AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

This bill contains a portion of S.B. 23, 80th Legislature, Regular Session, 2007, relating to the creation of an office within the Texas Department of Insurance (TDI) to assist in educating the public about health insurance options, which died on the House calendar at the end of the last regular session.

Currently, consumers and TDI have no way of identifying which agents are selling small employer health coverage, or which agents are knowledgeable enough to advise consumers about such coverage. Agents who do not clearly understand the unique requirements of the small employer market may give bad advice, or even illegal advice or information, to employers. Many employers have complained to TDI that they cannot find an agent and have asked for a list of agents in their area who will work with small business owners. With the complexity and high costs in the small employer health care market, small business owners need help connecting with agents knowledgeable in this area.

S.B. 79 creates an optional specialty certification for insurance agents who market small employer health benefit plans.

RULEMAKING AUTHORITY
