AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

There is currently no law requiring the posting of the National Human Trafficking Hotline number and human trafficking awareness information in publicly conspicuous zones of transportation hubs. Human trafficking is an increasingly prevalent issue in Texas. Human trafficking depends on transportation to operate, especially in a state as expansive as Texas. Often human traffickers utilize public transportation, trains, buses, taxis, and rental or personal vehicles to transport victims around or outside of the state. These transportation hubs are key locations for victims to find a means of escape, or for outside observers to report suspicious activity. It is essential to provide information about the indicators of human trafficking as well as the National Human Trafficking Hotline in order to increase awareness of the public in the event that one may come in contact with a potential human trafficking situation at a transit hub. S.B. 1219 will require transportation hubs to post information on the indicators of human trafficking as well as the National Human Trafficking Hotline number in publicly conspicuous zones. These transportation hubs include but may not be limited to buses, bus stops, rest stops, airports, trains, and train stations. (Original Author's/Sponsor's Statement of Intent)

S.B. 1219 amends current law relating to human trafficking signs at certain transportation hubs.
