AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, individuals operating a watercraft who refuse to submit to a breath or blood alcohol test are subject to an administrative license revocation, which results in a driver's license suspension. However, if the person operating the watercraft submits to a breath or blood alcohol test which results in a blood alcohol content level of .08 or greater, current statute does not provide for an administrative license revocation. Furthermore, the offense of operating a watercraft under the influence of alcohol does not apply to minors. Current statute provides for stricter driver's license penalties for minors who commit the offense of driving under the influence, but it does not clearly state that stricter suspension penalties should still apply to the offender if they reach the age of 21 or over while awaiting trial. Consequently, many offenders are able to postpone trial until the age of 21, then receive the less harsh suspension penalty associated with the offense of driving while intoxicated.

As proposed, S.B. 328 amends Chapter 524 (Administrative Suspension of Driver's License for Failure to Pass Test for Intoxication), Transportation Code, to include a driver's license suspension for individuals who fail a breath or blood alcohol test while operating a watercraft and by clearly defining the suspension period for an individual who was under the age of 21 at the time the offense of boating under the influence or driving under the influence of alcohol occurred. The bill amends Section 106.041 (Driving Under the Influence of Alcohol by Minor), Alcoholic Beverage Code, to create the offense of boating while a minor is under the influence of alcohol by a minor.
