This bill would add Section 411.1297, Government Code, to allow 9-1-1 emergency communication districts to obtain from the Texas Department of Public Safety (DPS) relevant criminal history record information

This bill would add Section 411.1297, Government Code, to allow 9-1-1 emergency communication districts to obtain from DPS relevant criminal history record information for: (1) an employee of the emergency communication district, (2) an applicant for employment by or an employee of a business or person that contracts with the emergency communication district, (3) a volunteer with the emergency communication district, or (4) an applicant for a volunteer position with the emergency communication district. The bill also includes specific language stating that the criminal history record information may not be released or disclosed to any person except in a criminal proceeding, on court order, or with the consent of the person who is the subject of the criminal history record information.
