DIGEST

Currently, Texas law requires a licensed athletic trainer to provide care under the advice and consent of a team physician; however, in certain rural high school settings, a physician may not be available. Therefore, providing treatment to those athletes does not conform to current statutory requirements. S.B. 1233 will permit a licensed physician or qualified licensed health professional who is authorized to refer for health care services, within the scope of the person's license to provide the required direction, and will permit licensed athletic trainers to treat persons who participate in an organized sport, recreational sport, or sports-related activity.

PURPOSE

As enrolled, S.B. 1233 updates the Athletic Trainer Act to provide treatment for athletes in certain high school settings, and individuals participating in an organized sport or sport-related exercise or activity.

RULEMAKING AUTHORITY

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
