H.B. 2344
By: Luna (West, Royce)

Committee Report (Amended)

AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

The Texas Council on Cardiovascular Disease and Stroke (council) was created in 1999 and primarily charged with creating a state plan to reduce the burden of cardiovascular disease and stroke. The council lacks many of the resources provided to other chronic illness councils and has had some trouble effectively carrying out its duties. H.B. 2344 brings the council up to standard with other chronic disease councils, such as the Texas Diabetes Council, the Texas Cancer Council, and the Texas Council on Alzheimer's and Related Disorders. Changes are made to provide for the appointment of council members by the governor, rather than the executive commissioner of the Health and Human Services Commission. H.B. 2344 provides for a restriction on council appointments and the removal of members.

A fund is established to allow the council to accept gifts, grants, and donations. H.B. 2344 adds secondary prevention and women's health education to the council's list of duties and allows the council to advise the legislature on cardiovascular disease and stroke legislation, develop legislation, and comment on pending legislation.
