STATE DEFENDANTS' FIRST REQUEST TO COURT TO TAKE JUDICIAL NOTICE

TO THE HONORABLE JOHN K. DIETZ, JUDGE PRESIDING:

Michael Williams, Commissioner of Education, Susan Combs, Texas Comptroller of Public Accounts, in their official capacities, the Texas State Board of Education, the Texas Education Agency, and the State of Texas ("State Defendants") request the Court to take judicial notice of the adjudicative facts pertaining legislation passed by the 83rd Texas Legislature and

the rules proposed or adopted by the Texas Education Agency, Commissioner of Education, and State Board of Education to implement that legislation beginning in the 2013-2014 school year pursuant to Texas Rule of Evidence 201.

I. Standard

Rule 201 provides:

> **(a) Scope of Rule.** This rule governs only judicial notice of adjudicative facts.
>
> **(b) Kinds of Facts.** A judicially noticed fact must be one not subject to reasonable dispute in that it is either (1) generally known within the territorial jurisdiction of the trial court or (2) capable of accurate and ready determination by resort to sources whose accuracy cannot reasonably be questioned.
>
> **(c) When Discretionary.** A court may take judicial notice, whether requested or not.
>
> **(d) When Mandatory.** A court shall take judicial notice if requested by a party and supplied with the necessary information.
>
> **(e) Opportunity to Be Heard.** A party is entitled upon timely request to an opportunity to be heard as to the propriety of taking judicial notice and the tenor of the matter noticed. In the absence of prior notification, the request may be made after judicial notice has been taken.
>
> **(f) Time of Taking Notice.** Judicial notice may be taken at any stage of the proceeding.

Judicial notice is mandatory when the standards are met and may be taken of documents when unopposed. *MCI Sales and Serv., Inc. v. Hinton*, 329 S.W.3d 475, 485 (Tex. 2010); *Office of Pub. Util. Counsel v. Pub. Util. Comm'n,* 878 S.W.2d 598, 600 (Tex. 1994) (per curiam). Additionally, the Texas Supreme Court has concluded that a court may take judicial notice of publically available documents to aid in its determination of jurisdiction. *Univ. of Houston v. Barth*, 403 S.W.3d 851, (Tex. 2013)(per curiam)(taking judicial notice of the Board of Regents'

policies on the university's website); *Freedom Communications, Inc. v. Coronado*,372 S.W.3d 621, 623-24 (Tex. 2012).

The State Defendants ask the Court to take judicial notice of the documents linked below (and tendered in electronic format by the State). The State Defendants have briefly described each document to guide the Court in its review. The documents are legislation or documents related to the legislation enacted by the 83rd Texas Legislature.

II. Fiscal Year 2013

The Texas Legislature paid school districts $1.75 billion, the twenty-fourth payment of the 2012-2013 biennium, which had been previously scheduled to be deferred to the 2013-2014 biennium. [SB 758 and HB 1025, sec. 32]. It also appropriated an additional $630 million in education spending for the 2012-2013 biennium. [HB 10, sec. 4].

In addition, the Legislature appropriated an additional $10 million in supplemental funding for the Student Success Initiative. [HB 1025, sec. 43].

III. General Appropriations for the 2014-2015 Biennium

After fully funding enrollment growth, the Legislature increased state formula funding to all school districts by $3.4 billion during the 2013-2014 and 2014-2015 school years. [Fi104, Fi109, Fi104]. This was accomplished through four mechanisms: (1) restoring the Regular Program Adjustment Factor (RPAF) to 1.0 in Fiscal Year 2014-15, thereby negating this mechanism's funding reduction, which was implemented by the 82nd First Called Special Legislative Session; (2) increasing the Basic Allotment from $4,765 to $4,950 in 2014, and to $5,040 in 2015; [Fi104]; [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 3, Fi104]; [HB 1025, sec. 37(c)]; (3) increasing Foundation School Program funding to Districts by modifying the Hold Harmless Reduction percentage from 92.35% to 92.63%; [General

Appropriations Act, SB 1 Conference Report, Art. III, Rider 3, Fi104]; *see former* TEX. EDUC. CODE § 42.2516(i)], and (4) for the 2014-2015 school year, the "Golden Penny Yield" will be increased from $59.97 to $61.86. [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 3].

As a result of these changes, all school districts received an increase in funding per weighted average daily attend (WADA) in the 2013-2014 and 2014-15 school year; specifically, 726 districts with property wealth at or below $319,499 received an average per WADA increase of $263 in 2013-14 and $353 in 2014-15. Districts with property wealth between $319,500 and $476,500 received an average per WADA increase of $171 in 2013-14 and $217 in 2014-15. [Fi104]. The Legislative Budget Board's (LBB) Fi104 Model 115 Summary, which reflects the funding changes adopted by the Legislature, shows the additional funding per student in weighted average daily attend (WADA) for each school district for the 2013-2014 and 2014-15 school years. [Fi104, Fi107, Fi108] [Fi106] [Fi104]. The Model demonstrates the average differences in increased funding between the districts based on different groupings of property wealth. [Fi108].

In addition, these legislative changes increased the number of districts that would be funded based on the State's formulas (instead of based on Target Revenue) from 680 districts to 751 districts in Fiscal Year 2014 and 662 districts to 770 districts in Fiscal Year 2015. [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 3, Fi104]; *See former* TEX. EDUC. CODE § 42.101 (reducing RPAF to 98% and setting basic allotment at $4,765)]. Further, this legislative enrichment of formula funding reduced the number of school districts subject to recapture from 172 to 154 in Fiscal Year 2014 and from 186 to 159 in Fiscal Year 2015. [Fi104].

IV. Grants and Supplemental Funding for the 2013-2014 Biennium

The Legislature increased funding to Pre-Kindergarten by increasing the basic allotment. [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 66]. It also appropriated Pre-Kindergarten supplemental funding of $30 million during the 2014-15 biennium. [Fi100] The estimated increase based on the supplemental funding for each school district was provided on Texas Education Agency's (TEA) website on July 24, 2013. [Fi102].

The Legislature appropriated $16.3 million for an Advanced Placement Initiative. [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 54]. It appropriated another $5 million for fitness assessments. [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 74].

The Legislature appropriated $50.5 million to the Student Success Initiative in the general appropriations bill. [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 50]. It appropriated $12 million for Teach for America. [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 49]. The Legislature appropriated $39 million to Communities in Schools, [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 24].

The Legislature appropriated $330 million to implement SB 1458, which changes aspects of the Teachers' Retirement System and paid for increased employer contributions for school district employee retirement plans. [General Appropriations Act, SB 1 Conference Report, Art. III, Rider 71].

Finally, the Legislature appropriated $838 million for instruction materials for the 2014-15 biennium. [SB 1, Rider 8].

V. Assessments

A. Required Assessments

Before the 83rd legislative session, Texas public school students were required to pass 15 end-of-course (EOC) tests to graduate on the Recommended High School Program. TEX. EDUC. CODE § 39.023(c). Under House Bill 5, to graduate, students now must pass an EOC assessment in each of the following five (5) subject areas: Algebra I, Biology, English I and English II, and United States History. [House Bill 5, sec. 31, amending TEX. EDUC. CODE § 39.023(c).] The English I and English II will assess both reading and writing in a single test. [House Bill 5, sec. 31, amending TEX. EDUC. CODE § 39.023(c).]

For those students expecting to graduate in the 2014-15 or 2015-16 school years, until combined reading and writing English assessments are available, TEA's proposed transitional rules allow a student to graduate by passing either English I reading or writing (and English II for 2014-15 graduates), receiving a minimum score on both tests, and attaining a minimum cumulative scaled score. [As03].

B. Release of Assessments

The Texas Education Code, section 39.023(e) required the State Board of Education Rules to provide for the release of the STAAR test questions and answer keys every third year. TEX. EDUC. CODE § 39.023(e). New Education Code sections 39.023(e)-(e)(3) adopted and amended by House Bill 5 require the release of the assessment and answer keys beginning with the 2012-2013 assessments. [House Bill 5, sec. 31]. The TEA posted the assessments and answer keys on its website on August 16, 2013, [As01], as indicated by the Commissioner's August 2, 2013 notification, [As03].

C. Assessment Standards

The Commissioner has also proposed maintaining the Phase-In 1 standards for the assessments during the 2013-2014 school year. [As02]. Students will be required to meet the performance standard that was in effect during the year the student took his or her first EOC on all five EOC examinations. [As02]. The legislature repealed the requirement that EOC assessments count as 15% of a student's course grade. [House Bill 5, sec. 31].

VI. Graduation Requirements

The Legislature replaced the Minimum, Recommended, and Distinguished high school graduation plans with the Foundation High School Program. [House Bill 5, sec. 16, amending TEX. EDUC. CODE § 28.025(a)]. House Bill 5 increased the number and array of career and technology courses that a district may offer to its students for graduation credit. [House Bill 5, sec. 9, amending TEX. EDUC. CODE § 28.00222, sec. 8, amending TEX. EDUC. CODE § 28.002]. Students may earn endorsements to their diplomas for Science Technology Engineering and Math, Business and Industry, Public Services, Arts and Humanities, Multidisciplinary Studies, Distinguished Achievement, or Performance Acknowledgement. These changes modify the type and number of credits needed for graduation in various subjects. [Gr01]. Current high school seniors may opt-in to the Foundation High School Program. [Gr02, Gr04]. The State Board of Education continues to receive input as it develops the final standards and curricular requirements for the Foundation High School Program. [Gr03].

The Legislature revised state minimum college admissions requirements for students graduating from Texas high schools. The new requirements are based on completion of the Foundation High School Program. [House Bill 5, sec. 65, amending TEX. EDUC. CODE § 51.805]. The Legislature delegated to the Commissioners of Education and the Texas Higher

Unofficial copy Travis Co. District Clerk Velva L. Price

Education Coordinating Board the authority to: (1) determine the college entrance requirements for students currently on the Minimum, Recommended, or Distinguished High School Programs so that those requirements are not more stringent than the Foundation high school program requirements, beginning in the 2014-15 school year; [House Bill 5, sec. 65, amending TEX. EDUC. CODE § 51.805]; and (2) determine whether students graduating in the 2014-15 school years met equivalent qualifications of the Recommended or Distinguish High School Programs. [House Bill 5, sec. 67, adding TEX. EDUC. CODE § 56.009.].

VII. Accountability

House Bill 5 also amended the State Accountability System beginning in the 2016-2017 school year, requiring the use of an A-F rating system for school districts rather than the previous ratings of Exemplary, Recognized, Acceptable and Unacceptable. [House Bill 5, sec. 44, amending TEX. EDUC. CODE § 39.054]. The Commissioner may rate campuses as Exemplary, Recognized, Acceptable and Unacceptable. [House Bill 5, sec. 44]. Beginning in the 2013-14 school year, school districts must engage in self-evaluations of the districts and each of campus within the district. [House Bill 5, sec. 46]. The legislature significantly revised the financial accountability system for districts and charter schools. [House Bill 5, sec. 49-52].

The Commissioner of Education requested a waiver for the federal accountability requirements—Adequate Yearly Progress of the No Child Left Behind Act. [As04]. That request was denied.

VIII. Charter Schools

The Legislature enacted significant revisions to law governing charter schools in Senate Bill 2. [SB 2].

6. **State Contribution to Group Insurance for General State Employees.** Funds identified above for group insurance are intended to fund:

a. the total cost of the basic life and health coverage for all active and retired employees;

b. fifty percent of the total cost of health coverage for the spouses and dependent children of all active and retired employees who enroll in coverage categories which include a spouse and/or dependent children; and

c. the incentive program to waive participation in the Group Benefits Plan (Opt-Out).

In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

During each fiscal year, the state's monthly contribution shall be determined by multiplying (1) the per capita monthly contribution as certified herein by (2) the total number of full-time active and retired employees, subject to any adjustment required by statute, enrolled for coverage during that month.

For each employee or retiree that waives participation in the Group Benefit Plan and enrolls in allowable optional coverage, the Employees Retirement System shall receive $60 per month in lieu of the "employee-only" state contribution amount, and such amounts are included above in Strategy B.1.1, Group Insurance. The waived participant may apply up to $60 per month towards the cost of the optional coverage.

Each year, upon adoption of group insurance rates by the Board of Trustees, Employees Retirement System must notify the Comptroller, the Legislative Budget Board, and the Governor of the per capita monthly contribution required in accordance with this rider for each full-time active and retired employee enrolled for coverage during the fiscal year.

Unofficial Copy Travis Co. District Clerk Velva L. Price

It is the intent of the Legislature that the Employees Retirement System control the cost of the group insurance program by not providing rate increases to health care providers participating in HealthSelect during the 2014-15 biennium.

7. **Excess Benefit Arrangement Account.** There is hereby appropriated to the Employees Retirement System all funds transferred or deposited into the Excess Benefit Arrangement Account established in the General Revenue-Dedicated Account No. 5039, for the purpose of paying benefits as authorized by Government Code §815.5072.

8. **Transfer of Retirement Contributions and Group Insurance.** Appropriations made in this and other articles of this Act for Retirement and Group Insurance contributions shall be transferred by each agency from the Employees Retirement System to the agency based on estimated amounts by funding source for each fiscal year. Transfers should be made no later than September 15 of the year in which the payments are to be made. Adjustments and return of excess appropriation authority to the Employees Retirement System shall be completed by October 30 of the subsequent fiscal year.

9. **Federal Funds for Medicare Part D Prescription Drug Program.** The Employees Retirement System (ERS) is hereby authorized to receive employer reimbursements of all federal funds applicable to Medicare Part D prescription drug reimbursements relating to benefits administered by ERS. Any federal funds received by ERS shall be deposited to the Employees Life, Accident and Health Insurance and Benefits Fund No. 973, or to such fund as established by the Legislature or the State Comptroller of Public Accounts to pay health claims for retired employees.

10. **Appropriations for the Deferred Compensation Trust Fund and the TexaSaver Trust Fund.** All money deposited into the Deferred Compensation Trust Fund, Employees Retirement System No. 0945 and the TexaSaver Trust Fund No. 0946 pursuant to §609.512 Government Code are hereby appropriated to the system for the 2014-15 biennium for the purposes authorized by law.

11. **Tobacco User Monthly Premium Fee.** The Employees Retirement System, pursuant to the provisions of Government Code §1551.3075, shall automatically apply a $30 monthly tobacco user fee to any individual aged 18 or older covered under the state health plan unless the individual, during the individual's enrollment period, certifies that the individual does not use tobacco. The Comptroller of Public Accounts shall deposit revenue from the fee (estimated to be $7,906,000 in fiscal year 2014 and $8,046,000 in fiscal year 2015) into the Employees Life, Accident, Health Insurance and Benefits Trust Account.

12. **State Contribution to the Law Enforcement and Custodial Officer Supplemental Retirement Fund (LECOS).** The amount specified above in A.1.2 Law Enforcement and Custodial Officer Supplemental Retirement Fund (LECOS), is based on 0.5 percent of covered payroll each fiscal year of the 2014-15 biennium for LECOS members.

13. **Life and Disability Insurance and Education.** Funds appropriated by this Act may be used by the Employees Retirement System to provide additional education to state employees on life and disability insurance plans, including the benefits, limitations and exclusions for coverage, and integration with other income sources and benefits. The Employees Retirement System may consider using publications, online webinar presentations, and in person presentations to ensure information is relayed to state employees. Information related to limitations, exclusions and integration with other benefits should be posted directly on the agency's website.

14. **Basic Life and Health Coverage.** Out of funds appropriated elsewhere in this Act for Group Insurance, the Employees Retirement System (ERS) shall use simulation modeling or similar methods to project the effects of making basic life and basic health plans available to members. The model shall identify and consider premiums for basic coverage for both members and dependents, the applicability of the Affordable Care Act, potential implications to the plans' actuarial soundness, and how a basic plan option would affect enrollment and related risk pools in the group insurance plans. ERS shall provide a report to the Legislature no later than September 1, 2014 addressing the above as well as any necessary changes to statute to provide basic life and health coverage as modeled.

Out of funds appropriated above, and on a quarterly basis, the Department of Family and Protective Services shall provide a recruitment and retention activities report to the Legislative Budget Board, the Office of the Governor, and the permanent standing committees in the House of Representatives and the Senate with jurisdiction over health and human services. The report should include data on turnover, fill rates, and initiatives undertaken during the reporting period to improve staff recruitment and retention, resources expended on the initiatives, and outcomes quantifying the impact of the initiatives.

    b. Not later than August 31, 2014, the Department of Family and Protective Services shall provide a report to the Legislative Budget Board, the Office of the Governor, and the permanent standing committees in the House of Representatives and the Senate with jurisdiction over health and human services that analyzes data regarding the reasons for CPS staff turnover, identifies patterns in turnover, and makes recommendations for specific interventions to address identified concerns. The report shall include analysis on the fiscal and policy impact of establishing a career ladder for certain positions, providing on call pay, and paying higher salaries for targeted degrees and employees headquartered in certain counties.

32. **College Degree Pay.** The Department of Family and Protective Services may pay 3.4 percent to 6.8 percent above the current base salary for employees with targeted college degrees determined by the department to be relevant to their positions. Once established, the additional pay is reviewed at least annually and adjustments made as warranted by existing labor market conditions and agency staffing needs. This additional pay combined with base salary is not to exceed 90% of the market salary of comparable jobs. An employee is no longer eligible to receive this additional compensation beginning with the first day of the month in which an employee's headquarters is not in the specified county.

Pursuant to rider 6, Foster Care Rates, the department may not transfer funds out of Strategy B.1.11, Foster Care Payments authorized by this section, without the prior written approval of the Legislative Budget Board and the Governor. The written request shall include:

a. information on whether the transfer of funds from B.1.11. Foster Care Payments, will create a need for supplemental funding or a transfer from another agency; and

In determining which of the existing provider rates to increase, DFPS shall consider the ability of the provider to:

a. increase capacity;

b. increase access in geographically underserved areas; and

c. any other criteria deemed appropriate.

Add-on rates should:

a. incentivize certain quality improvements for children in foster care; and

b. prioritize CPAs with higher rates of placement of sibling groups of 3 or more.

d. **Cash Management**. Notwithstanding the above limitations, DSHS may temporarily utilize funds for cash flow purposes. All funding used in this manner shall be promptly returned to the originating strategy. This authorization is subject to limitations established by the Comptroller of Public Accounts.

The Comptroller of Public Accounts shall not allow the transfer of funds authorized by any of the above subsections if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

In the case of disaster or other emergency, this provision is superseded by the emergency-related transfer authority in Article IX of this Act.

"Other direct and indirect costs" for these programs are estimated to be $6,561,364 for fiscal year 2014 and $6,854,182 for fiscal year 2015. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.         (1) Before an employee can be eligible for a bonus, the employee must have been employed in the program for the related twelve months, remain employed in the program, and demonstrate performance that meets expectations.

        (2) The commission has the authority to determine whether employees who have received bonuses under this provision are eligible for merit salary increases during a twelve-month period prior to or after receipt of the bonus.

33. **Medical Treatments.** The Health and Human Services Commission may distribute funds for medical, dental, psychological or surgical treatment provided to a minor only if consent to treatment is obtained pursuant to Chapter 32 of the Texas Family Code. In the event that compliance with this rider would result in the loss of Federal Funds to the state, the department may modify, or suspend this rider to the extent necessary to prevent such loss of funds, provided that 45-day prior notification is provided to the Governor and the Legislative Budget Board.

34. **Unexpended Balance Authority for Eligibility Determination Services.** Unexpended balances in General Revenue Funds appropriated in Strategy A.1.2, Integrated Eligibility and Enrollment, for the fiscal year ending August 31, 2014, are appropriated to the agency for the following fiscal year only upon prior written approval by the Legislative Budget Board and the Governor.

36. **Hospital Uncompensated Care.** No funds appropriated under this Article for medical assistance payments may be paid to a hospital if the Health and Human Services Commission determines that the hospital has not complied with the commission's reporting requirements. The commission shall ensure that the reporting of uncompensated care (defined to include bad debt, charity care and unreimbursed care) by Texas hospitals is consistent for all hospitals and subjected to a standard set of adjustments that account for payments to hospitals that are intended to reimburse uncompensated care. These adjustments are to be made in such a way that a reliable determination of the actual cost of uncompensated care in Texas is produced.

    The commission shall conduct an appropriate number of audits to assure the accurate reporting of the cost of uncompensated hospital care.

    The commission shall submit a biennial report on uncompensated care costs, which considers the impact of patient specific and lump sum funding as offsets to uncompensated costs, to the Governor and Legislative Budget Board no later than December 1, 2014. The commission may report by hospital type.

    The commission shall also review the impact of health care reform efforts on the funding streams that reimburse uncompensated care, assess the need for these funding streams in future biennia, and consider which funds might be redirected to provide direct health coverage.

37. **Hospital Reimbursement.** Contingent upon federal approval, and to the extent allowed by law, no funds appropriated under this Article for the payment of inpatient hospital fees and charges under the medical assistance program may be expended, except under a prospective payment methodology for all Medicaid inpatient claims, including state-owned teaching hospital Medicaid inpatient claims, that employs sound cost reimbursement principles and:

    a. enhances the Health and Human Services Commission's ability to be a prudent purchaser of health care;

    b. reflects costs that are allowable, reasonable and medically necessary to deliver health care services to the state's Medicaid population;

    c. reduces the variability in the Medicaid reimbursement rates paid to hospitals for treating patients with the same diagnoses;

    d. promotes and rewards increased efficiency in the operation of hospitals;

    e. emphasizes and rewards quality of outcomes and improves the treatment of Medicaid patients through pay-for-performance principles;

    f. recognizes, through add-on payments or other methods, the unique needs of individual hospitals, including rural hospitals.

38. **Payments to Rural Hospital Providers.** It is the intent of the Legislature that out of funds appropriated above in Goal B, Medicaid, the Health and Human Services Commission (HHSC) shall rebase rural hospital rates as follows:

    a. These provisions shall apply to hospitals located in a county with 60,000 or fewer persons according to the 2010 U.S. Census, and Medicare-designated Rural Referral Centers (RRC), Sole Community Hospitals (SCH), and Critical Access Hospitals (CAH).

    b. Inpatient:

        (1) Hospitals defined above shall be reimbursed based on a facility-specific prospective full cost standard dollar amount (SDA) based on their historical costs limited by a floor and a ceiling. The ceiling should be equal to approximately two standard deviations above the average full-cost SDA for providers with more than 50 claims; the floor should be equal to approximately 1.5 standard deviations below that same average.

        (2) In calculating the facility specific prospective full cost SDA, the rates will be trended forward by the CMS Market Basket inflation factor to adjust for inflation.

(3) It is the intent of the Legislature that for patients enrolled in managed care including but not limited to health maintenance organizations (HMO), inpatient services provided at hospitals meeting the above criteria shall be reimbursed based on the above considerations and rates, in order to maintain access to care.

c. Outpatient: In order to ensure that access to emergency and outpatient services remain in rural parts of Texas, it is the intent of the Legislature that when HHSC changes its outpatient reimbursement methodology to an Enhanced Ambulatory Patient Groups or similar methodology, HHSC shall promulgate a separate or modified payment level for the above defined providers.

d. The commission may consider a phase down schedule for a hospital which met the definition of "rural hospital" in the preceding biennium, but does not meet the definition provided in paragraph a. above.

39. Staffing and Capital Authorization in Lieu of Contracted Responsibilities. Notwithstanding any other provisions in this Act, if the executive commissioner of the Health and Human Services Commission (HHSC) determines that a service performed under a contract as of the effective date of this Act would be more effectively performed by state personnel, the executive commissioner is authorized to adjust the agency's full-time equivalent (FTE) and/or capital authority limitation to the extent necessary to ensure the successful assumption of such contracted duties and to comply with federal performance standards.

Authority granted by this provision is contingent upon a written notification from HHSC to the Legislative Budget Board and the Governor at least 30 days prior to adjusting budgeted FTE levels and/or acquiring capital equipment that includes the following information:

a. a detailed explanation of the adjustments to the affected contract and the reason(s) for the adjustment;

b. the estimated reduction in spending in All Funds on the contract by fiscal year;

c. the increase in both the annual average and end-of-year FTEs by fiscal year;

d. the estimated increase in expenditures by object of expense and method of financing for each fiscal year; and

e. the estimated increase in capital expenditures by method of financing by fiscal year for each increased or new project.

The Comptroller of Public Accounts shall not allow the adjustment of FTE or capital authority limitations authorized by this provision if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

The Health and Human Services Commission is authorized to spend Appropriated Receipts - Match for Medicaid and matching Medicaid Federal Funds out of Strategy B.2.1, Non-Full Benefit Payments, for Graduate Medical Education payments to state-owned teaching hospitals, contingent upon receipt of allowable funds from state-owned teaching hospitals to be used as the non-federal share for Medicaid Graduate Medical Education. In order to ensure maximum accountability, HHSC shall contract with a single vendor for the data warehouse.

HHSC shall submit reports to the Legislative Budget Board and the Governor on September 1, 2013 and September 1, 2014 reflecting actual expenditures and accomplishments to date. The

Only federal funds may be used to pay salaries and benefits for the FTEs hired for this purpose.

43. **Local Reporting on DSH, Uncompensated Care, Delivery System Reform Incentive Payment, and Indigent Care Expenditures.** Out of funds appropriated above, and as the state Medicaid operating agency, the Health and Human Services Commission shall develop a report that non-state public hospitals, private hospitals, hospital districts, physicians and private administrators shall use to describe any expenditures they make through the Disproportionate Share Hospital (DSH) program, the Uncompensated Care (UC) Pool, the Delivery System Reform Incentive Payment (DSRIP) Pool, and the Indigent Care program. The commission shall determine the format of the report, which must include expenditures by method of finance per year. In addition, the commission annually shall require contracted hospital providers to report payments to entities who provide consultative services regarding revenue maximization under the medical assistance program and any other governmentally funded program, including UC, DSRIP, and DSH. The report is due to the Legislature and Governor by August 31, 2014.

76. **Texas Medicaid and Texas Diabetes Council.** It is the intent of the Legislature that out of funds appropriated above in Strategy A.1.1, Enterprise Oversight and Policy, the Texas Medicaid Program and the Health and Human Services Commission consider advisory information from the Texas Diabetes Council when implementing a new program or initiative that could impact Medicaid patients diagnosed with diabetes or their access to care.

77. **Umbilical Cord Blood Bank Funding.** Included in appropriations above in Strategy A.1.1, Enterprise Oversight and Policy, is $1,000,000 in General Revenue Funds in fiscal year 2014 and $1,000,000 in General Revenue Funds in fiscal year 2015 for the purpose of entering into a contract with a public cord blood bank in Texas for gathering from live births umbilical cord blood and retaining the blood at an unrelated cord blood bank for the primary purpose of making umbilical cord blood available for transplantation purpose. The contracting blood bank must be accredited by the American Association of Blood Banks and the International Organization for Standardization.

83. **Children's Hospital DSH.** Out of funds appropriated above, the Health and Human Services Commission (HHSC) may adjust rates for Medicaid outpatient hospital, outpatient surgical and emergency department services and to make payments for Medicaid allowable costs for pediatric graduate medical education to mitigate Medicaid reimbursement shortfalls at children's hospitals that are not reimbursed through the Disproportionate Share Hospital (DSH) Program due to policy interpretation by the federal Centers for Medicare and Medicaid Services (CMS) on the calculation of the Medicaid shortfall. Rate adjustments to mitigate the related loss of DSH payments are subject to the prior written approval required under Special Provisions Relating to All Health and Human Services Agencies, Section 44, Rate Limitations and Reporting Requirements.

The report shall include recommendations from the commission for the implementation of a plan to improve the health of Texans and decrease costs in Medicaid by decreasing the impact of sepsis and septicemia. The commission shall submit the report by September 1, 2014.

Out of funds appropriated above to the Health and Human Services Commission in Goal B, Medicaid, the Health and Human Services Commission may expend up to $160,000,000 in General Revenue Funds in fiscal year 2014 and $140,000,000 in General Revenue Funds in fiscal year 2015 to stabilize and improve Medicaid hospital payments, including providing a portion of the non-federal share of Medicaid Disproportionate Share Hospital (DSH) payments and/or rate adjustments to recognize improvements in quality of patient care, the most appropriate use of care, and patient outcomes. Expenditure of General Revenue Funds under this provision is contingent upon:

a. Measurable progress by the commission towards a plan to stabilize and improve the system for providing hospital payments for Medicaid services and for uncompensated care in fiscal year 2014. No funds may be expended in fiscal year 2015 under this provision before the plan is finalized. The plan should address:

(1) The appropriate balance and a proportional allocation of supplemental hospitals payments, including DSH and Uncompensated Care (UC) payments, among large public, small public, and non-public providers taking into consideration the provision of care to Medicaid and low income patients and the ongoing availability of DSH funding support (IGT) provided by large public hospitals;

(2) The Medicaid shortfall that occurs due to state Medicaid rates paid to hospitals and the impact of such rates on hospitals that provide a disproportionate share of Medicaid and uncompensated care;

(3) Mechanisms though which Medicaid payments are made through managed care organizations;

(5) An assessment of the extent to which supplemental payments are needed to cover Medicaid and uninsured/uncompensated care costs;

(6) A plan to transition from supplemental payments to rates that recognize improvements in quality of patient care, the most appropriate use of care, and patient outcomes, and;

(7) Steps to ensure General Revenue Funds appropriated to the Health and Human Services Commission will no longer be used as the non-federal share of DSH supplemental payments by the end of fiscal year 2015.

b. Approval of a request from the commission to expend the funds by the Legislative Budget Board and the Governor. The request shall be considered approved unless the Legislative Budget Board or the Governor issues a written disapproval within 45 calendar days of the date on which the Legislative Budget Board receives the request.

(1) For fiscal year 2014, the request shall demonstrate progress toward the plan under section (a), and include how hospital reimbursement rates may be impacted by subsection a(6), the proposed state appropriations to be expended by fiscal year for supplemental payments and rate enhancements respectively, estimated IGT expected to be transferred to the commission in each fiscal year for the purpose of drawing down the available DSH allotment, and allocation to the major categories of hospitals.

The CEDD shall only contract with entities that have been screened, reviewed, and approved by the executive commissioner of the Health and Human Services Commission. The CEDD and the Interagency Council for Addressing Disproportionality shall also develop and recommend to the executive commissioner policies for addressing disproportionality and disparities in the education, juvenile justice, child welfare, health and mental health systems, and implement those policies statewide. a. It is the intent of the Legislature that the Department of State Health Services (DSHS) and the Department of Aging and Disability Services (DADS) utilize funds appropriated for New Generation Medications for no other purpose than the provision, prescribing, and monitoring of New Generation Medications. This limitation shall apply to funds appropriated for New Generation Medications in the following strategies at DSHS: B.2.1, Mental Health Services for Adults, B.2.2, Mental Health Services for Children, B.2.4, NorthSTAR Behavioral Health Waiver, and C.1.3, Mental Health State Hospitals; and in the following strategy at DADS: A.8.1, State Supported Living Centers.

Unofficial Copy Travis Co. District Clerk Velva L. Price

availability of New Generation Medication funds to expend on services must result from cost efficiencies achieved by the authority.

c. To the extent that the local authorities or state contracted managed care organizations are able to obtain cost savings associated with cost effective purchasing arrangements, private sector donations of medications for clients and/or financial contributions for the purchase of New Generation Medications in DSHS Strategies B.2.1, Mental Health Services for Adults, B.2.2, Mental Health Services for Children, and B.2.4, NorthSTAR Behavioral Health Waiver, and they meet or exceed their contracted performance targets for persons served with New Generation Medications, they may expend up to an equivalent amount from these strategies on direct services to clients.

Among the strategies that should be considered in achieving this objective are consolidations among local authorities and partnering among local authorities on administrative, purchasing, or service delivery functions where such partnering may eliminate redundancies or promote economies of scale. The Legislature also intends that each state agency which enters into a contract with or makes a grant to local authorities does so in a manner that promotes the maximization of third party billing opportunities, including to Medicare and Medicaid.

It is the Legislature's intent that DADS local authorities not expend funds appropriated to the Department of Aging and Disability Services in Strategies A.1.1, Access, Intake & Eligibility, and A.4.2, Intellectual Disability Community Services, to supplement the rate-based payments they receive to fund their costs as providers of waiver or ICF/IID services.

Sec. 35. Equal Opportunity Principles in Contracting for Social Services. The Legislature intends that each state agency that contracts with or makes a grant to a nongovernmental entity to provide social services, using money appropriated by this Act, enter the contract or make the grant in a manner that is consistent with the equal opportunity principles and safeguards provided by federal law under 42 U.S.C. §604a.

For authorization to expend the funds, an agency shall submit a written request to the Legislative Budget Board and the Governor by April 1, 2014. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request must be organized by fiscal year as follows:

The information requested above shall be prepared and submitted in a format approved by the Legislative Budget Board.

The Comptroller of Public Accounts shall not allow the expenditure of funds for an increased assessment if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

The Comptroller of Public Accounts shall not allow the use of the funds if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 42. HHS Office Consolidation and Co-location. No funds appropriated under this Act may be expended for Health and Human Services Commission or health and human services agencies listed in Chapter 531, Government Code, for office or building space leased by the Texas Facilities Commission (TFC) on behalf of these agencies where the determination has been made that the leased space is no longer needed due to: 1) a change in client demographics resulting in the ability to relocate staff to other locations, 2) a change in service delivery model, or 3) consolidations of office or building space to achieve cost or operational efficiencies. Prior to vacating any space and asking TFC to cancel a lease, HHSC will perform subsections (a) and (b) below:

a. Conduct an evaluation of the space to be vacated and document the factors that substantiate the decision to vacate the space. This evaluation may include client demographics, employee usage and travel status, facility costs, facility location, facility condition, Texas Accessibility Standards, and safety.

b. Provide written notification to the Texas Facility Commission at least 270 days prior to the date of the lease cancellation. At the same time, HHSC shall provide notification to the Legislative Budget Board and the Governor's office of the intent to terminate a lease and the anticipated savings to be realized from consolidation and efficiencies.

c. The Executive Commissioner is authorized, contingent upon approval from the Legislative Budget Board and the Governor, to utilize any of the freed-up General Revenue Funds or Other Funds reported under section (b) for the purposes of improving business processes and office modernization projects that promote more efficient use of space, state staff and resources.

d. To request approval to utilize the freed-up funding for office modernization and business process improvements, HHSC shall submit a written request to the Legislative Budget Board and the Governor. b. **Use of General Revenue Funds for Services.**

(1) Out of funds appropriated for the waiver programs identified above, and subject to the terms of subsection (c) below, the department and commission are authorized to use General Revenue Funds to pay for services if:

(i) the cost of such services exceeds the individual cost limit specified in a medical assistance waiver program listed above;

(ii) continuation of those services is necessary for the person to live in the most integrated setting appropriate to the needs of the person.

(3) Authority provided in (b) above is contingent upon the agency submitting a report in writing to the Legislative Budget Board and Governor on October 1 of each year of the biennium. The report shall include the number of clients by program which exceeds cost limits and the unmatched General Revenue associated with each by fiscal year.

Sec. 44. Rate Limitations and Reporting Requirements. Notwithstanding other provisions of this Act, the use of appropriated funds for a rate paid by a health and human services agency as listed in Chapter 531, Government Code, shall be governed by the specific limitations included in this provision.

For purposes of this provision, "rate" is defined to include all provider reimbursements (regardless of methodology) that account for significant expenditures by a health and human services agency as listed in Chapter 531, Government Code. "Fiscal impact" is defined as an increase in expenditures due to either a rate change or establishment of a new rate, including the impact on all affected programs. Additionally, estimates of fiscal impacts should be based on the most current caseload forecast submitted by the Health and Human Services Commission (HHSC) pursuant to other provisions in this Act and should specify General Revenue-related Funds, TANF Federal Funds, and All Funds. Fiscal estimates that impact multiple risk groups may be reported at an aggregate level and acute care services may be reported by rate category.

a. **Notification of Change to Managed Care Rates**.

(1) No later than 45 calendar days prior to implementation of a change to premium rates for managed care organizations (MCO) contracting with HHSC, the Executive Commissioner of the HHSC shall submit the following information in writing to the Legislative Budget Board, the Governor, and the State Auditor:

(i) a schedule showing the original and revised rate, which should include information on the rate basis for the MCO reimbursements to providers;

(ii) a schedule and description of the rate-setting process for all rates listed for subsection (1); and

(iii) an estimate of the fiscal impact, by agency and by fiscal year, including the amount of General Revenue Funds, TANF Federal Funds, and All Funds for each rate change listed for subsection (1).

(2) Within seven days of the submission requirements listed above in subsections (i) through (iii), the Executive Commissioner of the HHSC shall submit a schedule identifying an estimate of the amount of General Revenue Funds, TANF Federal Funds, and All Funds by which expenditures at such rate levels would exceed appropriated funding.

b. **Quarterly Notification**. On a quarterly basis, HHSC shall provide notice of changed rates for:

(1) new procedure codes required to conform to Federal Healthcare Common Procedure Coding System (HCPCS) updates;

(2) revised rates occurring as a result of a biennial calendar fee review;

(3) any rate change estimated to have an annual fiscal impact of less than $500,000 in General Revenue-related Funds or TANF Federal Funds; and

(4) Any rate change for which approval is obtained under section (c).

c. **Limitation on Rates that Exceed Appropriated Funding**. With the exception of those rates specified in subsections (1) - (3) of section (b), Quarterly Notification, no agency listed in Chapter 531, Government Code, may pay a rate that would result in expenditures that

Unofficial Copy Travis Co. District Clerk Velva L. Price

exceed, in any fiscal year, the amounts appropriated by this Act to a strategy for the services to which the rate applies without the prior written approval of the Legislative Budget Board and the Governor.

To request authorization for such a rate, the Executive Commissioner of the HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information:

(1) a list of each new rate and/or the existing rate and the proposed changed rate;

(2) an estimate of the fiscal impacts of the new rate and/or rate change, by agency and by fiscal year; and

(3) the amount of General Revenue Funds, TANF Federal Funds, and All Funds, by fiscal year, by which each rate would exceed appropriated funding for each fiscal year.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 15 business days of the date on which the staff of the Legislative Budget Board concludes its review of the request for authorization for the rate and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor.

d. Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. Notifications, requests and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

e. The Office of the State Auditor may review the fiscal impact information provided under sections (a) through (c) along with supporting documentation, supporting records, and justification for the rate increase provided by the Health and Human Services Commission and report back to the Legislative Budget Board and the Governor before the rate is implemented by the Health and Human Services Commission or operating agency.

f. The Comptroller of Public Accounts shall not allow the expenditure of funds for a new or increased rate if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 45. Money Follows the Person Demonstration. The Health and Human Services Commission and the Department of Aging and Disability Services shall submit to the Legislative Budget Board and the Governor the monthly number of clients enrolled in each 1915(c) long-term-care waiver or receiving STAR+Plus CBA services who are eligible for enhanced federal match under the Money Follows the Person demonstration and the monthly expenditures eligible for the enhanced federal match. The data shall be submitted on a monthly basis in a format specified by the Legislative Budget Board.

a. Each report submitted pursuant to this provision must contain a certification by the person submitting the report that the information provided is true and correct based upon information and belief together with supporting documentation.

b. The Comptroller of Public Accounts shall not allow the expenditure of funds appropriated by this Act to the Department of Aging and Disability Services if the Legislative Budget Board and the Governor certify to the Comptroller of Public Accounts that the Department of Aging and Disability Services is not in compliance with this provision.

Sec. 46. Balancing Incentive Program Reporting. The Health and Human Services Commission, the Department of Aging and Disability Services, and any other health and human services agency listed in Chapter 531, Government Code, as applicable, shall submit to the Legislative Budget Board and the Governor the monthly expenditures eligible for enhanced federal match under the Balancing Incentive Program. The data shall be submitted on a monthly basis in a format specified by the Legislative Budget Board.

Sec. 47. Contingent Revenue, Appropriation of Cost.

a. Contingent upon the Comptroller of Public Accounts receiving funds and certifying collection of Medicaid fraud-related settlements, judgments or recoveries under the Human Resources Code, Chapter 36 submitted by the Office of the Attorney General in Revenue Code 3714, Judgments and Settlements, in excess of $124,606,000 contained in the Comptroller of Public Account's Biennial Revenue Estimate (BRE) for the 2014-15 biennium, the Health and Human Services Commission is appropriated the amount of collections above the BRE that are recovered under the Human Resources Code, Chapter 36, not to exceed $25,000,000 in General Revenue Funds in fiscal year 2014 and $25,000,000 in General Revenue Funds in fiscal year 2015 to Strategy B.1.5, Children, for the purpose of reimbursing the agency for the general revenue portion of investigative, legal, personnel, technology, consulting, and expert witness costs incurred in support of a judgment or settlement relating to Medicaid fraud, abuse, or waste.

b. The Commission may transfer any portion of this appropriation to the appropriate Medicaid strategy pursuant to HHSC Rider 12, Transfers: Authority and Limitations, or to another Medicaid strategy at an appropriate HHS agency pursuant to Special Provisions Relating to All Health and Human Services Agencies, Section 10, Limitations on Transfer Authority.

c. Notwithstanding any other provision of this Act, the remainder of such recoveries under the Human Resources Code, Chapter 36 that are deposited to the Comptroller of Public Accounts shall be credited to the appropriate Medicaid strategies to the HHS agency listed in Article II of this Act for the provision of Medicaid services. To the extent that such recoveries exceed $25 million in General Revenue Funds in fiscal year 2014 or $25 million in General Revenue Funds in fiscal year 2015 anticipated in section (a), and that amount is appropriated to the Health and Human Services Commission under this section, the General Revenue Match for Medicaid appropriated to HHSC in that specific year shall be reduced by the same amount.

Sec. 48. Program of All-inclusive Care for the Elderly (PACE).

a. **Expansion of PACE Sites.** The Department of Aging and Disability Services (DADS) may use funds appropriated in Strategy A.5.1, Program of All-inclusive Care for the Elderly (PACE) to add up to three additional PACE sites, each serving up to 150 participants beginning in fiscal year 2015.

b. **Additional Participants at Existing PACE Sites.** DADS may use funds appropriated in Strategy A.5.1, Program of All-inclusive Care for the Elderly (PACE) to serve up to 96 additional participants at existing PACE sites in Amarillo, Lubbock, and El Paso.

c. **Funding for Additional Sites and Participants.** Notwithstanding other provisions of this Act, if funds appropriated elsewhere in this Act to DADS in Strategy A.5.1, Program of All-inclusive Care for the Elderly (PACE) are not sufficient to pay for services described in subsections (a) and/or (b), the Health and Human Services Commission (HHSC) shall transfer funds from Goal B, Medicaid, Strategy B.1.1, Aged and Medicare-related, or Goal B, Medicaid, Strategy B.1.2, Disability-Related, in an amount not to exceed $369,839 in General Revenue Funds in fiscal year 2014 and $3,419,426 in General Revenue Funds in fiscal year 2015. The Executive Commissioner of HHSC must certify that funds appropriated to DADS in Strategy A.5.1, Program of All-inclusive Care for the Elderly (PACE) were insufficient due to an increase in the number of participants served, not due to an increase in rates for existing PACE sites. The Executive Commissioner of HHSC shall

Unofficial Copy Travis Co. District Clerk Velva L. Price

provide written notification to the Legislative Budget Board and the Governor of the certification and the transfer amounts within 30 business days of the date on which any transfer occurs.

d. **Additional Funding for PACE program.** Should transfer authority provided in subsection (c) be insufficient to serve the increase in participants described by subsections (a) and/or (b), the Executive Commissioner of HHSC shall submit a written request to the Legislative Budget Board and the Governor for approval to transfer additional funds from HHSC Goal B, Medicaid, Strategy B.1.1, Aged and Medicare-related, or Goal B, Medicaid, Strategy B.1.2. Disability-Related to DADS Strategy A.5.1, Program of All-inclusive Care for the Elderly (PACE). The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 10 business days of the date on which the staff of the Legislative Budget Board concludes its review of the request and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor.

The purpose of the workgroup is to study the extent of misapplication of Medicaid nursing facility residents' applied income and to develop a set of recommendations to more effectively manage applied income payments to ensure those funds are used for their intended legal purposes. The workgroup shall report the results of its finding and recommendations to the chairs of the Senate Health and Human Services Committee and the House Human Services Committee by September 30, 2014.

Sec. 50. Use of Trauma Fund Receipts. In an effort to maximize the availability of Federal Funds under the Title XIX Medical Assistance Program for the purpose of providing reimbursement for uncompensated trauma care at designated facilities, the Department of State Health Services (DSHS) and the Health and Human Services Commission (HHSC) may enter into an interagency contract to allow for the transfer of funds from Account No. 5111, Trauma Facility and EMS, from DSHS to HHSC for this purpose. This interagency contract would allow for the transfer of the Account No. 5111 funds to the extent that the use of these funds in this manner would not reduce reimbursements that otherwise would have been provided for uncompensated trauma care to designated facilities.

Sec. 51. Texas Women's Health Program Contingency. Contingent upon a decision by the Health and Human Services Commission (HHSC) or other authorized health and human services agency listed under Chapter 531, Government Code, to cease operations of the program funded in Strategy D.2.3, Texas Women's Health Services, whatever unexpended or unobligated General Revenue Funds remaining in the strategy at the termination of the program shall be transferred by HHSC to the Department of State Health Services, Strategy B.1.4, Community Primary Care Services, for the purpose of providing women's health services.

It is the intent of the Legislature that out of funds available, the Health and Human Services Commission in coordination with the Legislative Budget Board shall determine the impact of the employer mandate in the Affordable Care Act on Medicaid long-term care providers through consideration of the following:

a. Current number of contracted long-term care Medicaid providers with 50 or more full-time equivalent employees;

b. Estimated percentage of employees that would qualify for the Medicaid exchange;

c. Estimated percentage of employees by wage rate who would enroll in a plan offered by their employer;

d. Estimated cost of providing health insurance per employee; and

Unofficial copy Travis Co. District Clerk Velva L. Price

e. Current number of employees and employee health insurance costs on current cost reports, requiring this information to be included on future cost reports.

It is the intent of the Legislature that the Health and Human Services Commission shall report these findings to the Governor and Legislative Budget Board no later than November 1, 2014, and HHSC shall take this impact into consideration when setting rates should additional funds become available through funds provided or additional state or federal Medicaid funds that become available.

Sec. 53. Community First Choice Program Reporting. The Health and Human Services Commission and the Department of Aging and Disability Services shall submit to the Legislative Budget Board and the Governor the monthly expenditures for attendant care and habilitation services that are eligible for enhanced federal match under the Community First Choice program, by strategy. The data shall be submitted on a monthly basis in a format specified by the Legislative Budget Board:

a. Each report submitted pursuant to this provision must contain a certification by the person submitting the report that the information provided is true and correct based upon information and belief together with supporting documentation.

b. The Comptroller of Public Accounts shall not allow the expenditure of funds appropriated by this Act to the Health and Human Services Commission and Department of Aging and Disability Services if the Legislative Budget Board and the Governor certify to the Comptroller of Public Accounts that the Health and Human Services Commission and Department of Aging and Disability Services are not in compliance with this provision.

Sec. 54. Transfer Authority Related to STAR+PLUS Managed Care Expansion. Sec. 55. Appropriation of Additional Funds Available under the Balancing Incentive and Money Follows the Person Programs.

a. In the event the enhanced federal matching funds earned under the Balancing Incentive Program and Money Follows the Person demonstration program exceed $219,631,272 for fiscal years 2014-15, the General Revenue Funds thereby made available at the health and human services agencies listed in Chapter 531, Government Code, are directed to the following purposes, in priority order, subject to the approval provisions contained in (b):

(1) increase access to community-based long-term services and supports,

(2) increase wages in community-based long-term services and supports, and,

(3) any other projects to improve the effectiveness and quality of, and access to community-based long-term services and supports.

(4) an estimate of performance levels and, where relevant, a comparison to targets included in this Act; and

(5) the capital budget and/or full-time equivalent impact.

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issue a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor.

c. Notwithstanding the general transfer provisions of this Act, the Executive Commissioner of the Health and Human Services Commission is authorized to make transfers of General Revenue Funds made available due to enhanced federal matching funds under the Balancing Incentive Program and Money Follows the Person exceeding $219,631,272 in fiscal years 2014-15 within and between health and human services agencies for the purposes identified in (a), subject to the requirements in (b).

The Commissioner may establish an incentive compensation plan for Permanent School Fund staff employed by the agency. Payments may be from amounts appropriated to the agency for purposes of administration of the Fund and must be based on investment performance standards set prior to the beginning of the period for which any additional compensation is paid. When warranted, total compensation for PSF staff may exceed the state classification salary schedule by virtue of incentive compensation payments.

There is no intention for payments made pursuant to the plan to be eligible compensation for ERS pension plan purposes, and any payments made pursuant to the plan are to be considered fringe benefits and not base pay or otherwise eligible compensation for ERS pension plan purposes.

Transfers made under the authority of this rider may not exceed $100,000 for the 2014-15 biennium.

Any unexpended balances as of August 31, 2014 are hereby appropriated to fiscal year 2015 for the same purpose.

Agency to be spent on the program that generated the fees. Under no circumstances, may the Texas Education Agency expend fees collected from one program in support of another program.

In the event that actual and/or projected fee revenue collections are insufficient to offset program costs, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided herein to be within the amount of fee revenue expected to be available.

27. **Limitation: Transfer Authority.** Notwithstanding the General Provisions of this Act, none of the funds appropriated above in Goal A, Provide Education System Leadership, Guidance, and Resources, and Goal B, Provide System Oversight and Support, Strategies B.3.1.- B.3.1., may be transferred to Goal B, Strategies B.3.2.- B.3.6, except as noted below.

The accounts of the Texas State Technical College shall be maintained and audited in accordance with the approved reporting system. The Texas State Technical College shall offer only such courses as are economically justified in the considered judgment of the Board of Regents. The Board of Regents shall adopt policies specifying the conditions under which classes of less than 10 students by headcount are to be considered necessary and justifiable. The Board of Regents shall direct the chancellor or other officials to review enrollment data prior to the designated Coordinating Board census date and take all necessary actions to ensure that the small classes offered on each campus are only those that conform with established policies on small classes.

4. **Certification of Compliance.** Expenditure of the funds appropriated herein above is contingent upon annual certification by the chancellor of the Texas State Technical College to the Comptroller of Public Accounts that the Texas State Technical College is in compliance with these provisions regarding budgets, accounting procedures and enrollment.

5. **Approved Geographic Locations.** None of the funds appropriated above to the Texas State Technical College shall be expended in promoting, developing or creating a campus or extension center at any other location in the state except as specified in Education Code §135.02.

6. **Temporary Special Courses.** Out of funds appropriated herein above to the Texas State Technical College in pre-apprenticeship, related training for apprentices and specialized training for journeymen and compensatory training for pre-apprenticeship and apprenticeship enrollees, and plant expansion and new plant start-up training program no more than $50,000 per year may be spent wherever the need exists within the state in conjunction with curriculum approval by the Texas Higher Education Coordinating Board. Such expenditure of funds for these special courses are temporary in nature and outside the provision of Education Code §135.04.

7. **Aircraft Pilot Training Programs.** Funds may be used for the operation, maintenance or lease of aircraft for use in the Aircraft Pilot Training programs subject to the requirement that excess costs of flight instruction be recovered by an assessment of charge to student pilots. This income shall be separately accounted for and credited as a reduction in expenditure in the Aircraft Pilot Training Program.

8. **Approval of Plans by Foundations.** Any use of the Texas State Technical College's assets or facilities including, but not limited to, buildings, equipment or employees by existing foundations or for the promotion of foundations shall require prior approval of the Board of Regents. Approval is contingent upon receipt by the Board of Regents of a satisfactory annual plan of operation. At a minimum, this plan must specify the proposed use of any Texas State Technical College facilities, equipment, and personnel; payments made directly to Texas State Technical College personnel for services provided or expenses incurred; and donations of funds to the Texas State Technical College for designated purposes. All funds donated by foundations to the Texas State Technical College shall be received and accounted for in the same manner as all other Texas State Technical College funds. After Board of Regents approval, the plan shall be filed with the Legislative Budget Board.

9. **Campus President Salaries.** Out of the funds appropriated to each campus of Texas State Technical College, an amount not to exceed $63,654 in 2014 and $63,654 in 2015 may be expended for the salary of a president. All presidents may receive in addition to the above amounts a house, utilities, and/or supplement from private sources. If an institutionally owned house is not available, an amount not to exceed $7,200 per year from the appropriations above, and additional funds from gifts and grants where required, may be provided in lieu of house and utilities.

10. **Chancellor Salary.** Out of the funds appropriated, transferred, or contracted to the system office, an amount not to exceed $70,231 in 2014 and $70,231 in 2015 may be expended for the salary of a chancellor. The chancellor may receive in addition to the above amount a house, utilities, and/or supplement from private sources. If a system owned house is not available an amount not to exceed $7,200 per year from the system office appropriation and additional funds from gifts and grants where required, may be provided in lieu of house and utilities.

11. **Returned Value Funding Model for Texas State Technical Colleges.** Funding is recommended for and allocated among Texas State Technical Colleges (TSTCs) based on the additional direct and indirect state tax revenues generated as a result of the education provided to students by the TSTCs. The funding methodology is based on the following components:

Unofficial copy Travis Co. District Clerk Velva L. Price

a. The model includes the cohort of TSTC graduates (earning an associate's degrees or certificate), transfers, and leavers (students who were not found in Texas higher education for two years following the last time they were enrolled in the TSTC) with a minimum completion of nine semester credit hours from 2006 and 2007.

b. The cohorts were matched with Unemployment Insurance wage records for employment and wage information for five years after the students graduated from or left the TSTC to establish annual wages for each student. Direct value-added was defined as the incremental state tax revenue attributable to former TSTC students' jobs, based on the difference between former TSTC students' annual wages and a base wage representing a full-time employee earning minimum wage (7 percent of the wage delta). Indirect value-added was defined as the direct value-added multiplied by 1.5, an economic multiplier derived from a U.S. Bureau of Economic Analysis study. Total direct and indirect values-added were summed for each group of students by campus across five years.

c. Values-added were reduced by a certain percentage, based on the assumption that the benefits would accrue both to the state and TSTCs but with only a portion of the added value included in the formula calculations.

d. Values-added by campus were divided into the total TSTC value-added to define each institution's proportional share of overall formula funding.

The Texas State Technical College System shall continue to work with the Texas Higher Education Coordinating Board, the Legislative Budget Board and other relevant agencies to refine the new Returned Value Funding Formula for the TSTCs. It is the intent of the Legislature that recommended adjustments to the formula shall be ready for implementation in the 2016-17 biennium and shall further the goal of rewarding job placement and graduate earnings projections, not time in training or contact hours.

Sec. 4. Transfer Provisions.

1. **Intercomponent Transfers.** With the approval of the respective governing board, appropriation transfers may be made among medically-related components and their associated system administration, among academic component institutions and their associated system administration, and among component technical colleges controlled by the board, and within each institution, transfers may be made between informational items of appropriation for the general academic institutions, health centers, health science centers, medical education programs, and technical colleges regardless of whether the informational items are general revenue or local funds in character. Transfers may not be made from medically-related components to academic components or from academic components to medically-related components except that transfers may be made from schools of nursing, pharmacy, and allied health in academic components to medically-related components and from medically-related components into the health-related programs listed above in academic components. Transfers may not be made into the informational items setting the salary rate for the president, chancellor, or for any other line-item salary shown. Nothing in this section shall authorize the transfer of appropriations from Texas A&M University System Agencies to Texas A&M University.

2. **Health to Academic Intercomponent Transfers with LBB Prior Approval.** As an exception to the provisions in Subsection 1, transfers may be made with prior approval of the Governor and Legislative Budget Board from medically-related components to general academic institutions if it does not diminish the academic programs of the medically-related component or result in increased fees to patients by the component. The systems shall furnish whatever documentation may be required by the Governor and Legislative Budget Board to assure these conditions are met.

3. **Revenue Enhancement and Transfer Notification.** The University of Texas System shall enhance local funds revenue to reduce the need for general revenue funds. The University of Texas System shall give 30 days notice to the Legislative Budget Board and Governor prior to transferring local funds from any System hospital. Furthermore, notwithstanding the provisions of subsections 1 and 2 above, The University of Texas System Board of Regents shall not transfer funds from health institutions delivering patient care if such a transfer would result in a decrease in the quality or amount of indigent patient care offered by the affected institution.

4. **Reporting of Transfers.** Any transfers made pursuant to Subsections 1, 2, and 3, whether general revenue or local funds in nature, shall be reported in the Legislative Appropriations Request for the biennium beginning September 1, 2015.

5. **Tuition Revenue Bond and Revenue Bond Transfers.** Notwithstanding the other provisions of this act, transfers are not prohibited to the extent they are required to comply with proceedings authorizing bonds or other obligations now outstanding or hereafter issued pursuant to law.

Sec. 5. Salary and Benefit Provisions.

2. **President Salaries.** Out of the educational and general funds appropriated to the general academic institutions, community colleges, health centers, health science centers, and medical education programs, an amount not to exceed $65,945 in 2014 and $65,945 in 2015 may be expended for the salary of a president. All presidents may receive in addition to the above amounts a house, utilities, and/or supplement from institutional funds. If a house owned by the institution, center, or program is not available, an amount not to exceed $7,200 per year from the appropriation to the institution, center, or program, and additional amounts from institutional funds where required, may be provided in lieu of house and utilities.

3. **Chancellor Salaries.** Out of the funds appropriated, transferred or contracted to the system offices and community colleges, an amount not to exceed $70,231 in 2014 and $70,231 in 2015 may be expended for the salary for a chancellor. All chancellors may receive in addition to the above amounts a house, utilities, and/or supplement from institutional funds. If a system owned house is not available, an amount not to exceed $7,200 per year from the system office appropriation and additional amounts from private and institutional funds where required may be provided in lieu of house and utilities.

4. **Merit Authorization.** It is expressly provided that institutional administrators may grant merit salary increases to employees whose job performance and productivity is consistently above that normally expected or required.

5. **Merit Requirement for Faculty and Faculty Equivalent Employees of Institutions and Agencies of Higher Education.** Notwithstanding any other provisions of this Act, salary increases for faculty or faculty equivalent employees of institutions of higher education shall be awarded on the basis of merit and performance in accepted activities. This shall not be interpreted so as to preclude salary adjustment designed to avoid salary inequities.

6. **Group Insurance Premiums.** For the biennium ending August 31, 2015, there is hereby appropriated such amounts, from local funds or educational and general income available to institutions of higher education, as may be necessary to pay the proportional share of the State's contributions for Staff Group Health Insurance Premiums. Funds appropriated by this subsection may be transferred by those institutions not retaining separate insurance programs to the Employees Retirement System at appropriate intervals to pay the proportional share of the group insurance premiums.

7. **Administrative Accountability**

   a. In each state fiscal year of the biennium, an institution of higher education, including a system office, may not spend funds appropriated to the institution by this Act unless, not later than December 1, the institution submits to the Legislative Budget Board, the chair of the House Appropriations Committee, and the chair of the Senate Finance Committee a report that includes the total number of persons holding high-ranking administrative positions at the institution.

   b. For purposes of subsection (a), "high-ranking administrative position" includes the following positions:

(10) associate dean;
(11) assistant dean; and
(12) any other administrative position having similar responsibilities to the other positions listed in this subsection.

c. A report submitted under subsection (a) must:

(1) be in a form prescribed by the Legislative Budget Board;

(2) include the name, salary, and total value of nonsalary benefits for each person holding a high administrative position at the institution; and

(3) include the percentage salary increase for each person holding a high-ranking administrative position at the institution who occupies the same position during the current fiscal year as during the preceding fiscal year.

d. Not later than the seventh day after the date an institution of higher education submits the report required by subsection (a), the institution shall make a copy of the report available for public inspection in the library of the institution.

Sec. 6. Expenditure Provisions. The expenditure of the appropriations made in this Article or authorized in law for institutions of higher education, except bequests and gifts specifically designated to be in some manner handled otherwise, shall be subject to the provisions of this section which follow and with exceptions only as specifically noted:

1. **Annual Operating Budgets Required.** It is expressly provided that the governing board of each of the institutions of higher education named herein shall approve on or before September 1, 2013 and 2014, an itemized budget covering the operation of the ensuing fiscal year, which budget shall be prepared within the limits of the revenue available. Each institution's operating budget shall contain a section(s) which provides budget amounts and the method of finance for each listed informational item of appropriated funds contained in this Act. A copy of each budget, and any subsequent amendments thereto, shall be filed with the Legislative Reference Library and the institution's general library to be available for public inspection. Copies of each budget shall also be filed with the Legislative Budget Board, the Governor, and the Texas Higher Education Coordinating Board by December 1 of each fiscal year.

2. **Clearing Accounts.** At their option, the institutions may use their local depository bank account in lieu of the special clearing account, authorized by Education Code, §51.008(b), provided that the general requirements set out in therein, for deposits and transfers to the state treasury, are complied with.

3. **Revolving Funds.**

a. Each institution affected by this section, at its option, is hereby authorized to maintain a revolving fund to facilitate the payment of nominal expenses and to pay bills within cash discount periods. The institutions may use the revolving fund for regular monthly payrolls as well as for weekly and special payrolls. Disbursements from the revolving funds are to be reimbursed from respective items of educational and general appropriation made herein, the Comptroller of Public Accounts being hereby authorized to make such reimbursements on claims filed with her by the institutions under her regularly prescribed procedures except that one voucher and one warrant may cover any number of claims for this purpose. These reimbursement claims shall meet the same requirements as other claims against state appropriations, and each institution shall prepare such a reimbursement claim as at the close of business on the last day of each month and as many times during the month as may be expedient in order to make unnecessary the maintaining of an unreasonably large revolving fund.

b. The respective governing board shall determine the amounts of the revolving funds to be set up for each institution, and may increase or decrease the amounts if necessary. Such governing board shall designate a depository bank for each revolving fund, and shall specify the officers and/or employees to sign checks drawn on each such fund. The depository bank for each revolving fund shall be required to secure the deposit as provided by law.

c. Appropriations to all institutions of higher education and systems, except funds identified exclusively for salaries, may be used to reimburse any revolving fund operated for the benefit of one or more parts or component units of an institution or system, such as a motor pool for managing automotive vehicles authorized by this Act, a feed supply center, an office supply or laboratory supply center, a computer center, or any other operations of a similar nature established by authority of the governing board of said institution or system.

4. **Local Depositories.** The governing boards of the respective institutions for which appropriations are made in this Article are hereby authorized to select depository banks for the safekeeping of funds which are authorized, by statute, to be maintained outside the state treasury. The boards shall require depository banks to furnish adequate surety bonds or securities to be posted for the assurance of safety of such deposits. The depository bank or banks so selected are hereby authorized to pledge their securities for assurance of safety for such funds. All such local funds shall be deposited in these depositories within seven (7) days from date of collection. The governing boards may require the depository so designated and selected to pay interest on deposits at a rate to be agreed upon by said depositories and said boards.

5. **Investment Reports.**

a. The governing board of each of the educational institutions named in this Article shall file with the State Auditor, Comptroller of Public Accounts, Legislative Budget Board, and the Governor an annual report of all investment transactions involving endowment funds, short-term and long-term investment funds, and all other securities transactions, in a method prescribed by the State Auditor's Office. Copies of such reports shall be available for public inspection. In addition to the annual report, each institution shall publish on its website quarterly investment reports in any format it deems appropriate.

b. The governing boards of each educational institution named in this Article must adopt formal investment policies. Each governing board shall submit to the Legislative Budget Board and State Auditor's Office a copy of their investment policy by December 31 of each year.

6. **Central Services Accounts.**

a. Out of funds appropriated in this Article, the governing boards of the university systems and their component units, and institutions of higher education may employ persons to serve two or more parts or component units of the system or institution and may pay their salaries in whole or in part from the informational items of appropriation made herein to any component unit. The governing boards are authorized to establish accounts from which salaries and expenses for the administration and supervision of the units of the system or institution may be paid and to require the units, including any other agency the administration of which it may be charged with by law, to pay into this account from any general revenue, local, or institutional funds their proportionate share as determined by the board for the expense of such administration and supervision. The Comptroller of Public Accounts is authorized to set up an account for each of the systems or institutions and to deposit in the account funds to the amount authorized by the governing boards and executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment, or travel incidental to the administration and supervision of the respective units.

b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:

Texas A&M University System Central Services Account
The University of Texas System Central Services Account
University of Houston System Central Services Account
Texas Tech University System Central Services Account
University of North Texas System Central Services Account
Texas State University System Central Services Account

Unofficial copy Travis Co. District Clerk Velva L. Price

c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.

7. **Utility Revolving Funds.** The governing boards of Texas Woman's University, West Texas A&M University, all components of the University of Houston System, Texas State University System, Texas Tech University System, University of North Texas System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established in Education Code, § 55.11, and the creation and maintenance of any such revolving fund is hereby authorized.

8. **Appropriation Expenditure Authorization.**

a. The educational and general appropriations made in this Act to the general academic teaching institutions, health related institutions, and Texas State Technical College may be expended for the following purposes, including, but not limited to: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support; Operation and Maintenance of Plant; Scholarships; Staff Benefits; Organized Activities; and Patient Care. Major repairs and rehabilitation of buildings and facilities may be purchased from appropriated funds, but may not be purchased from general revenue funds that are not expressly identified or allocated for such purposes.

b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises, unless specifically authorized in this Act.

9. **Tuition Revenue Bonds and Revenue Bonds.** Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences centers for revenue or tuition revenue bond retirement may be expended only to reimburse institutions or centers for debt retirement authorized by Education Code §55.17 through §55.17721 and §55.19 and any additional authorization enacted by the Eighty-third Legislature. Any funds in excess of the amount expended for regularly scheduled principal and interest for debt service reimbursements due each year shall be lapsed to the General Revenue Fund at the end of each fiscal year. Funds may be used for bond and commercial paper debt service payments, which can include principal, interest and fees.

Sec. 7. Recruitment of Students. No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

Sec. 8. Television Stations Prohibited. None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction, or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

Sec. 9. Intercollegiate Athletics. The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall use the appropriations in this Act to make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution; and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

Sec. 10. Prohibition Against Additional Museums. None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants, or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use educational and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance and operations of institutional facilities.

Sec. 11. Method of Financing Scholarships.

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of Education Code §56.031 to §56.039, cited as the Texas Public Educational Grants Program.

2. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.

3. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.

4. Out of the additional funds appropriated for the 2014-15 biennium for the informational strategy described as "Scholarships," the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color, or ethnicity of the student recipient.

Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 35 percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 35 percent in the case of The University of Texas Law School, Texas Tech University Law School, and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.

Unofficial copy Travis Co. District Clerk Velva L. Price

2. In addition, The University of Texas Southwestern Medical Center at Dallas may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.

3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

Sec. 14. Off-campus Instruction. General academic institutions may use the funds appropriated in this Act to teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Governor and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.

2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M University's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston, are not considered to be off-campus.

3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 15. Medical School Enrollment. None of the funds appropriated above to The University of Texas System medical colleges, the University of North Texas Health Science Center at Fort Worth, or the Texas Tech University Health Sciences Center College of Medicine may be used for the education of first year medical students unless the first year class enrollment of undergraduate medical students in the fiscal years ending August 31, 2014, and August 31, 2015, is no less than 200 students at The University of Texas System medical colleges and 100 students at the University of North Texas Health Science Center at Fort Worth and the Texas Tech University Health Sciences Center College of Medicine. This provision shall not be construed as requiring any school of medicine to accept an unqualified applicant. In the event that a school of medicine falls below the required first year class enrollment of undergraduate medical students by more than 5 percent for fiscal years 2014 and 2015, the school shall report to the Legislative Budget Board the reasons for failing to meet the required enrollment. This information should be taken into account when preparing the appropriation recommendations for the Eighty-fourth Legislature.

Sec. 16. Tuition and Other Educational and General Local Fee Collection. No institution of higher education shall receive appropriations through formula funding in this Act unless it collects from each student whose semester credit hours are to be included in formula funding calculations all tuition and all fees in accordance with the installment tuition and fee payment plan provided for by the Education Code, (Chapter 54 as amended) on or before the end of the 20th class day for each regular semester and the 15th class day for each summer session. Valid contracts with the United States Government for instruction of eligible military personnel and valid contracts with private business and public service-type organizations or institutions such as hospitals may be considered as collections thereunder but subject to adjustments after final payment thereof. Financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

Sec. 17. Compliance with Uniform Recruitment and Retention Strategy. Institutions of higher education shall use the appropriations in this Act to give top priority and consideration to compliance with the spirit and mandates of the Uniform Recruitment and Retention Strategy.

Sec. 18. Formula Variable and Educational and General Income Audits. The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board shall clearly define all variables used by the Eighty-third Legislature in arriving at formula appropriations for fiscal years 2014 and 2015. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected

Unofficial copy Travis Co. District Clerk Velva L. Price

formulas used in making fiscal years 2014 and 2015 formula appropriations are subject to audit by the State Auditor. The State Auditor shall report any differences from data submitted by the institutions to the Coordinating Board, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2014 and 2015 are subject to audit by the State Auditor.

The State Auditor may request the assistance of an institution's internal auditor in performing the audits described in this section.

Sec. 19. System Offices Funding Authorized. Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System, and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.

Sec. 20. Annual Reports of Health Related Institutions Practice Plans. As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library, and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

Sec. 21. Self-insurance Funds. Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Government Code §2259.001 for a risk otherwise insurable by the institution of higher education shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in §51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

Sec. 22. Uncompensated Care Reporting Requirement. The public health-related institutions shall use the appropriations in this Act to include in their biennial legislative appropriations request information including the actual amount of uncompensated care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the uncompensated care reporting requirement established by the Health and Human Services Commission.

Uncompensated care includes the unreimbursed costs for the uninsured (those with no source of third party insurance) and the underinsured (those with insurance who after contractual adjustment and third party payments have a responsibility to pay for an amount they are unable to pay). Uncompensated care also includes the unreimbursed cost from governmental sponsored health programs. To calculate uncompensated care, charges will be converted to costs by application of a standard, auditable ratio of cost to charge and providers will recognize appropriate patient specific funding and lump sum funding available to offset costs. Any amounts received by the Physician Practice Plan from Upper Payment Limit shall be counted as payments received for uncompensated care.

Sec. 23. County Indigent Care Contracts.

1. **Contracts Required.** It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.

2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board and the Governor at the end of each fiscal year a list of counties whose indigent residents have been served by each

Unofficial Copy Travis Co. District Clerk Velva L. Price

institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually (no later than December 1st) to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

Sec. 24. Ethics Policy.

1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board an ethics policy which has been adopted by the board of regents. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.

2. The ethics policy adopted by each board of regents shall include specific provisions regarding sexual harassment.

Sec. 25. Driscoll Children's Hospital. No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases, or in assuming the direct care of those children. This rider language shall not restrict the traditional referral patterns utilized by physicians to refer patients to health-related institutions.

Sec. 26. Participation in Drug Development Research Projects. A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under §576.022, Health and Safety Code.

Sec. 27. Post Tenure Review. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Post tenure policies shall include review procedures to determine that a tenured faculty member is performing consistently at an acceptable, professional level and a mechanism whereby a faculty member is informed of any deficiencies and provided opportunities to effectively improve his or her performance.

Sec. 28. General Academic Funding. Appropriations made in this Act for formula funding for general academic institutions will consist of four formulas and supplemental items.

1. **Instruction and Operation Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2014-15 biennium is $54.86 in Fiscal Year 2014 and Fiscal Year 2015.

   Weighting is determined by the following matrix:

2. **Teaching Experience Supplement.** For the 2014-15 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.

3. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy. The average rate per square foot is $5.56 in Fiscal Year 2014 and Fiscal Year 2015.

4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, organized activities, scholarships, tuition revenue bond payments, Skiles Act bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.

5. The General Academic Instruction and Operations and Infrastructure formulas shall incorporate the Higher Education Coordinating Board's October 2006 recommendations for mission-specific formula funding for Texas A&M University at Galveston.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2014.

Sec. 29. Health Related Institutions Funding. Appropriations made in this Act for formula funding for health related institutions shall consist of three formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of $9,527 in Fiscal Year 2014 and Fiscal Year 2015:

Program	Weight Per Student
Allied Health	1.000
Biomedical Science	1.018
Nursing	1.138
Pharmacy	1.670
Public Health	1.721
Dental	4.601
Medical	4.753

Instructional programs with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health-related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is $6.63 in Fiscal Year 2014 and Fiscal Year 2015 for all health related institutions, excluding The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler. For these two institutions, the per square foot rate is $6.09 in Fiscal Year 2014 and Fiscal Year 2015.

   Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall be included in the total funding for hospital and center operations.

3. **Research Funding.** The health-related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of $1,412,500 plus 1.22 percent in Fiscal Year 2014 and Fiscal Year 2015 of its research expenditures as reported to the Texas Higher Education Coordinating Board.

4. **Graduate Medical Education Formula.** The Graduate Medical Education Formulas shall provide funding on a per medical resident basis. Funding is based on a base value of $10,244 per medical resident in an accredited program. Appropriations for Graduate Medical Education for Fiscal Year 2014 and Fiscal Year 2015 are $5,122 per resident.

5. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health-related institutions bill pattern titled Graduate Medical Education (GME) shall be spent to increase the number of resident slots in the State of Texas as well as faculty costs relating to GME. In addition, each health-related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.

6. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Hospital and clinic operations shall be funded through a combination of hospital and clinic revenue and general revenue.

7. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2014.

8. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:

   a. The General Revenue Operations formula funding provided to The University of Texas M.D. Anderson Cancer Center in Strategy A.2.1, Cancer Center Operations, shall be based on the total number of Texas cancer patients served at The University of Texas M. D. Anderson Cancer Center. General Revenue appropriations for Fiscal Years 2014 and 2015 shall be based on the number of total Texas cancer patients served in 2012. The rate per patient shall be $1,944 in Fiscal Year 2014 and Fiscal Year 2015 for Strategy A.2.1, Cancer Center Operations. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.

b. The University of Texas Health Science Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with pulmonary, respiratory and other diseases of the chest. General Revenue funds appropriated to The University of Texas Health Science Center at Tyler in Strategy A.1.2, Chest Disease Center Operations, shall be based on the number of cases in which disease diagnoses are treated by The University of Texas Health Science Center at Tyler. General Revenue appropriations for Fiscal Years 2014 and 2015 shall be based on the number of such cases treated in Fiscal Year 2012. The rate per case for Fiscal Years 2014 and 2015 shall be $378.

c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

Sec. 30. Optional Retirement Program Differential. Included in the appropriation to institutions of higher education in this act are general revenue amounts to offset local funds used for the optional retirement program employer contributions of 6 percent of salaries for employees who were on the state payroll or who were employed by a Public Community or Junior College as of August 31, 1995. These general revenue amounts are included in the funding formulas for general academic institutions and two-year institutions and in the base funding for other institutions of higher education.

Sec. 31. Indirect Cost Recovery Earned by Texas A&M System Agencies. The Texas A&M University System agencies shall report to the Legislative Budget Board in their Legislative Appropriations Requests for the 2016-17 biennium all indirect cost recovery revenue earned on research grants and contracts including amounts collected by the Research Foundation.

Sec. 32. Fire Safety Projects at Institutions of Higher Education. Because of the urgent nature of these projects, it is the intent of the Legislature that institutions of higher education that have major fire safety projects, identified by the State Fire Marshal's Office as not meeting the requirements of the National Fire Protection Association, Life Safety Code 101, Edition, remedy the fire safety issues and complete any related construction and renovation projects as soon as practical. Institutions shall consult with the State Fire Marshal's Office and develop a time line for completion of the projects. Institutions shall implement the interim safety precautions recommended by the State Fire Marshal's Office. The State Fire Marshal shall submit periodic reports to the House Appropriations Committee and Senate Finance Committee on the progress of institutions in remedying the fire safety issues.

Institutions of higher education shall notify parents of students living in dormitories identified by the State Fire Marshal's Office. The notice shall contain information about the actions needed to rectify noncompliance and the time frame in which the institution plans to make improvements in order to comply.

Sec. 33. Funding for Physical Education Courses. No funds appropriated under this act shall be used for contact hours or semester credit hours for students who are registered solely for physical education, weight lifting, group exercises, aerobics, or related courses; have registered for the same such course more than once; and are not seeking a degree plan or certificate of completion of a course of study.

Furthermore, it is the intent of the Legislature that the Higher Education Coordinating Board shall, during fiscal years 2014 and 2015, use the funds appropriated by this act to be in a position to recommend to the 84th Legislature a funding methodology that excludes semester credit hours related to physical education courses for students who are registered to receive both high school and college credit.

Sec. 34. Faculty Salary Increase Report. The Texas Higher Education Coordinating Board shall report the average salary increase provided to faculty at each general academic institution to the Legislative Budget Board and Governor by January 31 of each fiscal year on a form prescribed by the Texas Higher Education Coordinating Board.

Sec. 35. Endowed Chairs. Out of funds appropriated to the Texas Higher Education Coordinating Board for Baylor College of Medicine, Houston; University of Texas Health Science Center at Houston; and University of Texas Medical Branch at Galveston, each may expend up to $1,000,000 out of funds appropriated in this Act to fund one endowed chair or professorship for spinal cord injury research.

Sec. 36. Nursing School Enrollment. The Legislature encourages institutions of higher education who receive state appropriations not to reduce the number of student full-time equivalents enrolled in programs preparing students for licensure as registered nurses in state fiscal years ending August 31, 2014, and August 31, 2015, below the number of student full-time equivalents enrolled for the state fiscal year ending August 31, 2013. This provision shall not be construed as requiring any school to accept an unqualified applicant to its professional nursing program. In the event that a school falls below the required number of students enrolled in professional nursing program by more than 5 percent for the state fiscal year ending August 31, 2014, and the state fiscal year ending August 31, 2015, the school shall report to the Legislative Budget Board and the Texas Higher Education Coordinating Board the reasons for failing to meet the required enrollment.

Sec. 37. Endowed Programs. A state university that, within five years of receiving a donation, diminishes its financial support from local funds for a program created or endowed by the donor shall notify the donor in accordance with the donor agreement. If the agreement so provides, then upon application by the donor, the university shall return the donation or endowment.

Sec. 38. Student Travel Policy. Each governing board of an institution of higher education shall use the appropriations above to adopt a policy regulating travel that is undertaken by one or more students presently enrolled at the institution to reach an activity or event that is located more than 25 miles from the institution that is organized and sponsored by the institution and that is funded by the institution, and the travel is undertaken using a vehicle owned or leased by the institution or required by a student organization registered at the institution.

Sec. 55. Community College Transfer Student Reporting Requirement. All General Academic Institutions shall use their respective Education and General funds appropriated in this Act to develop and submit an annual report to the Texas Higher Education Coordinating Board (THECB) that details the institution's goals to increase the number, success, and persistence of community college transfer students as measured by THECB. The report shall assess each institution's existing academic and technical transfer pathways, identify each institution's barriers to transfer, and define emerging issues. The report shall detail institution actions to serve current and future transfer students through local and regional articulation agreements with faculty collaboration, community college program enhancements, student outreach and advising, website information development, targeted financial aid, university student success programs, and degree program alignment.

The THECB shall provide performance data by institution (application rates, admission rates, financial aid awarded, time-to-degree, and baccalaureate graduation rates) of transfer and native students by program completion at community colleges and universities during the preceding fiscal year. The THECB shall conduct a comparative analysis of the institutional reports and the performance data. The THECB shall submit an annual report to the Legislature that evaluates actions to increase the number, success, and persistence of community college transfer students and make recommendations to meet state goals.

The report shall be delivered to the House Appropriations Committee, the Senate Finance Committee, the Legislative Budget Board and the Governor by November 1 of each year.

Sec. 56. Appropriations for the Texas Competitive Knowledge Fund. The amounts listed below for informational purposes are appropriated out of the General Revenue fund elsewhere in this Act in each affected institution's "Texas Competitive Knowledge" strategy and shall be expended to support faculty for the purpose of instructional excellence and research. Any unexpended balances as of August 31, 2014 elsewhere in this Act, are hereby appropriated for the same purpose for the fiscal year beginning September 1, 2014.

The Juvenile Justice Department (JJD) shall certify to the Texas Department of Family and Protective Services that federal financial participation can be claimed for Title IV-E services provided by counties. JJD shall direct necessary general revenue funding to ensure that the federal match for the Title IV-E Social Security Act is maximized for use by participating counties. Such federal receipts are appropriated to JJD for the purpose of reimbursing counties for services provided to eligible children. In accordance with Article IX, Section 8.03(a) of this Act, when reporting Federal Funds to the Legislative Budget Board, JJD must report funds expended in the fiscal year that funds are disbursed to counties, regardless of the year in which the claim was made by the county, received by JJD, or certified by JJD.

8. **Federal Foster Care Claims.** Within the appropriations made above, the Texas Department of Family and Protective Services and the Juvenile Justice Department shall document possible foster care claims for children in juvenile justice programs and maintain an interagency agreement to implement strategies and responsibilities necessary to claim additional federal foster care funding; and consult with juvenile officials from other states and national experts in designing better foster care funding initiatives.

Appropriations made in this Act not otherwise restricted in use may also be expended for medical tests and procedures on employees that are required by federal or state law or regulations when the tests or procedures are required as a result of the employee's job assignment or when considered necessary due to potential or existing litigation.

age population among the mandated counties identified in Chapter 37, Texas Education Code, and those counties with populations between 72,000 and 125,000 which choose to participate under the requirements of Chapter 37.

The remaining funds shall be allocated for distribution to the counties mandated by § 37.011(a) Texas Education Code, at the rate of $86 per student per day of attendance in the JJAEP for students who are required to be expelled as provided under §37.007, Texas Education Code. Counties are not eligible to receive these funds until the funds initially allocated at the beginning of each fiscal year have been expended at the rate of $86 per student per day of attendance. Counties in which populations exceed 72,000 but are 125,000 or less, may participate in the JJAEP and are eligible for state reimbursement at the rate of $86 per student per day.

JJD may expend any remaining funds for summer school programs. Funds may be used for any student assigned to a JJAEP. Summer school expenditures may not exceed $3.0 million in any fiscal year.

Unspent balances in fiscal year 2014 shall be appropriated to fiscal year 2015 for the same purposes in Strategy A.1.6.

The amount of $86 per student day for the JJAEP is an estimated amount and not intended to be an entitlement. Appropriations for JJAEP are limited to the amounts transferred from the Foundation School Program pursuant to TEA Rider 29. The amount of $86 per student per day may vary depending on the total number of students actually attending the JJAEPs. Any unexpended or unobligated appropriations shall lapse at the end of fiscal year 2015 to the Foundation School Fund No. 193.

JJD may reduce, suspend, or withhold Juvenile Justice Alternative Education Program funds to counties that do not comply with standards, accountability measures, or Texas Education Code Chapter 37.

14. **Funding for Additional Eligible Students in JJAEPs.** Out of funds appropriated above in Strategy A.1.6, Juvenile Justice Alternative Education Programs, a maximum of $500,000 in each fiscal year (for a maximum of 90 attendance days per child), is allocated for counties with a population of at least 72,000 which operate a JJAEP under the standards of Chapter 37, Texas Education Code. The county is eligible to receive funding from the Juvenile Justice Department at the rate of $86 per day per student for students who are required to be expelled under § 37.007, Texas Education Code, and who are expelled from a school district in a county that does not operate a JJAEP.

15. **JJAEP Accountability.** Out of funds appropriated above in Strategy A.1.6, Juvenile Justice Alternative Education Programs (JJAEP), the Juvenile Justice Department (JJD) shall ensure that JJAEPs are held accountable for student academic and behavioral success. JJD shall submit a performance assessment report to the Legislative Budget Board and the Governor by May 1, 2014. The report shall include, but is not limited to, the following:

    a. an assessment of the degree to which each JJAEP enhanced the academic performance and behavioral improvement of attending students;

    b. a detailed discussion on the use of standard measures used to compare program formats and to identify those JJAEPs most successful with attending students;

    c. student passage rates on the State of Texas Assessments of Academic Readiness (STAAR) in the areas of reading and math for students enrolled in the JJAEP for a period of 90 days or longer;

    d. standardized cost reports from each JJAEP and their contracting independent school district(s) to determine differing cost factors and actual costs per each JJAEP program by school year;

    e. average cost per student attendance day for JJAEP students. The cost per day information shall include an itemization of the costs of providing educational services mandated in the Texas Education Code § 37.011. This itemization shall separate the costs of mandated educational services from the cost of all other services provided in JJAEPs. Mandated educational services include facilities, staff, and instructional materials specifically related to the services mandated in Texas Education Code, § 37.011. All other services include, but are

not limited to, programs such as family, group, and individual counseling, military-style training, substance abuse counseling, and parenting programs for parents of program youth; and

f. inclusion of a comprehensive five-year strategic plan for the continuing evaluation of JJAEPs which shall include oversight guidelines to improve: school district compliance with minimum program and accountability standards, attendance reporting, consistent collection of costs and program data, training, and technical assistance needs.

16. **Appropriation Transfers between Fiscal Years.** In addition to the transfer authority provided elsewhere in this Act, the Juvenile Justice Department may transfer appropriations in an amount not to exceed $20,000,000 made for fiscal year 2015 to fiscal year 2014 subject to the following conditions provided by this section:

a. Transfers under this section may be made only if (1) juvenile correctional populations exceed appropriated areas of daily population targets or (2) for any other emergency expenditure, including expenditures necessitated by public calamity.

b. A transfer authorized by this section must receive prior approval from the Governor and the Legislative Budget Board.

c. The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending under this section.

17. **State-owned Housing Authorized.** The chief superintendent, assistant superintendent, and the director of security are authorized to live in state-owned housing at a rate determined by the department. Other Juvenile Justice Department employees may live in state-owned housing as set forth in Article IX, §11.04, State Owned Housing, of this Act. Fees for employee housing are hereby appropriated to be used for maintaining employee housing and shall at least cover the agency cost of maintenance and utilities for the housing provided.

18. **Unexpended Balances - Hold Harmless Provision.** Any unexpended balances as of August 31, 2014, in Strategy A.1.2, Basic Supervision (estimated to be $400,000), above are hereby appropriated to the Juvenile Justice Department in fiscal year 2015 for the purpose of providing funding for juvenile probation departments whose allocation would otherwise be affected as a result of reallocations related to population shifts.

19. **Appropriation: Refunds of Unexpended Balances from Local Juvenile Probation Departments.** The Juvenile Justice Department (JJD) shall maintain procedures to ensure that the state is refunded all unexpended and unencumbered balances of state funds held as of the close of each fiscal year by local juvenile probation departments. All fiscal year 2014 and fiscal year 2015 refunds received from local juvenile probation departments by JJD are appropriated above in Strategy A.1.3, Community Programs. Any juvenile probation department refunds received in excess of $1,150,000 in fiscal year 2014 and $1,150,000 in fiscal year 2015 shall lapse to the General Revenue Fund.

20. **Salaries, Education Professionals.**

a. Each principal, supervisor, and classroom teacher employed in an institution operated by the Juvenile Justice Department (JJD) shall receive a monthly salary to be computed as follows: The applicable monthly salary rate specified in §21.402, Texas Education Code, as amended, shall be multiplied by ten to arrive at a ten month salary rate. Such rate shall be divided by the number of days required in §21.401, Texas Education Code, for 10-month employees, and the resulting daily rate shall be multiplied by the number of on-duty days required of JJD educators, resulting in the adjusted annual salary. The adjusted annual salary is to be divided by 12 to arrive at the monthly rate. Salary rates for educational aides commencing employment before September 1, 1999, shall be calculated in the same manner, using 60 percent of the salary rate specified in §21.402, Texas Education Code.

b. JJD may authorize salary rates at amounts above the adjusted annual salary determined in the preceding formula, but such rates, including longevity for persons commencing employment on September 1, 1983, or thereafter, and excluding hazardous duty pay, shall never exceed the rates of pay for like positions paid in the public schools of the city in which the JJD institution is located. Any authorized local increments will be in addition to adjusted annual salaries. When no similar position exists in the public schools of the city in which the JJD

facility is located, the JJD may authorize a salary rate above the adjusted annual salary determined in the formula provided by Section a.

c. There is hereby appropriated to JJD from any unexpended balances on hand as of August 31, 2014, funds necessary to meet the requirements of this section in fiscal year 2015 in the event adjustments are made in the salary rates specified in the Texas Education Code or in salary rates paid by the public schools where JJD facilities are located.

21. **Training for GED and Reading Skills.** From the funds appropriated above in Strategy B.1.3, Education, the Juvenile Justice Department shall prioritize reading at grade level and preparation for the GED in its educational program. A report containing statistical information regarding student performance on the Test of Adult Basic Education (TABE) shall be submitted to the Legislative Budget Board and the Governor on or before December 1, 2014.

22. **Salary Adjustment Authorized.** Notwithstanding other provisions of this Act, the Juvenile Justice Department is authorized to adjust salaries and pay an additional evening, night, or weekend shift differential not to exceed 15 percent of the monthly pay rate of Juvenile Correctional Officers I, Juvenile Correctional Officers II, Juvenile Correctional Officers III, Juvenile Correctional Officers IV, Juvenile Correctional Officers V, and Juvenile Correctional Officers VI to rates within the designated salary group for the purpose of recruiting, employing, and retaining career juvenile correctional personnel. Merit raises are permitted for all Juvenile Correctional Officers who are not receiving or are no longer eligible to receive step adjustments in the career ladder system.

23. **Appropriations Prohibited for Purposes of Payment to Certain Employees.** None of the appropriations made by this Act to the Juvenile Justice Department (JJD) may be distributed to or used to pay an employee of JJD who is required to register as a sex offender under Chapter 62, Code of Criminal Procedure, or has been convicted of an offense described in Article 42.12, Section 3g, Code of Criminal Procedure.
