(b) The validity of an action taken at a board meeting is not affected by:

(1) [Neither] failure to provide notice of the meeting if the meeting is a regular meeting;

(c) The ballots for a confirmation election shall be printed to provide for voting “For District” and “Against District.” Ballots for a directors election shall provide the names of the persons appointed by the governing body who qualified and are serving as temporary directors at the time the election is called. If the district has received an application by a write-in candidate, the ballots shall also have blank places after the names of the temporary directors in which a voter may write the names of any candidates appearing on the list of write-in candidates required by Section 146.031, Election Code [other persons for directors].

(h) Unless otherwise agreed, the elected directors shall decide the initial terms of office by lot, with a simple majority of the elected directors serving until the second succeeding directors election and the remaining elected directors serving until the next directors election.

(1) has 10 or fewer registered voters; and

(2) holds an election jointly with a county in which the district is wholly or partly located.

(b) A district may provide for an inquiry into and certification of the voting results of an election under this section if:

(1) the election results indicate that the number of votes cast in the election was greater than the number of registered voters in the district;

(2) the board determines that the election results are likely to be disputed in court; and

(3) the board can determine from the official list of registered voters prepared by the county voter registrar or county elections administrator for the district election which voters were qualified to vote in the district election and can determine from the signature roster from the joint election who voted in the joint election.
(c) To certify the district votes, the board by rule shall adopt a procedure to determine for each person who signed the signature roster as a voter in the joint election:

(1) whether the person's address on the day of the election was in the district; and
(2) how the person voted in the district election.

(d) The certified votes are the official election results.

(e) Certification of the results under this section does not preclude the filing of an election contest.

SECTION 9. Subsections (c) and (d), Section 49.105, Water Code, are amended to read as follows:

(c) If the number of directors is reduced to fewer than a majority or if a vacancy continues beyond the 90th day after the date the vacancy occurs, the vacancy or vacancies may be filled by appointment by the commission if the district is required by Section 49.181 to obtain commission approval of its bonds or by the county commissioners court if the district was created by the county commissioners court, regardless of whether a petition has been presented to the board under Subsection (b). An appointed director shall serve for the unexpired term of the director he or she is replacing.

(d) In the event of a failure to elect one or more members of the board of a district resulting from the absence of, or failure to vote by, the qualified voters in an election held by the district, the current members of the board or temporary board holding the positions not filled at such election shall be deemed to have been elected and shall serve an additional term of office, or, in the case of a temporary board member deemed elected under this subsection, the initial term of office.

SECTION 10. Section 49.108, Water Code, is amended by adding Subsections (g), (h), and (i) to read as follows:

(g) On or before the first day for early voting by personal appearance at an election held to authorize a contract, a substantially final form of the contract must be filed in the office of the district and must be open to inspection by the public. The contract is not required to be attached as an exhibit to the order calling the election to authorize the contract.

(h) A single contract may contain multiple purposes or provisions for multiple facilities authorized by one or more constitutional provisions. The contract may generally describe the facilities to be acquired or financed by the district without reference to specific constitutional provisions. A contract described by this subsection may be submitted for approval in a single proposition at an election.

(i) A contract between districts to provide facilities or services is not required to specify the maximum amount of bonds or expenditures authorized under the contract if:

(1) the contract provides that the service area cannot be enlarged without the consent of at least two-thirds of the boards of directors of the districts that are:
(A) included in the service area as proposed to be enlarged; or
(B) served by the facilities or services provided in the contract;
(2) the contract provides that bonds or expenditures, payable wholly or partly from contract taxes, are issued or made:

2. the most recently scheduled district directors' election was not held, as provided by Section 2.053(b), Election Code; or

A district may covenant with the purchasers of the bond anticipation notes that the district will use the proceeds of sale of any bonds in the process of issuance for the purpose of refunding the bond anticipation notes, in which case the board will be required to use the proceeds received from sale of the bonds in the process of issuance to pay principal, interest, or redemption price on the bond anticipation notes.

SECTION 14. Subsection (a), Section 49.181, Water Code, is amended to read as follows:

(b) A district is not required to prorate the costs of a site described by Subsection (a) between the primary water, sewer, or drainage purpose and any secondary recreational facilities purpose if a licensed professional engineer certifies that the site is reasonably sized for the intended water, sewer, or drainage purpose.

(c) The engineer may consider the following factors in determining the reasonableness of the size of a water, sewer, or drainage site:

(1) the rules, regulations, and design guidelines or criteria of a municipality, county, or other entity exercising jurisdiction;

(2) sound engineering principles;

(3) the impact on adjoining property;

(4) the availability of sites that meet the requirements for the proposed use;

(a) A district all or part of which is located in Bastrop County, Bexar County, Waller County, Travis County, Williamson County, Harris County, Galveston County, Brazoria County, Montgomery County, or Fort Bend County may issue bonds supported by ad valorem taxes to pay for the development and maintenance of recreational facilities only if the bonds are authorized by a majority vote of the voters of the district voting in an election held for that purpose. The outstanding principal amount of bonds, notes, and other obligations issued to finance parks and recreational facilities supported by ad valorem taxes payable from any source may not exceed an amount equal to one percent of the value of the taxable property in the district or, if supported by contract taxes under Section 49.108, may not exceed an amount equal to one percent of the value of the taxable property in the districts making payments under the contract as shown by the tax rolls of the central appraisal district at the time of the issuance of the bonds, notes, and other obligations or an amount greater than the estimated cost provided in the park plan under Subsection (b), whichever is smaller. To establish the value of the taxable property in a district under this section, the district may use an estimate of the value provided by the central appraisal district. The district may not issue bonds supported by ad valorem taxes to pay for the development and maintenance of:

(1) indoor or outdoor swimming pools; or

(2) golf courses.

(b) On or before the 10th day before the first day for early voting by personal appearance at [Not later than the 10th day before] an election [is] held to authorize the issuance of bonds for the development and maintenance of recreational facilities, the board shall file in the district office for review by the public a park plan covering the land, improvements, facilities, and equipment to be purchased or constructed and their estimated cost, together with maps, plats, drawings, and data fully showing and explaining the park plan. The park plan is not part of the proposition to be voted on, [and the park plan] does not create a contract with the voters, and may be amended at any time after the election held to authorize the issuance of bonds for the development and maintenance of recreational facilities provided under the plan. The estimated cost stated in the amended park plan may not exceed the amount of bonds authorized at that election.

(2) either the estimated costs of providing district facilities and services to such included lands is equal to or less than the estimated costs of providing district facilities and services to the excluded lands or any increased estimated costs of providing district facilities and services to the included land, as determined by the district's engineer, can be amortized at prevailing bond interest rates and maturity schedules and the prevailing debt service tax rate of the district, as determined by the district's professional financial advisor, when applied to the increase in taxable value of the included land over the taxable value of the excluded land.

(b) If the district has any [and (3) the district's] outstanding bonds or contract obligations [are] payable in whole or in part by a pledge of net revenues from the ownership or operation of the district's facilities at the time the board considers an application, the lands proposed for inclusion shall be deemed to be sufficient to avoid an impairment of the security for payment of obligations of the district if [and] the projected net revenues to be derived from the lands to be included during the succeeding 12-month period, as determined by the district's engineer, equals or exceeds the projected net revenues that would otherwise have been derived from the lands to be excluded during the same period.
