Mr. Boyseu moved that H. B. No. 1025, reported adversely with minority favorable report, be printed.

A record vote was requested on the motion to print H. B. No. 1025 and the vote was announced yeas 88, nays 68, and 1 present—not voting.

A verification of the vote was requested and was granted.

The roll of those voting "aye" and "nay" was again called and the verified vote resulted as follows:

Yea—44
Nay—3
The Speaker stated that the motion to print H. B. No. 1025 on minority favorable report prevailed by the above vote.

RELATIVE TO H. B. NO. 1025

Mr. Stewart of Galveston asked unanimous consent of the House to print the Committee Amendment to H. B. No. 1025, said bill having been ordered printed on minority report.

There was no objection offered and it was so ordered.

REASON FOR VOTE

Today I voted for the motion to bring House Bill 1025 to the floor on minority report for the following reasons:

In my opinion the “per well” factor is extremely important to all small tract operators. Without this “per well” factor there would be no exploration, no “wild-casing,” no prospective drilling and no production of small tracts. This “per well” factor induces operators to drill on small tracts, it encourages them to engage in “step-out” drilling. It gives a man reason to take a chance. Without this “per well” factor the exploration of oil in Texas would be practically ended. We must not let this happen!

Exploration and production of small tracts not only allows more recovery of hydrocarbons from the ground, but furnishes more geological data about the field in which the well is drilled which is invaluable to future exploration and the Texas Railroad Commission.
Everyone who is familiar with the problem knows that in the 1/3 - 1/3 allocation formula, for example, that the 2/3 factor is a proportional factor and has to do with the relationship that the tract drilled on bears to the standard drilling unit in the field. This part of the formula is relatively unimportant to the small tract operator.

We are not only concerned here with allowances, the Rule of Capture, drainage, correlative rights but more important with property rights—this must never, never be forgotten! Property rights are concerned here and affected in this bill—one of the most important possessions that we in this democracy possess—which rank third only to life and liberty. In my opinion this bill further favors and preserves property rights. Therefore, I respectfully have voted today for this bill.

PAUL FLOYD.

REASON FOR VOTE

I voted to print H. B. No. 1935 on minority report because I believe that every author should have a chance to "run" with his bill. I have asked the House for similar motion in regard to my own controversial measure, H. B. No. 534. Thus, to be fair, I felt I should vote "aye" on this motion. This vote in no way reflects my final action on this bill.

HENRY C. GROVER.
