"Section 132. Brakes. Every motor vehicle, trailer, semitrailer and pole trailer, and any combination of such vehicles operating upon a highway within this State shall be equipped with brakes in compliance with the requirements of this Article.

"(a) Service brakes—adequacy—Every such vehicle and combination of vehicles, except special mobile equipment which is not designed or used primarily for the transportation of persons or property and only incidentally operated or moved on a highway, shall be equipped with service brakes complying with the performance requirements as required and adequate to control the movement of and to stop and hold such vehicle under all conditions of loading, and on any grade incident to its operation.

"(b) Parking brakes—adequacy—Every such vehicle and combination of vehicles, except motorcycles and motor-driven cycles, shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power provided that failure of the service brake actuation system or other power assistance mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

"(c) Brakes on all wheels—Every vehicle shall be equipped with brakes acting on all wheels except:

"1. Trailers, semitrailers, or pole trailers of a gross weight not exceeding three thousand (3,000) pounds, provided that:

"a. The total weight on and including the wheels of the trailer or trailers shall not exceed forty (40) percent of the gross weight of the towing vehicle when connected to the trailer or trailers, and

"b. The combination of vehicles, consisting of the towing vehicle and its total towed load, is capable of complying with the performance requirements of this Act.

"2. Any vehicle being towed in
driveaway or towaway operations, provided the combination of vehicles is capable of complying with the performance requirements of this Act.

3. Trucks and truck tractors having three (3) or more axles need not have brakes on the front wheels, except that when such vehicles are equipped with at least two (2) steerable axles, the wheels of one (1) steerable axle need not have brakes. However, such trucks and truck tractors must be capable of complying with the performance requirements of this Act.

4. Special mobile equipment as defined in Subsection (a) above.

5. The wheel of a sidecar attached to a motorcycle or to a motor-driven cycle, or the front wheel of a motor-driven cycle need not be equipped with brakes, provided that such motorcycle or motor-driven cycle is capable of complying with the performance requirements of this Act.

6. Any farm trailer or farm semitrailer operated or moved temporarily upon the highways when its gross weight does not exceed ten thousand (10,000) pounds and when the speed of such farm trailer or farm semitrailer does not exceed thirty (30) miles per hour and when the vehicle and its operation meet all other requirements for total or partial exemption from registration fees as set forth in Section 2, Chapter 88, Acts of the 42nd Legislature, 2nd Called Session, 1929, as last amended by Chapter 111, Acts of the 55th Legislature, Regular Session, 1957 (Article 6675a-2, Vernon’s Texas Civil Statutes.) The term ‘gross weight’ as used in this subsection shall mean the combined weight of the trailer or semitrailer and the weight of the load actually carried on the highway.

7. Any farm trailer or farm semitrailer operated or moved temporarily upon the highways solely to transport cotton

(a) if the gross weight of the trailer or semitrailer is not more than fifteen thousand (15,000) pounds;

(b) if the speed of the trailer or semitrailer is not more than thirty (30) miles per hour; and

(c) if the trailer or semitrailer is totally or partially exempt from the regular registration fees under Section 2, Chapter 88, Acts of the 41st Legislature, 2nd Called Session, 1929, as amended (Article 6675a-2, Vernon’s Texas Civil Statutes).

(d) Automatic trailer brake application upon breakaway. Every trailer, semitrailer, and pole trailer equipped with air or vacuum actuated brakes and every trailer, semitrailer, and pole trailer with a gross weight in excess of three thousand (3,000) pounds, manufactured or assembled after January 1, 1968, shall be equipped with brakes acting on all wheels and of such character as to be applied automatically and promptly, and remain applied for at least fifteen (15) minutes, upon breakaway from the towing vehicle.

(e) Tractor brakes protected. Every motor vehicle manufactured or assembled after January 1, 1968, and used to tow a trailer, semitrailer or pole trailer equipped with brakes, shall be equipped with means for providing that in case of a breakaway of the towed vehicle, the towing vehicle will be capable of being stopped by the use of its service brakes.

(f) Trailer air reservoirs safeguarded. Air brake systems installed on trailers manufactured or assembled after January 1, 1968, shall be so designed that the supply reservoir used to provide air for the brakes shall be safeguarded against backflow of air from the reservoir through the supply line.

(g) Two (2) means of emergency brake operation.

1. Air brakes. After January 1, 1968, every towing vehicle, when used to tow another vehicle equipped with air controlled brakes, in other than driveaway or towaway operations, shall be equipped with two (2) means for emergency application of the trailer brakes. One of these means shall apply the brakes automatically in the event of a reduction of the towing vehicle air supply to a fixed pressure which shall be not lower than twenty (20) pounds per square inch nor higher than forty-five (45) pounds per square inch. The other means shall be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation shall be clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means. The automatic and the manual means required by this section may
be, but are not required to be, separate.

2. Vacuum Brakes. After January 1, 1968, every towing vehicle used to tow other vehicles equipped with vacuum brakes, in operations other than driveaway or towaway operations, shall have, in addition to the single control device required by Subsection (h), a second control device which can be used to operate the brakes on towed vehicles in emergencies. The second control shall be independent of brake air, hydraulic, and other pressure, and independent of other controls, unless the braking system be so arranged that failure of the pressure upon which the second control depends will cause the towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking.

(h) Single control to operate all brakes. After January 1, 1968, every motor vehicle, trailer, semitrailer and pole trailer, and every combination of such vehicles, except motorcycles and motor-driven cycles, equipped with brakes shall have the braking system so arranged that one control device can be used to operate all service brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to be used to operate brakes on the towed vehicles. This regulation does not apply to driveaway or towaway operations unless the brakes on the individual vehicles are designed to be operated by a single control on the towing vehicle.

(i) Reservoir capacity and check valve.

1. Air brakes. Every bus, truck or truck tractor with air operated brakes shall be equipped with at least one (1) reservoir sufficient to insure that, when fully charged to the maximum pressure as regulated by the air compressor governor cut-out setting, a full service brake application may be made without lowering such reservoir pressure by more than twenty (20) percent. Each reservoir shall be provided with means for readily draining accumulated oil or water.

2. Vacuum brakes. After January 1, 1968, every truck with three (3) or more axles equipped with vacuum assistor type brakes and every truck tractor and truck used for towing a vehicle equipped with vacuum brakes shall be equipped with a reserve capacity or a vacuum reservoir sufficient to insure that, with the reserve capacity or reservoir fully charged and with the engine stopped, a full service brake application may be made without depleting the vacuum supply by more than forty (40) percent.

3. Reservoir safeguarded. All motor vehicles, trailers, semitrailers and pole trailers, when equipped with air or vacuum reservoirs or reserve capacity as required by this section, shall have such reservoirs or reserve capacity so safeguarded by a check valve or equivalent device that in the event of failure or leakage in its connection to the source of compressed air or vacuum, the stored air or vacuum shall not be depleted by the leak or failure.

(j) Warning devices.

1. Air brakes. Every bus, truck or truck tractor using compressed air for the operation of its own brakes or the brakes of any towed vehicle, shall be provided with a warning signal, other than a pressure gauge, readily audible or visible to the driver, which will operate at any time the air reservoir pressure of the vehicle is below fifty (50) percent of the air compressor governor cut-out pressure. In addition, each such vehicle shall be equipped with a pressure gauge visible to the driver, which indicates in pounds per square inch the pressure available for braking.

2. Vacuum brakes. After January 1, 1968, every truck tractor and truck used for towing a vehicle equipped with vacuum operated brakes and every truck with three (3) or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, shall be equipped with a warning signal, other than a gauge indicating vacuum, readily audible or visible to the driver, which will operate at any time the vacuum in the vehicle's supply reservoir or reserve capacity is less than eight (8) inches of mercury.

3. Combination of warning devices. When a vehicle required to be equipped with a warning device is equipped with both air and vacuum power for the operation of its own brakes or the brakes on a towed vehicle, the warning devices may be, but are not required to be, combined into a single device which will serve both purposes. A gauge or gauges indicating pressure or vacuum shall not
be deemed to be an adequate means of satisfying this requirement.

"(k) Performance ability of brakes. Every motor vehicle and combination of vehicles, at all times and under all conditions of loading, upon application of the service brake, shall be capable of:

"1. Developing a braking force that is not less than the percentage of its gross weight tabulated herein for its classification;

"2. Decelerating to a stop from not more than twenty (20) miles per hour at not less than the feet per second per second tabulated herein for its classification, and

"3. Stopping from a speed of twenty (20) miles per hour in not more than the distance tabulated herein for its classification, such distance to be measured from the point at which movement of the service brake pedal or control begins.

"Tests for deceleration and stopping distance shall be made on a substantially level (not to exceed plus or minus one (1) percent grade) dry, smooth, hard surface that is free from loose material.

"(1) Maintenance of brakes. All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the wheels on the opposite sides of the vehicle.

"Sec. 73. Chapter 421, Acts of the 50th Legislature, 1947, as amended (Article 6701d, Vernon's Texas Civil Statutes), is amended by adding Section 132A to read as follows:

"Section 132A. Brakes on Motor-Driven Cycles. (a) The Director of the Department of Public Safety is authorized to require an inspection of the braking system on any motor-driven cycle and to disapprove any such braking system on a vehicle which he finds will not comply with the performance ability standard set
forth in Subsection (k) of Section 132, or which in his opinion is equipped with a braking system that is not so designed or constructed as to insure reasonable and reliable performance in actual use.

"(b) The Texas Highway Department may refuse to register or may suspend or revoke the registration on any vehicle herein referred to in this section when it has been determined that the braking system thereof does not comply with the provisions of Subsection (k) of Section 132.

"(c) No person shall operate on any highway any vehicle referred to in this section in the event the Department of Public Safety has disapproved the braking system upon such vehicle.

"Sec. 74. Chapter 421, Acts of the 50th Legislature, 1947, as amended (Article 6701d, Vernon's Texas Civil Statutes), as amended by adding Section 134A to read as follows:

"Section 134A. Mirrors. On and after January 1, 1968, every motor vehicle, operated singly or when towing any other vehicle, shall be equipped with a mirror so located as to reflect to the driver a view of the highway for a distance of at least two hundred (200) feet to the rear of such motor vehicle.

"Sec. 75. Chapter 421, Acts of the 50th Legislature, 1947, as amended (Article 6701d, Vernon's Texas Civil Statutes), is amended by adding Section 134B to read as follows:

"(b) The windshield on every motor vehicle shall be equipped with a device for cleaning rain, snow or other moisture from the windshield, which device shall be so constructed as to be controlled or operated by the driver of the vehicle.

"(c) Every windshield wiper upon a motor vehicle shall be maintained in good working order.

"Sec. 76. Section 136, Chapter 421, Acts of the 50th Legislature, 1947, as amended by Chapter 194, Acts of the 52nd Legislature, 1951 (Article 6701d, Vernon's Texas Civil Statutes), is amended to read as follows:

"Section 136. Safety Glazing Material in Motor Vehicles. (a) On and after January 1, 1968, no person shall sell any new motor vehicle as specified herein, nor shall any new motor vehicle as specified herein be registered thereafter unless such vehicle is equipped with safety glazing material of a type approved by the Department of Public Safety wherever glazing material is used in doors, windows and windshields. The foregoing provisions shall apply to all passenger-type motor vehicles, including passenger buses and school buses, but in respect to trucks, including truck tractors, the requirements as to safety glazing material shall apply to all glazing material used in doors, windows and windshields in the driver's compartments of such vehicles.

"(b) The term 'safety glazing materials' means glazing materials so constructed, treated or combined with other materials as to reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

"(c) It shall be unlawful after the first day of January, 1968, for any person to replace or cause to be replaced, any glass in doors, windows or windshields in any motor vehicle, unless such replacement be made with safety glass as defined in this Act.

"Sec. 77. Section 137. Chapter 421, Acts of the 50th Legislature, 1947 (Article 6701d, Vernon's Texas Civil Statutes), is amended to read as follows:

"Section 137. Certain Vehicles to Carry Flares or Other Warning Devices. (a) No person shall operate any motor truck, passenger bus or truck tractor, or any motor vehicle towing a house trailer, upon any highway outside the corporate limits of municipalities at any time from a half hour after sunset to a half hour before sunrise unless there shall be carried in such vehicle the following equipment except as provided in Subsection (b):

1. At least three (3) flares or three (3) red electric lanterns or three (3) portable red emergency reflectors, each of which shall be capable of being seen and distinguished at a distance of not less than six hundred (600) feet under normal atmospheric conditions at nighttime.
"No flare, fusee, electric lantern or cloth warning flag shall be used for the purpose of compliance with the requirements of this section unless such equipment has been approved by the Texas Department of Public Safety. No portable reflector unit shall be used for the purpose of compliance with the requirements of this section unless it is so designed and constructed as to include two (2) reflecting elements one above the other, each of which shall be capable of reflecting red light clearly visible from all distances within six hundred (600) feet to one hundred feet (100) feet under normal atmospheric conditions at night when directly in front of lawful upper beams of head lamps, and unless it is of a type which has been approved by the Department of Public Safety.

"2. At least three (3) red-burning fuses unless red electric lanterns or red portable emergency reflectors are carried.

"3. At least two (2) red-cloth flags, not less than twelve (12) inches square, with standards to support such flags.

"(b) No person shall operate at the time and under conditions stated in Subsection (a) any motor vehicle used for the transportation of explosives, any cargo tank truck used for the transportation of flammable liquids or compressed gases, or any motor vehicle using compressed gas as a fuel unless there shall be carried in such vehicle three (3) red electric lanterns or three (3) portable red emergency reflectors meeting the requirements of Subsection (a) of this section, and there shall not be carried in any said vehicle any fuses, fusees or signal produced by flame.

"Section 138. Display of Warning Devices When Vehicle Disabled. (a) Whenever any motor truck, passenger bus, truck tractor, trailer, semitrailer or pole trailer, or any motor vehicle towing a house trailer, is disabled upon the traveled portion of any highway or the shoulder thereof outside of any municipality at any time when lighted lamps are required on vehicles the driver of such vehicle shall display the following warning devices upon the highway during the time the vehicle is so disabled on the highway except as provided in Subsection (b):

"1. A lighted fusee, a lighted red electric lantern or a portable red emergency reflector shall be immediately placed at the traffic side of the vehicle in the direction of the nearest approaching traffic.

"2. As soon thereafter as possible but in any event within the burning period of the fusee (15 minutes), the driver shall place three (3) liquid-burning flares (pot torches), or three (3) lighted red electric lanterns or three (3) portable red emergency reflectors on the traveled portion of the highway in the following order:

"(I) One (1), approximately one hundred (100) feet from the disabled vehicle in the center of the lane occupied by such vehicle and toward traffic approaching in that lane.

"(II) One (1), approximately one hundred (100) feet in the opposite direction from the disabled vehicle and in the center of the traffic lane occupied by such vehicle.

"(III) One (1) at the traffic side of the disabled vehicle not less than ten (10) feet rearward or forward thereof in the direction of the nearest approaching traffic. If a lighted red electric lantern or a red portable emergency reflector has been placed at the traffic side of the vehicle in accordance with Subdivision (I) of this section, it may be used for this purpose.

"(b) Whenever any vehicle referred to in this section is disabled within five hundred (500) feet of a curve, hillcrest or other obstruction to view, the warning signal in that direction shall be so placed as to afford ample warning to other users of the highway, but in no case less than one hundred (100) feet nor more than five hundred (500) feet from the disabled vehicle.

from the vehicle, in the center of the lane occupied by the vehicle and in the
direction of traffic approaching in that lane; one (1) at the traffic side
of the vehicle and approximately ten (10) feet from the vehicle in the di-
rection of the nearest approaching traffic.

"(d) Whenever any vehicle of a
type referred to in this section is
disabled upon the traveled portion
of a highway or the shoulder thereof
outside of any municipality at any
time when the display of fuseses,
flares, red electric lanterns or portable
red emergency reflectors is not
required, the driver of the vehicle
shall display two (2) red flags upon
the roadway in the lane occupied by

roadway at the traffic side of the
vehicle, and two red electric lanterns
or portable red reflectors, one placed
approximately one hundred (100) feet
to the front and one placed approxi-
ately one hundred (100) feet to the
rear of this disabled vehicle in the
center of the traffic lane occupied by
such vehicle. Flares, fuseses or sig-
nals produced by flame shall not be
used as warning devices for disabled
vehicles of the type mentioned in this
subsection.

"(f) The flares, fuseses, red elec-
tric lanterns, portable red emergency
reflectors and flags to be displayed
as required in this section shall con-
form with the requirements of Section
137 applicable thereto.

"(g) It shall be unlawful for any
person except any peace officer while
acting in his official capacity, or the
owner of the vehicle or his duly au-
thorized agent or employee, to re-
move, damage, destroy, misuse, or
extinguish any lamp, flare, fusee, or
other signaling device required under
this section and Section 137 of this
Act, while the same are being dis-
played or being used as required by
this Act.

Commission governing the transporta-
tion of explosives and other danger-
ous articles by vehicles upon the high-
ways in order to protect the public.

trailer, or semitrailer in combination
with a towing vehicle, having four
(4) or more tires on the rearmost
axle of such vehicle or if in combi-
nation the rearmost axle of such
combination, upon highways in this
State, unless the rearmost axle of
such road tractor, truck, truck trac-
tor in combination with a semi-trailer,
trailer, or semitrailer in combination
with a towing vehicle, be equipped
with safety guards or flaps of a type
material and construction as pre-
scribed by the Department, located
and suspended behind the rearmost
wheels of such vehicle or if in combi-
nation behind the rearmost wheels
of such combination, to within eight
(8) inches of the surface of the high-
way. Provided, however, pole trailers,
truck tractors operated alone and
without being in combination with a
semitrailer, and all trucks operated on
private property, shall not come un-
der the provisions of this section.

(b) Such equipment shall be manufactured, installed and maintained with due regard for the safety of the occupants of the vehicle and the public and shall not contain any refrigerant which is toxic to persons or which is flammable.

(c) The Department of Public Safety may adopt and enforce safety requirements, regulations and specifications consistent with the requirements of this section applicable to such equipment which shall correlate with and, so far as possible, conform to the current recommended practice or standard applicable to such equipment approved by the Society of Automotive Engineers.

(d) No person shall have for sale, offer for sale, sell or equip any motor vehicle with any such equipment unless it complies with the requirements of this section.

(a) No person shall operate any motor-driven cycle at any time mentioned in Subsection (a) of Section 109 at a speed greater than 35 miles per hour unless such motor-driven cycle is equipped with a head lamp or lamps which are adequate to reveal a person or vehicle at a distance of 300 feet ahead.

(b) No person shall drive any vehicle equipped with solid rubber or cushion tires at a speed greater than a maximum of ten (10) miles per hour.

(c) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when such structure is signposted as provided in this section.

(d) The State Highway Commission upon State highways, and local authorities on highways under their jurisdiction, may conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and if it shall thereupon find that such structure cannot with safety to itself withstand vehicles traveling at a speed otherwise permissible under this Act, the Commission or local authority shall determine and declare the maximum speed of vehicles which such structure can safely withstand, and shall cause or permit suitable signs stating such maximum speed to be erected and maintained before each end of such structure.

Sec. 84. Section 170, Subsection (b), Chapter 421, Acts of the 50th Legislature, 1947, as added by Chapter 161, Acts of the 58th Legislature, 1963 (Article 6701d, Vernon’s Texas Civil Statutes), is amended to read as follows:

(b) Whenever the State Highway Commission, Texas Turnpike Authority, County Commissioners Court, or the governing body of an incorporated city, town, or village, within their respective jurisdictions, as specified in Sections 167, 168, and 169, determine on the basis of an engineering and traffic investigation that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the said State Highway Commission, Texas Turnpike Authority, County Commissioners Court, or governing body of an incorporated city, town, or village are hereby empowered and may determine and declare a minimum speed limit thereon, and when appropriate signs are erected, giving notice of such minimum speed limit, no person shall drive a vehicle below that limit except when necessary for safe operation or in compliance with law.

"Sec. 85. Chapter 421, Acts of the 50th Legislature, 1947, as amended (Article 6701d, Vernon’s Texas Civil Statutes), is amended by adding Article XX to read as follows:

without interfering with other traffic.

"(b) The driver of a vehicle shall not back the same upon any shoulder or roadway of any controlled-access highway.

"Section 174. Riding on Motorcycles. A person operating a motorcycle shall ride only upon the permanent and regular seat attached thereto, and such operator shall not carry any other person nor shall any other person ride on a motorcycle unless such motorcycle is designed to carry more than one person, in which event a passenger may ride upon the permanent and regular seat if designed for two persons, or upon another seat firmly attached to the rear or side of the operator.

"Section 175. Obstruction to Driver's View or Driving Mechanism. (a) No person shall drive a vehicle when it is so loaded, or when there are in the front seat such a number of persons, exceeding three, as to obstruct the view of the driver to the front or sides of the vehicle or as to interfere with the driver's control over the driving mechanism of the vehicle.

"(b) No passenger in a vehicle or streetcar shall ride in such position as to interfere with the driver's or motorman's view ahead or to the sides, or to interfere with his control over the driving mechanism of the vehicle or streetcar.

"Section 176. Opening and Closing Vehicle Doors. No person shall open the door of a motor vehicle on the side available to moving traffic unless and until it is reasonably safe to do so, and can be done without interfering with the movement of other traffic, nor shall any person leave a door open on the side of a vehicle available to moving traffic for a period of time longer than necessary to load or unload passengers.

"Section 177. Riding in House Trailers. No person or persons shall occupy a house trailer while it is being moved upon a public highway.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Chapter 21 of the Texas Insurance Code, as amended, enacted as Chapter 491, Acts 1951, 52nd Legislature, Chapter 491, and as amended, is hereby amended by adding a new article to the Insurance Code to read as follows:

"Section 1. Purposes and Findings.
It is the sense of the Legislature that existing provisions and conditions of law and the ordered procedures of law are sometimes not adequate, nor appropriate under all circumstances, in respect of a need to remedy the financial condition and the management of certain insurers. Neither are the laws adequate for the rehabilitation of insurers who voluntarily request rehabilitation. A void exists in the laws with respect to those insurers most susceptible to rehabilitation or the regaining of solvency. The Legislature finds and determines that the placing of an insurer in receivership often destroys or diminishes, or is likely to destroy or diminish, one or more of the following values or assets: (a) the value of the insurance account or in-force business of the insurer, (b) the value of the insurer as a going concern, (c) the value of its agency force, and (d) the value of other of its assets. The Legislature declares that such values and assets should be preserved if the circumstances of the insurer's financial condition warrant an attempt to conserve or rehabilitate such insurer and such rehabilitation or conservation is otherwise feasible. It is the purpose of the Legislature to provide for rehabilitation and conservation of insurers by authorizing and requiring the additional duties of supervision and conservatorship by the State Board of Insurance, to authorize action to resolve whether an attempt be made to rehabilitate and conserve an insurer, and to avoid, if possible and feasible, the necessity of temporary or permanent receivership. It is the further purpose of this Act to provide for protection of the assets of an insurer pending determination of whether or not an insurer can be successfully rehabilitated. It is not the sense of the Legislature that rehabilitation will be accomplished in every case, but it is the purpose of this article to provide a facility and direction for attempting the rehabilitation without immediate resort to the harsher remedy of receivership. In the event that receivership ultimately becomes necessary, it is nevertheless the belief and finding of the Legislature that the preliminary supervision and conservatorship is preventive of a dissipation of assets and will thus benefit policy holders, creditors and owners; and the State Board of Insurance is directed, in its discretion, to the use of this authorization. The Legislature further finds that an insurer delinquency, or the state's incapacity to properly proceed in a threatened delinquency, directly or indirectly affects other insurers by creating a lack of public confidence in insurance and in insurance companies. As respects the state, insurer delinquencies are destructive of public confidence in the capacity of the state to regulate insurers. These and other harmful results of insurer delinquency are properly minimized by a further enactment designed to protect and in aid of in-
The Legislature intends and expects that the appropriate concerns in respect of insurance and insurers will be reduced by the existence and operation of this law. The Legislature declares that it is a proper concern of this state and proper policy to attempt to correct or remedy insurer misconduct, ineptness or misfortune. It is the purpose of the Legislature to express, or to imply from context when not expressed, an authorization, provision and enabling of the promulgation of rules and regulations by the State Board of Insurance as directed in these legislative findings and in the augmentation of this law; and to provide also for any other requisite administrative action. In consequence of the foregoing, the substance and procedure of this Article is here declared to be the public policy of this state and necessary to the public welfare. Such policy and welfare require the availability of this law and the application of this law whenever circumstances warrant; and it is therefore a condition of doing an insurance business in this state; and it is made applicable and is a consequence of any other transactions in respect of an insurer or insurance. And in conjunction with existing law, the rationale is effected in the provision herein for a generally ordered sequence, and review at each such step, of supervision, concurrent conservation and rehabilitation (including reinsurance), and, as may at any time or ultimately be indicated or determined, provision for the conservation by accomplishment of rehabilitation or by receivership and liquidation.

Section 2. DEFINITION, APPLICATION AND SCOPE. As used in this Article, the following words, terms and phrases (in single quotes in this section of the Article but not in quotes in other sections) include the meanings, significance or application described in this section, except as another meaning is clearly requisite from the purposes or is otherwise clearly indicated by the context.

(a) ‘Insurance Company (used interchangeably with ‘insurer’) is any person, organization, association or company (authorized or unauthorized, admitted or non-admitted), acting as an insurer, or as principal or agent of an insurer, including stock companies, reciprocals or interinsurance exchanges, Lloyds associations, fraternal benefit societies, stipulated premium companies, and mutual companies of all kinds, including state-wide mutual assessment corporations, local mutual aids, burial associations, and county mutual insurance companies and farm mutual insurance companies.

(b) In respect of an insurance company or insurer, ‘insolvent’ or ‘insolvency’ and the phrases in further identity of insurer delinquency and threatened insurer delinquency, mean and include, and the conditions to which this Article is applicable include, but are not limited to, any one or more of the following circumstances or conditions:

(1) if an insurance company’s required surplus, capital, or capital stock is impaired to an extent prohibited by law, or

(2) if an insurance company continues to write new business when it is not possessed of the surplus, capital or capital stock which is required of it by law to permit it to do so, or

(3) if the business of any such insurance company is being conducted fraudulently, or

(4) if any such insurance company attempts to dissolve or liquidate without first having made provisions, satisfactory to the Commissioner of Insurance, for liabilities arising from policies of insurance issued by such company.

(c) ‘Exceeded its Powers’ includes and means but is not limited to the following circumstances:

(1) if an insurance company has refused to permit examination of its books, papers, accounts, records, or affairs by the Commissioner of Insurance, his deputy, or duly commissioned examiners; or if any insurance company, organized in the State of Texas, has removed from the State such books, papers, accounts or records necessary for an examination of such insurance company, or

(2) if an insurance company has failed to promptly answer inquiries authorized by Article 1.25 of this Code, or

(3) if an insurance company has neglected or refused to observe an order of the Commissioner to make good, within the time prescribed by law, any prohibited deficiency in its capital, capital stock, or surplus, or
“(4) if an insurance company without first having obtained written approval of the Commissioner has by contract or otherwise: (i) totally reinsured its entire outstanding business, or (ii) merged or consolidated substantially its entire property or business with another insurer; or

“(5) if any insurance company is continuing to write business after its license has been revoked or suspended.

“(d) ‘Consent,’ as used in this Act, includes and means agreement to either supervision or conservatorship by the insurance company.

“Section 3. If upon examination or at any other time it appears to or is the opinion of the Commissioner of Insurance that any insurance company is insolvent, or its condition is such as to render the continuance of its business hazardous to the public or to holders of its policies or certificates of insurance, or if such company appears to have exceeded its powers (as defined herein) or has failed to comply with the law, or if such insurance company gives its consent (as defined herein), then the Commissioner of Insurance shall upon his determination (a) notify the insurance company of his determination, and (b) furnish to the insurance company a written list of the Commissioner’s requirements to abate the causes and conditions, which the Commissioner makes a further determination to supervise he shall notify the insurance company that it is under the supervision of the Commissioner of Insurance and that the Commissioner is applying and effecting the provisions of this Article. Such insurance company shall comply with the lawful requirements of the Commissioner of Insurance and if placed under supervision shall under supervision have sixty (60) days from the date of notice within which to comply with the requirements of the Commissioner, subject, however, to the provisions of this Article. In the event of such insurance company’s failure to comply within such time, the Commissioner of Insurance, acting for himself, or through a conservator appointed by the Commissioner of Insurance for that purpose, shall immediately, after due and proper notice and hearing, take charge as conservator of the insurance company and all of the property and effects thereof.

“Section 4. (a) PROHIBITED ACTS DURING 60-DAY PERIOD OF SUPERVISION. During the period of supervision, the Commissioner may appoint a Supervisor to supervise such insurance company and may provide that the insurance company may not do any of the following things, during the period of supervision, without the prior approval of the Commissioner or his Supervisor:

“(1) Dispose of, convey or encumber any of its assets or its business in force;

“(2) Withdraw any of its bank accounts;

“(3) Lend any of its funds;

“(4) Invest any of its funds;

“(5) Transfer any of its property;

“(6) Incur any debt, obligation or liability;

“(7) Merge or consolidate with another company; or

“(8) Enter into any new reinsurance contract or treaty.

“(b) The Liquidator of the State Board of Insurance, or his duly appointed deputy, may be appointed to serve as the Supervisor.

“Section 5. CONSERVATORSHIP OR LIQUIDATION. If, after notice, and after hearing, at the conclusion of said sixty (60) day period, it is determined that such insurance company has failed to comply with the lawful requirements of the Commissioner, or upon consent by an insurance company, the Commissioner may appoint a Conservator, who shall immediately take charge of such insurance company and all of the property, books, records, and effects thereof, and conduct the business thereof, and take such steps toward the removal of the causes and conditions, which have necessitated such order, as the Commissioner may direct. During the pendency of conservatorship, the Conservator shall make such reports to the Commissioner from time to time as may be required by the Commissioner, and shall be empowered to take all necessary measures to preserve, protect, and recover any assets or property of such insurance company, including claims or causes of action belonging to or which may be asserted by such insurance company, and to deal with the same in his own name as Conservator, and shall be empowered to file, prosecute, and defend any suit or suits which have been filed or which may thereafter be filed by or against such in-
insurance company which are deemed by the Conservator to be necessary to protect all of the interested parties or any property affected thereby. If at the time of appointment of a Conservator or at any time during the pendency of such conservatorship it appears that the interest of the policyholders or certificate holders of such insurance company can best be protected by reinsuring the same, the Conservator may, with the approval of or at the direction of the Commissioner: (1) reinsure all or any part of such insurance company's policies or certificates of insurance with some solvent insurance company authorized to transact business in this state, and (2) to the extent that such insurance company in conservatorship is possessed of reserves attributable to such policies or certificates of insurance, the Conservator may transfer to the reinsuring company such reserves or any portion thereof as may be required to consummate the reinsurance of such policies, and any such reserves so transferred shall not be deemed a preference of creditors. The Liquidator of the State Board of Insurance, or his duly appointed deputy, may be appointed to serve as the Conservator. If the Commissioner of Insurance, however, is satisfied that such insurance company is not in condition to continue business in the interest of its policy or certificate holders, under the Conservator as above provided, the Commissioner of Insurance shall give notice to the Attorney General who shall thereupon apply to any Court in Travis County, Texas, having jurisdiction thereof for leave to file a suit in the nature of quo warranto to forfeit the charter of such insurance company or to require it to comply with the law or to satisfy the Commissioner of Insurance as to its solvency, and to satisfy the requirement that its condition is such as to render the continuance of its business not hazardous to the public or to the holders of its policies or certificates of insurance. It shall be in the discretion of the Commissioner of Insurance to determine whether or not he will operate the insurance company through a Conservator, as provided above, or report it to the Attorney General, as herein provided. When all the policies of an insurance company are reinsured or terminated, and all of its affairs concluded, as herein provided, the Commissioner of Insurance shall report the same to the Attorney General, who shall take such action as may be necessary to effect the forfeiture or cancellation of the charter of the insurance company so reinsured and liquidated. Where the Commissioner of Insurance lends his approval to the merger, consolidation, or reinsurance of all the policies of one insurance company with that of another, the same shall be reported to the Attorney General who shall proceed to effect the forfeiture or cancellation of the charter of the insurance company from which the policies were merged, consolidated or reinsured, in the same manner as is provided for the charters of companies totally reinsured or liquidated. The cost incident to the Supervisor's and Conservator's service shall be fixed and determined by the Commissioner of Insurance and shall be a charge against the assets and funds of the insurance company to be allowed and paid as the Commissioner of Insurance may determine.

This Article shall apply to insurance companies doing an insurance business but not domiciled in the State of Texas, whether authorized to do business in this State or not. In the event that the Commissioner of Insurance makes any of the findings provided for in Section 3 of this Article concerning any such insurance company or finds that any such insurance company is not possessed of the minimum surplus or capital or capital stock required by the Insurance Code of the State of Texas for similar type domestic companies, or if a Conservator, rehabilitator, receiver, or liquidator has been appointed in the state of domicile, or if the insurance company gives its consent as defined herein, the Commissioner of Insurance shall have the same power and jurisdiction to appoint a Supervisor or Conservator as to the assets of such out-of-state insurer located in this State as provided herein for domestic insurance companies. In the event that any such out-of-state insurance company shall fail to comply with the provisions of Section 4 of this Article with respect to any of its assets or policies located within this state during any sixty (60) day period of supervision, such act or violation shall constitute sufficient grounds for the immediate revoca-
tion of its certificate of authority to do business in this State and for the immediate appointment of a Conservator to take charge of its assets located within this state. Any Supervisor or Conservator appointed with respect to assets located in this state belonging to an out-of-state insurance company shall have all of the powers and authority provided for in Section 6 of this Article with respect to such assets located in this state and, in addition, may reinsure all or any part of such insurance company's policyholders or certificate holders located within this state with some solvent insurance company authorized to transact business in this state and may transfer to the reinsuring company, as reserve funds, assets or any portion thereof in his possession as may be required to consummate the reinsurance of such policies and any of such assets transferred as reserve funds shall not be deemed a preference of creditors.

"Section 7. REVIEW AND STAY OF ACTION. During the period of supervision and during the period of conservatorship, the insurance company may request the Commissioner of Insurance or in his absence, the duly appointed Deputy for such purpose, to review an action taken or proposed to be taken by the Supervisor or Conservator, specifying wherein the action complained of is believed not to be in the best interests of the insurance company, and such request shall state the action specified and the review of such action to be had by the Commissioner or his duly appointed Deputy. Any order entered by the Commissioner appointing a Supervisor and providing that the insurance company shall not do certain acts as provided in Section 4 of this Article, any order entered by the Commissioner appointing a Conservator, and any order by the Commissioner following the review of an action of the Supervisor or Conservator as hereinabove provided shall be immediately reviewed by the State Board of Insurance upon the filing of an appeal by the insurance company. The Board shall review the action complained of in a public hearing and render its decision at the earliest possible date thereafter, and the requirement of ten (10) days notice set out in Article 1.04(d) of this Code may be waived by the parties of record. The Board may stay the effectiveness of any order of the Commissioner, pending its review of such order. Such appeal shall have precedence over all other business of a different nature pending before the Board, and in the public hearing any and all evidence and matters pertaining to the appeal may be submitted to the Board, whether included in the appeal or not, and the Board shall make such other rules and regulations with regard to such applications and their consideration as it deems advisable. If such insurance company be dissatisfied with any decision, regulation, order, rule, act or administrative ruling adopted by the State Board of Insurance, such dissatisfied insurance company after failing to get relief from the State Board of Insurance, may file a petition setting forth the particular objection to such decision, regulation, order, rule, act or administrative ruling, or to either or all of them, in the District Court of Travis County, Texas, and not elsewhere, against the State Board of Insurance as defendant. Said action shall have precedence over all other causes on the docket of a different nature. The action shall not be limited to questions of law and the substantial evidence rule shall not apply, except as interpretation of the Constitution may require, but such action shall be tried and determined upon a trial de novo to the same extent as now provided for in the case of an appeal from the Justice Court to the County Court. Either party to said action may appeal to the Appellate Court having jurisdiction of said cause and said appeal shall be at once returnable to said Appellate Court having jurisdiction of said cause and said appeal shall be at once appeal bond in any cause arising hereunder. "Section 8. VENUE. Except for causes of action based upon terms of an insurance policy or policy or policies issued by an insurance company placed in conservatorship, any suit filed against an insurance company or its Conservator, after the entrance of an order by the Commissioner of Insurance placing such insurance company in conservatorship and while such order is in effect, shall be brought in a court of competent jurisdiction in Travis County, Texas, and
not elsewhere. The Conservator appointed hereunder for such company may file suit in any court of competent jurisdiction in Travis County, Texas, against any person for the purpose of preserving, protecting, or recovering any assets or property of such insurance company including claims or causes of action belonging to or which may be asserted by such insurance company.

“Section 9. DURATION OF CONSERVATORSHIP. As respects a conservatorship, the Conservator shall serve for such time as is necessary to accomplish the purposes of the conservatorship as intended by this Act. If rehabilitated, the rehabilitated insurance company shall be returned to management or new management under such reasonable conditions as will best tend to prevent the defeat of the purposes for which it was placed in conservatorship.

“Section 10. ADMINISTRATIVE ELECTION OF PROCEEDINGS. (a) If the Commissioner determines to act under authority of this Article, or is directed by the State Board of Insurance or a court of competent jurisdiction to act under this Article, the sequence of his acts and proceedings shall be as set forth herein. However, it is a purpose and substance of this Article to authorize administrative discretion—to allow the State Board of Insurance and the Commissioner administrative discretion in the event of insurance company delinquencies—and in furtherance of that purpose, the Commissioner is hereby authorized in respect of insurance company delinquencies or suspected delinquencies to proceed and administer either under this Article or under any other applicable law, or under this law in conjunction with other law, either as such law is now existing or as is hereafter enacted, and it is so provided.

“Section 11. RULES AND REGULATIONS. The State Board of Insurance shall be empowered to adopt and promulgate such reasonable rules and regulations as may be necessary for the augmentation and accomplishment of this Act, including its purposes.

“Section 12. Other statutes authorized for use and application in conjunction with this Article are Section 14 of Article 17.25, and Articles 14.33 and 22.22 of the Insurance Code. Also authorized for use, in conjunction with this Article, in delinquency proceedings or threatened insolvencies of insurers, are any other statutes or laws possible of application with this Act or in the procedures of this Act, or in augmentation of this Act whether or not directed as applicable by such other statute; but in the event of conflict between this Article and any other Article, the provisions of this Article shall govern.”

Section 2. This Act shall be cumulative of all other laws, general and special, relating to the subject matter hereof, and if in conflict with any other laws, general and special, the provisions hereof shall control and govern.

Section 3. If any provision of this Act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

Section 4. The fact that the Commissioner of Insurance and the State Board of Insurance do not now have adequate authority to act by supervision and conservatorship to rehabilitate, reinsure, conserve or liquidate an insurance company before it becomes hopelessly insolvent or before it becomes necessary to appoint a receiver involves an emergency and creates an imperative public necessity that the Constitutional Rule requiring bills to be read on three several days be suspended, and the Rule is hereby suspended; and this Act shall take effect and be in force from and after its passage, and it is so enacted.
