"Our Heavenly Father, Thou hast taught us that all things should be done decently and in order. Cause us to be mindful of this admonition, as we begin another week of labor and memorable festivities.

Save us from trying to live our lives as if we had to live them by ourselves. Thou are always with us, to share our moments of joy and sorrow. Thy presence within, gives us strength, courage and peace of mind.

Because we are one with Thee, let us emphasize the many things which unite us, and minimize the few differences that would divide us, and keep us from reaching the greatest good, for all the people represented.

For we ask it in Thee Saviour's name.—Amen."

CONCERNING THE EDUCATION OF CERTAIN EMOTIONALLY DISTURBED CHILDREN IN TEXAS

Mr. Pearcy offered the following resolution:

H. C. R. No. 4

Whereas, It is estimated that about four children out of every 100 of the Texas school-age population are emotionally disturbed to the extent that they need some kind of special service; and
Whereas, Present knowledge in this field indicates that there are about 9,000 children in the state who have some degree of emotional disturbance and that most of them could be helped through services in their home communities and in the public schools rather than requiring intensive residential care; and

Whereas, Texas currently provides state funds for exceptional children teacher units under the Minimum Foundation Program for children with physical handicaps and for educable and trainable mentally retarded children, but makes no provision for children handicapped by emotional disturbances; and

Whereas, Studies in Texas, in other states, and by the Southern Regional Education Board indicate that special education classes for such children in the public schools will serve the needs of a great majority of them, in most cases preparing them for return to the regular classroom, and that the trend is toward the establishment of such classes; and

Whereas, There is currently no training program for teachers of the emotionally disturbed in any institute of higher education in the state, and the teacher certification program in this area has been developed and approved; and

Whereas, The Texas Central Education Agency has indicated its interest in this field and acknowledged the need for special facilities in the public schools but currently has no consultant in this specialty in the Division of Special Education; and

Whereas, If adequate and effective programs for emotionally disturbed children are to be developed in the public schools of the state, it is necessary that the Texas Central Education Agency take the lead in planning and programming for the identification of such children, the training and certification of teachers to work with them, for efficient referral to community and state resources, and for integration of plans for these children into the existing special education program in the public schools; now therefore be it

Resolved, By the House of Representatives of the State of Texas, the Senate concurring, That the Texas Central Education Agency be authorized to engage in research and planning concerning the education of emotionally disturbed children of school age in Texas; and be it further

Resolved, That the Texas Central Education Agency be authorized to enter into and undertake cooperative projects in this field with any school district or institution of higher education in Texas, and said school districts or state supported institutions of higher education are authorized to undertake such projects cooperatively with the Texas Central Education Agency; and be it further

Resolved, That in its work in this field, the Texas Central Education Agency be specifically authorized to engage cooperatively in planning for teacher education and for furthering teacher training, by scholarships or otherwise, in conjunction with any institution of higher education in Texas or elsewhere; and be it further

Resolved, That the Texas Central Education Agency be authorized to investigate the possibility of entering into contracts, or outlining programs whereby school districts in the state may enter into contracts, for such diagnosis, treatment and care of emotionally disturbed children as may be necessary to the proper execution of such children; and be it further

Resolved, That in undertaking the requested research and planning concerning the education of emotionally disturbed children in the public schools, the Texas Central Education Agency be authorized to accept funds from any source, public or private, to accomplish any of the purposes or programs outlined in this resolution.

The resolution was referred to the Committee on State Affairs.
