the rate of growth of appropriations from certain state taxes; the limit on welfare spending; and a limit on tax-supported debt.

ARTICLE III, §49A, "PAY-AS-YOU-GO" LIMIT

Article III, §49a, Texas Constitution, is the "pay-as-you-go" limit. It requires that bills making appropriations be sent to the Comptroller of Public Accounts (CPA) for certification that the appropriations are within available general revenue.

Appropriations from the General Revenue Fund for the 2014–15 biennium total $94.6 billion, which is below the "pay-as-you-go" limit.

ARTICLE VIII, §22, LIMIT ON THE GROWTH OF CERTAIN APPROPRIATIONS

Article VIII, §22, Texas Constitution states: "In no biennium shall the rate of growth of appropriations from state tax revenue not dedicated by this Constitution exceed the estimated rate of growth of the state's economy." Pursuant to the Texas Government Code, Section 316, the LBB is required to adopt the items of information establishing the Article VIII limit. The Board met on November 15, 2012, and adopted the following items:

- The level of appropriations from state tax revenue not dedicated by the Texas Constitution for the 2012–13 biennium is $70,362,366,836, subject to: (1) further changes in 2012–13 appropriations including supplemental appropriations; and (2) final 2012–13 revenue collections.
- The estimated rate of growth of the Texas economy from the 2012–13 biennium to the 2014–15 biennium is 10.71 percent; and therefore, the 2014–15 biennial limit on appropriations from state tax revenue not dedicated by the Texas Constitution is $77,898,176,324, subject to adjustments to 2012–13 biennial appropriations referenced above.

The 2014–15 biennial appropriations made in the Conference Committee Report for Senate Bill 1 are within the Article VIII limit.

ARTICLE III, §51-A, WELFARE SPENDING LIMIT

Article III, §51-a, of the Texas Constitution provides that the amount that may be paid out of state funds for assistance grants to or on behalf of needy dependent children and their caretakers shall not exceed 1 percent of the state budget in any biennium.

In accordance with the Texas Human Resources Code, §31.053, the following items of information pertaining to the limit are provided:

- The 2014–15 biennial budget defined in the Texas Human Resources Code, §31.053, is $196,951.3 million;
- The maximum biennial amount of 1 percent of the state budget is $1,969.5 million; and
- The biennial amount included in Senate Bill 1, subject to the limit on state dollars paid out in Temporary Assistance for Needy Families (cash assistance) grants, is $132.5 million. This amount is $1,822.2 million less than the 1 percent limit.

ARTICLE III, §49 (J), DEBT LIMIT

Article III, §49(j) of the Texas Constitution provides that the Legislature may not authorize additional state debt if in any fiscal year the resulting maximum annual debt service payable from the General Revenue Fund, excluding revenues constitutionally dedicated for purposes other than payment of state debt, exceeds 5 percent of the average annual unrestricted General Revenue Funds for the previous three years. To monitor where the state stands in relation to the constitutional debt limit, the Bond Review Board (BRB) calculates two debt ratios. The first ratio is the debt service on outstanding or issued debt as a percentage of unrestricted General Revenue Funds. At the end of fiscal year 2012, the BRB reported that the issued debt ratio is 1.34 percent. The second debt ratio is the debt service on outstanding debt and estimated debt service for authorized but unissued bonds. The BRB has reported that the state is at 3.48 percent of unrestricted General Revenue Funds for the end of fiscal year 2012. This latter

calculation includes authorization of $3.0 billion in bonds for cancer research initiatives and $5.0 billion for transportation projects. As of the end of fiscal year 2012, approximately $363.5 million of cancer-related debt and approximately $999.3 million transportation-related debt has been issued.

The Conference Committee Report on Senate Bill 1 includes appropriations of $6.0 million in General Revenue Funds for debt service on $50 million in General Obligation bond proceeds for the Economically Distressed Areas Program. Additionally, House Bill 1025 includes appropriations of $5.2 million in General Revenue Funds for debt service on $325.6 million in Revenue bond proceeds for the construction of two new state office buildings and a parking structure at the Facilities Commission. It is estimated that the impact of these debt service appropriations would increase the constitutional debt limit ratio from 3.48 percent to 3.55 percent of the three-year average of unrestricted general revenue.

The Bond Review Board considers certain self-supporting water general obligation bond debt and revenue bond debt to be not self-supporting when there is an appropriation of General Revenue Funds for the related debt service. Therefore, these bonds may have an impact on the constitutional debt limit calculation.

ECONOMIC STABILIZATION FUND (RAINY DAY FUND)

The Economic Stabilization Fund (ESF), frequently referred to as the Rainy Day Fund, ended fiscal year 2012 with a balance of $6.1 billion. As a result of natural gas tax and oil production tax collections in fiscal year 2012 exceeding 1987 levels, the fund received a transfer of $1.9 billion from the General Revenue Fund in November 2012. The November transfer plus interest earnings brought the ESF balance to $8.0 billion as of January 1, 2013. The Comptroller of Public Accounts forecasts that, absent any appropriations, by the end of fiscal year 2015 the balance in the ESF will be $11.8 billion. The Eighty-third Legislature, Regular Session, 2013, appropriated $3.9 billion from the ESF, leaving an estimated balance at the end of fiscal year 2015 of $7.7 billion, after accounting for reduced interest earnings on the fund.

EDUCATION

2014–15 SENATE BILL 1 CONFERENCE COMMITTEE REPORT APPROPRIATIONS

All Funds for Education total $74.1 billion for the 2014–15 biennium, which is a decrease of $1.6 billion, or 2.1 percent, from the 2012–13 biennium (Figure 23). Patient income at Health-related Institutions has been moved to an informational rider. This is reflected as a decrease of $6.1 billion. If patient income was not moved to a rider, All Funds appropriations for Education would have increased $3.7 billion.

General Revenue Funds and General Revenue–Dedicated Funds total $53.2 billion, which is an increase of $3.4 million, or 6.9 percent, from the 2012–13 biennium (Figure 24).

Selected performance measures for agencies in the Education function are shown in Figure 25.

The Texas Education Agency (TEA) releases two types of test questions for the State of Texas Assessments of Academic Readiness (STAAR®) - sample questions and test forms. Sample test questions are small subsets of test questions released from the STAAR test banks. These test questions may have been previously administered to Texas students. Test forms are sets of released test questions that have been administered together to Texas students and reflect the STAAR test blueprints. TEA will release the first test form administered in the spring for each general STAAR assessment in 2013, 2014, 2015, 2016, and every third year thereafter. The released test questions found on this webpage do not necessarily represent all the Texas Essential Knowledge and Skills (TEKS) student expectations eligible for assessment on STAAR.

RE: Currently Proposed Commissioner Rules Affecting the Texas Assessment Program

This communication is to inform you that the Texas Education Agency (TEA) will be proposing, through commissioner of education rules, a number of significant policy changes concerning the Texas assessment program for the 2013–2014 school year. These policy changes should give districts some direction in implementing new state and federal requirements related to the State of Texas Assessments of Academic Readiness (STAAR®) and communicating these requirements to teachers, students, and parents.

RELEASE OF THE 2013 STAAR ASSESSMENTS

On August 5, 2013, TEA will release the primary administration of the following 2013 general STAAR assessments:

- grades 3–8 mathematics and reading
- grades 4 and 7 writing
- grades 5 and 8 science
- grade 8 social studies
- Algebra I, geometry, Algebra II
- biology, chemistry, physics
- English I, II and III reading
- English I, II and III writing
- world history, world geography, U.S. history

These assessments will be made available on TEA's Student Assessment Division website at http://www.tea.state.tx.us/student.assessment/staar/testquestions. This release should assist districts, students, and parents in understanding the depth and breadth of content and skills assessed on STAAR and the level of performance required for students' success on the assessment.

REDESIGN OF THE STAAR ENGLISH I AND ENGLISH II ASSESSMENTS

Currently, reading and writing are assessed separately in the STAAR English I and English II end-of-course (EOC) tests. However, TEA is in the process of redesigning the English I and II reading and writing assessments to comply with the provisions of House Bill (HB) 5, 83rd Regular Legislative Session. More specifically, beginning in spring 2014, STAAR English I and II will measure reading and writing achievement through a single assessment given in one day, and students will receive a single score.

To provide additional flexibility for students in the 2015 and 2016 graduating classes during the transition period from separate assessments to combined reading and writing assessments for English I and English II, TEA is proposing to maintain the minimum – and cumulative – score concepts to determine whether students taking these assessments have met their English I and English II graduation requirements. These concepts would be applied within each course, not across courses, and would require students who took separate reading and writing assessments to meet three criteria:

- pass one assessment (either reading or writing);
- meet at least the minimum score on the other; and
- achieve a combined scale score of 3750 (the phase-in 1 standard), which represents the sum of the scale scores needed to reach Level II for reading (1875) and Level II for writing (1875).

These three criteria would apply only to the current STAAR English I and II reading and writing assessments administered prior to the roll-out of the redesigned (combined) English I and II assessments in spring 2014. Under this proposal, students who have not met this requirement by that time would need to take and pass the redesigned assessment(s) to meet their English EOC testing requirement for graduation.

PERFORMANCE STANDARDS FOR 2013–2014 SCHOOL YEAR

Through commissioner of education rules, TEA is proposing to maintain the phase-in 1 performance standards for the STAAR program for the 2013–2014 school year. There are two primary reasons for this proposal:

1) For grades 3–8, schools did not receive performance-level data on students until January 2013, which limited the time available to adjust instruction prior to the spring 2013 test administrations.
2) For all grades and courses, schools did not have access either to a released test form (as they had in the first year of TAKS) or to the associated item-level analysis for their students.

While I firmly believe that Texas students are capable of reaching the high expectations reflected in the final recommended performance standards, I also recognize that the development of strong, coherent, vertically aligned instructional programs requires time and sustained effort. Extending the phase-in 1 standard through the 2013–2014 school year gives schools additional time to raise the level of student performance.

APPLICATION OF PERFORMANCE STANDARDS ON EOC ASSESSMENTS

Through commissioner of education rules, TEA is proposing that the performance standard needed to meet the testing requirement for graduation be based on the performance standard in place when students take their first EOC test and apply to all five EOC assessments. For example, for students who took STAAR Algebra I in spring 2013, the first phase-in standard for Level II: Satisfactory Performance would apply to Algebra I, STAAR English I, English II, biology, and U.S. history.

Unofficial Copy Travis Co. District Clerk Velva L Price

TEA is also proposing that students who took Algebra I and received course credit prior to the 2011–2012 school year not be required to take the STAAR Algebra I assessment. However, students cannot use a passing score for a STAAR EOC assessment that is no longer required for graduation as a substitute for an assessment that is still required. For example, a passing score on STAAR geometry cannot be used in lieu of not meeting the required passing standard on Algebra I to satisfy the mathematics testing requirement for graduation since geometry and Algebra I are not equivalent courses with regard to content.

SUBSTITUTE ASSESSMENTS TO FULFILL GRADUATION REQUIREMENTS FOR STAAR

The proposed substitute assessment rule will allow students to substitute certain comparable tests for corresponding STAAR EOC assessments for graduation purposes. To comply with the provisions of HB 5, TEA will implement this rule in the 2013–2014 school year with an effective date retroactive to the 2011–2012 school year.

Under the proposed rule for the substitute assessments specified in HB 5, the agency will determine the cut scores that can be used to satisfy a student's testing requirement for graduation. It will be the responsibility of the district and the student to verify the results on substitute assessments for graduation purposes.

TEA anticipates that the substitute assessment rule will be posted to the Texas Register for public comment in August 2013.

ENGLISH LANGUAGE LEARNERS AND ENGLISH EOC GRADUATION REQUIREMENTS

As a result of changes regarding assessment requirements for graduation mandated by HB 5, the Commissioner's rule (19 TAC §101.1007) pertaining to English language learners (ELLs) and STAAR English EOC graduation requirements will be amended. More specifically, the STAAR English II assessment will replace the STAAR English III assessment as the English EOC graduation requirement for ELLs who meet the special provisions of the rule. ELL students who qualify will still have to take the English I EOC assessment but will not have to pass it to meet the assessment graduation requirements. However, they will need to take and pass the English II assessment to meet this requirement.

ASSESSING MIDDLE SCHOOL STUDENTS TAKING ALGEBRA I

Current federal accountability requirements specify that students have a mathematics score every year in grades 3–8 as well as a mathematics score in high school. The U.S. Department of Education (USDE) requires states that offer only one mathematics assessment at the high school level — which can also be taken by middle school students — to ensure there is a mathematics result that can be attributed to a high school. Based on this federal requirement and a related provision within HB 5, I am reluctantly advising districts to plan on administering multiple assessments to students taking Algebra I in middle school or understand the potential federal accountability consequences of testing these students only on Algebra I. By administering multiple tests to students taking Algebra I in middle school, assessment results for the current grade level (e.g., the STAAR grade 8 mathematics score) can be used for federal accountability purposes, while STAAR Algebra I results can be applied in subsequent years where appropriate.

Unofficial Copy Travis Co. District Clerk Velva L. Price

I do not agree with this federal requirement and would encourage districts to continue to make the best instructional choices for students regardless of the potential accountability impact. The agency will pursue other options with the USDE, where possible, to minimize any negative consequences for students. However, I am not aware of other options that are feasible for the 2013–2014 school year that would satisfy current federal accountability requirements and the legislative requirements of HB 5.

REDESIGN OF THE STAAR ALTERNATE PROGRAM

HB 5 requires that the agency develop an alternate assessment for the most severely cognitively disabled students that does not require teachers to prepare tasks or materials. This newly designed alternate assessment will be administered for the first time in the spring of the 2014–2015 school year.

Senate Bill (SB) 906 goes into effect in the 2013–2014 school year and prohibits the agency from "adopting a performance standard that indicates that a student's performance on the alternate assessment does not meet standards if the lowest level of the assessment accurately represents the student's developmental level as determined by the student's admission, review, and dismissal committee." To comply with this requirement, TEA will propose in commissioner rule that the adjusted phase-in standard that was used for the STAAR Alternate program in 2011–2012 be applied to the 2013–2014 results.

THE STAAR MODIFIED PROGRAM

The USDE has informed states that assessments based on modified standards for students served by special education cannot be used for accountability purposes after the 2013–2014 school year. Therefore, all STAAR Modified assessments will be administered for the final time during the 2013–2014 assessment cycle. Further information regarding plans for the inclusion of this population of students in the general assessment program beginning with the 2014–2015 school year will be forthcoming.

BENCHMARK TESTING

HB 5 prohibits districts from administering more than two benchmark tests for any corresponding grade/subject or course STAAR assessment. To ensure that students are truly prepared for STAAR, schools must develop strong, coherent academic programs and provide students with high-quality instruction.

Information about additional provisions in HB 5 and related legislation will be communicated as soon as it is available. For general information regarding the assessment program, please call the Student Assessment Division at 512-463-9536.

TEA submits NCLB waiver request

AUSTIN – Commissioner of Education Michael L. Williams today announced that the Texas Education Agency (TEA) has submitted a letter to U.S. Secretary of Education Arne Duncan formally requesting a waiver to specific provisions of the Elementary and Secondary Education Act (ESEA), commonly known as the No Child Left Behind (NCLB) Act of 2001.

On Feb. 28, Williams submitted Texas' request for a waiver from a variety of ESEA provisions in order to give TEA and more than 1,200 school districts and charters additional flexibility while reducing duplication between state and federal accountability systems.

"Currently, school districts across Texas are forced to operate within two, often conflicting, accountability and intervention systems while taking valuable resources and time away from focusing on improving student achievement," said Commissioner Williams. "The federal requirements and guidelines of ESEA have become an obsolete system that does not adequately reflect the performance of the state's schools."

Williams noted that Texas has been a national leader in the college- and career-readiness movement. Texas was the first state to develop and implement college and career readiness curriculum standards, the first state to assess those standards, and will be the first to implement an accountability system to hold schools accountable for preparing students for postsecondary success.

Because of this strong history and the strength of the state's current accountability system, the Commissioner believes Texas school districts should be released from certain federal requirements. Waivers being sought by TEA include:

- Waiver of the federal Accountability Performance Targets/Standards Setting Procedures to allow TEA to replace the current Adequate Yearly Progress (AYP) calculations and performance targets with the state's robust accountability rating system.
- Waiver to create a single system of interventions based on accountability results.
- Waiver to allow TEA to rely solely on the state's rigorous teacher certification standards, which are supported by the state's educator evaluation system.
- Waiver to allow school districts or charters to implement schoolwide interventions in any of its support, focus, or priority schools, even if those schools do not have a poverty percentage of 40 percent or more.

In September 2012, Williams announced the state's intent to file for a waiver from certain federal NCLB requirements. Over the past several months, TEA has sought input from superintendents, educators, business leaders and the general public on the scope of the waiver request.

Williams is seeking the waiver under Secretary Duncan's general authority to waive specific NCLB requirements rather than the provisional waiver offered to states by the U.S. Department of Education. No timeline has been provided for a final decision.

The complete waiver request is available for viewing on the Texas Education Agency website.

(1) limit the amount of assistance provided through a grant to not more than:

(A) for a construction project, $200 per square foot of the science laboratory to be constructed; or

(B) for a renovation project, $100 per square foot of the science laboratory to be renovated;

(2) require a school district to demonstrate, as a condition of eligibility for a grant, that the existing district science laboratories are insufficient in number to comply with the curriculum requirements imposed for the distinguished level of achievement under the foundation [~~recommended and advanced~~] high school program [~~programs~~] under Section 28.025 [~~28.025(b-1)(1)~~]; and

(3) provide for ranking school districts that apply for grants on the basis of wealth per student and giving priority in the award of grants to districts with low wealth per student.

(b) This section applies beginning with the 2014-2015 school year.

SECTION 3. Subchapter C, Chapter 7, Education Code, is amended by adding Section 7.064 to read as follows:

Sec. 7.064. CAREER AND TECHNOLOGY CONSORTIUM. At a minimum, the policy must limit announcements other than emergency announcements to once during the school day.

(b) The board of trustees of each school district shall adopt and strictly enforce a policy limiting the removal of students from class for remedial tutoring or test preparation. A district may not remove a student from a regularly scheduled class for remedial tutoring or test preparation if, as a result of the

(d) If a student is denied credit or a final grade for a class by an attendance committee, the student may appeal the decision to the board of trustees. The decision of the board may be appealed by trial de novo to the district court of the county in which the school district's central administrative office is located.

A credit allowed to be substituted under this subsection may not also be used by the student to satisfy a graduation credit requirement other than credit for completion of a language other than English. The rules must provide that the determination regarding a student's ability to participate in language-other-than-English courses will be made by:

This subsection may apply to more than one elective credit.

(b-17) The State Board of Education shall adopt rules to ensure that a student may comply with the curriculum requirements under Subsection (b-1)(6) by successfully completing an advanced career and technical course, including a course that may lead to an industry-recognized credential or certificate or an associate degree.

(b-18) In adopting rules under Subsection (b-1), the State Board of Education shall allow a student to comply with the curriculum requirements under Subsection (b-1) by successfully completing a dual credit course.

(1) in determining the student's class ranking for any purpose, including entitlement to automatic college admission under Section 51.803 or 51.804; or

(2) as a sole criterion in the determination of whether to admit the student to a general academic teaching institution in this state.

(c) Subsection (b)(2) does not prohibit a general academic teaching institution from implementing an admission policy that takes into consideration a student's performance on an end-of-course assessment instrument in addition to other criteria.

(d) In this section, "general academic teaching institution" has the meaning assigned by Section 61.003.

~~the product of the number of end-of-course assessment instruments administered to the student in that subject and~~] a scale score that indicates satisfactory performance, as determined by the commissioner under Section 39.0241(a), on each end-of-course assessment instrument listed under Section 39.023(c) that is administered to the student as provided by this subsection. For each scale score required under this subsection that is not based on a 100-point scale scoring system, the commissioner shall provide for conversion, in accordance with commissioner rule, of the scale score to an equivalent score based on a 100-point scale scoring system. [~~A student must achieve a minimum score as determined by the commissioner to be within a reasonable range of the scale score under Section 39.0241(a) on an end-of-course assessment instrument for the score to count towards the student's cumulative score. For purposes of this subsection, a student's cumulative score is determined using the student's highest score on each end-of-course assessment instrument administered to the student.~~] A student may not receive a high school diploma until the student has performed satisfactorily on [~~the~~] end-of-course assessment instruments in the manner provided under this subsection. This subsection does not require a student to demonstrate readiness to enroll in an institution of higher education.

(a-1) A student enrolled in a college preparatory course under Section 28.014 who satisfies the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the Texas Higher Education Coordinating Board under Section 51.3062(f) on an assessment instrument designated by the Texas Higher Education

Coordinating Board under Section 51.3062(c) administered at the end of the college preparatory course satisfies the requirements concerning an end-of-course assessment in an equivalent course as prescribed by Subsection (a). The commissioner [~~by rule~~] shall determine a method by which a student's satisfactory performance on an advanced placement test, an international baccalaureate examination, an SAT Subject Test, the SAT, the ACT, or any nationally recognized norm-referenced [~~another~~] assessment instrument used by institutions of higher education to award course credit based on satisfactory performance on the [~~determined by the commissioner to be at least as rigorous as an end-of-course~~] assessment instrument shall [~~adopted under Section 39.023(c) may~~] be used to satisfy [~~as a factor in determining whether the student satisfies~~] the requirements concerning an end-of-course assessment instrument in an equivalent course as prescribed by [~~of~~] Subsection (a)[~~, including the cumulative score requirement of that subsection~~]. The commissioner shall [~~by rule may~~] determine a method by which a student's satisfactory performance on the PSAT [~~a Preliminary Scholastic Assessment Test (PSAT) assessment~~] or the ACT-Plan shall [~~a preliminary American College Test (ACT) assessment may~~] be used to satisfy [~~as a factor in determining whether the student satisfies~~] the requirements concerning an end-of-course assessment instrument in an equivalent course as prescribed by [~~of~~] Subsection (a). A student who fails to perform satisfactorily on a test or other assessment instrument authorized under this subsection, other than the PSAT or the ACT-Plan, may retake that test or other assessment instrument for purposes of

this subsection or may take the appropriate end-of-course assessment instrument. A student who fails to perform satisfactorily on the PSAT or the ACT-Plan must take the appropriate end-of-course assessment instrument. The commissioner shall adopt rules as necessary for the administration of this subsection.

(a-4) The admission, review, and dismissal committee of a student in a special education program under Subchapter A, Chapter 29, shall determine whether, to receive a high school diploma, the student is required to achieve satisfactory performance on end-of-course assessment instruments.

(b) Each time an end-of-course assessment instrument adopted under Section 39.023(c) is administered, a student who failed to achieve a [~~minimum~~] score requirement under Subsection (a) may [~~shall~~] retake the assessment instrument. [~~A student who fails to perform satisfactorily on an Algebra II or English III end-of-course assessment instrument under the college readiness performance standard, as provided under Section 39.024(b), may retake the assessment instrument. Any other student may retake an end-of-course assessment instrument for any reason.~~] A student is not required to retake a course as a condition of retaking an end-of-course assessment instrument.

(b-2) If a school district determines that a student, on completion of grade 11, is unlikely to achieve the [~~cumulative~~] score requirement under Subsection (a) [~~requirements~~] for one or more end-of-course assessment instruments administered to the student as provided [~~subjects prescribed~~] by Subsection (a) for

receiving a high school diploma, the district shall require the student to enroll in a corresponding content-area college preparatory course for which an end-of-course assessment instrument has been adopted, if available. A student who enrolls in a college preparatory course described by this subsection shall be administered an end-of-course assessment instrument for the course, with the end-of-course assessment instrument scored on a scale as determined by the commissioner [~~not to exceed 20 percent of the cumulative score requirements required to graduate as determined under Subsection (a)~~]. A student may use the student's score on the end-of-course assessment instrument for the college preparatory course towards satisfying the [~~cumulative~~] score requirement [~~requirements~~] prescribed by Subsection (a).

(b) This section applies beginning with the 2013-2014 school year.

A student is required to achieve[~~, in each subject in the foundation curriculum under Section 28.002(a)(1), a~~

~~cumulative score that is at least equal to the product of the number of end-of-course assessment instruments administered to the student in that subject and~~] a scale score that indicates satisfactory performance, as determined by the commissioner under Section 39.0241(a), on each end-of-course assessment instrument listed under Section 39.023(c). For each scale score required under this subsection that is not based on a 100-point scale scoring system, the commissioner shall provide for conversion, in accordance with commissioner rule, of the scale score to an equivalent score based on a 100-point scale scoring system. [~~A student must achieve a minimum score as determined by the commissioner to be within a reasonable range of the scale score under Section 39.0241(a) on an end-of-course assessment instrument for the score to count towards the student's cumulative score. For purposes of this subsection, a student's cumulative score is determined using the student's highest score on each end-of-course assessment instrument administered to the student.~~] A student may not receive a high school diploma until the student has performed satisfactorily on [~~the~~] end-of-course assessment instruments in the manner provided under this subsection. This subsection does not require a student to demonstrate readiness to enroll in an institution of higher education.

(b) The system must include uniform indicators adopted by [~~the~~] commissioner rule by which to measure the financial management performance and future financial solvency of a district or open-enrollment charter school. (d) The commissioner shall evaluate indicators adopted under Subsection (b) at least once every three years.

(e) Under the financial accountability rating system developed under this section, each school district or open-enrollment charter school, as applicable, shall be assigned a financial accountability rating. A district or school may submit additional information to the commissioner relating to any indicator on which performance was considered unsatisfactory. The commissioner shall consider any additional information submitted by a district or school before assigning a final rating. If the commissioner determines that the additional information negates the concern raised by the indicator on which performance was considered unsatisfactory, the commissioner may not penalize the district or school on the basis of the indicator.

(h) The commissioner shall adopt rules for the implementation of this section.

(h-1) The commissioner shall adopt initial rules necessary to implement the changes to this section made by the 83rd Legislature, Regular Session, 2013, not later than March 1, 2015. This subsection expires April 1, 2015.

SBOE seeks input on new graduation plans

AUSTIN - The State Board of Education is seeking input from educators and community members as it begins to restructure graduation requirements to address recent changes in state law.

House Bill 5 (HB5), passed by the Texas Legislature this spring, made substantial changes to the state's graduation requirements, moving from the current "4x4" graduation plans to a 22-credit Foundation High School Program that allows students to earn endorsements in specific areas of study by completing four additional credits.

The new plan requires the state board to make a number of policy decisions, such as deciding which courses will count as advanced mathematics, English and science courses and determining the requirements for each endorsement area. The endorsement areas are science, technology, engineering and mathematics (STEM); business and industry; public services; arts and humanities; and multidisciplinary studies.

The board will hold a public hearing Sept. 17 in room 1-104 of the Travis State Office Building in Austin to receive input from educators and others about the changing graduation requirements.

"We encourage you to submit specific suggestions as to the course offerings that will give school districts the flexibility mandated in HB5 that is intended to meet all students' postsecondary goals," said Barbara Cargill, chair of the State Board of Education.

After the public hearing, Texas Education Agency staff will craft a proposed rule dealing with graduation requirements.

The board will consider this draft rule at its Nov. 20-22 meeting in Austin. If the rule receives preliminary approval, it will be posted in the Texas Register and there will be a 30-day public comment period. Comments during this time may be submitted to rules@tea.state.tx.us.

A final vote on the changes is expected during the board's Jan. 29-31 meeting. All board meetings will occur at the Travis State Office Building at 1701 N. Congress Ave. in Austin.

Those who wish to submit comments about the graduation changes prior to the beginning of the official rulemaking process may send their comments to sboesupport@tea.state.tx.us through Sept. 10.

Because many details about the Foundation High School Program and the endorsements must still be worked out, the new graduation plan will not be in effect for the 2013-2014 school year.

School districts must continue to offer the three existing graduation programs - the Distinguished Achievement Program, the Recommended High School Program and the Minimum High School Program - through at least the 2016-2017 school year when those

students who enter high school later this month graduate.

However, students who will be sophomores, juniors or seniors during the 2014-2015 school year and are currently following one of the three existing programs will have the option of switching to the Foundation program when it becomes available in the 2014-2015 school year.

As updates become available about the graduation programs, they will be posted on the Texas Education Agency's website at http://www.tea.state.tx.us/graduation.aspx.

Graduation Requirements for 2013-2014 Seniors

Word version

Date: Thursday, August 29, 2013

TO THE ADMINISTRATOR ADDRESSED:

Subject: Graduation Requirements for 2013-2014 Seniors

I want to inform you of my intent to file rules that would allow students completing the fourth year of high school during the 2013-2014 school year to graduate under the new Foundation High School Program as permitted by Section 28.025(h-2), Texas Education Code, as added by House Bill (HB) 5, passed by the 83rd Texas Legislature, 2013, and signed into law by Governor Perry.

While the majority of seniors this year will continue to graduate under the existing Minimum High School Program (MHSP), Recommended High School Program (RHSP), and Distinguished Achievement Program (DAP), a small group of students may meet the requirements for the new Foundation High School Program and choose to graduate under that program. However, the requirements for the endorsements and performance acknowledgments have not yet been determined by the State Board of Education (SBOE). Consequently, a student who chooses to graduate under the Foundation High School Program in 2013-2014 will earn a foundation diploma only and will not have the option to earn an endorsement, the distinguished level of achievement, or a performance acknowledgment.

The proposed rules will only apply to the small group of students who are able to complete the coursework required to graduate under the Foundation High School Program in 2013-2014, choose this option, and graduate in the 2013-2014 school year. This includes students who complete the required coursework during the summer of 2014, but not thereafter.

The SBOE has sole authority to determine the curriculum requirements for all the endorsement options and performance acknowledgments. The SBOE is actively working to adopt rules to specify the curriculum requirements for the foundation high school program and related components that will be fully implemented beginning with the 2014-2015 school year with final decisions expected in January 2014.

To help planning and communication with students and parents, please find attached an outline of what the proposed rule will include for those students completing their fourth year of high school and wishing to graduate under the Foundation High School Program in the 2013-2014 school year. Please note that once the rules are filed in the coming weeks, they will be subject to public comment. Changes will be made, as appropriate, in response to those public comments, and then the rules will be adopted as final.

Before making a final decision regarding the graduation program they will pursue, I would strongly encourage students - especially those who are planning to pursue a degree in higher education - and their parents to consider the benefits of taking additional advanced math and science courses required by the current four-by-four and to fully research required or recommended coursework for admission to at any higher education institution they have interest in attending.

Unofficial copy Travis Co. District Clerk Velva L. Price

Please note that students who were first-time 9th graders before the 2011-2012 school year must meet the established performance standards for the Texas Assessment of Knowledge and Skills (TAKS) to be eligible to graduate from a Texas public school. This graduation requirement is applicable to the majority of students who are currently classified as seniors. The assessment requirements for this group of students have not changed.

The SBOE is likely to make different decisions about the Foundation High School Program requirements that will be in effect in future years, but the decisions reflected in the attachment and upcoming rule proposal try to maintain the previous decisions of the SBOE to the greatest extent possible. You may stay informed about developments concerning the HB 5 graduation requirements at the following website: http://www.tea.state.tx.us/index2.aspx?id=25769806149.

Sincerely,

Michael Williams
Commissioner of Education

AN ACT

relating to certain charter schools.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Subchapter D, Chapter 11, Education Code, is amended by adding Sections 11.1542 and 11.1543 to read as follows:

Sec. 11.1542. OPEN-ENROLLMENT CHARTER SCHOOL OFFER FOR DISTRICT FACILITY. (a) The board of trustees of an independent school district that intends to sell, lease, or allow use for a purpose other than a district purpose of an unused or underused district facility must give each open-enrollment charter school located wholly or partly within the boundaries of the district the opportunity to make an offer to purchase, lease, or use the facility, as applicable, in response to any terms established by the board of trustees, before offering the facility for sale or lease or to any other specific entity.

(b) This section does not require the board of trustees of a school district to accept an offer made by an open-enrollment charter school.

Sec. 11.1543. CHARTER SCHOOL PAYMENT FOR FACILITIES USE OR FOR SERVICES. (a) An independent school district may not require a campus or campus program that has been granted a charter under Subchapter C, Chapter 12, and that is the result of the conversion of the status of an existing school district campus to pay rent for or to purchase a facility in order to use the facility.

(b) An independent school district may not require a campus or campus program described by Subsection (a) or an open-enrollment charter school to pay for any service provided by the district under a contract between the district and the campus, campus program, or open-enrollment charter school an amount that is greater than the amount of the actual costs to the district of providing the service.

SECTION 2. Subsection (a), Section 12.052, Education Code, is amended to read as follows:

(a) In accordance with this subchapter, the board of trustees of a school district or the governing body of a home-rule school district shall [~~may~~] grant or deny, through a public vote of the board of trustees or governing body, a charter to parents and teachers for a campus or a program on a campus if the board is presented with a petition signed by:

(1) the parents of a majority of the students at that school campus; and

(2) a majority of the classroom teachers at that school campus.

SECTION 3. Subchapter C, Chapter 12, Education Code, is amended by adding Section 12.0522 to read as follows:

Sec. 12.0522. DISTRICT CHARTER AUTHORIZATION. (a) Notwithstanding Section 12.052, in the manner provided by this section, the board of trustees of a school district or the governing body of a home-rule school district may grant a district charter to a campus to the extent authorized under this section.

(b) Except as otherwise provided by this subsection or Subsection (c), a district charter may be granted under this

Unofficial copy Travis Co. District Clerk velva L. Price

section only to one or more campuses serving in total a percentage of the district's student enrollment equal to not more than 15 percent of the district's student enrollment for the preceding school year. The percentage limit may not prevent a district from granting a district charter to at least one feeder pattern of schools, including an elementary, middle or junior high, and high school.

(c) A district charter may be granted to any campus that has received the lowest performance rating under Subchapter C, Chapter 39.

(d) Subchapter D applies to a campus granted a district charter under this section as though the campus were granted a charter under Subchapter D, and the campus is considered an open-enrollment charter school.

(e) A charter granted under this section is not considered for purposes of the limit on the number of charters for open-enrollment charter schools imposed by Section 12.101.

(f) The commissioner may adopt rules as necessary for the administration of this section.

SECTION 4. Subchapter C, Chapter 12, Education Code, is amended by adding Sections 12.0531 and 12.0532 to read as follows:

Sec. 12.0531. PERFORMANCE CONTRACT; DURATION OF CHARTER. If a charter is granted under this subchapter, the board of trustees of the school district that granted the charter shall enter into a performance contract with the principal or equivalent chief operating officer of the campus or program. The performance contract must specify enhanced authority granted to the principal

or equivalent officer in order to achieve the academic goals that must be met by campus or program students. A charter granted under this subchapter expires 10 years from the date the charter is granted unless the specified goals are substantially met, as determined by the board of trustees of the school district that granted the charter.

Sec. 12.0532. NEIGHBORHOOD SCHOOL. (a) A charter granted under this subchapter for a campus may, as determined by the board of trustees of the school district granting the charter, provide for the campus to be a neighborhood school.

(b) Except as otherwise provided by this subsection, the principal or equivalent chief operating officer of a neighborhood school shall manage the funding provided for the school under this code and any other funding provided for the school in the manner the principal or other officer determines best meets the needs of the school's students. The district in which the school is located may retain that portion of funding that the district generally withholds from a campus for costs associated with the salary of the district superintendent or other district governance.

(c) The principal or equivalent chief operating officer of a neighborhood school may use school funding to purchase from the school district in which the school is located services for the school, including bus service, facilities maintenance services, and other services generally provided by a school district to district campuses. The school shall pay for each service an amount that reflects the actual cost to the district of providing the service for the number of the school's students for which the

service is provided.

SECTION 5. Section 12.055, Education Code, is amended to read as follows:

Sec. 12.055. APPLICABILITY OF LAWS AND RULES TO CAMPUS OR PROGRAM GRANTED CHARTER. (a) A campus or program for which a charter is granted under this subchapter is subject to federal and state laws and rules governing public schools, except that the campus or program is subject to this code and rules adopted under this code only to the extent the applicability to a campus or program for which a charter is granted under this subchapter of a provision of this code or a rule adopted under this code is specifically provided.

(b) A school district may contract with another district or an open-enrollment charter school for services at a campus charter. An employee of the district or open-enrollment charter school providing contracted services to a campus charter is eligible for membership in and benefits from the Teacher Retirement System of Texas if the employee would be eligible for membership and benefits if holding the same position at the employing district or open-enrollment charter school.

SECTION 6. Subsection (b), Section 12.056, Education Code, is amended to read as follows:

(b) A campus or program for which a charter is granted under this subchapter is subject to:

(1) a provision of this title establishing a criminal offense; and

(2) a prohibition, restriction, or requirement, as

Unofficial copy Travis Co. District Clerk Velva L. Price

applicable, imposed by this title or a rule adopted under this title, relating to:

(A) the Public Education Information Management System (PEIMS) to the extent necessary to monitor compliance with this subchapter as determined by the commissioner;

(B) criminal history records under Subchapter C, Chapter 22;

(C) high school graduation under Section 28.025;

(D) special education programs under Subchapter A, Chapter 29;

(E) bilingual education under Subchapter B, Chapter 29;

(F) prekindergarten programs under Subchapter E, Chapter 29;

(G) extracurricular activities under Section 33.081;

(H) health and safety under Chapter 38; and

(I) public school accountability under Subchapters B, C, D, E, F, and J, Chapter 39.

SECTION 7. Section 12.057, Education Code, is amended by adding Subsection (b-1) to read as follows:

(b-1) An employee of a charter holder, as defined by Section 12.1012, who is employed on a campus or in a program granted a charter under this subchapter and who qualifies for membership in the Teacher Retirement System of Texas shall be covered under the system in the same manner and to the same extent as a qualified employee of an independent school district who is employed on a

regularly operating campus or in a regularly operating program.

SECTION 8. Section 12.059, Education Code, is amended to read as follows:

Sec. 12.059. CONTENT. Each charter granted under this subchapter must:

(1) describe the educational program to be offered, which may be a general or specialized program;

(2) provide that continuation of the charter is contingent on satisfactory student performance under Subchapter B, Chapter 39, satisfactory financial performance under Subchapter D, Chapter 39, and [~~on~~] compliance with other applicable accountability provisions under Chapter 39;

(3) specify any basis, in addition to a basis specified by this subchapter, on which the charter may be [~~placed on probation or~~] revoked;

(4) prohibit discrimination in admission on the basis of national origin, ethnicity, race, religion, or disability;

(5) describe the governing structure of the campus or program;

(6) specify any procedure or requirement, in addition to those under Chapter 38, that the campus or program will follow to ensure the health and safety of students and employees; and

commissioner [~~State Board of Education~~] rule, on the Public Education Information Management System (PEIMS).

SECTION 9. Section 12.101, Education Code, is amended by amending Subsections (a) and (b) and adding Subsections (b-0), (b-1), (b-2), (b-3), (b-4), (b-5), (b-6), (b-7), and (b-8) to read as follows:

(a) In accordance with this subchapter, the commissioner [~~State Board of Education~~] may grant a charter on the application of an eligible entity for an open-enrollment charter school to operate in a facility of a commercial or nonprofit entity, an eligible entity, or a school district, including a home-rule school district. In this subsection, "eligible entity" means:

(1) an institution of higher education as defined under Section 61.003;

(2) a private or independent institution of higher education as defined under Section 61.003;

(3) an organization that is exempt from taxation under Section 501(c)(3), Internal Revenue Code of 1986 (26 U.S.C. Section 501(c)(3)); or

(4) a governmental entity.

(b) After thoroughly investigating and evaluating an applicant, the commissioner, in coordination with a member of the [~~The~~] State Board of Education designated for the purpose by the chair of the board, may grant a charter for an open-enrollment charter school only to an applicant that meets any financial, governing, educational, and operational standards adopted by the commissioner under this subchapter, that the commissioner

Unofficial copy Travis Co. District Clerk Velva L. Price

determines is capable of carrying out the responsibilities provided by the charter and likely to operate a school of high quality, and that:

(1) has not within the preceding 10 years had a charter under this chapter or a similar charter issued under the laws of another state surrendered under a settlement agreement, revoked, denied renewal, or returned; or

(2) is not, under rules adopted by the commissioner, considered to be a corporate affiliate of or substantially related to an entity that has within the preceding 10 years had a charter under this chapter or a similar charter issued under the laws of another state surrendered under a settlement agreement, revoked, denied renewal, or returned.

(b-0) The commissioner shall notify the State Board of Education of each charter the commissioner proposes to grant under this subchapter. Unless, before the 90th day after the date on which the board receives the notice from the commissioner, a majority of the members of the board present and voting vote against the grant of that charter, the commissioner's proposal to grant the charter takes effect. The board may not deliberate or vote on any grant of a charter that is not proposed by the commissioner.

(b-1) In granting charters for open-enrollment charter schools, the commissioner [~~The State Board of Education~~] may not grant a total of more than:

(1) 215 charters through the fiscal year ending August 31, 2014;

(2) 225 charters beginning September 1, 2014;

Unofficial copy Travis Co. District Clerk Velva L. Price

(3) 240 charters beginning September 1, 2015;

(4) 255 charters beginning September 1, 2016;

(5) 270 charters beginning September 1, 2017; and

(6) 285 charters beginning September 1, 2018 [~~for an open-enrollment charter school~~].

(b-2) Beginning September 1, 2019, the total number of charters for open-enrollment charter schools that may be granted is 305 charters.

(b-3) The commissioner may not grant more than one charter for an open-enrollment charter school to any charter holder. The commissioner may consolidate charters for an open-enrollment charter school held by multiple charter holders into a single charter held by a single charter holder with the written consent to the terms of consolidation by or at the request of each charter holder affected by the consolidation.

(b-4) Notwithstanding Section 12.114, approval of the commissioner under that section is not required for establishment of a new open-enrollment charter school campus if the requirements of this subsection, including the absence of commissioner disapproval under Subdivision (3), are satisfied. A charter holder having an accreditation status of accredited and at least 50 percent of its student population in grades assessed under Subchapter B, Chapter 39, or at least 50 percent of the students in the grades assessed having been enrolled in the school for at least three school years may establish one or more new campuses under an existing charter held by the charter holder if:

(1) the charter holder is currently evaluated under

Unofficial copy Travis Co. District Clerk Velva L. Price

the standard accountability procedures for evaluation under Chapter 39 and received a district rating in the highest or second highest performance rating category under Subchapter C, Chapter 39, for three of the last five years with at least 75 percent of the campuses rated under the charter also receiving a rating in the highest or second highest performance rating category and with no campus with a rating in the lowest performance rating category in the most recent ratings;

(2) the charter holder provides written notice to the commissioner of the establishment of any campus under this subsection in the time, manner, and form provided by rule of the commissioner; and

(3) not later than the 60th day after the date the charter holder provides written notice under Subdivision (2), the commissioner does not provide written notice to the charter holder of disapproval of a new campus under this section.

(b-5) The initial term of a charter granted under this section is five years.

(b-6) The commissioner shall adopt rules to modify criteria for granting a charter for an open-enrollment charter school under this section to the extent necessary to address changes in performance rating categories or in the financial accountability system under Chapter 39.

(b-7) A charter granted under this section for a dropout recovery school is not considered for purposes of the limit on the number of charters for open-enrollment charter schools imposed by this section. For purposes of this subsection, an open-enrollment

Unofficial copy Travis Co. District Clerk Velva L. Price

charter school is considered to be a dropout recovery school if the school meets the criteria for designation as a dropout recovery school under Section 12.1141(c).

(b-8) In adopting any financial standards under this subchapter that an applicant for a charter for an open-enrollment charter school must meet, the commissioner shall not:

(1) exclude any loan or line of credit in determining an applicant's available funding; or

(2) exclude an applicant from the grant of a charter solely because the applicant fails to demonstrate having a certain amount of current assets in cash.

SECTION 10. Subchapter D, Chapter 12, Education Code, is amended by adding Section 12.1011 to read as follows:

Sec. 12.1011. CHARTER AUTHORIZATION FOR HIGH-PERFORMING ENTITIES. (a) Notwithstanding Section 12.101(b), the commissioner may grant a charter for an open-enrollment charter school to an applicant that is:

(d) The report must also:

(1) aggregate and compare the performance of open-enrollment charter schools granted charters by the State Board of Education, open-enrollment charter schools granted charters by the commissioner, campuses and programs granted charters by school districts, and matched traditional campuses; and

(2) rate the aggregate performance of elementary, middle or junior high, and high schools within each class described by Subsection (b) as indicated by the composite rating that would be assigned to the class of elementary, middle or junior high, and high schools if the students attending all schools in that class were cumulatively enrolled in one elementary, middle or junior high, or high school.

(e) The report must also include an analysis of whether the performance of matched traditional campuses would likely improve if there were consolidation of school districts within the county in which the campuses are located. Unofficial copy Travis Co. District Clerk Velva L. Price

~~Education~~] grants for an open-enrollment charter school must:

SECTION 23. Section 12.114, Education Code, is amended by adding Subsection (c) to read as follows:

(c) Not later than the 60th day after the date that a charter holder submits to the commissioner a completed request for approval for an expansion amendment, as defined by commissioner rule, including a new school amendment, the commissioner shall provide to the charter holder written notice of approval or disapproval of the amendment.

SECTION 24. Subchapter D, Chapter 12, Education Code, is amended by adding Section 12.1141 to read as follows:

Sec. 12.1141. RENEWAL OF CHARTER; DENIAL OF RENEWAL; EXPIRATION. (a) The commissioner shall develop and by rule adopt a procedure for renewal, denial of renewal, or expiration of a charter for an open-enrollment charter school at the end of the term of the charter. The procedure must include consideration of the performance under Chapter 39 of the charter holder and each campus operating under the charter and must include three distinct processes, which must be expedited renewal, discretionary consideration of renewal or denial of renewal, and expiration. To renew a charter at the end of the term, the charter holder must submit a petition for renewal to the commissioner in the time and

Unofficial copy Travis Co. District Clerk Velva L. Price

manner established by commissioner rule.

(b) At the end of the term of a charter for an open-enrollment charter school, if a charter holder submits to the commissioner a petition for expedited renewal of the charter, the charter automatically renews unless, not later than the 30th day after the date the charter holder submits the petition, the commissioner provides written notice to the charter holder that expedited renewal of the charter is denied. The commissioner may not deny expedited renewal of a charter if:

(1) the charter holder has been assigned the highest or second highest performance rating under Subchapter C, Chapter 39, for the three preceding school years;

(2) the charter holder has been assigned a financial performance accountability rating under Subchapter D, Chapter 39, indicating financial performance that is satisfactory or better for the three preceding school years; and

(3) no campus operating under the charter has been assigned the lowest performance rating under Subchapter C, Chapter 39, for the three preceding school years or such a campus has been closed.

(c) At the end of the term of a charter for an open-enrollment charter school, if a charter holder submits to the commissioner a petition for renewal of the charter and the charter does not meet the criteria for expedited renewal under Subsection (b) or for expiration under Subsection (d), the commissioner shall use the discretionary consideration process. The commissioner's decision under the discretionary consideration process must take

Unofficial copy Travis Co District Clerk velva L. Price

into consideration the results of annual evaluations under the performance frameworks established under Section 12.1181. The renewal of the charter of an open-enrollment charter school that is registered under the agency's alternative education accountability procedures for evaluation under Chapter 39 shall be considered under the discretionary consideration process regardless of the performance ratings under Subchapter C, Chapter 39, of the open-enrollment charter school or of any campus operating under the charter, except that if the charter holder has been assigned a financial accountability performance rating under Subchapter D, Chapter 39, indicating financial performance that is lower than satisfactory for any three of the five preceding school years, the commissioner shall allow the charter to expire under Subsection (d). In considering the renewal of the charter of an open-enrollment charter school that is registered under the agency's alternative education accountability procedures for evaluation under Chapter 39, such as a dropout recovery school or a school providing education within a residential treatment facility, the commissioner shall use academic criteria established by commissioner rule that are appropriate to measure the specific goals of the school. The criteria established by the commissioner shall recognize growth in student achievement as well as educational attainment. For purposes of this subsection, the commissioner shall designate as a dropout recovery school an open-enrollment charter school or a campus of an open-enrollment charter school:

(1) that serves students in grades 9 through 12 and has

Unofficial copy Travis Co District Clerk Velva L. Price

an enrollment of which at least 50 percent of the students are 17 years of age or older as of September 1 of the school year as reported for the fall semester Public Education Information Management System (PEIMS) submission; and

(2) that meets the eligibility requirements for and is registered under alternative education accountability procedures adopted by the commissioner.

(d) At the end of the term of a charter for an open-enrollment charter school, if a charter holder submits to the commissioner a petition for renewal of the charter, the commissioner may not renew the charter and shall allow the charter to expire if:

(1) the charter holder has been assigned the lowest performance rating under Subchapter C, Chapter 39, for any three of the five preceding school years;

(2) the charter holder has been assigned a financial accountability performance rating under Subchapter D, Chapter 39, indicating financial performance that is lower than satisfactory for any three of the five preceding school years;

(3) the charter holder has been assigned any combination of the ratings described by Subdivision (1) or (2) for any three of the five preceding school years; or

(4) any campus operating under the charter has been assigned the lowest performance rating under Subchapter C, Chapter 39, for the three preceding school years and such a campus has not been closed.

(e) Notwithstanding any other law, a determination by the

Unofficial copy Travis Co. District Clerk Velva L. Price

commissioner under Subsection (d) is final and may not be appealed.

(f) Not later than the 90th day after the date on which a charter holder submits a petition for renewal of a charter for an open-enrollment charter school at the end of the term of the charter, the commissioner shall provide written notice to the charter holder, in accordance with commissioner rule, of the basis on which the charter qualified for expedited renewal, discretionary consideration, or expiration, and of the commissioner's decision regarding whether to renew the charter, deny renewal of the charter, or allow the charter to expire.

(g) Except as provided by Subsection (e), a decision by the commissioner to deny renewal of a charter for an open-enrollment charter school is subject to review by the State Office of Administrative Hearings. Notwithstanding Chapter 2001, Government Code:

(1) the administrative law judge shall uphold a decision by the commissioner to deny renewal of a charter for an open-enrollment charter school unless the judge finds the decision is arbitrary and capricious or clearly erroneous; and

(2) a decision of the administrative law judge under this subsection is final and may not be appealed.

(h) If a charter holder submits a petition for renewal of a charter for an open-enrollment charter school, notwithstanding the expiration date of the charter, the charter term is extended until the commissioner has provided notice to the charter holder of the renewal, denial of renewal, or expiration of the charter.

(i) The term of a charter renewed under this section is 10

Unofficial copy Travis Co. District Clerk Velva L. Price

years for each renewal.

(j) The commissioner shall adopt rules to modify criteria for renewal, denial of renewal, or expiration of a charter for an open-enrollment charter school under this section to the extent necessary to address changes in performance rating categories or in the financial accountability system under Chapter 39.

(k) For purposes of determination of renewal under Subsection (b)(1) or (3) or (d)(1) or (4), performance during the 2011-2012 school year may not be considered. For purposes of determination of renewal under Subsection (b)(1) or (3) or (d)(1) or (4), the initial three school years for which performance ratings under Subchapter C, Chapter 39, shall be considered are the 2009-2010, 2010-2011, and 2012-2013 school years. For purposes of determination of renewal under Subsection (b)(2) or (d)(2), the earliest school year for which financial accountability performance ratings under Subchapter D, Chapter 39, may be considered is the 2010-2011 school year. This subsection expires September 1, 2016.

SECTION 2. Section 12.115, Education Code, is amended to read as follows:

Sec. 12.115. BASIS FOR CHARTER [~~MODIFICATION, PLACEMENT ON PROBATION,~~] REVOCATION[~~,~~] OR MODIFICATION OF GOVERNANCE [~~DENIAL OF RENEWAL~~]. (a) Except as provided by Subsection (c), the [~~The~~] commissioner shall [~~may modify, place on probation,~~] revoke[~~, or deny renewal of~~] the charter of an open-enrollment charter school or reconstitute the governing body of the charter holder if the commissioner determines that the charter holder:

(2) failed to satisfy generally accepted accounting standards of fiscal management;

(3) failed to protect the health, safety, or welfare of the students enrolled at the school; [~~or~~]

(4) failed to comply with this subchapter or another applicable law or rule;

(5) failed to satisfy the performance framework standards adopted under Section 12.1181; or

(6) is imminently insolvent as determined by the commissioner in accordance with commissioner rule.

(b) The action the commissioner takes under Subsection (a) shall be based on the best interest of the open-enrollment charter school's students, the severity of the violation, [~~and~~] any previous violation the school has committed, and the accreditation status of the school.

(c) The commissioner shall revoke the charter of an open-enrollment charter school if:

(1) the charter holder has been assigned an unacceptable performance rating under Subchapter C, Chapter 39, for the three preceding school years;

Unofficial copy Travis Co. District Clerk Velva L. Price

(3) the charter holder has been assigned any combination of the ratings described by Subdivision (1) or (2) for the three preceding school years.

(c-1) For purposes of revocation under Subsection (c)(1), performance during the 2011-2012 school year may not be considered. For purposes of revocation under Subsection (c)(1), the initial three school years for which performance ratings under Subchapter C, Chapter 39, shall be considered are the 2009-2010, 2010-2011, and 2012-2013 school years. For purposes of revocation under Subsection (c)(2), the initial three school years for which financial accountability performance ratings under Subchapter D, Chapter 39, shall be considered are the 2010-2011, 2011-2012, and 2012-2013 school years. This subsection expires September 1, 2016.

(d) In reconstituting the governing body of a charter holder under this section, the commissioner shall appoint members to the governing body. In appointing members under this subsection the commissioner:

(1) shall consider:

(A) local input from community members and parents; and

(B) appropriate credentials and expertise for membership, including financial expertise, whether the person lives in the geographic area the charter holder serves, and whether the person is an educator; and

(2) may reappoint current members of the governing body.

(e) If a governing body of a charter holder subject to

Unofficial copy Travis Co. District Clerk velva L. Price

reconstitution under this section governs enterprises other than the open-enrollment charter school, the commissioner may require the charter holder to create a new, single-purpose organization that is exempt from taxation under Section 501(c)(3), Internal Revenue Code of 1986, to govern the open-enrollment charter school and may require the charter holder to surrender the charter to the commissioner for transfer to the organization created under this subsection. The commissioner shall appoint the members of the governing body of an organization created under this subsection.

(f) This section does not limit the authority of the attorney general to take any action authorized by law.

(g) The commissioner shall adopt rules necessary to administer this section.

(h) The commissioner shall adopt initial rules under Subsection (g) not later than September 1, 2014. This subsection expires October 1, 2014.

SECTION 26. Section 12.116, Education Code, is amended to read as follows:

[~~(c)~~] Chapter 2001, Government Code, does not apply to a procedure [~~hearing~~] that is related to a [~~modification, placement on probation,~~] revocation[~~,~~] or modification of governance [~~denial of renewal~~] under this subchapter.

(c) A decision by the commissioner to revoke a charter is subject to review by the State Office of Administrative Hearings. Notwithstanding Chapter 2001, Government Code:

(1) the administrative law judge shall uphold a decision by the commissioner to revoke a charter unless the judge finds the decision is arbitrary and capricious or clearly erroneous; and

(2) a decision of the administrative law judge under this subsection is final and may not be appealed.

(d) If the commissioner revokes the charter of an open-enrollment charter school, the commissioner may:

SECTION 28. Subsection (c), Section 12.1163, Education Code, is amended to read as follows:

HB 2103

Amends Section 1.005 and adds Section 1.006, Education Code

Summary: HB 2103 relates to education research centers and the sharing of educational data between state agencies; redesignating certain fees as charges.

Change from current law: HB 2103 makes several changes to the oversight and operations of education research centers (ERCs).

Section 1.005 defines the establishment and operation of the ERCs, and TEA has been removed from a direct oversight role with the ERCs. A consortium of higher education institutions can become an ERC and neither the THECB nor TEA can be an ERC. THECB selects the ERCs, and the ERCs will operate under contracts with THECB alone lasting 10 years. Cooperating agency was defined as TEA, THECB, and Texas Workforce Commission. The 45-day notice to legislative leadership of directive studies was removed. Agency data shall be provided for the preceding 20 years and updated at least once a year. THECB may enter into data sharing agreements with education agencies, other states, local agencies, and organizations that provide educational services. A researcher may use any data an ERC has collected and stored. TEA's rulemaking authority was removed. The authority to recover costs from the ERCs to support FTEs at the agency was removed.

Section 1.006 defines the oversight of the ERCs by an advisory board. TEA no longer jointly creates and runs the advisory board, and board membership has been redefined. TEA has a seat on the board as do the ERCs. Parameters defining board consideration and approval of research proposed to be conducted at the ERCs are specified. A quarterly meeting schedule for the advisory board is specified. The advisory board may create committees and subcommittees when deemed convenient or necessary.

HB 1871

Adds Subsection 11.0581(e), Education Code

Summary: Adds a subsection that applies only to a school district with territory in at least of four counties, each of which has a population of less than 46,000. None of the school district's territory may be located in a municipality. The new subsection provides that the school district's proportion of joint election expenses must correspond to the proportion that the number of voters in the school district bears to the total number of voters in all political subdivisions participating in the joint election.

Change from current law: Currently, Section 11.0581 does not provide a proportion for a school district's share of joint election expenses. Under Section 271.004, Election Code, the expenses are allocated as provided by the joint election agreement.

HB 343

Amends Section 11.064 and adds Section 11.0641, Education Code

Summary: New Section 11.0641 provides a temporary alternative to Section 11.064 that applies only to trustees of an independent school district located in a county that is on an international border and in which a municipality with a population of 600,000 or more is located.

Each member of the board of trustees is required to file a financial statement with the board of trustees and with the commissioner's court. The statement is subject to certain provisions of Chapter 572, Government Code. Failing to file is a Class C misdemeanor and a late filing is subject to a civil penalty payable to the county.

The section expires on January 1, 2019 and trustees in the applicable county will again be subject to Section 11.064 at that time.

Change from current law: Under Section 11.064, which remains applicable to all other independent school districts, authorizes the board of trustees by resolution to require members to file financial statement with the board and the Texas Ethics Commission. Section 11.064 also requires the commissioner of education to order a board of trustees to file financial statements under certain circumstances.

HB 628

Amends Section 11.1512, Education Code

Summary: These new subsections provide that a member of the board of trustees of a school district, when acting in the member's official capacity, has a right of access to records maintained by the district and the district must provide such information to a board member without requiring a board member to submit a public information request. The district may withhold or redact information that is excepted from disclosure or confidential under chapter 552 of the Government Code or other law, including FERPA.

A school district must publically post the cost of responding to one or more requests submitted by a member of the board if the requests are for 200 or more pages of material in a 90-day period. The number of such requests submitted to the school district during the preceding school year and the total cost to the school district for that school year of responding to such requests must be reported annually to TEA by September 1.

HB 2961

Amends Section 11.1514, Education Code and amends 552.024 and 552.147, Government Code

Summary: A school district may not require an employee or former employee of the district to choose whether to permit public access to the person's social security number. The social security number of an employee of a school district in the custody of the school district is confidential. Finally, the board of trustees of an independent school district must adopt a policy prohibiting the use of a district employee's social security number as an employee identifier other than for tax purposes.

Change from current law: Currently, an employee or former employee of a school district may choose whether to allow public access to the person's social security number and an employee's social security number in the custody of a school district is not confidential. The requirement that a school district adopt a policy prohibiting the use of social security numbers as employee identifiers is not currently in statute.

Adds Sections 11.1542 and 11.1543, Education Code

Summary: This bill requires the board of trustees of an ISD to give open-enrollment charter schools the opportunity to make an offer for sale or lease of unused or underused property that the district intends to offer for sale or lease to other entities.

It prevents ISDs from charging rent or requiring the purchase of facilities when a campus or campus program charter is granted as the result of a conversion of the status of an existing school district campus. It also prohibits an ISD from charging a campus or campus program charter for services in an amount greater than the cost of providing the services.

Change from current law: Section 11.1542 of the Education Code is added to require the board of trustees of a school district to give each open-enrollment charter school located wholly or partly within the boundaries of the district the opportunity to make an offer before offering the facility for sale or lease to any other specific entity if the district intends to sell, lease or allow use for a purpose other than a district purpose of an unused or underused district facility.

Section 11.1543 of the Education Code is added to prevent an ISD from requiring a campus or campus program charter that was granted as the result of a conversion of the status of an existing school district

campus to pay rent for or to purchase a facility in order to use the facility or to pay for any service provided by the district under a contract between the district and the open-enrollment charter in an amount that is greater than the amount of the actual cost to the district of providing the service.

SB 2, Section 3

Adds Section 12.0522, Education Code

Summary: Section 3 outlines the parameters in which the Board of Trustees of a school district or the governing body of a home-rule district may grant a district charter. The new statute limits the granting of a charter to one or more campuses serving no more than 15% of the total district student enrollment (in the preceding school year). This percentage limit does not constrain the district from granting a charter to at least one feeder pattern (elementary, middle or junior, and high). District charters may be granted to any campus that has received the lowest performance rating. A district charter granted under the Subchapter C will not affect the cap, but will operate as a Subchapter D open-enrollment charter school.

Change from current law: Yes, this creates a new statute.

SB 2, Section 4

Adds Sections 12.0531 and 12.0532, Education Code

Summary: Section 4 requires performance contracts for the principal or other equivalent chief operating officer when campus or campus program charters are granted.

Change from current law: Section 12.0531 of the Education Code is added to require the board of trustees of a school district that grants a campus or program charter to issue performance contracts to the principal or equivalent chief operating officer of the campus or program. The contract must specify the enhanced authority granted to the principal or equivalent officer in order to achieve the academic goals that must be met. The statute specifies that the charter granted under this subchapter expires 10 years from the date the charter is granted unless the specified goals are substantially met, as determined by the board of trustees of the school district that granted the charter.

Section 12.0532 specifies provisions relating to neighborhood schools. Charters granted by this subchapter can be designated as neighborhood schools, as determined by the board of trustees. The principal or chief operating officer of a neighborhood school shall manage funding in the manner the principal or other officer determines best meets the needs of the students. The new language allows the district to retain the portion of funding that the district generally withholds from a campus for costs associated with the salary of the district superintendent or other district governance. The principal or equivalent chief operating officer may use school funding to purchase services (including bus service, facilities maintenance services, and other services) from

the district in which the school is located. The school shall pay for services in an amount that reflects the actual cost to the district of providing the service.

Amends Sections 12.101, 12.1057, 12.112, 12.113 and 12.119, Education Code

Unofficial copy Travis Co District Clerk Velva L. Price

Summary: This bill gives the commissioner of education the authority to grant an open-enrollment charter. After thoroughly investigating and evaluating an applicant the commissioner, in coordination with a member of the State Board of Education (SBOE) designated for the purpose by the chair of the board, may grant a charter. In addition to the financial, governing, and operational standards outlined in the statute, the requirements are expanded to include an educational standard. The commissioner determines a charter applicant's capability of carrying out the responsibilities and the likelihood of operating a school of high quality. Any entity (charter, corporate affiliate of, or substantially related party to an entity) that has within the preceding 10 years had a charter surrendered, revoked, denied renewal, or returned under this subchapter or under the laws of another state will not be eligible for a charter. The commissioner shall notify the SBOE of each charter the commissioner proposes to grant. Unless before the 90 day after notification a majority of the members of the board present and vote to veto the charter the commissioner's proposal to grant a charter takes effect (b-0). The amendment allows for a graduated cap increase on open-enrollment charters from 215 to 305. The increase allows for:
215 charters through the fiscal year ending August 31, 2014;
225 charters beginning September 1, 2014;
240 charters beginning September 1, 2015;
255 charters beginning September 1, 2016;
270 charters beginning September 1, 2017; and
285 charters beginning September 1, 2018. (b-1)

And establishes the cap of 305 charters beginning September 1, 2019. (b-2)

No more than one charter for an open-enrollment charter school shall be granted to any charter holder. With written consent of current charter holders effected or at their

request, the commissioner may consolidate multiple charters held by multiple charter holders into a single charter. (b-3)

New charter school campuses may be established under an existing charter evaluated under standard accountability procedures without the consent of the commissioner, if the charter has an accreditation status of accredited, at least 50% of the students are in tested grades, and at least 50% of those students have been enrolled in the school for at least three years. Additionally the charter district rating must be the highest or second highest performance rating for three of the last five years with at least 75% of the campuses receiving a rating of the highest or second highest in student performance category and no campuses with a rating of the lowest performance rating category in the most recent ratings. A 60 day timeline for written disapproval of the expansion is established. (b-4)

Charters are granted for an initial five year term. (b-5)

Charter granted for drop-out recovery does not counted against the cap. The criteria of for drop out recovery is defined in 12.1141(c) (b-7)

Financial standards for an applicant cannot exclude an applicant solely because the applicant fails to demonstrate having a certain amount of assets. Available funding is not to exclude loans or lines of credit.

Sections 17, 21, 22 and 31 make conforming changes provided for the commissioner of education rather than the State Board of Education is the authorizing entity.

Change from current law: Yes, throughout §12.101 there is conforming language providing for the commissioner of education rather than the State Board of Education to be the authorizing entity. There is a graduated extension of the cap to a new total of 305.

Effective Date: September 1, 2013

Action required for 2013-14 School Year: Draft, adoption, and implementation of rules. New timelines will be established allowing for the veto of proposed charters by the State Board of Education members. Procedures and processes will be re-examined to allow for the new provisions of the statute as well as being reflected in applications and petitions.

Outstanding Issues: The timeline for interviewing charter applicants and granting of charters falls the week after the enactment date of the statute.

SB 2, Section 12 & 48

Adds Section 12.1014, Education Code

Summary: Section 12 authorizes the granting of up to five charters under subchapter D to be designated disability charters. 50% of the student body would need to be designated as having a disability. These charters would not affect the cap.

Section 48 requires the implementation of this provision only if the legislature appropriates money specifically for this purpose. If funds are not appropriated implementation is permissive.

Change from current law: Yes, currently all subchapter D chapters fall under the cap. There are no provisions for a charter to exist outside the cap.

Effective Date: September 1, 2013

Action required for 2013-14 School Year: Draft, adoption, and implementation of rules as necessary. Creation of charter application addressing special education standards.

SB 2, Section 24

Amends Section 12.1141, Education Code

Summary: This section establishes the requirements for charter contract renewal. The application/petition shall include criteria for expedited and discretionary processes, as well as criteria for expiration of. Each renewal granted is for a period of 10 years. The process for charter renewal requires the commissioner to develop and adopt a procedure for renewal that includes three distinct processes: expedited renewal, discretionary renewal or denial of renewal, and mandatory expiration. To renew a charter at the end of the term, the charter holder must submit a petition for renewal to the commissioner in the time and manner established by commissioner rule.

Expedited Renewal: A charter is entitled to expedited renewal if the charter holder has been assigned the highest or second highest academic rating for the three preceding school years, the charter holder has been assigned a financial performance accountability rating indicating financial performance that is satisfactory or better for the three preceding school years, and no campus operating under the charter has been assigned the lowest performance rating for the three preceding school years or such campus has been closed. Under expedited renewal, the charter automatically renews within 30 days after the date the charter holder submits the petition to the commissioner, unless the commissioner provides written notice to the charter holder that the charter does not meet the requirements for expedited renewal.

Discretionary Renewal: Discretionary renewal is based on commissioner rule which must take into account results from annual evaluations set up under newly created Section 12.1181. If a charter does not meet the criteria for expedited renewal or if the charter school is set up under the Alternate Education Accountability (AEA) system, they are not eligible for expedited renewal and are to be

Unofficial copy Travis Co. District Clerk Velva L. Price

considered under the discretionary renewal process. In considering the renewal of the charter of an open-enrollment charter school that is registered under AEA procedures for evaluation, the commissioner shall use academic criteria that are appropriate to measure the specific goals of the school. The commissioner must approve or deny a charter renewal under discretionary renewal within 90 days of submission of the renewal application.

Mandatory Expiration (Non-Renewal): The commissioner must allow a charter to expire if the charter has been assigned the lowest academic performance rating for any three of the five preceding school years, a financial accountability performance rating indicating financial performance lower than satisfactory for any three of the five preceding school years, the charter holder has been assigned any combination of the lowest academic or financial ratings for any three of the five preceding school years, or any campus has been assigned the lowest academic rating for the three preceding school years and has not been closed. Charters registered under the AEA procedures are not exempt from mandatory expiration for financial accountability ratings.

2011-2012 performance ratings will not be considered for purposes of renewal determination. Rather, the initial three school years for which performance ratings shall be considered are the 2009-2010, 2010-2011, and 2012-2013 school years. The initial year for which financial performance ratings shall be considered is the 2010-2011 school year.

Renewal Procedures: The decision by the commissioner for charter expiration is final and may not be appealed. A decision by the commissioner to deny renewal of a charter in discretionary renewal is subject to review by the State Office of Administrative Hearing (SOAH). The administrative law judge shall uphold a decision by the commissioner to deny charter renewal unless the judge finds the decision was arbitrary and capricious or clearly erroneous. The decision of the administrative law judge from the SOAH review may not be appealed.

SB 2, Section 25

Amends Section 12.115, Education Code

Summary: This section adds to the current criterion of revocation two additional criteria: a failure to satisfy performance framework standards adopted under 12.1181 and a determination to be eminently insolvent. The amendment requires the commissioner to revoke the charter of an open-enrollment charter school if the charter holder has been assigned an unacceptable performance rating for the three preceding school years, the charter holder has been assigned an unsatisfactory financial performance rating for the three preceding school years, or the charter school has been assigned any combination of the ratings described for the three preceding school years.

The 2011-2012 academic ratings will not be considered for revocation purposes. Rather, the initial three school years for which performance ratings for revocation purposes shall be considered are the 2009-2010, 2010-2011, and 2012-2013 school years. The initial school year for which financial accountability performance ratings shall be considered is the 2010-2011 school year.

Additionally the commissioner is required to adopt an informal procedure for charter revocation and reconstitution of the governing board. The bill removes the requirement that the revocation procedure provide an opportunity for a hearing to the charter holder. A decision by the commissioner to revoke a charter is subject to review by the State Office of Administrative Hearings (SOAH), whereby the administrative law judge shall uphold a decision by the commissioner unless the judge finds the decision is arbitrary and capricious or clearly erroneous. The SOAH review is not subject to appeal. Upon revocation, the bill authorizes the commissioner to manage the school until alternative arrangements are made for students, and authorizes the commissioner to assign operations to another charter holder.

SB 2, Section 26

Amends Section 12.116, Education Code

Summary: The commissioner shall adopt a new informal procedure for revoking or reconstituting the governing body of a charter. Administrative Procedures Act does not apply to a revocation or reconstitution but the decision of commissioner is subject to SOAH review which shall uphold the decision unless the judge finds it arbitrary, capricious or clearly erroneous. Such SOAH decision shall be final and may not be appealed. Upon revocation, the commissioner may manage the school until arrangements are made for the students which may include transferring the campuses to a different charter holder who agrees to accept such campuses.

Summary: A guardian and attorney ad litem appointed to represent a child in foster care must determine if the child's educational needs and goals have been identified and addressed before each scheduled hearing under chapter 263 of the Family Code. A court may appoint a surrogate parent if a child in foster care participates in a school district's special education program. At each permanency and placement review hearing the court must identify an education decision maker for the child if one has not been previously identified and determine whether the child's education needs and goals have been identified and addressed. The Department of Family and Protective Services (DFPS) must make a foster child's education passport available to any person authorized by law to make educational decisions for the child. A student enrolled in a primary or secondary public school who is placed in DFPS conservatorship and at a residence outside the attendance area for the school or school district is entitled to continue to attend the school in which the student was enrolled immediately before entering foster care until the student successfully completes the highest grade level offered by the school. TEA must require school districts to provide notice to a foster child's educational decision-maker and caseworker regarding certain events that may significantly impact the child's education. HB 5, Sections 5, 6 & 7

Amends Sections 25.083 and 25.092, Education Code

Summary: The board of trustees of each school district must adopt and strictly enforce a policy limiting the removal of students from class for remedial tutoring or test preparation. A district may not remove a student from a regularly scheduled class for remedial tutoring or test preparation if, as a result of the removal, the student would miss more than 10 percent of the school days on which the class is offered, unless the student's parent or another person standing in parental relation to the student provides to the district written consent for removal from class for such purpose.

A student in any grade level from kindergarten through grade 12 may not be given credit or a final grade for a class unless the student is in attendance for at least 90 percent of the days the class is offered.

Change from current law: Current statute requires each local district board of trustees to adopt and strictly enforce a policy limiting interruptions of classes during the school day for nonacademic activities such as announcements and sales promotions, but does not address remedial tutoring or test preparation.

Under current law, the minimum attendance requirement for class credit clearly applies to high school, but is not explicitly applicable to students in elementary and middle grades.

HB 2694/SB 1365

Amends Sections 25.092 and 28.023, Education Code

Summary: School districts approve, to the extent available, at least four examinations for acceleration or for credit for each academic subject. Each exam must satisfy State Board of Education (SBOE) guidelines, and the approved exams must include College Board AP exams and College-Level Examination Program (CLEP) exams. Districts are required to award credit for a subject if a student scores a 3 or higher on an AP test, a scaled score of 60 or higher on a CLEP test, or an 80% or higher on another test. Districts must administer the tests not fewer than four times a year with an exception for tests given on a schedule not determined by the district.

The score an elementary or secondary student must make on an exam for acceleration or for credit is now 80. Students who earn credit on the basis of an examination are exempt from taking an end-of-course exam for that subject. A student is only permitted two attempts at earning credit through examination in a given subject and may not make any attempt after the time he would ordinarily be enrolled in the course.

The 90% attendance rule for credit does not apply to a student who earns credit on the basis of an examination.

Change from current law: Currently the specified score for credit by exam or for acceleration by exam is 90, rather than 80. A district must offer credit-by-exam opportunities at least once a year at times determined by the SBOE rather than four times a year. Districts are not currently required to identify multiple tests in a given subject, and districts are not required to include AP or CLEP tests in their credit-by-exam programs.

A district may offer a course or other activity, including an apprenticeship or training hours needed to obtain an industry-recognized credential or certificate, that is approved by the board of trustees for credit without obtaining State Board of Education (SBOE) approval if:

(1) the district develops a program under which the district partners with a public or private institution of higher education and local business, labor, and community leaders to develop and provide the courses; and

(2) the course or other activity allows students to enter:

(A) a career or technology training program in the district 's region of the state;

(B) an institution of higher education without remediation;

(C) an apprenticeship training program; or

(D) an internship required as part of accreditation toward an industry-recognized credential or certificate for course credit.

Unofficial copy Travis Co. District Clerk Velva L. Price

Each school district must annually report to the agency the names of the courses, programs, institutions of higher education, and internships in which the district's students have enrolled. The agency must make this information available to other districts.

In approving CTE courses, the SBOE must determine that at least 50 percent of the approved courses are cost-effective for a school district to implement.

Change from current law: Current statute does not explicitly require a school district to offer Algebra II.

Current statute allows a school district to offer a mathematics or science course without SBOE approval to be taken after Algebra II and physics that is endorsed by an institution of higher education as a course for which the institution would award course credit or as a prerequisite for a course for which the institution would award course credit.

Effective Date: June 10, 2013; applies beginning with the 2014-2015 school year.

Action required for 2013-14 School Year: None

Outstanding Issues: Each district is required to make available to each high school student in the district an Algebra II course beginning with the 2014-2015 school year.

HB 897

Amends Sections 28.0023, Education Code

Summary: The State Board of Education (SBOE) must include instruction in cardiopulmonary resuscitation (CPR) for students in grades 7 through 12 and requires a school district or open-enrollment charter school to provide instruction in CPR. The instruction may be provided as a part of any course and a student is required to receive the instruction at least once before graduation. An administrator may waive the requirement for CPR instruction for an eligible student with a disability.

The instruction must include training that has been developed by the American Heart Association or the American Red Cross, or developed using nationally recognized, evidence-based guidelines for emergency cardiovascular care and incorporating hands-on practice to support cognitive learning.

A School district or open-enrollment charter school is permitted to use emergency medical technicians, paramedics, police officers, firefighters, representatives of the American Heart Association or the American Red Cross, teachers, other school employees, or other similarly qualified individuals to provide instruction and training. The required CPR instruction does not have to result in certification. If the instruction is intended to result in certification, the course instructor must be authorized to provide the instruction by the American Heart Association or the American Red Cross, or a similar nationally recognized association.

Change from current law: Current law requires the SBOE to include elements relating to instruction in cardiopulmonary resuscitation and the use of an automated external defibrillator (AED) as part of the Texas Essential Knowledge and Skills (TEKS) for health.

Effective Date: June 14, 2013; applies beginning with the 2014-2015 school year.

Action required for 2013-14 School Year: The SBOE would need to include a requirement for students in grades 7-12 to receive instruction in CPR at least once before graduation.

Outstanding Issues: Beginning in 2014-2015, school districts and open-enrollment charter schools are required to provide instruction to students in grades 7-12 in CPR. Students are required to receive the instruction at least once before graduation.

Summary: The local school health advisory council (SHAC) of each school district is required to establish a physical activity and fitness planning subcommittee. This subcommittee is charged with considering issues relating to student physical activity and fitness and making policy recommendations to increase physical activity and improve fitness among students. The local SHAC is also required to include in its annual written report to the local board of trustees any recommendations made by the physical activity and fitness planning subcommittee.

If feasible, the local SHAC must recommend joint use agreements or strategies for collaboration between the school district and community organizations or agencies. Any joint use agreement into which a school district and community organization or agency enter on the basis of a recommendation of the local SHAC must address liability for the school district and community organization or agency.

Change from current law: Current law does not require a physical activity and fitness planning subcommittee as part of a local SHAC, nor does it address the recommendation of joint use agreements or strategies for collaboration between school districts and community organizations or agencies.

Effective Date: September 1, 2013

HB 5, Section 11, 15 & 20

Section 11 amends Section 28.0211(m) and adds Subsection 28.0211(m-1); Section 15 adds Section 28.0217; and Section 20 adds Subsections 29.081(b-1), (b-2), and (b-3), Education Code

Summary: Section 11 specifies that when the commissioner certifies the Student Success Initiative (SSI) and the accelerated instruction requirements of TEC, §28.0217, the commissioner shall consider the following: the average cost per student per assessment administration; the number of students requiring accelerated instruction; whether sufficient funds have been

appropriated for drop-out prevention; and whether sufficient funds have been appropriated for instructional materials that are aligned with the STAAR assessments.

HB 5, section 15, adds new TEC, 28.0217 to require that each time a student fails an EOC assessment, the school district will provide the student with accelerated instruction in the subject using appropriated funds for that purpose under amended TEC, §28.0211(m) (related to commissioner certification of the Student Success Initiative). Accelerated instruction may require a student to participate outside normal school hours.

HB 5, section 20, adds new TEC §29.081(b-1) requiring a district to offer accelerated instruction to each student in a subject in which the student failed an EOC assessment before the next administration without any cost to the student. Per added (b-2), the district is required to budget separate funds for the accelerated instruction required under new TEC, §29.081(b-1). Pursuant to added (b-3), districts must annually evaluate the effectiveness of this instruction and hold a public hearing to consider the results.

Change from current law: HB 5 specifies what the commissioner must consider when certifying SSI and accelerated instruction requirements. Districts are now required to allocate funding for accelerated instruction based on EOC assessments. This accelerated instruction must be provided at no charge to the student and given before the next administration of the applicable assessment. The district must also evaluate the effectiveness of the accelerated instruction and provide the evaluation's results in a public hearing.

Effective Date: June 10, 2013

Action required for 2013–14 School Year: Commissioner rulemaking is anticipated to specify in rule that districts will provide accelerated instruction for EOC assessments at no cost to the student before the next administration of that assessment and that districts will annually evaluate the effectiveness of the accelerated instruction and hold a public hearing to consider the results.

HB 5, Sections 12-14

Adds Section 28.02121and amends Subsections 28.0212(a) and (b), Education Code

Summary: A principal of a junior high or middle school must designate a school counselor, teacher, or other appropriate individual to develop and administer a personal graduation plan for each student enrolled in the junior high or middle school who:

(1) does not perform satisfactorily on an assessment instrument administered under Subchapter B, Chapter 39; or

(2) is not likely to receive a high school diploma before the fifth school year following the student 's enrollment in grade level nine, as determined by the district.

The agency, in consultation with the Texas Workforce Commission (TWC) and the Texas Higher Education Coordinating Board (THECB), must prepare and make available to each school district in English and Spanish information that explains the advantages of the distinguished level of achievement and each endorsement. The information must contain an explanation:

(1) concerning the benefits of choosing a high school personal graduation plan that includes the distinguished level of achievement under the foundation high school program and includes one or more endorsements to enable the student to achieve a class rank in the top 10 percent for students at the campus; and

(2) that encourages parents, to the greatest extent practicable, to have the student choose a high school personal graduation plan.

A school district must publish the information provided to the district on its Internet website and ensure that the information is available to students in grades nine and above and the parents or legal guardians of those students in the language in which the parents or legal guardians are most proficient. A district is required to provide information in the language in which the parents or legal guardians are most proficient only if at least 20 students in a grade level primarily speak that language.

Unofficial copy Travis Co. District Clerk Velva L. Price

Each high school principal must designate a school counselor or school administrator to review personal graduation plan options with each student entering grade nine together with that student's parent or guardian. The personal graduation plan options reviewed must include the distinguished level of achievement and the endorsements. Before the conclusion of the school year, the student and the student 's parent or guardian must confirm and sign a personal graduation plan for the student. A high school personal graduation plan must identify a course of study that:

(1) promotes college and workforce readiness and career placement and advancement; and
(2) facilitates the student's transition from secondary to postsecondary education.

A school district may not prevent a student and the student's parent or guardian from confirming a personal graduation plan that includes pursuit of a distinguished level of achievement or an endorsement.

A student may amend the student's personal graduation plan after the initial confirmation of the plan. If a student amends his or her personal graduation plan, the school must send written notice to the student's parents regarding the change.

Change from current law: Current law requires personal graduation plans only for students in junior high, middle, or high school who do not perform satisfactorily on a state assessment instrument or who are not likely to receive a high school diploma before the fifth school year following enrollment in the 9th grade. These personal graduation plans are not required to identify intended coursework.

Effective Date: June 10, 2013

SB 1365

Amends Section 28.023, Education Code

Summary: SB 1365 specifies that a student in grade 6 or higher is not required to take an end-of-course (EOC) assessment in a subject area for which the student received credit-by-exam (CBE).

SB 1365 is not in conflict with amended TEC, §39.023(a-2) from HB 5, which says a student must test at grade level in grades 3–8 if federally required. However, at this time it is unclear if there are any federal accountability implications due to the EOC assessment exemption for CBE students. SB 1365 does overlap with TEC, §39.025(a-1), which governs the use of substitute assessments to be used in place of state-developed EOC assessments.

Change from current law: Currently, students receiving course credit through CBE must still take the required EOC assessment for that course to receive a Texas diploma.

Effective Date: June 14, 2013

Action required for 2013–14 School Year:

Outstanding Issues: Though SB 1365 is not in conflict with amended TEC, §39.023(a-2) from HB 5, the agency must determine if there are any federal accountability implications due to the EOC assessment exemption for CBE students. It is likely that a waiver would need to be sought from the United States Department of Education in order to exempt students receiving CBE from federal accountability.

HB 5, Section 16

Amends Section 28.025, Education Code

Summary: The Minimum High School Program (MHSP), Recommended High School Program (RHSP), and Distinguished Achievement Program (DAP) will be replaced with the foundation high school program beginning with the 2014-2015 school year. The Commissioner by rule must adopt a transition plan to implement and administer the amendments made by HB 5, replacing the MHSP, RHSP, and DAP with the foundation high school program beginning with the 2014-2015 school year. Under the transition plan, a student who entered the ninth grade before the 2014-2015 school year must be permitted to complete the curriculum requirements for high school graduation under

- the foundation high school program, if the student chooses during the 2014-2015 school year to take courses under this program;
- the MHSP, if the student was participating in that program before the 2014-2015 school year;
- the RHSP, if the student was participating in that program before the 2014-2015 school year; or
- the DAP, if the student was participating in that program before the 2014-2015 school year.

The Commissioner by rule must permit a student who is participating in the MHSP, RHSP, or DAP and who is completing the fourth year of high school during the 2013-2014 school year who does not satisfy the curriculum requirements of the high school program in which the student is participating to graduate if the student satisfies the curriculum requirements established for the foundation high school program.

A school district must ensure that each student, on entering ninth grade, indicates in writing an endorsement that the student intends to earn. A district must permit a student to choose, at any time, to earn an endorsement other than the endorsement the student previously indicated. A student may graduate under the foundation high school program
without earning an endorsement if, after the student ’s sophomore year,

(1) the student and the student ’s parent/guardian are advised by a school counselor of the specific benefits of graduating from high school with one or more endorsements; and

Unofficial copy Travis Co. District Clerk Velva L. Price

(2) the student's parent/guardian files with a school counselor written permission, on a form adopted by the agency, allowing the student to graduate under the foundation high school program without earning an endorsement.

The State Board of Education (SBOE) must require that the foundation high school program include successful completion of

- four credits in English language arts including English I, English II, English III, and an advanced English course
- three credits in mathematics including Algebra I, geometry, and an advanced mathematics course
- three credits in science including biology, an advanced science course, and IPC or an additional advanced science course
- three credits in social studies including U.S. History, one-half credit in U.S. Government, one-half credit in economics, and world geography or world history or a combined world geography/world history course
- two credits in the same language in a language other than English or two credits in computer programming languages
- one credit in fine arts
- one credit in physical education
- five elective credits

In adopting rules the SBOE must require a student in order to earn any endorsement
to successfully complete in addition to the curriculum requirements for the foundation program

- four credits in mathematics which must include the courses required for the foundation program and an additional advanced mathematics course or an advanced CTE course designated by the SBOE;
- four credits in science which must include the courses required for the foundation program and an additional advanced science course or an advanced CTE course designated by the SBOE; and
- two additional elective credits.

A student may earn an endorsement on the student's diploma and transcript by successfully completing curriculum requirements for that endorsement adopted by SBOE rule. The SBOE must provide students with multiple options for earning each
endorsement, including, to the greatest extent possible, coherent sequences of courses. The SBOE by rule must permit a student to enroll in courses under more than one endorsement curriculum before the student's junior year. An endorsement may be earned in any of the following categories:

Unofficial copy Travis Co. District Clerk Velva L Price

- Science, technology, engineering, and mathematics (STEM), which includes courses directly related to science, including environmental science, technology, including computer science, engineering, and advanced mathematics
- Business and industry, which includes courses directly related to database management, information technology, communications, accounting, finance, marketing, graphic design, architecture, construction, welding, logistics, automotive technology, agricultural science, and heating, ventilation, and air conditioning
- Public services, which includes courses directly related to health sciences and occupations, education and training, law enforcement, and culinary arts and hospitality
- Arts and humanities, which includes courses directly related to political science, world languages, cultural studies, English literature, history, and fine arts
- Multidisciplinary studies, which allows a student to select courses from the curriculum of each endorsement area and earn credits in a variety of advanced courses from multiple content areas sufficient to complete the distinguished level of achievement under the foundation high school program

The SBOE must develop additional curriculum requirements for each endorsement with the direct participation of educators and business, labor, and industry representatives, and must require each school district to report to the agency the categories of endorsements for which the district offers all courses for curriculum requirements, as determined by board rule.

The SBOE must adopt criteria to allow a student participating in the arts and humanities endorsement, with the written permission of the student's parent/guardian, to comply with the requirement for a fourth science credit necessary to earn an endorsement by substituting a course related to that endorsement.

Each school district must make available to high school students courses that allow a student to complete the curriculum requirements for at least one endorsement. A school district that offers only one endorsement curriculum must offer the multidisciplinary studies endorsement curriculum.

A student may earn a distinguished level of achievement under the foundation high school program by successfully completing

- four credits in mathematics, which must include Algebra II;

Unofficial copy Travis Co. District Clerk Velva L. Price

- four credits in science;
- the remaining curriculum requirements for the foundation program; and
- the curriculum requirements for at least one endorsement.

A student may earn a performance acknowledgment by satisfying requirements adopted by SBOE rule. An acknowledgment may be earned for any of the following:

- For outstanding performance
  - in a dual credit course
  - in bilingualism and biliteracy
  - on an AP test or IB exam
  - on the PSAT, the ACT-Plan, the SAT, or the ACT
- For earning a nationally or internationally recognized business or industry certification or license

In accordance with SBOE rule, a school district must clearly indicate a distinguished level of achievement under the foundation high school program, an endorsement, and a performance acknowledgment on the diploma and transcript of a student who satisfies the applicable requirements.

At the end of each school year, each school district must report through the Public Education Information Management System (PEIMS) the number of district students who, during that school year, were

(1) enrolled in the foundation high school program;
(2) pursuing the distinguished level of achievement; and
(3) enrolled in a program to earn an endorsement.

This information must be disaggregated by all student groups served by the district, including categories of race, ethnicity, socioeconomic status, sex, and populations served by special programs, including students in special education programs.

In adopting rules, the SBOE must provide for a student to comply with the curriculum requirements for an advanced English course taken after successful completion of English I, English II, and English III, for an advanced mathematics course taken after the successful completion of Algebra I and geometry and for any advanced science course by successfully completing a course in the appropriate content area that has been approved as an advanced course by SBOE rule or that is offered as an advanced course for credit without SBOE approval.

The SBOE must approve a variety of advanced English, mathematics, and science courses that may be taken to comply with the foundation high school program

Unofficial copy Travis Co. District Clerk Velva L. Price

requirements provided that each approved course prepares students to enter the workforce successfully or postsecondary education without remediation.

The SBOE, in coordination with the THECB, must adopt rules to ensure that a student may comply with the curriculum requirements under the foundation high school program or for an endorsement by successfully completing appropriate courses in the core curriculum of an institution of higher education.

A school district, with the approval of the Commissioner, may allow a student to satisfy the required fine arts credit by participating in a community-based fine arts program not provided by the school district in which the student is enrolled. The fine arts program must provide instruction in the TEKS identified for fine arts by the SBOE. The fine arts program may be provided on or off a school campus and outside the regular school day.

The SBOE must allow a student to substitute credit in another appropriate course for the second credit in the same language in a language other than English if the student, in completing the first credit, demonstrates that the student is unlikely to be able to complete the second credit. The SBOE rules must establish the standards and, as applicable, the appropriate school personnel for making a determination and appropriate substitute courses for this purpose.

The SBOE must allow a student who, due to disability, is unable to complete two courses in the same language in a language other than English, to substitute for those credits two credits in English language arts, mathematics, science, social studies, CTE, or technology applications. A credit allowed to be substituted may not also be used by the student to satisfy a graduation credit requirement other than credit for completion of a language other than English. The determination regarding a student's ability to participate in language other than English courses will be made

- by the student 's admission, review, and dismissal committee if the student receives special education services; or
- by the committee established for the student if the student does not receive special education services, but is covered by Section504, Rehabilitation Act of 1973 (29 U.S.C. Section 794).

Change from current law: Currently, students may graduate on one of three high school graduation programs—minimum, recommended, or advanced. To graduate on the MHSP a student must earn a total of 22

credits. To take courses under the MHSP, students must meet one of three specified criteria and there must be written agreement between the student, the student's parent, and the school. Additionally, any student who receives instruction in modified content automatically defaults to the MHSP. To graduate on the RHSP or on the advanced program/DAP, students must earn a total of 26 credits including four credits each in English language arts, mathematics, science, and social studies.

Effective Date: June 10, 2013

Action required for 2013-14 School Year: The Commissioner by rule must adopt a transition plan to implement and administer the amendments made by HB 5, replacing the MHSP, RHSP, and DAP with the foundation high school program beginning with the 2014-2015 school year. The SBOE must adopt rules outlining curriculum requirements for each endorsement and requirements for performance acknowledgments.

Outstanding Issues: Beginning with the 2014-2015 school year districts must offer courses necessary for the distinguished level of achievement and at least one endorsement. A school district must clearly indicate a distinguished level of achievement under the foundation high school program, an endorsement, and a performance acknowledgment on the diploma and transcript of a student who satisfies the applicable requirements. A school district must ensure that each student, on entering ninth grade, indicates in writing an endorsement that the student intends to earn.

HB 1122

Adds Sections 28.0255 and 42.2526, Education Code

Summary: A school district with an enrollment of more than 150,000 students and located primarily in a county that has a population of 2.2 million or more and that is adjacent to a county with a population of more than 600,000 may develop and implement a pilot program for students who wish to obtain a high school diploma after completion of three years of secondary school attendance as an alternative to the traditional four-year period of attendance.

The pilot program must be designed to serve the educational needs of students who do not anticipate immediate enrollment in a four-year college or university after graduation from high school and to include partnerships between the school district and public junior colleges, public technical institutes, public state colleges, and any other public postsecondary institutions that offer academic or technical education or vocational training under a certificate program or an associate degree program to facilitate the prompt enrollment of students in those institutions after high school graduation under the program.

A school district implementing this pilot must specify the curriculum requirements for receiving a high school diploma under the pilot program and those requirements would be required to ensure that a student who graduates under the program possesses sufficient knowledge and skills in English language arts and mathematics to be capable of performing successfully in public junior college-level courses. A school district must also submit proposed curriculum requirements to the State Board of Education for comment and the Commissioner for approval and may not implement the program before obtaining the Commissioner's approval.

For a school district that operates this pilot program, beginning with the first school year that follows the first school year in which students receive high school diplomas under the pilot program, the Commissioner must provide funding for the district's prekindergarten program on a full-day basis for a number of prekindergarten students equal to twice the number of students who received a high school diploma under the pilot program during the preceding school year.

Change from current law: Current law permits students to graduate early, but not on an alternative graduation program.

Effective Date: September 1, 2013

Action required for 2013-14 School Year: An eligible district is required to submit curriculum requirements to the agency and SBOE prior to implementing the pilot.

Outstanding Issues: Once the district has its first graduating class under this program, the Commissioner must provide funding for the district's prekindergarten program in the following school year.

SB 816

Amends Section 29.004(a) and adds Subsections 29.004(a-1), (a-2) and (a-3), Education Code

Summary: The amendment changes the timeline for initial special education evaluations from 60 calendar days from the date of signed, parental consent to 45 school days from the date of signed, parental consent unless certain circumstances apply. The circumstances appear below.

- If a student is absent from school during that 45-school-day period for three or more days, that period must be extended by the number of school days equal to the number of school days during that period that the student was absent.
- For students under five years of age by September 1 of the school year who are not enrolled in public school and for students enrolled in a private or home school setting, the student's initial special education evaluation must be completed no later than the 45th school day following the date on which the school district receives written consent for the evaluation, signed by a student's parent or legal guardian.
- If a school district receives written consent signed by a student's parent or legal guardian for a full individual and initial evaluation of a student at least 35 but fewer than 45 school days before the last instructional day of the school year, the evaluation must be completed and the written report of the evaluation must be provided to the parent or legal guardian no later than June 30 of that year. The student's admission,

review, and dismissal committee shall meet not later than the 15th school day of the following school year to consider the evaluation.

- If a school district receives written consent signed by a student's parent or legal guardian less than 35 school days before the last instructional day of the school year or if the district receives the written consent at least 35 but fewer than 45 school days before the last instructional day of the school year but the student is absent from school during that period for three or more days, a written report of a full individual and initial evaluation shall be completed no later than the 45th school day following the date on which the school district receives signed, parental consent and except that the timeframe can be extended by the number of school days equal to the number of school days during that period that the student was absent.

The amendment also requires that, if a parent or legal guardian makes a written request to a school district's director of special education services or to a district administrative employee for a full individual and initial evaluation of a student, the district shall, not later than the 15th school day after the date the district receives the request: (1) provide an opportunity for the parent or legal guardian to give written consent for the evaluation or (2) refuse to provide the evaluation and provide the parent or legal guardian with notice of procedural safeguards under 20 U.S.C. Section 1415(b).

Change from current law: Currently, a school district has 60 calendar days from the date that the school district receives signed, parental consent to evaluate the student in order to complete the student's initial special education evaluation.

Effective Date: September 1, 2013

Action required for 2013-14 School Year: Initial special education evaluations will need to be completed on a different timeline than was previously required.

Amends Section 29.011 and adds Section 29.0112, Education Code

Summary: This bill relates to transition and employment services for public school students enrolled in special education

Sec. 29.011: This section requires districts or shared services arrangements (SSAs) to designate an employee to serve as the "designee on transition and employment services" and be trained per the minimum training guidelines, which must be established by the commissioner. SB 542

Adds Sections 29.019 and 29.020, Education Code

Summary: Section 29.019 requires TEA to provide information to parents regarding individualized education program (IEP) facilitation as an alternative dispute resolution method that may be used to avoid a potential dispute between a school district and a parent of a student with a disability. A district that chooses to use individualized education program facilitation shall provide information to parents regarding individualized education program facilitation. Section 29.019 dictates what information must be disseminated and how it must be disseminated.

If a school district chooses to offer individualized education program facilitation as an alternative dispute resolution method: (1) the district may determine whether to use independent contractors, district employees, or other qualified individuals as facilitators;
(2) the information provided by the district under this section must include a description of any applicable procedures for requesting the facilitation; and (3) the facilitation must be provided at no cost to a parent.

Section 29.019 clarifies that the use of any alternative dispute resolution system must be voluntary and cannot be used to delay or deny the right to request mediation, file a special education complaint, or request a due process hearing.

A school district may use facilitated IEP meetings as the district's "preferred method" for conducting admission, review, and dismissal committee (ARDC) meetings.

The commissioner must adopt rules as necessary to implement §29.019.

Section 29.020 requires TEA to develop rules applicable to the administration of a state individualized education program facilitation project. The program shall include the provision of an independent individualized education program facilitator to facilitate an admission, review, and dismissal committee meeting with parties who are in a dispute about decisions relating to the provision of a free appropriate public education to a student with a disability. Section 29.020 dictates what the adopted rules must address. The commissioner may use federal funds, if available, to implement the individualized education program facilitation project. Summary: The state plan for career and technical education (CTE) must include procedures designed to ensure that a school district provides, to the greatest extent possible, to a student participating in a CTE program opportunities to enroll in dual credit courses designed to lead to a degree, license, or certification as part of the program.

A student is entitled to a subsidy for a certification examination if the student successfully completes the CTE program of a school district in which the student receives training and instruction for employment; or is enrolled in a special education program under Subchapter A; and the student passes a certification examination to qualify for a license or certificate.

On approval by the Commissioner, the agency must pay each school district an amount equal to the cost paid by the district for the certification examination. To obtain reimbursement for a subsidy paid by the district, a district must:

(1) pay the fee for the examination; and

(2) submit to the Commissioner a written application on a form prescribed by the Commissioner stating the amount of the fee paid for the certification examination.

HB 3662

Adds Section 29.922, Education Code

Summary: The Texas Workforce Innovation Needs Program is established to provide selected school districts, public institutions of higher education (IHE), and private or independent IHEs with the opportunity to establish innovative programs designed to prepare students for careers for which there is demand in this state and use the results of those programs to inform the governor, legislature, and Commissioner concerning methods for transforming public education and higher education in this state by improving student learning and career preparedness.

To apply, a district or IHE must submit a detailed plan of the instruction and accountability the applicant would provide under the program. The plan must:

- be designed to support improved instruction of and learning by students and provide evidence of the accurate assessment of the quality of learning on campus
- describe any waiver of an applicable prohibition, requirement, or restriction for which the district or institution of higher education intends to apply
- focus on engagement of students in competency-based learning as necessary to earn postsecondary credentials, including:
  - career and technical certificates;
  - associate 's degrees;
  - bachelor 's degrees; and
  - graduate degrees; or
- incorporate career and technical courses into dual enrollment courses or into the early college education program under Section 29.908 to provide students the opportunity to earn a career or technical certificate or associate's degree
- include any other information required by commissioner rule

The Commissioner may charge a fee to a school district or IHE participating in the program. The Commissioner must convene program leaders periodically to discuss methods to transform learning opportunities for all students, build cross-institution support systems and training, and share best practices

Summary: The bill adds language that would require the evaluation of and subsequent instruction in Braille, concept development, social interaction skills, career planning, assistive technology, including optical devices, independent living skills, recreation and leisure enjoyment, self-determination, and sensory efficiency for students who are blind or visually impaired. These instructional areas are commonly referred to as the Expanded Core Curriculum.

Outstanding Issues: Whether Commissioner Rule will require amendment.

For further information, please contact: Federal and State Education Policy, (512)463-9414

Rulemaking Authority: None

Does this expressly apply to charters? The bill requires school districts providing services to students with visual impairments to evaluate and provide necessary instruction in the ECC. Charter schools are not mentioned but it would appear (because the bill language links to Chapter 29 of the TEC and federal IDEA regulations) that

Unofficial copy Travis Co. District Clerk Velva L. Price

if a charter school has enrolled students with visual impairments, they would need to provide the required evaluation and related instruction.

Does this bill contain a new reporting requirement for TEA/school districts? No

Does this bill require the agency or ISD to post information to their website? No

Action required for 2013-14 School Year: Commissioner's rules need to be adopted by January 1, 2014 to implement the new subsections by the beginning of the 2014-2015 school year.

Repeals Sections 30A.101(b) as amended by Chapters 895 (HB 3) and 1328 (HB3646), Acts of the81st Legislature, Regular Session, 2009.

Summary: This legislation makes changes to the Texas Virtual School Network (TxVSN) and provisions for distance learning courses by a school district or open-enrollment charter school.

The reasons for which a school district or charter school may deny the request of a parent of a student to take a course through the TxVSN are expanded. A district or charter school is permitted to decline to pay the cost for a student to take more than three year-long courses via the TxVSN, or the equivalent, during any school year. Foundation School Program (FSP) funding is also limited for student enrollment in the TxVSN to a maximum of three electronic courses during any school year, unless the student is enrolled in a full-time online program that was operating on January 1, 2013. Students may take additional TxVSN courses at their own expense. A school district or open-enrollment charter school has the discretion to select a course provider for a course in which a student who has requested enrollment in the TxVSN may enroll based on factors including the provider's informed choice report.

A school district or open-enrollment charter school that seeks to inform other districts or schools of the availability of distance learning courses may submit information to TEA regarding the distance learning course at the beginning of each semester. TEA is required to make the information submitted by these districts or schools available on the TEA website.

The list of course provider's eligible to offer courses through the TxVSN is expanded to include nonprofit or private entities and entities that provide electronic professional development courses through the TxVSN.

School districts and open-enrollment charter schools must adopt written policies to provide students with the opportunity to enroll in courses through the TxVSN and at least once per school year, districts and schools must send to a parent of each student enrolled at the middle or high school level a copy of the policy.

Open-enrollment charter schools must be rated acceptable under TEC, §39.054 to serve as course providers in the TxVSN. Nonprofit and private entities and corporations may act as course providers only if they comply with all applicable federal and state laws prohibiting discrimination, demonstrate financial solvency, and provide evidence of prior successful experience offering

Unofficial copy Travis Co. District Clerk Velva L. Price

online courses to middle or high school students as determined by the Commissioner. Entities other than school districts or open-enrollment charter schools are prohibited from awarding course credit or diplomas for courses taken through the TxVSN.

TEA is required to publish in a prominent location on the TxVSN website a list of approved courses offered through the network and to develop a comprehensive numbering system for all courses offered through the TxVSN to ensure consistent numbering for similar courses.

The agency is permitted to enter into a reciprocity agreement with one or more states to facilitate expedited course approval. Courses considered through reciprocity agreements must be evaluated to ensure compliance with TxVSN course requirements before they can be offered through the network.

TxVSN Central Operations is required to establish and publish a course submission and approval process that occurs on a rolling basis. TxVSN Central Operations must also provide for renewal of approved courses in accordance with a schedule that coincides with revisions to the TEKS but not later than the 10th anniversary of the previous approval.

Course providers are prohibited from promising or providing equipment or other items of value to a student or his parent as an inducement to enroll in TxVSN courses. The Commissioner is required to revoke approval of courses offered by a course provider that violates these provisions.

The informed choice report information that is required to be published on the TxVSN website for each course provider is expanded. Additional required information includes the name of the entity that developed and provided the course, the course completion rate, and aggregate student performance on assessments for students who were enrolled in the course.

School districts and open-enrollment charter schools are entitled to funding for student enrollment and successful completion of TxVSN courses subject to the limitation of funding for not more than three electronic courses during any school year unless the student is enrolled in a full-time online program that was operating on January 1, 2013.

A district or charter school is permitted to charge a fee for enrollment in an electronic course to a student who elects to enroll in a TxVSN course beyond the three yearlong courses for which a district or school must pay. A student

Unofficial copy Travis Co. District Clerk Velva L. Price

who is not enrolled on a full-time basis in a district or charter school is not entitled to the benefits of the FSP.

The commissioner is required to conduct a study of each school district's network capabilities to determine whether district and campus network connections meet certain targets. The study must be completed by December 1, 2015.

Change from current law: Current statute establishes reasons under which a district or charter school may deny a student the request to enroll in courses offered through the TxVSN. Districts will now be able to deny such requests only if a student attempts to enroll in a course that is inconsistent with the student graduation plan or requirements for college admission or earning an industry certification, the student request to enroll in a course at a time inconsistent with the enrollment period established by the district or school, or the district or school offers a substantially similar course. Current statute limits the district or charter school to paying only for courses within a normal course load. Districts and charter schools will now be able to decline to pay for the cost for a student to enroll in more than three yearlong courses, unless the student is enrolled in a full-time online program that was operating on January 1, 2013.

Nonprofit and private entities and entities that provide electronic professional development courses are not permitted to serve as course providers in the TxVSN under current statute.

Current statute permits districts to earn up to full-time funding for students who successfully complete courses through the TxVSN.

Effective Date: June 14, 2013. Applies beginning with the 2013-2014 school year.

Action required for 2013-14 School Year: School districts and open-enrollment charter school must adopt written policies to provide students with the opportunity to enroll in courses through the TxVSN and at least once per school year, must send to a parent of each student enrolled at the middle or high school level a copy of the policy.

The agency must develop definitions, standards, and methods for collecting and evaluating evidence of prior successful experience of nonprofit and private entities and professional development providers wishing to offer courses through the TxVSN. The agency must also revise Commissioner's Rules for the TxVSN and the Student Attendance Accounting Manual to align with new and amended requirements. The agency must develop a plan to create a comprehensive course numbering system for

all courses offered through the TxVSN, including dual credit courses, and establish a schedule for submission and review of previously approved TxVSN courses to coincide with revisions to the required curriculum.

Section 38.0042, requires each public school and open-enrollment charter school to post the child abuse hotline telephone number. The commissioner may adopt rules relating to the size and location of the sign.

Change from current law: Section 38.004 adds child neglect within the policy, adds open-enrollment charter schools, and adds a requirement that the policy require every employee to report child abuse or neglect.

Section 38.0041 requires the Agency to adopt a schedule by rule for the training.

Effective Date: September 1, 2013

Action required for 2013-14 School Year: Develop a schedule for training and create/amend Commissioner Rules.

HB 2483

Amends Subsection 38.013(a), Education Code

Summary: Coordinated school health programs made available by the agency to each school district must address oral diseases and oral health education.

Change from current law: Current law requires that the agency make available coordinated school health programs that address obesity, cardiovascular disease, and Type 2 diabetes and does not include oral diseases. Oral health education is not currently included under health education in the list of components required to be coordinated in such programs.

Effective Date: June 14 , 2013

Action required for 2013-14 School Year: The TEA will need to make available coordinated school health programs designed to prevent obesity, cardiovascular disease, oral diseases, and Type 2 diabetes.

Outstanding issues: Once coordinated school health programs that meet the new requirements are identified, school districts and charter schools will be required to implement an approved coordinated school health program.

HB 5, Section 31

Amends Subsections 39.023(a-2), (b), (c), (c-3), (e), and (h) and adds Subsections 39.023(b-1), (e-1), (e-2), and (e-3), Education Code

Summary: Section 31 states that except as required by federal law, students in grades 3–8 are not required to be administered a grade-level assessment in a subject if the student is administered an above-grade level assessment in the same subject area. School districts may need to double-test certain students in order to meet federal accountability requirements.

Section 31 amends TEC, §39.023(b) and adds TEC, §39.023(b-1) to specify the redevelopment of the alternate assessments administered to the state's most significantly cognitively disabled students. The state may not require a

Unofficial copy Travis Co. District Clerk Velva L. Price

teacher to prepare materials for the assessment. The new alternate assessments are required to be first administered not later than the 2014–2015 school year.

Section 31 amends TEC, §39.023(c) to specify the continued development of EOC assessments in English I and II, Algebra I, U.S. history, and biology. The English I and II reading and writing assessments are required to be combined into single assessment instruments to be administered in one day. The 15% course grade requirement is repealed.

Per amended TEC, §39.023(c), the development and administration of EOC assessments in geometry, chemistry, physics, world geography, and world history has ceased. The administration of the Algebra II and English III assessments have been suspended beginning in July 2013.

Section 31 specifies the release of STAAR assessments. With amended TEC, §39.023(e), during the 2014–2015 and 2015–2016 school years, the agency shall be required to annually release all administered tests developed under TEC, §39.023 after the last time the assessments are administered for the year. These releases exclude any assessment instruments used for retesting. After the 2015–2016 test release, the State Board of Education is required to set a schedule so that all assessments developed under TEC, §39.023 are released every third year.

Before the 2014–2015 school year, by commissioner rule, the agency shall be required to release the assessment instruments using the following schedule.

- Due to added TEC, §39.023(e-1), for the 2012–2013 school year, the agency shall release an assessment after the last time the assessment is administered for the school year. The release includes the grades 3–8 assessments under TEC, §39.023(a), the EOC assessments under TEC, §39.023(c), and the Spanish grades 3–5 assessments under TEC, §39.023(l). This release excludes assessments used for retesting or tests developed under TEC, §39.023(b). TEC, §39.023(e-1) expires December 31, 2013.
- As required by added TEC, §39.023(e-2) and (e-3), for the 2013–2014 school year, the agency is required to release the assessments administered in the 2013–2014 school year after the last time the assessment is administered in the 2013–2014 school year. This release excludes those assessments used for retesting. TEC, §39.023(e-3) expires December 31, 2014.

Unofficial copy Travis Co. District Clerk Velva L Price

The Algebra II and English III assessments are not subject to the release requirements of Texas Education Code.

HB 5, section 31 amends TEC, §39.023(h) to specify that assessment results need to be reported within 21 days after the test is administered. The agency notes that, for scoring purposes, the timeframe is based on when the tests are received by the test contractor from districts, not when the tests are administered. Districts are required to disclose a student's assessment results to the student's teacher for that subject.

Change from current law: Prior to HB 5, a student in grades 3-8 could not be tested with a grade-level assessment if that student took an EOC assessment in the same subject area.

Current alternate assessments require a student's teacher to prepare materials to ensure that an assessment's tasks are accessible by a student.

Prior to HB 5, TEA developed 15 EOC assessments. These assessments were required to count for 15% of a student's course grade.

Effective Date: Section 31 became effective on June 10, 2013.

The new alternate assessments are required to be first administered not later than the 2014–2015 school year

Action required for 2013–14 School Year: Per amended TEC, §39.023(c), the development and administration of EOC assessments in geometry, chemistry, physics, world geography, and world history has ceased. The administration of the Algebra II and English III assessments have been suspended beginning in July 2013.

New assessments for English I and English II that combine reading and writing will be developed. These assessments will first be administered in spring 2014.

Development of the new alternate assessments will commence.

A release schedule for the state-developed assessments will need to be determined.

Outstanding Issues: The required double-testing of certain grade 3–8 students for federal accountability will need to be communicated to districts.

New, standardized alternate assessments will need to be developed and first administered in spring 2015.

New assessments for English I and II, which combine reading and writing, will need to be developed.

HB 866

Amends Section 39.023, Education Code

Summary. HB 866 could have a significant impact on the state's assessment system but will only take effect on any date not later than September 1, 2015, if the agency obtains any necessary waiver from federal law or regulation that conflicts with the proposed amendments to TEC §39.023 discussed below, or notification from the United States Department of Education (USDE) that such a waiver is not necessary. If the commissioner does receive a federal waiver, or notification that a waiver is unnecessary, the commissioner shall publish notice in the Texas Register after receiving the waiver or notification. The act would apply beginning with the first school year that begins after the waiver or notification is received.

The grades 3–8 assessment system defined by HB 866 would include these assessments:

Eleven required administrations (i.e., required for all students):

- reading: grades 3, 5, 8
- mathematics: grades 3, 5, 8
- writing: grades 4 and 7
- science: grades 5 and 8
- social studies: grade 8

Six contingent/optional administrations (i.e., required for students who did not achieve a high enough score on a previous grade's subject test or administered to

students in a district that chooses to administer the tests):

- reading: grades 4, 6, 7
- mathematics: grades 4, 6, 7

Added TEC, §39.023(a-3) will require the agency to establish a score that could predict, within a three-percent margin of error, whether a student will achieve satisfactory performance on the same content-area assessment in the next grade during the following school year. The minimum satisfactory adjusted scale score is required to be the sum of the scale score that indicates satisfactory performance plus the minimum number of additional points that would produce a score indicating a student will likely pass the same content-area assessment in the next grade.

HB 866 will delete TEC, §39.023(a)(6), which stipulates that the state comply with federal testing requirements, adding subsection (a-3) to provide that the commissioner would seek waivers from the USDE if exempting high-performing students from assessments in a subsequent grade or grades under the previous subsections is determined to be contrary to federal law. When applying for the federal waivers, the commissioner would be required to use all relevant data including, but not limited to, data relating to the likelihood that students who score equal to or above the minimum satisfactory adjusted scale score will score above the passing standard in subsequent years, the costs of assessing such students, and the benefits of increased emphasis on low-performing students so they can be successful after one year.

HB 866 also adds subsection TEC, §39.023 (a-8), allowing a district or charter school to test at its discretion any students not required to test by TEC, §39.023(a-4), (a-5), or (a-6) in grades 4, 6, and 7. The agency will provide and score such assessment materials in the same manner and at the same cost as it does for all required testing. Further, HB 866 prohibits any discretionary testing under TEC §39.023(a-8) to be used in the state accountability system.

HB 866 adds TEC, §39.023(a-10), which states that the provisions of proposed TEC, §39.023(a-3) through (a-9) described above and (a-10) expire on September 1, 2017. The grades 3–8 assessment program currently in place would be reinstituted.

Change from current law: Currently, all students in grades 3–8 must be annually assessed in reading and mathematics.

Unofficial copy Travis Co. District Clerk Velva L Price

Effective Date: HB 866 would take effect on any date not later than September 1, 2015, only if the agency obtains any necessary waiver from federal law or regulation that conflicts with the proposed amendments to TEC §39.023 discussed below, or notification from the USDE that such a waiver is not necessary.

Student Assessment, (512) 463-9536
Performance Reporting, (512) 463-9704

Action required for 2013-14 School Year: The agency must apply for a waiver from the requirements of Adequate Yearly Progress.

Outstanding Issues: The agency must apply for a waiver from federal accountability requirements, since the removal of required testing in grades 4, 6, and 7 would put TEA in non-compliance of ESEA. The USDE response and the ramifications of not complying with NCLB by not testing all students in grades 4, 6, and 8 for AYP are not known at this time.

It is possible the USDE could withhold approval of the *Accountability Workbook*, suspend Title I Admin funding, Title VI funding related to test development, and possibly withhold other federal funding.

For state accountability, the removal of required assessments for all students in reading and mathematics at grades 4, 6, and 7 would mean that a student progress measure could not be reported for elementary and middle school students. This modification would nullify the use of Index 2: Student Progress in the performance index framework that has been developed for the new state accountability rating system beginning in the 2012-13 school year.

Rulemaking Authority: No rulemaking is anticipated unless HB 866 goes into effect.

HB 5, Section 32 & 34

Amends Section 39.0232 and adds Section 39.0238, Education Code

Summary: Section 32 prohibits EOC assessments from being used in determining class rank for any purpose including automatic admission to a Texas college or as a sole criterion for admittance to a Texas teaching institution.

Section 34 specifies, effective September 1, 2015, the Algebra II and English III assessments will continue to be developed by the agency but will be district-optional assessments administered in the second full week of May or thereafter. These assessments will not be administered again until spring 2016.

Per TEC, §39.0238(d), The agency must adopt a policy requiring the participating school districts to administer the Algebra II and English III assessments to all students enrolled in those courses. The participating districts must report the results to the agency.

The Algebra II and English III assessments must be validated by postsecondary readiness experts for college readiness. The assessments can be used only for diagnostic purposes and cannot be used for teacher evaluations, graduation purposes, determining course grade or class rank, college admissions, or a Texas college grant. New TEC, §39.0238 also prohibits districts from administering any kind of benchmark assessment related to these assessments. The agency will be required to acknowledge districts that elect to administer the Algebra II and English III assessments.

Per scoring and reporting of the Algebra II and English III assessments, because of the mid-May or later administration of the assessments, it is assumed that scoring and reporting for the two assessments will not occur until the summer.

Section 34 requires the agency to deliver an annual report to the governor and legislature detailing the preceding year's results and findings on the Algebra II and English III assessments. The first report is due in 2016.

Change from current law: All students enrolled in Algebra II or English III are required to take the corresponding assessments. Students on the recommended or distinguished high school programs are required to achieve a certain score on the Algebra II and English III assessments to receive a Texas diploma.

Unofficial copy Travis Co. District Clerk Velva L. Price

Effective Date: June 10, 2013

Action required for 2013–14 School Year: The Algebra II and English III test administrations have been suspended beginning with the July 2013 administration.

Commissioner rules related to EOC testing and assessment graduation requirements will be amended.

Outstanding Issues: Though agency or THECB rules may be needed to further clarify amended TEC, §39.0232, assessment rulemaking related to this section is not anticipated at this time.

Per new TEC, 39.0238 in section 34, the agency may need to stipulate in rule that the Algebra II and English III assessments will be district-optional and can be used only for diagnostic purposes, not for teacher evaluations, graduation purposes, determining course grade or class rank, college admissions, or a Texas college grant. A rule may be needed specifying that participating districts must test all students enrolled in those courses.

HB 5, Section 78

Repeals Subsections 39.024(b) - (h), 39.0241(a-2), Section 39.0242, and Subsections 39.025(a-2) and (a-3), Education Code

Summary: Section 78 repeals TEC, 39.024(b) - (h).

- Subsection (b) required TEA, in conjunction with THECB, to ensure that Algebra II and English III are designed to measure college readiness. Pursuant to new TEC, 39.0238, the Algebra II and English III assessments will be validated by postsecondary readiness experts for college readiness.
- Subsection (c) and (d) required the agency and THECB to determine a correlation between a certain score on the Algebra II and English III assessments and college readiness.
- Subsection (f) required TEA and THECB to conduct similar college readiness studies for science and social studies.
- Subsection (g) required TEA and THECB to conduct the above studies at least once every three years.

- Subsection (h) required TEA and THECB to periodically review the college readiness standards.

Section 78 repeals TEC, 39.0241(a-2) and TEC, 39.0242
- Subsection (a-2) required the vertical linking of mathematics and reading from grades 3 to Algebra II and English III.
- TEC, 39.0242 required the agency to conduct various studies to vertically link mathematics and reading. This section also required the agency to continue to collect data and conduct a study at least once every three years on the performance standards.

Section 78 repeals TEC, 39.025(a-2) and (a-3) removing Algebra II and English III performance requirements to receive a Texas diploma on the recommended and distinguished programs.

HB 5, Section 35 & 36

Amends Subsections 39.025(a), (a-1), (b), and (b-2) and adds Subsection 39.025(a-4), Education Code

Summary: Beginning with the 2013–2014 school year, and first applying to students entering grade 9 in the 2011–2012 school year or thereafter, HB 5 modifies the state's assessment graduation requirements so that a student needs to take and pass only the English I, English II, Algebra I, U.S. history, and biology EOC assessments. The cumulative score requirement is repealed.

Beginning in the 2014–2015 school year, the current high school program designations will be replaced with a single foundation high school program with endorsements. Per new TEC, §28.025(h) in section 16 of HB 5, this act applies to students who first entered grade 9 in the 2014–2015 school year or thereafter. By rule, the commissioner is required to adopt a transition plan to implement the

foundation program. Under the transition plan, students entering the 9th grade prior to the 2014–2015 school year have the option of either fulfilling the new foundation program requirements to graduate, or fulfilling the minimum, recommended, or distinguished high school program requirements as they existed before the implementation of HB 5 if the student was already participating in one of those high school programs.

In regard to the students who would choose to graduate on the minimum, recommended, or distinguished high school programs as they existed prior to 2013-2014, section 79 of HB 5 specifies that the amended assessment graduation requirements apply beginning with students first enrolled in grade 9 in 2011-2012 or 2012-2013. Accordingly, the assessment graduation requirements for these students will be modified to remove the cumulative score and the stipulation that students on recommended and distinguished high school programs must be administered all 15 EOC assessments.

Per section 79 of the bill, for a student entering grade 9 before the 2013-2014 school who is on the minimum, recommended, or distinguished high school program, if that student chooses to graduate on his or her high school plan instead of the foundation program, the student is only required to take and pass an existing EOC assessment for a course in which the student was enrolled.

Section 35 also amends TEC, §39.025(a) to require the agency to establish a procedural method so that the scale score on the five EOC assessments developed under TEC, §39.023(c) can be converted to a scale of 0–100. The conversion table will be implemented in commissioner rule.

Amended TEC, §39.025(a-1) stipulates that the commissioner shall, by rule, implement a method where an advanced placement test, international baccalaureate test, SAT subject test, the SAT or ACT, or any other nationally recognized norm-referenced test used by a university or college to award course credit, PLAN, or PSAT may be used to satisfy the EOC assessment requirements for graduation in an equivalent course. Amended TEC, §39.025(a-1) further specifies that a student failing to perform satisfactorily on a substitute assessment, other than PSAT or PLAN, may retake that test or a state-developed EOC assessment for purposes of graduation. A student failing to perform satisfactorily on a PSAT or PLAN would be required to take the state-developed assessment.

Unofficial copy Travis Co. District Clerk Velva L. Price

Amended TEC, §39.025(a-1) also stipulates that a student enrolled in a college preparatory course who satisfies the Texas Success Initiative requirements including the college readiness benchmarks under TEC, §51.3062(f) on a THECB-designated assessment at the end of the college preparatory course satisfies the EOC assessment requirements in an equivalent course.

As specified with amended TEC, §28.014 in section 10 of HB 5, college preparatory courses will only be designed for mathematics and English language arts (ELA). Each school district will partner with at least one institution of higher education to develop and provide courses for college preparatory mathematics and ELA. These courses are for 12th grade students who do not meet the college-readiness standards on an EOC assessment, or whose coursework, college entrance exam, or TSI assessment score indicates the student is not ready for entry-level college coursework. Section 10 of HB 5 applies beginning with the 2013–2014 school year.

Per section 80 of HB 5, the commissioner must adopt rules by October 1, 2013 to implement TEC, §39.025(a-1).

For retesting, amended TEC, §39.025(b) would only allow a student to retake the EOC assessment during the next administration if he/she failed to achieve satisfactory performance on an assessment.

HB 5, section 35, adds TEC, 39.025(a-4) which states that a special education student's admission, review, and dismissal (ARD) committee will determine whether a student needs to pass an EOC assessment to receive a Texas diploma. Though added TEC, §39.025(a-4) does not change current law, the amendment clarifies the responsibility of a student's ARD committee.

Section 36 makes conforming changes to TEC, §39.025 to account for the new foundation high school program. Section 36 becomes effective with the 2014–2015 school year.

Change from current law: Students must currently meet the assessment graduation requirements of the minimum, recommended, or distinguished high school program in order to receive a Texas diploma. All students must meet the cumulative score requirements in each of the four content areas. Students on the recommended and distinguished high school plans must meet the assessment score requirements in Algebra II and English III.

Unofficial copy Travis Co. District Clerk Velva L. Price

Effective Date: June 10, 2013

Action required for 2013–14 School Year:

Outstanding Issues: The agency needs to determine if the cumulative score for English I and English II will be used in some fashion for two cohorts of students during the transition period. If the cumulative score is used in some capacity, the agency will determine how the minimum score shall apply.

The agency must determine whether a student who failed or did not take one of the five required EOC assessments, but passed a discontinued or suspended EOC assessment in the same content area, must still pass the required assessment or if a student's passing score on a discontinued assessment in the same content area can be used for graduation purposes.

The agency must determine if a student who previously received credit for a course for which there is an EOC assessment required for graduation is required to take that assessment to receive a Texas diploma.

Amended TEC, §39.025(a-1) specifies that the commissioner must implement a method so that a nationally recognized norm-referenced test used by a university or college to award course credit can be used as a substitute, including SAT subject tests. The agency will need to determine the subject-area assessments to be used as substitutes.

For the use of college preparatory courses and the TSI assessment as an EOC assessment substitute, it is unclear to which EOC assessments this would apply. Per amended TEC, §28.014, college preparatory courses are intended for 12th graders who fail to meet the college-readiness standard on an EOC assessment, or who exhibit through other indicators that they are not ready for entry-level college courses. It is unclear if a student can substitute a college preparatory course for the English I or II EOC assessment if the student has not passed the English I or II EOC assessment but completes a college preparatory course and passes the TSI assessment in his/her senior year.

HB 5, Section 37

Adds Section 39.0263, Education Code

Summary: Section 37 limits benchmark testing to no more than two administrations per state assessment. This section does not apply to administrations of PSAT, PLAN, SAT, ACT, AP, IB, or a classroom exam designed by a teacher. A parent or guardian of a student with special needs may request the administration of additional benchmark tests. Benchmark assessments cannot be administered for the Algebra I and English III district-optional assessments.

Pursuant to TEC, §39.0263(d), a parent or guardian of a student with special needs, as determined in accordance with commissioner rule, may request the administration of additional benchmark assessments

SB 377
HB 5, Section 38

Adds Subsection 39.027(a-2), Education Code

Summary: This legislation requires that an English language learner be enrolled for 60 consecutive days in a school year for that school year to count as one year in the calculation of years in U.S. schools. It is assumed that "during a year" refers to a school year, not a calendar year. This section does not apply to the asylee/refugee exemption of TEC, 39.027(a-1).

Per section 81 of HB 5, TEC, §39.027(a-2) applies to a student regardless of the date in which the student initially enrolls in a U.S. school.

Change from current law: Current law does not specify the necessary number of enrolled days in school to qualify as being enrolled for a school year.

SB 377 Effective Date: June 14, 2013
HB 5 Effective Date: June 10, 2013

Action required for 2013-14 School Year: Commissioner rulemaking may be necessary to clarify how to define years in U.S. schools.

Outstanding Issues: Current commissioner rules related to assessment requirements may need to be amended to clarify the 60-day requirement for years-in-U.S.-schools calculation.

Policy Impact

Current state statute does not prohibit TEA from using assessment results of LEP students in determining state accountability ratings. However, Texas Administrative Code 101.1005(h) states that policies for including the academic performance of English Language Learners (ELLs) in state and federal accountability measures take into account the second language acquisition developmental needs of this student population.

The new state accountability system will be implemented for the first time on August 8, 2013. Agency staff worked with statewide accountability advisory committees to develop proposals for the new system as required by House Bill (HB) 3 (81st Texas Legislature, 2009). A significant component of the development process for the state accountability system is the appropriate inclusion of test results for ELL students. A workgroup comprised of members of the Accountability Technical Advisory Committee (ATAC) developed ELL indicators for the performance index framework that will meet the requirements of TAC 101.1005(h). The planned use of the ELL Progress Measure beginning in 2014 sets challenging but achievable goals to meet grade-level academic content standards for ELL students in accordance with a timeline based on years in U.S. schools.

HB 5, Section 40-41

Adds Sections 39.038 and 39.039, Education Code

Summary: Section 40 states that a person or entity who is reimbursed, retained, or employed by any assessment-instrument vendor may not participate in a formal or informal advisory committee established by the commissioner or agency that pertains to accountability or the administration or content of an assessment instrument. Per section 82 of HB 5, on September 1, 2013, if a person who is compensated by the agency's test vendor is still appointed to an applicable agency committee, that person's seat on the committee becomes vacant.

Section 41 adds TEC, §39.039. As it relates to assessment, TEC, §39.039(b) stipulates that a person who is an agent of an entity who is contracted to develop an assessment as required under current TEC, §39.023 commits a Class B misdemeanor offense if the person participates in a formal or informal advisory committee established by the agency or State Board of Education regarding policies or implementation of the provisions of TEC, Chapter 39, Subchapter B.

As is pertains to assessment, TEC, §39.038 will require the agency, not the vendor, to handle all aspects of the agency's assessment advisory committees convened on September 1, 2013 or thereafter.

The agency's assessment advisory committees currently have some participants who are contracted for various consultation services by other test vendors such as, but not limited to, the College Board and ACT. As of September 1, 2013, these members will no longer be able to serve on any agency-appointed committee. As a result, the agency will need to fill various committee positions with assessment experts who are not affiliated with any test vendor.

The agency may need to develop procedures related to reimbursement and composition of assessment advisory committees to ensure that the people who are compensated by the state's assessment contractor are not in violation of TEC, §39.039.

Change from current law: No such stipulations or restrictions exist in current law.

HB 5, Section 42 & 43

Amends Section 39.053, Education Code

Summary: This bill establishes the performance indicators of student achievement, defines Required Improvement, and limits the definition of a dropout.

Change from current law: The following new indicators are added to 39.053(c):

- The percentage of students who completed the distinguished level of achievement for the foundation high school program.
- The percentage of students who received an endorsement for the foundation high school program.
- At least three additional indicators which must include either the:
  - percentage of students who satisfy the Texas Success Initiative (TSI) college readiness benchmarks prescribed and designated by the Texas Higher Education Coordinating Board in reading, writing, or mathematics; or

- number of students who earn:
  - at least 12 hours of postsecondary credit required for the foundation high school program under Section 28.025 or to earn an endorsement under Section 28.025(c-1);
  - at least 30 hours of postsecondary credit required for the foundation high school program under Section 28.025 or to earn an endorsement under Section 28.025(c-1);
  - an associate's degree; or
  - an industry certification.

Indicators that measure improvement cannot negatively affect districts and campuses that are already achieving the highest level for that indicator under 39.053(c-1).

Under 39.053(c-2), the performance of students that satisfy the TSI college readiness benchmarks prescribed by the Texas Higher Education Coordinating Board under Section 51.3062(f) on an assessment instrument designated by the Texas Higher Education Coordinating Board under Section 51.3062(c) or perform satisfactorily on an assessment instrument under Section 39.023(c), notwithstanding Subsection (d), may be included in determining district and campus performance ratings.

The requirement for a performance indicator that measures the percentage of students graduating under the recommended or advanced high school program is removed from 39.053(f).

The definition of students excluded from dropout and completion rates is clarified to include students who drop out, reenroll, then drop out again, regardless of the number of times of reenrollment and dropping out under 39.053(g-1). This clarification makes no change to how students are excluded under 39.053(g-1).

HB 5, Section 44

Amends Section 39.054, Education Code

Summary: Section 44 requires that districts and campuses be assigned a performance rating of either acceptable performance or unacceptable performance based on the performance indicators.

Change from current law: Requires district performance ratings of A, B, C, D, or F where A, B, or C reflects acceptable performance and D or F reflects unacceptable performance. Requires campus performance ratings of exemplary, recognized, acceptable, or unacceptable where exemplary, recognized, or acceptable reflects acceptable performance and unacceptable reflects unacceptable performance. Districts may not receive a rating of A if any campus is rated unacceptable.

Effective Date: 2016-17 school year/2017 accountability ratings

Action required for 2013-14 School Year: none

Outstanding issues: TEA will convene accountability advisory groups in fall 2013 to develop recommendations for the accountability rating labels to be assigned in the 2014 – 2016 accountability cycles.

SB 1538

Adds Section 39.0545, Education Code

Summary: This bill provides the evaluation of the performance of public schools designated as Dropout Recovery Schools (DRS) and corresponding evaluation criteria.

Change from current law: SB 1538 defines a dropout recovery school as a district, charter school, or campus that serves students in grades 9-12 and have an enrollment of at least 50% of students, who are 17 years or older as of September 1 of the school year as reported on current-year fall PEIMS data, meets eligibility requirements, and is registered for evaluation under alternative education accountability (AEA) provisions.

Unofficial copy Travis Co. District Clerk Velva L. Price

This bill requires the use of the alternative Completion Rate (graduates, continuing students, and General Educational Development (GED) recipients) to determine the student achievement indicator for the DRS for state accountability ratings. The alternative completion rate is the ratio of total number of students who graduate, continue school in the next academic year, or receive a GED to the total number of students in the longitudinal cohort of students. The bill requires graduates and GED recipients who are excluded by TEC 39.053(g-1) to be included in dropout and completion rates used to evaluate dropout recovery schools.

Only the best result from the primary administration and any retest results are included.

Effective Date: September 1, 2013

Action required for 2013-14 School Year: Beginning with the 2013-14 school year.

Outstanding Issues: A new state accountability system will be implemented for the first time on August 8, 2013. Agency staff has worked with statewide accountability advisory committees since March 2012, to develop proposals for the new system as required by House Bill (HB) 3 (81st Texas Legislature, 2009).

The design of the accountability system is a performance index. With a performance index, each measure contributes points to an index score. Districts and campuses are required to meet one accountability target, a total index score. The resulting rating reflects overall performance for the district or campus rather than the weakest performance of one student group or subject area. Since performance on all measures is included, no single indicator can be the sole reason for a lower rating.

The new accountability system includes provisions for alternative education campuses (that would include dropout recovery schools and residential facilities) to address issues of serving high populations of older students, which often are students at risk of dropping out of school. In recognition of the unique student population, the performance index targets on all four indexes that are required for alternative education campuses will be lower than the targets for other campuses and districts. For Index 4: Postsecondary Readiness, this index will evaluate alternative education campuses on four-, five-, or six-year graduation and GED rates in 2013 and beyond. Also, Graduation and GED Score will contribute 75 percent of

Unofficial copy Travis Co. District Clerk Velva L. Price

the points to Index 4 and STAAR Score (Percent Met final Level II on One or More Tests) will contribute 25 percent of the points. (For regular campuses STAAR Score and Graduation Score contribute equally to Index 4.)

In addition, three additional provisions, described below, will give additional credit to alternative education campuses in the Index 4 calculation. Bonus points will be added to the final Index 4 score for the following indicators, to a maximum of 50 points.

- Recommended High School Program/Distinguished Achievement (Advanced) High School Program (RHSP/DAP) rates (rather than averaging the rates into the Graduation and GED Score).
- Continuing Students Success Rates will give AEA campuses and districts bonus points for continuing students who graduate or receive a GED in their fifth or sixth year.
- Excluded Students Credit will give AEA campuses and districts bonus points for serving recovered dropouts and other students who are statutorily excluded from the graduation rate and dropout rate calculations for those students who graduate or earn a GED.

While many of the provisions of SB 1538 are already incorporated in the AEA provisions that will be applied in 2013, TEA will convene accountability advisory groups in fall 2013 to determine whether additional modifications are needed to implement this bill for 2014 and beyond.

HB 5, Section 46

Adds Section 39.0545, Education Code

Summary: Section 46 requires districts to evaluate and assign a rating for district and campus performance in community and student engagement.

Change from current law: This statute requires districts to self-evaluate and assign to the district and each campus a performance rating of exemplary, recognized,

acceptable, and unacceptable for performance in community and student engagement. By August 8, districts must report each rating to TEA and the public.

Effective Date: 2013-14 school year

Action required for 2013-14 School Year: implement commissioner rule to outline public availability of district and campus performance ratings under 39.0545.

Outstanding Issues: TEA will need to develop an online data collection system that will allow districts to upload their locally-determined performance ratings in nine possible categories for each campus in the district.

SB 306

Amends Section 39.055, Education Code

Summary: This bill would exclude consideration of a student receiving treatment in a residential facility for public school accountability ratings.

Change from current law: Currently, under TEC 39.055, TEA excludes students, who are court-ordered into residential facilities and Texas Juvenile Justice Department facilities, from results used to evaluate campuses and districts for state accountability ratings. Under SB 306, students whose placement in a residential facility is not court-ordered, are also excluded from results used to evaluate districts and campuses for state accountability ratings.

Effective Date: 2013-14 School Year

Action required for 2013-14 School Year: Exclude students whose placement in a residential facility is not court-ordered, from results used to evaluate districts and campuses for state accountability ratings.

Outstanding Issues: This exclusion of non court-ordered students will increase the number of campuses and charter operators that will not receive a state accountability rating. In the 2010-11 school year, 92 campuses were identified as Residential Facilities under Alternative Education Accountability (AEA) procedures.

These campuses will likely not be rated in the future under the new provisions of this bill. In 2011, a total of 644 campuses were not rated for state accountability, 22 were AEA campuses. So, the number of AEA campuses not evaluated in the new rating system will increase from 22 to approximately 114.

In 2011, approximately 10 charter districts operated 100% Residential Facilities. Therefore, these charters will also likely not be rated under SB 306.

HB 5, Sections 49-52 & 78

Section 49 amends Sections 39.082, 39.0923, and 39.083; and adds 39.0824, Education Code

Section 78 repeals Section 39.0822, and Sections 39.0823(b) and (c)

Summary:
The bill combines the School and Charter Financial Integrity Rating System of Texas (FIRST) and financial solvency system into a single financial accountability rating system for school districts and open-enrollment charter schools.

Change from Current Law:
The bill provides for a single financial accountability rating system that includes consideration of a district's financial solvency in assigning the district's rating. Ratings are determined by performance on indicators assigned specific point values, and the commissioner must evaluate the indicators at least once every three years. A school district or open-enrollment charter school assigned the lowest rating must submit a corrective action plan; failure to submit or implement the plan can lead to sanctions. The financial accountability ratings must be published by August 8 of each year.

Effective Date: Sections 49–52 apply beginning with the 2014–2015 school year.

Sections 39.0822 and 39.0823(b) and (c) are repealed effective September 1, 2014.

Action Required for 2013–14 School Year:
Development of the rules to establish financial accountability indicators and point values must be started in the 2013–2014 school year for these new rules to be adopted by March 1, 2015, as required by Section 49 of the bill.

Outstanding Issues: Changes to the *Financial Accountability System Resource Guide* and the Public Education Information Management System will be required to provide guidance and requirements for budgeting and reporting accelerated instruction funding and expenditures.

New processes will need to be developed to decrease the time required to assign financial accountability ratings so that ratings can be published by August 8 each year.

Summary: Section 53 requires district and campus distinction designations for outstanding performance in postsecondary readiness. Section 54 outlines the district and campus distinction designation indicators. Section 55 requires campus a distinction designations and outlines the indicators.

Change from current law: 39.201 clarifies that distinction designations will be awarded in connection with performance ratings (by August 8), but does not change the current process. 39.202 is expanded to include the following indicators – percentages of students: earning business/industry certification/license, completing a coherent sequence of career and technical courses, completing dual credit courses or articulated postsecondary courses, achieving College Readiness Benchmarks or equivalent on the PSAT, SAT, ACT or ACT-Plan, and receiving college credit on an AP or IB exam. Amends Section 41.0041, Education Code

Section 3 of the bill amends Section 57.32, Chapter 4 (S.B. 1); Acts of the 82nd Legislature, 1st Called Session, 2011 is amended by striking the repeal of Section 41.0041 in 2017.

Summary: The bill allows districts subject to the provisions of Chapter 41 to net recapture costs against state aid owed to the district under Chapter 42 (rather than only against state aid owed through additional state aid for tax reduction).

Change from current law: A school district that is subject to the provisions of Chapter 41 for a certain school year may net its recapture payments against its Chapter 42 state aid entitlement for that school year, rather than against Additional State Aid for Tax Reduction (ASATR).

If the amount of recapture a district owes for a school year exceeds its Chapter 42 state aid for the year, the commissioner is required to withhold all of the district's Chapter 42 state aid for the school year and an amount from the district's state aid for the next year equal to the amount of recapture still owed or add the difference to the cost of attendance credits that the district may purchase in the subsequent year.

Amends Sections 12.135(b), 45.052(a) and adds Subsection 45.0532(a-1), Education Code

Summary: This bill specifically authorizes an open-enrollment charter school (OECS) to apply to have refunded and refinanced bonds guaranteed by the PSF and permits the commissioner to extend the bond guarantee to OECS refunded and refinanced bonds.

Change from current law: This bill relates to the guarantee of refinanced (OECS) bonds by the Permanent School Fund (PSF).

Section 1 of the bill would amend Section 12.135(b), Education Code, to permit charter schools to apply to have refunding and refinancing bonds guaranteed by the Bond Guarantee Program (BGP).

Section 3 of the bill would amend Section 45.0532, Education Code, to limit the total amount of OECS refunding or refinanced bonds guaranteed to a maximum of one-half of the total amount available for the guarantee of charter school bonds.

These provisions would apply only to bonds that were issued, refunded, or refinanced on or after the effective date of the bill. Bonds issued, refunded, or refinanced prior to the effective date of the bill would not be subject to these provisions.

Effective Date: September 1, 2013. These provisions would apply only to bonds that were issued, refunded, or refinanced on or after the effective date of the bill. Bonds issued, refunded, or refinanced prior to the effective date of the bill would not be subject to these provisions.

Action required for 2013-14 School Year: The SBOE will need to adopt rules related to charter school bonds once IRS approval has been obtained.

HB 5, Section 65-68

Amends Sections 51.805, 56.3041 and adds Section 56.009, Education Code

Summary: A graduating student who does not qualify for automatic college admission may apply to any general academic teaching institution if the student

- successfully completed, at a public high school, the curriculum requirements established for the foundation high school program; or
- satisfied ACT 's College Readiness Benchmarks on the ACT assessment applicable to the applicant or earned on the SAT assessment a score of at least 1,500 out of 2,400 or the equivalent.

The Texas Higher Education Coordinating Board and the Commissioner of Education must jointly adopt rules to establish eligibility requirements for admission related to curriculum requirements for high school graduation for students participating in the minimum, recommended, or advanced high school program so that the admission requirements for those students are not more stringent than the admission requirements for students participating in the foundation high school program.

To the extent that a person's eligibility to participate in any student financial assistance program under TEC, Chapter 56, including Subchapters K, Q, and R, is contingent on the person graduating under the recommended or advanced high school program, as those programs existed before the adoption of HB 5, the THECB and the Commissioner of Education must jointly adopt rules to modify, clarify, or otherwise establish for affected programs appropriate eligibility requirements regarding high school curriculum completion.

Unofficial copy Travis Co. District Clerk Velva L. Price

To be eligible initially for a TEXAS grant, a person graduating from high school on or after May 1, 2013, and enrolling in a general academic teaching institution must be a graduate of a public or accredited private high school in this state who completed the foundation high school program or its equivalent and must have accomplished any two or more of the following:

- successful completion of the course requirements of the international baccalaureate diploma program or earning of the equivalent of at least 12 semester credit hours of college credit in high school
- satisfaction of the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the THECB on any assessment instrument designated by the THECB or qualification for an exemption
- graduation in the top one-third of the person 's high school graduating class or graduation from high school with a grade point average of at least 3.0 on a four-point scale or the equivalent
- completion for high school credit of at least one advanced mathematics course following the successful completion of an Algebra II course or at least one advanced career and technical or technology applications course.

A student who graduated under the recommended or advanced high school program is considered to have successfully completed the curriculum requirements of the first bullet above.

Change from current law: Under current law a public school student is eligible for admission to general academic teaching institution if the applicant successfully completed the curriculum requirements for the recommended or advanced high school program or satisfied ACT's College Readiness Benchmarks on the ACT assessment applicable to the applicant or earned on the SAT assessment a score of at least 1,500 out of 2,400 or the equivalent.

Under current law, a student is initially eligible for a TEXAS grant if the student is a graduate of a public or accredited private high school in this state who completed the recommended or advanced high school program. Current statute does not include technology applications courses in the eligibility criteria.

HB 3483

Amends Section 1001.1001, Education Code and Amends Section 545.424 (a-1), Transportation Code

Summary: The bill would require the commissioner to designate the textbooks to be used in a driver education course for minors and adults. The bill would increase the number of hours of behind-the-wheel instruction that takes place in presence an adult who meets the requirements of Section 521.222(d)(2), Transportation Code from 20 to 30 hours. The bill would prohibit a person under 18 years of age from operating a motor vehicle after midnight and before 5 a.m. unless the operation of the vehicle is necessary for the operator to attend or participate in employment or a school-related activity or because of a medical emergency; or with more than one passenger in the vehicle under 21 years of age who is not a family member.

Change from current law: Currently, driver education courses for minors and adults are allowed to use instructional materials in lieu of a textbook. If passed, the bill would require the commissioner by rule to designate the textbooks to be used in a driver education course for minors and adults conducted by a school district, driver education school, or parent or other individual under Section 521.205, Transportation Code (home-taught).

Currently, a student must complete 20 hours of behind-the-wheel instruction that takes place in presence an adult who meets the requirements of Section 521.222(d)(2), Transportation Code. If passed, the bill would increase these 20 hours to 30 hours.

Currently, a person under 18 years of age is prohibited from operating a motor vehicle after midnight and before 5 a.m. unless the operation of the vehicle is necessary for the operator to attend or participate in employment or a school-related activity or because of a medical emergency; or with more than one passenger in the vehicle under 21 years of age who is not a family member during the 12-month period following issuance of an original Class A, B, or C driver's license to the person. If passed, the bill would remove the 12-month period and an individual would be prohibited from operating a motor vehicle between midnight and before 5 a.m. or with more than one passenger in the vehicle under 21 years of age who is not a family member until 18 years of age.

HB 1020

Amends Section 106.115 (a), Alcoholic Beverage Code

Summary: HB 1020 amends current law relating to the certification of alcohol awareness programs required for minors convicted of or receiving deferred disposition for certain alcohol offenses. HB 1020 requires the court to have a minor on deferred disposition for an offense under Section 49.02, Penal Code, or under Section 106.02, 106.025, 106.04, 106.041, 106.05, or 106.07, to attend an alcohol awareness program approved by the Department of State Health Services under this section or a drug and alcohol driving awareness program approved by the Texas Education Agency.

Change from current law: Previously, the law was unclear to courts as to whether the Texas Education Agency (TEA) regulated Drug and Alcohol Driving Awareness Programs (DADAP) courses are considered state-approved for a minor on deferred disposition for an alcohol related offense as the Texas Department of State Health Services (DSHS) also certifies Drug and Alcohol Driving Awareness Programs (DADAP). The DADAP courses teach about the dangers of driving after using drugs and/or alcohol. The course also teaches about Texas driving while intoxicated laws and defensive driving strategies, as well as how alcohol affects a person's body and mind generally.

H.B. 1020 authorized the TEA regulated DADAP courses to be deemed as state approved by amending Section 106.115 (Attendance at Alcoholic Awareness Course; License Suspension), Alcoholic Beverage Code. This should clear any confusion for citizens, courts, and judges,

and will create a much larger network of quality courses to ensure that defendants get the education they need to effectively reduce recidivism.

SB 393

Amends Articles 42.15, 43.091, 44.2811, 45.0217, 45.041, 45.0491, and 45.056, Code of Criminal Procedure; Sections 25.0915, 37.081, 37.124, and 37.126, Education Code; Sections 51.08, 52.03, and 52.031, Family Code; and Section 8.07 and 42.01, Penal Code. Also adds Subchapter E-1, Chapter 37, Education Code, and Section 8.08, Penal Code

Summary: Code of Criminal Procedure: This bill authorizes the judge of a criminal court to allow a child to discharge a fine and costs by performing community service or receiving tutoring. It also authorizes the judge to waive payment of a fine or cost on a defendant who defaults in payment in the defendant was a child at the time the offense was committed and alternative methods of discharging the fine or costs would impose an undue hardship on the defendant. Provides confidentiality for records relating to dismissal after deferral of disposition for a fine-only misdemeanor, other than a traffic offense. Expands the use of a case manager by a school district, juvenile board or probation department, or certain courts to provide services with the consent of the student and the student's parents prior to a case being filed against the student and to include prevention and intervention services.

Education Code: Requires a court to dismiss a complaint or referral for the failure to attend school if the complaint or referral fails to specify whether the student is eligible for or receives special education services and is not accompanied by a statement by the school certifying that the school applied truancy prevention measures and the measures failed to meaningfully address the student's school attendance. Limits to persons who are 12 years of age or older the application of the offenses of disruption of classes and disruption of transportation to and from school (but not to and from school activities).

Unofficial copy Travis Co. District Clerk Velva L. Price

Adds a new subchapter applying to a Class C misdemeanor, other than a traffic offense, committed by a student who is "child" as defined by Article 45.048(h), Code of Criminal Procedure, on property under the control and jurisdiction of a school district. For the purposes of the subchapter, an applicable offense is defined as a "school offense." Under the subchapter, a peace office may not issue a citation for a school offense. In addition, a school district that commissions peace officers is authorized to develop a system of graduated sanctions to be imposed before a complaint if filed for disruption of classes, disruption of transportation, or certain categories of disorderly conduct. The system may include a warning letter, a behavior contract, school-based community service, and referral to counseling, community-based services, or other in-school or out-of-school services addressing the child's behavioral problems. A criminal complaint alleging a school offense must be sworn to by a person with personal knowledge of the facts, be accompanied by a statement from a school employee stating whether the child is eligible for or receives special education services and the that graduated sanctions, if required, were imposed before the complaint was filed.

Family Code: Authorizes a court to waive original jurisdiction for a complaint against a child for a misdemeanor punishable by fine only, other than a traffic offense, and refer the child to juvenile court if the court or another court has previously dismissed a complaint against the child under Section 8.08, Penal Code. Provides that a child accused of a Class C misdemeanor, other than a traffic offense, may be referred to a first offender program prior to the filing of a complaint with a criminal court or referring the child to juvenile court if the child qualifies for the program.

Penal Code: Prohibits prosecution of a person who was younger than 10 years of age when the person engaged in conduct constituting a misdemeanor punishable by fine only or the violation of an ordinance of a political subdivision. Creates a presumption that a person who is at least 10 years of age but younger than 15 is incapable of committing an offense punishable by fine only or in violation of an ordinance of a political subdivision. Adds Section 8.08, authorizing a court with jurisdiction of an offense punishable by fine only or the violation of an ordinance of a political subdivision to determine whether probably cause exists to believe that a child lacks the capacity to understand the court proceeding or to assist in

Unofficial copy Travis Co. District Clerk Velva L. Price

the child's defense or lacks substantial capacity to appreciate the wrongfulness of the child's own conduct to conform the child's conduct to the requirement of the law. If the court determines that probable cause exists, the court may dismiss the complaint. Provides that certain categories of the offense of disorderly conduct do not apply to a person who was a student younger than 12 years of age at the time the conduct occurred if the conduct occurred at a public school campus during regular school hours.

Change from current law: Creates options for sanctions for certain misdemeanors committed by children other than payment of a fine and cost. Creates confidentiality for records in a case against a child that is dismissed after deferral of disposition. Expands the purposes of a juvenile case manager employed by certain school, juvenile, or court authorities. Limits the application of the offenses of disruption of classes and disruption of transportation to persons 12 years of age or older. Authorizes a school district system of graduated sanctions for school offenses. Extends the first offender program to children who are subject to a complaint in criminal court in addition to those referred to juvenile court. Limits the ability to prosecute children for certain misdemeanors and violations of political subdivision ordinances. Limits the application of certain categories of the offense of Disorderly Conduct in the Penal Code so that they do not apply to conduct occurring on a public school campus during regular school hours if the defendant is a student younger than 12 years of age.

Effective Date: September 1, 2013

Change from current law: Current law requires DSHS and the TEA to provide and annually update a list of recommended best practice-based programs for early mental health intervention and suicide prevention for implementation in public elementary, junior high, middle, and high schools. Mental health promotion and positive youth development, substance abuse prevention, and substance intervention must now be added to the list of programs which must be included on the list of best practice-based programs. ESCs are not currently required to work with DSHS and TEA to develop and update the list and there is not currently a requirement that the list be made easily accessible on the websites of the responsible agencies.

Effective Date: September 1, 2013

Action required for 2013-14 School Year: DSHS, TEA, and each regional education service center must make the list of recommended best practice-based programs available on their websites.

Outstanding Issues: The board of trustees of each school district may adopt a policy concerning mental health promotion and substance abuse prevention and intervention. This is permissive, not required.
