### **DIGEST**

Currently, the Texas Department of Transportation (department) produces over 50 specially designed licensed plates. Such license plates have traditionally been seen as a fund-raising tool for charitable organizations, colleges, and universities. However, most specialty license plates have not covered the cost to the department for the production of the plates. H.B. 2461 would require the discontinuation of certain license plates if they do not meet the minimum sales figures, or unless a \$15,000 deposit is made to the department.

### **PURPOSE**

As proposed, H.B. 2461 regulates the issuance of certain specially designed licensed plates by the Texas Department of Transportation.

### **RULEMAKING AUTHORITY**

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
