### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Interested parties note that demand for the storage of precious metals is high and includes public institutions, private businesses, and individual investors alike, but there are concerns that precious metals owned by the state are currently stored in other states. These parties assert that a state depository would remove much of the uncertainty and safety concerns associated with the storage of precious metals elsewhere by providing dedicated storage of precious metal holdings for state agencies and investment organizations. Interested parties contend that establishment of a Texas bullion depository would allow the state, state agencies, and private individuals to store precious metals utilizing a secure Texas-based depository to reduce reliance on out-of-state facilities and to insulate their assets from unstable market forces. H.B. 483 seeks to establish a Texas bullion depository.

H.B. 483 amends current law relating to the establishment and administration of a state bullion depository and authorizes fees.

### **RULEMAKING AUTHORITY**

Rulemaking authority is expressly granted to the comptroller of public accounts of the State of Texas in SECTION 1 (Sections 2116.005, 2116.006, 2116.010, 2116.024, 2116.025, and 2116.052, Government Code) of this bill.
