### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

H.B. 1842 (84R) created a district of innovation designation, which allows school districts to exempt themselves from certain statutory requirements. One provision from which districts of innovation may exempt themselves is the prohibition from beginning instruction for a school year prior to the fourth Monday in August.

Since the passage of H.B. 1842 last session, and the subsequent creation of districts of innovation, questions have been raised over whether simply moving a school district's start date earlier is truly innovative. However, there are school districts that obviously see a need for an earlier start date as evidenced by their choice to seek the exemption.

S.B. 2052 changes the current prohibition for starting instruction for a school year from the fourth Monday in August to the third Monday in August.

In addition, S.B. 2052 removes the exemption from the first day of instruction requirement from the list of allowable exemptions for districts of innovation created or renewed after the effective date of the legislation.

As proposed, S.B. 2052 amends current law relating to the first day of the school year for public schools.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
