### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Currently, Section 39.4525 of the Public Utility Regulatory Act (PURA) authorizes the Public Utility Commission of Texas (PUC) to use outside consultants, auditors, engineers, or attorneys to represent PUC in a “a proceeding before the Federal Energy Regulatory Commission” (FERC) for matters relating to Energy Texas. This authorization was specifically designed to address the “Entergy ITC” case that has been adjudicated before FERC starting in 2012. In this case PUC, representing rate payers in the non-ERCOT (Electric Reliability Council of Texas) areas of Texas and the public interest, petitioned FERC as an affected party in that case.

The authorizing provision, which includes a \$1.5 million expenditure limit, is set to expire in 2017. Currently, PUC is a party to 21 separate FERC proceedings related to Energy Texas, and anticipates that these proceedings and subsequent appellate actions will continue well beyond its current expiration date.

S.B. 932 extends and enhances PUC's ability to retain counsel at FERC.

S.B. 932 amends current law relating to the authority of the Public Utility Commission of Texas to retain assistance for federal proceedings affecting certain electric utilities and consumers.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
