Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Chapter 303, Local Government Code (Public Facilities Corporation Act), authorizes a variety of local governments to sponsor and create a public facility corporation (PFC) for the purpose of providing public facilities and financing such facilities on behalf of the local government sponsor. The PFC Act was adopted in the 1990s and over the years has been used by sponsors such as school districts to lease purchase school buildings. Other authorized sponsors include cities, counties, housing authorities, and special districts (conservation and reclamation districts, river authorities, navigation districts, water districts, hospital districts, and junior college districts).

Under current law, a local government sponsor may create and sponsor more than one PFC, but it is not expressly authorized to create a PFC jointly with another local government. Allowing a PFC to be created jointly by more than one local government would promote such collaboration and result in greater efficiencies and cost savings.

C.S.S.B. 1689 allows such joint sponsorships to provide and finance public facilities. No additional local governments would be permitted to create PFCs. No additional powers would be given to PFCs. Financing through a PFC does not bypass any regulatory controls, including approval of PFC bonds by the Texas Attorney General and public facilities by other state agencies, as may be required.

C.S.S.B. 1689 amends current law relating to the creation and use of public facilities corporations.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
