(a) Groundwater withdrawals governed by this chapter, including withdrawals of injected water, are subject to reasonable board rules and orders, taking into account all factors, including availability of surface water or alternative water supplies, economic impact on persons and the community, degree and effect of subsidence on the surface of land, and differing topographical and geophysical characteristics of land areas in the district.

(b) The board may issue permits to drill new wells and may, by rule, provide exemptions from the permit requirements. SECTION 9. Subsection (c), Section 8801.158, Special District Local Laws Code, is amended to read as follows:

(c) The board shall issue a permit to an applicant if, on presentation of adequate proof, the board finds that:

1. there is no other adequate and available substitute or supplemental source of alternative [surface] water supplies at prices competitive with the prices charged by suppliers of alternative [surface] water supplies in the district; and
2. compliance with any provision of this chapter or any district rule will result in an arbitrary taking of property or in the practical closing and elimination of a lawful business, occupation, or activity without sufficient corresponding benefit or advantage to the public.

SECTION 10. Subsection (b-1), Section 8801.161, Special District Local Laws Code, is amended to read as follows:

(b-1) The fee under Subsection (a) may not exceed 110 percent of the highest rate that the City of Houston charges for [surface] water supplied to its customers in the district.
