### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

The Second Amendment to the United States Constitution guarantees the right of American citizens to keep and bear arms. Interested parties contend that the most important aspect of this amendment is that the federal government may not seize a citizen's firearm without cause; however, the federal government has recently considered enacting measures that challenge this protection based on questionable constitutional grounds.

C.S.H.B. 1314 amends current law relating to the unlawful seizure of a firearm by a governmental officer or employee, and provides penalties.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
