AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Under current law, certain sex offenders in Texas are required to register with the chief of police in the municipality where the offender is living, or with the sheriff of the county where the offender is living. In large counties that contain many different municipalities, information on these offenders is spread across many small offices within the county. Sex offender numbers are increasing every year, and these small agencies lack the resources to track and assess treatment of sex offenders within these large counties.

This bill allows a county commissioners court in a county with a population over 100,000 to create a centralized registration authority where all registered sex offenders would be required to register. This allows a county to have information on all sex offenders registered within that county at a single location.

As proposed, S.B. 2048 relates to the establishment of a centralized sex offender registration authority in certain counties in this state.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
