### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Authorizing statutes for health-related and general academic institutions are structured differently when it comes to suits against the institution. Statutes for some institutions do not have language addressing such suits or designating their venue. Other statutes discuss suits and their venue but state clearly that immunity to suit or liability is not waived. The University of Texas at Tyler appears to be the only public institution of higher education with authorizing language that explicitly includes legislative consent to suit against the school. This language weakening the sovereign immunity of UT Tyler as a state entity places the university on an unequal footing relative to other general academic institutions. S.B. 440 corrects this anomaly by removing language from Section 76.04, Education Code granting legislative consent to suits against the school, thereby preserving the sovereign immunity protections for UT Tyler extended to other public institutions of higher education in Texas. (Original Author's/Sponsor's Statement of Intent)

S.B. 440 amends current law relating to a suit against The University of Texas at Tyler.
