DIGEST

H.B. 3061 attempts to streamline the issuance of various permits authorizing the operation of oversize and overweight vehicles and loads by exempting governmental entities from payment of fees for all size and weight permits; removing the requirement for a windshield sticker for weight tolerance permits; and removing the requirement that applications for certain permits be dated and signed by the applicant.

PURPOSE

As proposed, H.B. 3061 establishes conditions regarding the issuance of permits for the operation of certain vehicles that exceed maximum size or weight limitations.
