AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

As part of its dissolution activities, the Lower Nueces Water Supply District (district) was supposed to transfer its assets to the City of Corpus Christi (city) by August 1, 1986. Documentation of the district formally conveying the assets to the city has not been located. Recording of those real property asset transfers was completed, although not recorded at the county courthouse in Atascosa, San Patricio, Live Oak and Jim Wells counties for approximately 25 years due to records being inadvertently misplaced.

Once discovered, the city properly recorded those transactions in the respective counties:

- Nueces County on September 26, 2011, as Document 2011034981 filed in the property records of Nueces County;
- Atascosa County on September 30, 2011, as recording number 125295 filed in the property records of Atascosa County;
- Jim Wells County on September 27, 2011, as recording number 413632 filed in the property records of Jim Wells County;
- Live Oak County on September 27, 2011, as recording number 195798 filed in the property records of Live Oak County; and
- San Patricio County on September 27, 2011, as recording number 611795 filed in the property records of San Patricio County.

To avoid any potential adverse possession claims against the city, a validation act is needed to perfect the land transfers from the now-dissolved district to the city. Passing a validation act confirming the city's ownership of the original land as transferred by the district by August 1, 1986, will prevent any future claims of ownership by other parties. It will save the future city legal expenses, by cutting off invalid land ownership claims.

As proposed, S.B. 1423 amends current law relating to validating certain acts of the Lower Nueces River Water Supply District transferring real property rights.

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
