AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Automobile dealers are currently required to use cardboard products for temporary vehicle tags. Allowing new products to be introduced into the industry will relieve the Texas Department of Transportation (TxDOT) from having to identify and be strapped with writing rules around the definition of cardboard. Extending the temporary buyer's vehicle tag and eliminating the "blue" supplemental tag will make it easier for law enforcement to identify counterfeit vehicle tags.

S.B. 1235 amends current law relating to the sale and use of unregistered vehicles, including the issuance and use of temporary tags on vehicles.

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
