AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

It is important that water supply construction projects are consistent with the State Water Plan and are subject to water loss audits. However, certain financial assistance programs do not fund water supply projects and therefore projects funded by those programs should not be required to be consistent with the State Water Plan or be subject to a water loss audit.

Current law requires projects funded by Subchapters D, F, J, and O, Chapter 15, Water Code, be consistent with the State Water Plan and conduct a water loss audit.

This legislation removes State Water Plan consistency and water loss audit requirements from certain financial assistance programs that do not fund water supply construction projects.

As proposed, S.B. 1337 amends current law relating to the authority of the Texas Water Development Board to provide financial assistance to political subdivisions for water supply projects.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

SECTION BY SECTION ANALYSIS

SECTION 1. Amends Section 16.053(j), Water Code, to delete a reference to Subchapters D (Water Bond Insurance Program), F (Research and Planning Program), J (Financial Assistance for Water Pollution Control), and O (Program for Water and Wastewater Financial Assistance for Disadvantaged Rural Communities), Chapter 15 (Texas Water Assistance Program), and makes no further change to this section.

SECTION 2. Effective date: upon passage or September 1, 2015.
