C.S.H.B. 216

Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Current state law does not regulate the operation of group homes for residents who are not related to the provider and that are provided by individuals or business concerns for adult persons who are disabled by reason of mental health or mental retardation or are elderly and who are in need of quality, safe, supervised housing.

At present, state statutes only require the licensing, inspection and regulation of such facilities where there is clear evidence of providing varying degrees of medical services, prescription administration, treatment or therapeutic services for example. There are no restrictions or regulation on the size, management, or overall operation of these facilities, which are typically funded from the personal assignment of the affected resident's disability stipend (usually Social Security SSI/SSDI) to the facility provider.

Without regulation, many boarding houses have become unsafe and unsanitary, left residents in isolated environments, left residents to lose control over their finances so they would lose their ability to relocate if needed, and left residents with inadequate medical care or mental health care services.

The 80th Legislature passed H.B. 1168, which required the Health and Human Services Commission (HHSC) to study the issue of boarding houses. This study was completed in January 2009.

C.S.H.B. 216 relates to the regulation of certain boarding houses and assisted living facilities and provides penalties.

SECTION 11. Provides that this Act does not make an appropriation. Provides that a provision in this Act that creates a new governmental program, creates a new entitlement, or imposes a new duty on a governmental entity is not mandatory during a fiscal period for which the legislature has not made a specific appropriation to implement the provision.

SECTION 12. Effective date, except as provided by Subsection (b) of this section: September 1, 2009.
