AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In Texas, the governing body of each school district and open-enrollment charter school with students who participate in an interscholastic athletic activity must appoint or approve a concussion oversight team. Each concussion oversight team establishes a return-to-play protocol, based on peer-reviewed scientific evidence, for a student's return to interscholastic athletics practice or competition following a force or impact believed to have caused a concussion. These teams include certain health care professionals who have training in the evaluation, treatment, and oversight of concussions, and allowing additional health care professionals to serve as members of a concussion oversight team would benefit the team, the school, and the students.

H.B. 1002 provides for the inclusion of a licensed chiropractor or physical therapist on a concussion oversight team and expands the list of persons with authority to remove a student from practice or competition following a concussion.

H.B. 1002 amends current law relating to the membership of a public school concussion oversight team and the removal of a public school student from an interscholastic athletic activity on the basis of a suspected concussion.

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
