MESSAGE OF GOVERNOR PRICE DANIEL, REGULAR SESSION, 58TH LEGISLATURE

Wednesday, January 9, 1953
To The Members of The 58th Legislature:

It is a pleasure to welcome you, the elected representatives of the people of Texas, and to wish you every success in your duties and responsibilities as members of the 58th Legislature.

Within a few days my term of office closes, but my interest in Texas Government will not end. Having served in the Texas Legislature for six years and then as Attorney General, United States Senator and Governor, you may be sure that as a citizen I shall continue to have a keen interest in the success of your work on behalf of our State and our people.

There are three things which our State Constitution and laws require an outgoing Governor to do. First, he must prepare and submit a budget for the next biennium. This was mailed to you in December.

Second, he must file an accounting for all public monies received and disbursed by him, and this statement has been filed with the House and the Senate.

Finally, the Constitution says: "The Governor shall, at the commencement of each session of the Legislature, and at the close of his term of office, give to the Legislature information, by message, of the condition of the State; and he shall recommend to the Legislature such measures as he may deem expedient."
Since this is the final report of a six-year administration, it would impose upon your comfort to read it in full. So I have reduced it to writing. At the close of this message, a printed copy will be delivered to each of you. I shall spend these few moments simply reviewing the high points of what is contained in the written report and recommendations.

Naturally, at the end of six years' work, there is a temptation to review the accomplishments of this administration. I have yielded to that temptation, because I am sincerely proud of the progress which has been made. However, I hasten to acknowledge that this was possible only because of the cooperation of the Legislature, the support of the people, and the excellent work of our State agencies and public employees. Some of the six-year progress may be summarized as follows:

1. In both public and higher education, we have made the greatest gains in any similar period in the history of our State. With over 80,000 new students entering our public schools each year, an increase of 21%, we have increased our professional personnel 31% and have increased average teachers' salaries 15% from $3,000 to $4,200. Texas now ranks among the top five States in average training. Ninety-five percent of our teachers have college degrees, and nearly 50% have masters degrees.

2. In higher education, with a 40% increase in enrollment, we have increased average faculty salaries over 47%; library volumes 50%; and general revenue appropriations to the 19 colleges and universities 86.1%. Physical plant investment has increased 77.5%.

3. During this administration, the Legislature has established our first Statewide water planning and development program, with authority to issue $200 million in bonds to assist local and district water projects. Since January 1, 1957, 44 dams and reservoirs have been completed or started, and they will provide a 173% increase in water conservation storage.

4. We have established the State's first program for the attraction of new industries and tourists, although both need more adequate financing. In the past five years, more than 1500 new industrial plants have located in Texas and another 1500 have expanded their facilities. Our total industrial income is now more than twice as large as any other Southern State, and during two months of last year, Texas led all the States of the Nation in major new plant locations.

5. These past six years have witnessed the largest highway construction program in the history of our State, with more than 7800 miles of new roads opened to traffic and with our interstate highway construction costing 40% less than the national average per mile. The Legislature has enacted a new Farm to Market Road law which will provide better maintenance and more new miles of construction.

6. Under this administration, we have established the first Statewide highway safety program which has coordinated the efforts of all State, local and private efforts in this field. It has assisted in decreasing fatalities on our streets and highways every year below the record death toll of 2411 killed in 1956. If the 1956 record had been continued during the past five years, 1152 more people would have been killed in automobile accidents.

7. The Texas Youth Council was established to provide a prevention program for juvenile crime and improved handling of young offenders. Its work and the new physical plants have brought Texas to the top in this field of crime prevention and rehabilitation.

8. The Texas Department of Corrections, which ranks among the best in the Nation, has been provided with its most adequate facilities, and the State's first paid parole systems for both adults and juveniles were inaugurated.

9. Our hospitals and special schools have been provided with almost twice the facilities, personnel and operating funds to aid the mentally retarded and other sick and handicapped persons. Our public health services have been increased, and aid to the 225,000 aged citizens receiving Old Age Assistance has
been increased from an average of approximately $44 to $66 per month, raising our State from 40th to 28th in the Nation; a medical and nursing care program for the aged has been established, and grants to the needy blind, totally disabled, and dependent children have been increased.

10. Both workers' compensation and unemployment compensation payments have been increased.

11. The Legislature has provided for reorganization of the State Insurance Commission and establishment of a Securities Commission, and honesty and integrity have been restored and maintained in these regulatory agencies.

12. After a long fight, the Legislature enacted the first law requiring holders of abandoned property to advertise for lost owners and report to the State for proper enforcement of our escheat laws.

13. During this administration, the first lobby registration and control law was enacted by the Legislature; and a Law Enforcement Study Commission and Code of Ethics were enacted.

14. During this period, we successfully defended the last attack on the title to our Texas islands, winning in the Supreme Court of the United States the boundary suit filed against us by the Federal government. This confirmed our boundary at three leagues (10½ miles) in the Gulf of Mexico. Thus, both Congress, in the bill which I co-authored in the United States Senate, and the Supreme Court have finally passed on the title to this property. Since the Congressional Act was passed in 1851, our Permanent School Fund has received approximately $70 million from leases, rentals and royalties on these lands.

There has been progress in many other fields of government and in the over-all growth and development of our State, Texas last year showed the greatest growth among the heavier populated States, according to the U. S. Bureau of the Census. Business and industry continue to expand, with construction and over-all business activity soaring to an all-time high, according to the University of Texas Bureau of Business Research Index last year. Employment is well above the national average, and bank deposits and average personal income are higher than ever before. With an assist from Texans in Washington, our State has moved to the front in the space program and in many other fields of scientific development and research. To put it briefly, the condition of our State is excellent. We are enjoying a rate of growth and prosperity unmatched in our history, and it presents a real challenge for those in State and local government to keep pace and chart the course for continued progress.

The condition of State finances is far better than I have been able to report to a Legislature in the past four years. The State Comptroller's official estimate shows that we will end this fiscal year with a $10 million balance in the General Fund. There is a total of net cash balances in other State funds of over $161 million, and invested special funds exceed $1.6 billion.

We have one of the most economically administrated State governments. On a per capita basis, our State taxes are less than any of our neighboring States, and a total of 26 States have higher per capita tax rates. On a per capita basis, only one State spends less for the operational expenses of State government and only one State has lower total expenditures for all purposes.①

①Some much for the favorable aspects of this report, I would be the first to concede that there has been unfavorable action on some of the recommendations of this administration, but they have been confined mostly to the fields of law enforcement and taxation. As expressed in my printed report, I strongly recommend the enactment of the law enforcement measures listed under the sections entitled Law Enforcement and Public Protection, Traffic Safety, Parole Systems, and Oil and Gas Conservation, with special emphasis on the need for small loan regulation, enactment of the Law Enforcement

The increase would leave Texas rates still among the lowest for State institutions and less than one-third of the average Texas rate for private and church-supported colleges and universities. (See Printed Report pp. 105-21 and Exhibit 1, page 172.)

If the recommendations of the Commission on Higher Education are followed both as to increased appropriations and tuition, and if the present rate of the corporation franchise tax is continued one additional year, there will be sufficient funds to finance the entire budget without any new taxes. This is based on the estimate of the State Comptroller.

One final matter has become most urgent. It relates to our State building program within the Capitol Area. As you know, the people of Texas approved a Constitutional Amendment providing for the preservation and improvement of our stately Capitol Building, and the construction of new buildings to house our State agencies. In the past six years, we have completed six new buildings as part of the Capitol Area Master Plan. This plan to protect the view, the beauty and the spaciousness of our State Capitol grounds was established in 1956 in cooperation with the City of Austin, when the City spent $11,000 and the State spent $25,000 on its development by Harold F. Wise and Associates. The State Building Commission officially adopted the area bounded by 11th, 19th, Lavaca and San Jacinto Streets as the area for future Capitol expansion, and this area was included in the City of Austin's development plan, adopted by the City Council in 1961. Both plans called for height zoning restrictions on the surrounding property in order that no commercial structure should overtop or detract from the State Capitol and the new buildings.

The State has proceeded in good faith to spend in excess of $15 million for new buildings, and the City has cooperated in every way with one single exception which occurred last month. This involves the City's action in granting an exception from its 95-foot height zoning on the corner of 15th and Colorado Streets, at the west entrance of the Capitol grounds. It would permit the Lumbermen's Company to build a 200-foot structure on this location, which is within the long-range area officially adopted for future Capitol expansion. The proposed 18-story apartment and office
building would be twice as tall as the roof of this Capitol Building, twice as tall as the State Archives and Library Building and the Insurance Building, and nearly five times as tall as the Governor’s Mansion.

With 400 additional automobiles and more than 400 people occupying the structure, it would add to an already heavily burdened traffic and parking problem in the Capitol area.

The scale model of the Capitol Area, which was placed in the rotunda of the Capitol two years ago, is there again today. On this model, architects have placed a block representing the size and height of this proposed structure. I urge you to look at it and see if you do not agree that its construction would do irreparable damage to the beauty and success of present and future Capitol development. If you agree, then I recommend that the Legislature adopt a resolution asking the Austin City Council and the Lumbermen’s Company to reconsider and to cooperate with the State in maintaining height setings on lands within and surrounding the area of the Capitol Master Plan.

It is further recommended that the Legislature authorize the State Building Commission to purchase from its appropriated funds any lands fronting on Colorado Street opposite the Capitol grounds which are now vacant or which the owners desire to sell. This property will be needed in the future, and its acquisition now appears to be so imperative that I submit this entire subject to you as an emergency matter, as provided under Section 5 of Article III of the Constitution.

It is my hope that the members of this 58th Legislature will act on this subject with the same vision that our predecessors had when they established the Capitol grounds in 1888, and when they later erected here the seventh largest building in the world with a dome taller even than the National Capitol.

In this connection I shall also distribute to each of you a copy of the Capitol Area Master Plan, which reviews our progress to date and the plans and needs for the future.

In closing, I acknowledge again that practically all of the major achievements and progress of this administration required action by the Legislature, implementation by State officials and employees, and support of the people. To all of you, I extend my best wishes for success in the service of our State and our people.
At the conclusion of the Governor's address, Speaker Tunnell recognized Senator Schwartz, who introduced Mrs. Price Daniel and Miss Jean Daniel to the Joint Session.

DESIGNATING THE WEEK OF MARCH 4 THROUGH MARCH 8, 1963, AS PUBLIC SCHOOLS WEEK IN TEXAS

S. C. R. No. 4

Whereas, Texas Public Schools Week, originated in 1951 by the Texas Citizens Committee for Public Schools Week, has steadily grown in popularity and influence over the past twelve years attracting nearly two million visitors annually; and

WHEREAS, Since the local boards of education are duly and constitutionally delegated the responsibility for the efficient administration and operation of the public schools of Texas, it is fitting and desirable that the electorate of these boards be well-informed concerning their schools; and

WHEREAS, This annual observance provides opportunity for citizens to visit in the schools, and offers an interesting and practical means of encouraging their active participation in the continued progress of education in Texas; now, therefore, be it

Resolved, By the Senate of Texas, the House of Representatives concurring, That the Legislature join with the State Board of Education in urging the citizens of Texas to participate in the annual visitation programs of our public schools, and that visitors in the schools be reminded of each citizen's obligations and responsibilities as a contributing member of a free, self-governing society; and be it further

Resolved, That the week of March 4 through 8, 1963, be hereby designated as the dates for the official Public Schools Week in Texas for the year 1963; and be it further

Resolved, That a copy of this Resolution be sent to the Commissioner of Education and to the Chairman of the Texas Citizens Committee on Public Schools Week.

TO PROVIDE THAT PORTIONS OF THE CAPITOL GROUNDS SHALL BE CLOSED TO MOTOR VEHICLES ON INAUGURATION DAY

Whereas, The Constitution of the State of Texas fixes the inauguration of the newly elected Governor and Lieutenant Governor for the first Tuesday following the convening of the Legislature in each regular biennial session; and

WHEREAS, The Inaugural Ceremonies will be held in public at the south entrance of the State Capitol; and
Whereas, The movement of motor vehicles upon the Capitol Grounds, streets, and runways, on said day will be hazardous to the life and limb of the great throng assembled for said Inaugural Ceremonies; now, therefore, be it
Resolved, by the Senate of the State of Texas, the House of Representatives concurring, That the State Board of Control be and is hereby instructed to close all entrances to the Capitol Grounds to motor vehicles on January 15, 1963, except those vehicles approved by the Inaugural Committee as necessary for use in connection with said ceremony and the program following.

LEAVE OF ABSENCE GRANTED

RELATIVE TO ORDER OF BUSINESS
Mr. Johnson of Dallas offered the following resolution:

H. S. R. No. 16

Whereas, At the General Election on November 4, 1930, Section 5 of Article 3 of the Constitution of Texas was amended so as to read as follows, to wit:

"The Legislature shall meet every two (2) years at such times as may be provided by law and at other times when convened by the Governor. When convened in Regular Session, the first thirty (30) days shall be devoted to the introduction of Bills and Resolutions, acting upon emergency appropriations, passing upon the confirmation of recess appointees of the Governor and such emergency matters as may be submitted by the Governor in special messages to the Legislature; provided, however, that either House may otherwise determine its order of business by an affirmative vote of four-fifths of its membership;" and

Whereas, Under said amendment it is specifically provided that either House may otherwise determine its order of business by an affirmative vote of four-fifths of its membership; therefore be it
Resolved by the House of Representatives of the Fifty-eighth Legislature, by an affirmative vote of four-fifths of its membership, That the order of its business for the Regular Session is hereby determined to be otherwise than set forth in Section 5 of Article 3 of the Constitution, and declared to be specifically as set forth in the Temporary and Permanent Rules of the House of Representatives of the Fifty-eighth Legislature.

The resolution was read.
